1. Please describe the major feature of this project.

   This project is installing the new A.D.A. sidewalk ramps at the alley entrance on the north side of Waveland west of Halsted. This work is needed to complete the lighting project J07-035.A. This was originally part of J07-035.B but was not put into proposal.

2. Please explain why this project could not be bid using the city’s traditional process and the need to use the JOA procurement system.

   The Bureau of Electricity had planned to do this project with City Forces, but due to our work load, we can’t do it in a timely manner. The Bureau of Electricity can’t use the traditional bid process because of the time frame involved. The Bureau of Electricity established JOA to help us manage these situations when they occur.

3. If this project is one trade project please provide additional explanation of why it would be in the City’s best interest to do the project under JOA.

   Multiple trades involved.

4. If the proposed project is less than $200,000 the amount of non pre-priced work must be less than 25%. If the proposed project is valued at $200,000 or more the amount of non pre-priced work must not exceed 15%. Please explain if it is anticipated if these limits will be exceeded.

   N/A.

5. If some elements of the proposed JOA project scope of work are covered by City term agreements, these elements should be removed from the JOA project scope of work. If it is not desirable to do so, please explain.
