Subject: Job Order Contract - Department of Water Management  
Project Description: South Water Purification Plant Security Initiatives  
Project No.: M-07-013 A-3  
Contract No.: 9110  
Spec. No.: 26937  
Estimated Cost: $4,400,000.00  
Funding No.: 007-0228-0882020-0550-220550-W706-05205070

Dear Mr. Gayles:

The Department of Water Management is requesting that the Contractor install an integrated access control, CCTV and Infrared / Microwave Invisible Fencing System. The major components of the overall system are detailed on a set of drawings distributed to the Contractor. The Scope of Work and the Sequence of Operations is detailed in the design drawings. The Contractor is responsible for installing and providing the scope of work as detailed on the design drawings provided by the design consultant.

Estimated duration of this Project is (240) two hundred forty Days.

Enclosed is the preliminary estimate of cost for the work involved and a project description. Funding for this work is in place.

If you concur with this request, please notify this office as soon as possible and forward a copy of the approved memorandum of authorization. For any further information concerning this matter, contact Richard Patrick, Bureau of Engineering Services at 744-5067.

Yours Truly,

JOC Approval Letter

Utilizing JOC For City Construction Projects

Project No: M-07-013-A-3
South Water Purification Plant Security Initiatives

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

   Major features of this project include but are not limited to, the installation of a microwave/ infrared invisible fencing system and the installation of a Vicon Viconnet Digital Video Management and Recording System.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

   The Dept of Water Management (DWM) is requesting to use the JOC procurement system to complete the highly sensitive security enhancements at the South Water Purification Plant (SWPP). DWM’s in-house forces are not able to perform this type of work. Furthermore, there are no existing term agreements for this Scope of Work. DWM is requesting to utilize JOC in lieu of the traditional bid process for security reasons. If this project were to be procured through the traditional bid process, the integrity of DWM’s security system would be compromised as the security design would be available to the general public. By using JOC, the security design would not be available to the public and DWM can control how many drawings are produced and to whom they are dispersed. DWM utilized the JOC procurement system for a previous project that was similar in both Scope and size. The Security Initiative project for the Jardine Water Purification Plant (JOC #: M-06-007-A) was released in November 2006 for $4,798,733. The project achieved an MBE participation rate of 25% as well as a WBE participation rate of 5%.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city’s best interest to do the project under JOC.

   N/A.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

   N/A.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.

   N/A.
