Payment on this order will be made upon receipt of an original vendor invoice form referencing this order.
Submit the original invoices to the department referenced above.
Mark all packages and papers with the purchase number.
Any deliveries containing overshipments will be reflected unless otherwise authorized in this purchase.
This purchase is subject to the City of Chicago General Conditions for Supplies, Work, or Professional Consulting Services; Special Conditions, Disclosure Ownership, Acceptance Page, as applicable, which are attached hereto or incorporated herein by reference.
Disclosure of Retained Parties

A. Definitions and Disclosure Requirements
1. As used herein, the term "Contractor" means a person or entity who has any contract with the City of Chicago.
2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement providing certain information and employees, lobbyists, accountants, consultants, subcontractors, and other persons who the contractor has retained or expects to retain with respect to the contract or lease. In particular, the contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.
3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.
4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part of whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Contractor hereby certifies as follows:

1. This Disclosure relates to the following transaction:
   - Project name: Madison St. Bridge House Stabilization
   - Specification, loan, or other identifying number: 15860

3. EACH AND EVERY attorney, lobbyist, accountant, consultant, subcontractor, or other person retained or anticipated to be retained by the Contractor with respect to or in connection with the contract or lease is listed below (attach additional pages if necessary):

CHECK HERE IF NO SUCH PERSONS HAVE BEEN RETAINED OR ARE ANTICIPATED TO BE RETAINED

4. The Contractor understands and agrees that the city may rely on the information provided herein and that providing any false incomplete or inaccurate information shall constitute default under the contract and may result in termination of the contract or lease.
5. The Contractor understands and agrees that in any case in which the Contractor is uncertain whether a disclosure is required under the Executive order, the Contractor must either ask the city whether disclosure is required or make the disclosure.

Under the Penalties of perjury, I certify that I am authorized to execute this Disclosure on behalf of the Contractor that the information disclosed herein is true and complete, and that no relevant information has been withheld.

Disclosure Statement
The Department of Transportation

Reason why the MOA differs from the Sub Order

Project No: 09-84-11-334
Madison Street Bridge House Stabilization

1. The Sub Order amount differs from the MOA estimate for the following reasons:

The Chicago Department of Transportation, Division of Engineering requests your approval of the attached proposal for FH Paschen for construction services under their current JOC contract of micropile installation, wood pile retrofits and jacking of structural slab at the Madison Street Bridge House and sidewalk repair on Madison Street viaduct. Due to the special nature of the bridge house stabilization work and the additional structural sidewalk repairs, the proposal cost now exceeds the original MOA signed by DPS on December 08, 2009. The cost of the overall scope of work including the sidewalk work is $1,380,000, an increase of $380,000 above the original MOA, which is described below.

The sidewalk deterioration was brought to our attention in April 2010, and after inspecting the structural slab it was determined to carry out limited repairs due to public safety concerns. The structural design for the repairs was prepared by the design consultant. The repair includes removal and installation of new grating and concrete. The sidewalk is above Amtrak lines in Union Station and the work all needs to be done from the top: breakout, removal, installation, etc. The railroad tracks need to be protected in case any material falls below. In addition, since the sidewalk repair will be done over operating railroad tracks and passenger platforms, all this work will have to be done at night and weekends so that the tracks and platforms will be closed to trains and passengers.

The increase in cost over the engineer’s estimate is also due to the specialized nature and complicated process for jacking the bridge house into place. The jacking procedure requires vertical straightening of the house prior to raising it to its original elevation. This work requires specialized personnel and equipment and is very time intensive. The other component of this project that increased the cost was the replacement of the terra cotta acroterian on the roof of the bridge house. The fabrication of the acroterian to match and preserve the historical façade of the bridge house was more than previously expected.
