Dear Ms. Rhee:

We request that the above referenced project be contracted under the Job Order Contracting (JOC) Method. Attachment A describes the scope of work and the appropriateness for using JOC for this project.

Please direct all technical inquiries to Project Manager Dick Smith at (312) 744-3843 and all other inquiries to Mary Capecci at 744-6748.

If you concur with our recommendation, please sign below and return a copy for our files.

Sincerely,

1. Please describe the major features of this project.

   Change of pre-filters for all exhaust extraction system filter boxes in fleet facilities and garages.

   Furnish and install manufacturer recommended pre-filters for all recently installed exhaust extraction system filter boxes in all fleet facilities and garages.

   Properly remove and dispose of used filter in an off site location.

   Complete records of work are to be kept and submitted upon completion. These records will consist of facility, date of filter change and condition of unit and condition of HEPA filters.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

   1) DGS is pursuing a term contract for this annual maintenance service. 2) DGS has no in-house capabilities to change filters. 3) Fleet facilities are located in residential areas and if filters are not changed regularly they pose a health hazard to residents and employees.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

   N/A

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

   N/A

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
