Utilizing JOC For City Construction Projects

Project Number: 06-84-7-033.A  Department: Transportation- Project Dev
Project Manager: Dave Leopold  Telephone #: (312) 742-4772

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   At Alderman Mell’s request, the existing Albany Park Community Identifiers/Lightpole Banners will be extended on Lawrence Ave. in a second Phase between Kedzie Ave. and the Chicago River. The project will consist of fabricating decorative panels and metal brackets for installation on existing Gateway 2000 light poles. CDOT would like to request FH Paschen to continue Phase II of this project work due to their experience with the highly unique banner fabrication methods from Phase I, as well as unique pedestrian/traffic control required by the community for installation.

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.
   JOC has been selected because of the small dollar amount of the project (only 6 additional banners are estimated for Phase II) as well as the speed required to fabricate and install the banners in the remaining 2008 construction season.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city’s best interest to do the project under JOC:
   N/A, Various trades will participate

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.
   N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.
   This project involves custom fabrication of identifier panels, and a term contract is currently not available for this work. Because of the unique fabrication, JOC was selected.
