Payment on this order will be made upon receipt of an original vendor invoice form referencing this order.
Submit the original invoice to the department referenced above.
Mark all packages and papers with the purchase number.
Any deliveries containing overshipments will be reflected unless otherwise authorized in this purchase.
This purchase is subject to the City of Chicago General Conditions for Supplies, Work, or Professional Consulting Services; Special Conditions, Disclosure Ownership, Acceptance Page, as applicable, which are attached hereto or incorporated herein by reference.
Disclosure of Retained Parties

A. Definitions and Disclosure Requirements
1. As used herein, the term "Contractor" means a person or entity who has any contract lease with the City of Chicago.
2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons with whom the contractor has retained or expects to retain with respect to the contract or lease. In particular, the contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.
3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.
4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part or whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Contractor hereby certifies as follows:
1. This Disclosure relates to the following transaction:
   Project name: JH-6051 Fire Protection Watermain Phase 2
   Specification/loan or other identifying number: 5780716609
2. Name of Contractor: F.H. Paschen, SN Nielsen & Assoc. LLC.
3. EACH AND EVERY attorney, lobbyist, accountant, consultant, subcontractor, or other person retained or anticipated to be retained by the Contractor with respect to or in connection with the contract or lease is listed below (attach additional pages if necessary).

CHECK HERE IF NO SUCH PERSONS HAVE BEEN RETAINED OR ARE ANTICIPATED TO BE RETAINED

4. The Contractor understands and agrees that the city may rely on the information provided herein and that providing any false incomplete or inaccurate information shall constitute default under the contract and may result in termination of the contract or lease.
5. The Contractor understands and agrees that in any case in which the Contractor is uncertain whether a disclosure is required under the Executive order, the Contractor must either ask the city whether disclosure is required or make the disclosure.

Under the Penalties of perjury, I certify that I am authorized to execute this Disclosure on behalf of the Contractor that the information disclosed herein is true and complete, and that no relevant information has been withheld.

Reason why the MOA differs from the Sub Order

Project No: JH-6051
Second Leg of GA Fuel Farm Water Main System

1. The Sub Order amount differs from the MOA estimate for the following reasons:

   The scope of work has changed from the original estimates. The original estimate was based on 60% drawings. Pipe and valve sizes has changed along with the rising cost of materials, most notably steel prices, the total cost of the job has increased over the last 4 months.
Memorandum of Authorization (MOA)

May 6, 2008

Mr. Montel Gayles  
Chief Procurement Officer  
Department of Procurement Services  
City Hall, Room 403  
121 North LaSalle Street  
Chicago, IL 60602

Attn: Carolyn Johnson  
JOC Manager

Re: JOC Project Number: JH-6051

Project Title: Second Leg of GA Fuel Farm  
Fire Suppression Water Main

Estimated Cost: $500,000.00

Specification Number: 57807-16609 (FHP)

Funding Source: 1986 0 751 85 4974 9074

Dear Mr. Gayles:

I request that the above referenced project be contracted under the Job Order Contracting (JOC) Method. The JOC Order Contract Request Form attached describes the scope of work and the appropriateness for using JOC for this project.

Sincerely,

Richard L. Rodriguez  
Acting Commissioner

APPROVED: Montel Gayles  
Chief Procurement Officer

*MBE GOALS AND NBE GOALS MUST BE MET FOR THE ADJUSTED VALUE OF THIS MULTI-PHASE PROJECT*
Department of Aviation  
Attachment A  
Utilizing JOC for City Construction Projects

Project Number: JH-6051

Project Manager: Larry Pianto 773-894-5404  
Department: Aviation

For all Proposed JOC projects please complete items 1 and 2 below as appropriate, complete items 3, 4, and 5. Attach this document to the Memorandum of Authorization.

1. Please describe below the major features of the project:
   • Install second leg of new 18” ductile iron pipe water main line from the fuel farm fire suppression system south to new pump station location.
   • Perform all necessary restoration to disturbed areas including all concrete, asphalt and landscape areas with all necessary compaction and subsurface preparation.

2. Please explain below why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system: This is the second leg of the system. On May 25, 2007 an open hydrant test with an ARFF vehicle pulling water from the hydrant at the fuel tank farm only yielded 800 gpm of sustained flow. Per conversations with ARFF personnel, an ARFF vehicle is designed to have a flow of 2,200 gpm provided to it when it is operating. As a rule of thumb, a hydrant should be able to supply a minimum of 1,500 gpm of water. Therefore, the flow at the hydrant would not be sufficient for operating an ARFF vehicle or even meet the basic rule of thumb for fire hydrant flow. There will be minimal need for design work. This project is time sensitive in such as, should a fire occur there will not be sufficient flow to properly fight the fire. Using the JOC contract will be the most time effective method of procuring the work.

3. If the project is a one trade project, please provide additional explanation below of why it would be in the best interest of the City of Chicago to JOC for this project: The project is multi-traded and therefore term agreements do not apply. The scope of work would involve carpenters, operating engineers, masons, sewer and water contractors and laborers.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provided an explanation below of why JOC should be used: Less than 25% of the project will consist of Non-prepriced items.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain below why they are included in this JOC project instead of being procured through the term: The work involves multiple trades and is therefore outside the normal work parameters of the term agreements.
To: Division of Design and Construction
Fr: Division of Facilities
RE: Request for Authorization to Use JOC

Date: April 9, 2008

Project: Second Leg of GA Fuel Farm Fire Suppression System

Contact Name and Phone Number: Larry Pianto 773-894-5404

Project Scope of Work:
Supply and install second leg of new 18" water main for fire protection service for the GA fuel farm and building 500. This is to include all necessary hydrants, valves, RPZ's and appurtenances as needed. This is to also include all excavation and restoration of disturbed areas, all testing and chlorination of new system, sub-grade compaction, asphalt and concrete repair and fencing.

Project History:
This is a continuation of the GA Fuel Farm Fire Protection Water Main Project.

Please note the project is composed of 3 separate sections. Each section will be procured as a separate PC order.

Also note there is the possibility for a 4th section in order to complete this project.

Procurement Options:

This is a JOC Project because:

1) It is outside the scope of the in-house forces.
2) The project is multi-traded and therefore term agreements do not apply.
3) The project is time sensitive – using the JOC Program is the most time efficient way to procure the work.
4) The scope of the project is covered by the Construction Task Catalog®.

Budget Estimate: $ 500,000.00

See Attached Back-up for Budget Estimate:
