RE: Request for Authorization to Use JOC

Project: JH 6080 T-1 Hold Room Cooling Limited Upgrades – Temporary Cooling

Contact Name and Phone Number: E. Miramontes 773-686-3714

Project History:
This project is presented to address cooling issues for specific hold rooms located in B and C Concourse. The hold rooms addressed with this project are B19-22 (Banana Area), B16-18, B1-8, C1-8 and C27-30. These specific areas have been identified by the airlines as critical. The goal of this project is to provide temporary cooling relief for the upcoming 2011 summer season, while developing a better method for providing cooling to the hold rooms which will be implemented as a future project.

Project Scope of Work
Provide and install a temporary supplemental cooling system which consists of portable cooling units to be located on the ramp and temporary fabric air distribution system in the hold rooms for all areas. Work includes all necessary electrical work, glazing, controls, fire sprinkler, security camera and sheet metal duct work as required.

Procurement Options:

This is a JOC Project because:

1) It is outside the scope of the in-house forces.
2) There is not a term contract in place to cover entire scope of this work.
3) The project is time sensitive, cooling season is fast approaching and using the JOC process would be the most time efficient method of procuring the work.
4) The scope of the project is covered by the Construction Task Catalog®.

Budget Estimate: $ 930,000.00

See Attached Back-up for Budget Estimate:

Funding Strip: TBD

Project: T-1 Hold Room Cooling Limited Upgrades – Temporary Cooling
The office of Design and Construction has reviewed the Requesting Department’s description of the proposed project and concur that this project is appropriate for JOC.

Attachment A  
Utilizing JOC for City Construction Projects

Project Number: JH 6080 Terminal 1 Hold Area Temporary Cooling

Project Manager: Ernest Miramontes 773-686-3714  
Department: Aviation

For all Proposed JOC projects please complete items 1 and 2 below as appropriate, complete items 3, 4, and 5. Attach this document to the Memorandum of Authorization.

1. **Please describe below the major features of the project:**
The major features of this project include but are not limited too Air Handling Units, associated duct work, glazing, electrical, fire sprinkler, temperature controls and security camera work.

2. **Please explain below why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system:**
Cooling season is fast approaching and time does not allow for the traditional bid method.

3. **If the project is a one trade project, please provide additional explanation below of why it would be in the best interest of the City of Chicago to JOC for this project:**
Multiple trades are involved including but not limited to HVAC, electrical, fire sprinkler and glazing.

4. **If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation below of why JOC should be used:**
Less than 25% of the project will consist of Non-prepriced items.

5. **If some elements of the proposed JOC project scope of work are covered by city term agreements, explain below why they are included in this JOC project instead of being procured through the term:**
It is outside the scope of work for the in-house trades and term agreements do not cover entire scope of work.
