Utilizing JOC For City Construction Projects

Fleet Garage & S&S South Central Div. Office
2300 W. 52nd St.

Project No: WIC-08-009.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Furnish and install filtered exhaust extraction systems in fleet facilities at 52nd street and 101st street.

FLEET EXHAUST EXTRACTORS

The Proposed system is a sourced capture system which means we are taking all of the harmful chemicals emitted by the vehicles, filtering and exhausting into the atmosphere. The majority of fleet vehicles run on diesel fuel. Therefore, the following will be instituted.

1. Capture emissions at the point of original generation by extending an exhaust hose that will attach to the tail pipe of the vehicle.
2. Provide each vehicle with its own hose connection to one of the several service ports.
3. Filter all exhaust air before it is released into the environment.
4. Provide and install a completed duct work package.
5. Provide and install all electrical controls.
6. Provide and install all electrical connection.
7. Provide final start-up.
8. Provide all testing of the system after the installation.
9. Provide all necessary customer training.
10. The exhaust will exist thru the walls or roof and are to be part of this work package. All work to be coordinated with DGS and the Fleet Management for exact locations.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

The indoor air quality at these facilities is extremely poor. The City has received numerous complaints regarding the air quality and the potential safety hazard. In order to improve the indoor air quality in the timeliest manner, we request the project be procured through the DGS Job Order Contracting program. Using JOC will allow DGS to complete the project in the most expeditious manner.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

Multiple trades.

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

N/A

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
