Utilizing JOC For City Construction Projects

Project No: S-11-021.A-2
JWPP Chlorine Pipe Support Bracket at Shore Intake

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   Fabricate, furnish, and install chlorine pipe bracket to replace existing bracket that has been damaged in the west intake. Add one additional bracket to each intake. Check condition of existing bracket in the east intake.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.
   This is a small emergency repair project that can be described in writing and with supplemental sketches. There is not time (nor does the size of the project require) to hire a design firm to prepare plans and specifications, then advertise the project for bids using the traditional method.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city's best interest to do the project under JOC.
   N/A.

4. If it is anticipated that over 25% of the project will consist of Non-pre-priced items, please provide an explanation on why JOC should be used.
   N/A.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
