Disclosure of Retained Parties

A. Definitions and Disclosure Requirements

1. As used herein, the term "Contractor" means a person or entity who has any contract lease with the City of Chicago.

2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement. Providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons whom the contractor has retained or expects to retain with respect to the contract or lease. In particular, the contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.

3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.

4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part or whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Contractor hereby certifies as follows:

1. This Disclosure relates to the following transaction:

   Project name: WIC-10-022.A
   1st District Police Station Structural Repairs
   Specification, loan or other identifying number: 15039

2. Name of Contractor: Wight/Industria Joint Venture

3. EACH AND EVERY attorney, lobbyist, accountant, consultant, subcontractor, or other person retained or anticipated to be retained by the Contractor with respect to or in connection with the contract or lease is listed below (attach additional pages if necessary):

<table>

CHECK HERE IF NO SUCH PERSONS HAVE BEEN RETAINED OR ARE ANTICIPATED TO BE RETAINED

4. The Contractor understands and agrees that the city may rely on the information provided herein and that providing any false incomplete or inaccurate information shall constitute a default under the contract and may result in termination of the contract or lease.

5. The Contractor understands and agrees that in any case in which the Contractor is uncertain whether a disclosure is required under the Executive order, the Contractor must either ask the city whether disclosure is required or make the disclosure.

Under the Penalties of perjury, I certify that I am authorized to execute this Disclosure on behalf of the Contractor that the information disclosed herein is true and complete, and that no relevant information has been withheld.

Funding Source: 009-0176-038-2005-9021-220540-80020-15 1

Dear Ms. Rhee:

We request that the above referenced project be contracted under the Job Order Contracting (JOC) Method. Attachment A describes the scope of work and the appropriateness for using JOC for this project.

Please direct all technical inquiries to Project Manager Mike Batchman at (312) 744-1107 and all other inquiries to Mary Capecci at 744-6748.

If you concur with our recommendation, please sign below and return a copy for our files.

Sincerely,

Judy D. Martinez  
Commissioner

Arthur Andros

MBB and WBE goals must be met or exceeded for this project.
The Department of General Services
Attachment A

Utilizing JOC For City Construction Projects
01st District Police Station (New)
1718 S. State St.

Project No: WIC-10-022.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach MOA (JOC Approval Letter)

1. Please describe the major features of this project.

   Repair all areas of the building where the CMU walls & floor slab have sunken, causing separations in the walls & floor.

   This project is being submitted for approval as a multi-phased project. The projected cost for the Phase I Trail Repair work is $450,000.00. The overall formal scope of work is being developed by Wiss Janney, under direction via Task Order for the Department of General Services. The repair work will be outlined within the construction documents as provided by WJE. The Phase I (Trail Repairs) scope of work is listed below and this work must be performed in order to develop the overall Scope of Work for the other areas of the building. Currently, it is anticipated that there will be four total Phases, which is based on the total areas of major settlement. However the actual type of repair, locations and quantity of the phased repairs can not be determined until the Trail Repairs have been completed. Furthermore, the total project costs can not be determined until the trail repairs have been determined successful.

Phase I - Trail Repairs

   1. Obtain one (1) soil boring to a depth to refusal (approx. 80 - 90 ft) adjacent to the police station. Contact appropriate agency to locate soil boring.

   2. Based on soil boring results, WJE to verify the design of the resistance piers and the depth of the piers.

   3. Contractor to survey the floor and obtain elevation measurements of the floor before work starts and after work has been completed.

   4. Contractor to excavate to install grade beam underneath the CMU walls. Excavation and grade beam installation to be performed in a "leap frog sequence" in 4 ft to 7 ft sections.

   5. Once concrete has cured, Atlas resistance piers are to be installed.

      a. Piers to be installed in alternate sides of the wall in accordance with the drawings.
      b. Pier spacing between 4ft and 7ft.
      c. Pier installation force to be 10 kips with an additional factor of safety of 1.65, this load to be verified with soil boring data.
      d. Pier depth based upon soil boring results

   6. Contractor to remove sealant and mortar from the CMU walls at crack locations

   7. Contractor to lift walls and floor slab.

      a. Grout jacking to be used to lift floor slabs.
      b. Walls to be lifted reacting from the resistance piers

   8. Once lifting operations are completed, perform backfill operations.

      a. Refill void with a combination of flow able fill material and CA-6 granular fill compacted to at least 95%.

   9. Place new concrete floors as required.
10. Place new terrazzo floor finishes as required

11. Grind and re-point existing mortar joints or rebuild CMU walls as required. The intent is to lift the existing wall in place; however, complete removal and replacement of the walls may be required.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

We are unable to complete bid documents until after the trail repairs are completed due to the unknowns associated with the repair work. Additionally, this is fully operational Police facility and due to security concerns we would rather not issue the building floor plans publically.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

There will be various trades performing work on this project, riggers, construction laborers, iron workers, carpenters.

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

We do not anticipate using NPP items in excess of 25%.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.

There are no City Term Agreement in place to perform these repairs.

6. Why Contractor was Selected?

Wight Industria was selected to perform this work because of their prior experience of successfully completing differential settlement repair projects, that were either equal or greater in size of this repair project. Their organization also has the necessary Engineering expertise required to coordinate & facilitate this type of civil engineering repairs.
