Attachment A
Utilizing JOC For City Construction Projects

Project No: 09-MCD-002.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

The site requires removal of 18" across the entire site and other portions require soil removal at depths up to 12 feet and the site must be backfilled.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

The Scope of Work and size of the project fits with the initial design of the DOE JOC. Furthermore, recent IEPA correspondence indicates portions of the soil must be removed since it exceeds regulatory levels. As such, this is a time sensitive project. Since the scope of work and size of the project fit within the DOE JOC Program, we are requesting the project be accomplished through the JOC Procurement System.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using in house trades or existing term agreements.

The Project involves more than one trade.

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

It is anticipated that the amount of Non Pre-Priced work will be less than 25%, if any.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.

The scope of work is not covered by a City Term Agreement.
