For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   Installation of 69 pin pad holders for the Dept of Revenue, at 16 of their payment centers thru out the city. These holders will secure their new swipe card machines which are used for all payments.

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.
   The Dept of Revenue must implement this new payment system in all their sites by December 1, 2009 in order to keep payments coming in.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city’s best interest to do the project using DGS trades or existing term agreements.
   Carpenters and Laborers

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.
   All items contained in the CTC

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
   No

6. Why Contractor was Selected?
   OVC has had a good past performance and they specialize in concrete work which is what this project contains

SUBJECT: Criteria for JOC Contractor Selection Consideration

Date: November 9, 2009

The goal for project assignment under the DGS JOC Program is to distribute work in an equitable manner taking into account past performance and capacity to perform the work. Currently, all JOC Contractors are deemed to be performing Contractors. All other factors being equal, DGS will assign an individual project to the Contractor who has the lowest amount of total work, taking into account current workload and ability to perform the specific work.

Future Attachment A’s that are submitted with each MOA package will detail which reason(s) were used to determine project assignment. In most cases, work will be assigned to the Contractor with the lowest amount of total work (#1), assuming the Contractor is performing to there CITY OF CHICAGO contract (#2) and assuming the amount of outstanding work will not hinder the Contractor’s ability to perform the work according to the Contract Documents (#3). For some projects, experience with that type of work (#4), special circumstances (#5), and emergency situations (#6) may require a project assignment to someone other than the Contractor with the lowest amount of total work. If this is case, the details will be included on the Attachment A.

1) Volume of Work to Date
At the time an individual project is assigned, DGS will review the amount of work for each Contractor. Total amount of work will be equal to the amount of released projects plus assigned projects not yet released, i.e. signed MOAs.

For the current volume of work issued to each JOC Contractor, see the chart below. Because all existing Contractors are deemed to be performing Contractors, upcoming assignments will be made to balance the dollars to the lowest amount of total work to date. Future assignments will be made to distribute work in an
equitable manner taking into account past performance and capacity to perform the work.

2) Past Performance
A Contractor’s past performance will be taken into account when assigning projects. If a Contractor fails to perform on the Contract, future assignments may be withheld.

There may be cases that for certain types of work, a Contractor may have history of either good or bad performance, and that performance for a specific type of work will be taken into account during project assignment.

3) Current Workload
At the time a project is assigned, DGS will review the amount of outstanding work the Contractor with the lowest amount of work has. Outstanding work can be projects in which the Contractor is preparing a Price Proposal or is currently under construction and is not yet closed out. If the amount of work outstanding will affect the Contractor’s ability to perform work on a current project assignment, DGS may assign the work to the Contractor with the next lowest amount of work.

4) Experience with the Type of Work being Performed
Depending on a Contractor’s experience with a certain type of work, that experience may factor into project assignment and will be noted as such on the Attachment A. Example, Old Veteran Construction self performs masonry work so DGS may assign a tuck pointing project to Old Veteran Construction as they have a high level of experience with that type of work.

5) Special Circumstances and 6) Emergency Situations
If there are any special circumstances that will affect project assignment, those circumstances will be detailed on the Attachment A. For any emergency work that endangers public life, safety or health, DGS will contact DPS to discuss the emergency and agree on project assignment as well as the timing of the work. If DGS needs to start construction immediately, we will only do so with prior approval from DPS.
