Rose Pest Solutions, our pest control vendor, has detected a termite infestation at Woodson Regional Library - 9525 S. Halsted. Rose determined that the sub-tellurian termites are under the building and have invaded some portions of the interior of the facility.

Rose is recommending interior and exterior drilling of interior and exterior cement areas and hollow walls of the infested sections of the building followed by chemical treatments. The proposal submitted by Rose was for $10,067.26.

The Rose Pest Solutions contract does not allow for this type of service. Rich Butler with Procurement Services suggested utilizing a JOC vendor for this project since the treatment requires substantial construction work.
