Utilizing JOC For City Construction Projects

Project Number: 07-84-7-055.B  Department: TRANSPORTATION
Project Manager: Alsharbini Omar  Telephone #: (312) 744-4685

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. **Please describe the major features of this project.**
   LaSalle Drive viaduct under Lake Shore Drive requires urgent structural repairs. The scope of work increased due to additional repairs to the main girders, which includes removal of unsound concrete, replacing deteriorated reinforcement steel and concrete repairs to the main girders. This additional work was not covered in the original scope and could not be anticipated at the beginning of the project.

2. **Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.**
   The ongoing emergency repairs require specialized personnel and equipment. This work can not be performed by City Forces and is not covered by an existing term agreement. It would not be time or cost effective for us to perform the work through the City's traditional bid process.

3. **If the project is a one trade project, please provide additional explanation of why it would be in the city’s best interest to do the project under JOC:**
   Not applicable - various trades will participate

4. **If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**
   N.A.

5. **If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
