JUSTIFICATION OF NON-COMPETITIVE PROCUREMENT

Procurement History

1. Describe the requirement and how it evolved from initial planning to its present status.

Upon notice of Kathryn Zeledon Nelson's intent to retire from the Fire Department the current projects she was working on were reviewed. It was determined that the City's interests would be best served by retaining her services until certain legal affairs could be brought to an end and/or new departmental legal representation could be brought obtained and updated to a level sufficient to represent this department with little or no disruption.

2. Is this a first time requirement or a continuation of previous procurement from the same source? If so, explain the procurement history.

This is a continuation of duties, which were a responsibility of Kathryn Zeledon Nelson in her previous capacity as Deputy Commissioner.

3. Explain attempts made to competitively bid the requirement. (Attach copy of notices and list of sources contacted).

None have been made.

4. If an RFP/RFQ or other application was issued.

No RFP/RFQ was issued.

5. Describe any research done to find other sources.

No research was done to find other sources.

6. Explain future procurement objectives. Is this a one-time request or will future requests be made for doing business with the same source?

These duties are covered by an appointed position in the Fire Department. This is a one-time request.

7. Explain whether or not future competitive bidding is possible. If not, why not?

There will be no need for outside Professional Services Contracts to perform this duty in the future, so no future competitive bidding is possible.

Estimated Cost

1. What is the estimated cost for this requirement? What is the funding source?

- A maximum of $110,000 for an eight-month period from 6/1/04 to 1/31/05
- The funding source is the Corporate (100) fund.
- For FY2004 the cost will be approximately $90,000.
- Negotiated cost for $75.00 per hour of a budgetary ceiling of $110,000 as authorized by the Office of Budget and Management and accepted by Kathryn Zeledon Nelson.
2. What is the estimated cost by fiscal year, if the job, project or program covers multiple years?
   FY2004 $90,000 and FY2005 $20,000.

3. Explain the basis for estimating the cost and what assumptions were made and/or data used.
   The basis for estimating the cost were hourly cost is based upon Kathryn Zeledon Nelson’s current salary on a hour basis and the estimated time to complete various project currently being worked on.

4. Explain whether the proposed Contractor or the City has a substantial dollar investment in original design, tooling or other factors which would be duplicated at City expense if another source was considered. Describe cost savings or other measurable benefits to the City which may be achieved.
   It would be impossible to replace the institutional knowledge of Kathryn Zeledon Nelson and the Fire Department would greatly suffer without her legal knowledge of Fire Department Affairs. This could cost the City money in the long run.

5. Explain what negotiation of price has occurred or will occur. Detail why the estimated cost is deemed reasonable.
   The hourly rate for Kathryn Zeledon Nelson is a per hour rate of her current salary.

**Schedule Requirements**

1. Explain how the schedule was developed and at what point the specific dates were known.
   Does not apply

2. Is lack of drawings and/or specifications a constraining factor to competitive bidding? If so, why is the proposed Contractor the only person or firm able to perform under these circumstances? Why are the drawings and specifications lacking? What is the lead time required to get drawings and specifications suitable for competition? If lack of drawings and specifications is not a constraining factor to competitive bidding, explain why only one person or firm can meet the required schedule.
   Does not apply

3. Outline the required schedule by delivery or completion dates and explain the reasons why the schedule is critical.
   In this instance the schedule is critical because there can not be a gap between the retirement of Kathryn Zeledon Nelson and her hiring as a Consultant. This would result in a lack of continuity in on-going legal affairs.

4. Describe in detail what impact delays for competitive bidding would have on City operations, programs, costs and budgeted funds.
   There is no cause for competitive bidding in this instance because no one else is qualified to do this job.
1. If contemplating hiring a person or firm as a Professional Service Consultant, explain in detail what professional skills, expertise, qualifications or other factors make this person or firm exclusively or uniquely qualified for the project. Attach copy of cost proposal and scope or services.

See Procurement History

2. Does the proposed firm have personnel considered unquestionably predominant in the particular field?

Kathryn Zeledon Nelson will be the sole Consultant and for the purposes of Fire Department Legal Affairs, she is unquestionably predominate in the knowledge of Fire Department legal affairs.

3. What prior experience of a highly specialized nature does the person or firm exclusively possess that is vital to the job, project or program?

See Procurement History

4. What technical facilities or test equipment does the person or firm exclusively possess of a highly specialized nature which is vital to the job?

Does not apply

5. What other capabilities and/or capacity does the proposed firm possess which is necessary for the specific job, project or program which makes them the only source who can perform the work within the required time schedule without unreasonable costs to the City?

It is unrealistic and unreasonable to believe that Kathryn Zeledon Nelson’s experience could be replaced by anyone in such a manner that the City and the Fire Department would not suffer in Legal Affairs at this time.

6. If procuring products or equipment, describe the intended use and explain any exclusive or unique capabilities, features and/or functions the items have which no other brands or models, etc. possess. Is compatibility with existing equipment critical from an operational standpoint? Explain why.

Does not apply

7. Is completion precluded because of the existence of patent rights, copyrights, trade secrets, technical data, or other proprietary data? Attach documentation verifying such.

Does not apply

8. If procuring replacement parts and/or maintenance services, explain whether or not replacement parts and/or services can be obtained from any other sources? If not, is the proposed firm the only authorized or exclusive dealer/distributor and/or service center? If so, attach letter from manufacturer.

Does not apply.
