Subject: Job Order Contract - Department of Water Management  
Project Description: JWPP Polymer Storage Tank 121 Lining Repair  
Project No: S-10-004.A-2  
Contract No: 21256  
Spec. No: 70920  
Estimated Cost: $300,000.00  
Funding No: 009-0F04-0882020-0550-220550-W706-10305090

Dear Ms. Rhee:

This Department is requesting that the Contractor reline the walls and floor of Polymer Storage Tank 121 with the specified liner system. The tank has an internal agitator and shall receive an extra layer of fiberglass mat saturated with basecoat resin. During the work the Contractor is responsible for installation and maintenance of the tank ventilation system that may utilize portions of existing duct work if practical, or may be modified and extended to discharge into the east void space. Entry into confined space work areas will be controlled, maintained, and monitored by the Contractor per OSHA and JWPP Safety Department requirements. The ceiling of the tank will have the initial concrete primer and the finish coat (in order to match the remainder of the tank interior finished color) applied to the concrete surface, but the entire liner system will not be applied to the ceiling.

Estimated duration of this Project is (3) three Months.

Enclosed is the preliminary estimate of cost for the work involved and a project description. Funding for this work is in place.

If you concur with this request, please notify this office as soon as possible and forward a copy of the approved memorandum of authorization. For any further information concerning this matter, contact Richard Patrick, Bureau of Engineering Services at 744-5067.

Yours Truly,
