PROCUREMENT HISTORY

NextiraOne Solutions, LLC has been the sole provider of Internal Secure Communications Network (ISCN) services and equipment since January 1, 1996. The original agreement was between the City of Chicago and Timeplex, Inc, and was extended twice. Timeplex, Inc. and Ascom merged under the umbrella of NextiraOne, which is currently the sole maintenance provider of monitoring and other equipment for the City’s cable and fiber network. It is also the only authorized vendor who can maintain and sell hardware and software for the ISCN network. No other equipment is compatible with this system.

OEMC expects that future competitive bidding may be possible in the future, if certain technology upgrades can be completed. This would replace technology owned by NextiraOne with a standard-based technology platform.

The existing agreement with NextiraOne will expire in 6.30.06.

ESTIMATED COST

OEMC estimates a ceiling of $10,000,000 over a five (5) year period, or approximately $2,000,000 per year. These estimates were derived from previous annual expenditures. The City has negotiated a maintenance cost of $500,000 per year, reduced from the current rate of $853,012. This is a reasonable reduction based on the City’s commitment to a technology upgrade, and based on the shifting of some maintenance functions from NextiraOne to City personnel. Additionally, OEMC estimates using approximately, $1,000,000 for LAN maintenance and $500,000 for radio equipment, per year.

SCHEDULE REQUIREMENTS

The existing maintenance agreement ends on June 31, 2006. A delay of maintenance coverage will leave the City’s radio and telephone systems vulnerable in the event of a catastrophic outage of the ISCN network. This agreement provides 24 hour coverage. It is imperative that we maintain a smooth flow of service as to prevent any interruptions in service.
EXCLUSIVE OR UNIQUE CAPABILITY

NextiraOne network technicians and the consulting engineers have worked on the OEMC network for 10 years and have complete knowledge of its complicated design. NextiraOne provides exclusive support and diagnostic tools for the legacy Timeplex equipment that is used throughout the network. It also provides engineering design support through a remote site. NextiraOne alone can modify software and code requirements of the software provided to the City and maintain the 6,000 components that make up the OEMC-ISCN network.

If the City used a vendor other than NextiraOne, it would have to replace its existing cable and fiber equipment, at a significant cost to the City. Currently, there are 3 Link 100’s and approximately 60 Link 2 devices in the OEMC network. In addition, there are approximately 210 Ascom AR and AR350 routers in the OEMC network. This is legacy equipment that would have to be entirely replaced if the City ended its contract with NextiraOne.

As the manufacturer of the Timeplex Link equipment, NextiraOne is the only vendor that can commit to a 5-year support agreement on these products. These products are critical to ISCN’s operations, and can be upgraded or modified only by NextiraOne. Moreover, NextiraOne has the personnel in place to provide maintenance at a reduced rate to the City.

Lastly, if NextiraOne maintains the network, there is no need to train new personnel. From a security perspective, changing to another vendor could have catastrophic consequences. The on-site technicians are experts on the equipment and services used by the Fire and Police Departments. Changing the service can potentially disrupt communications.

OTHER

Given the nature of the equipment, the City sets high standards for the vendor with respect to quality assurance and availability. We anticipate requiring all safeguards that are in the current contract to be in any future contract.

NextiraOne anticipates meeting its MBE requirements by using Wireless Information Technologies, at a rate of 18 % per year. Under the existing contract, they have a WBE waiver, and they would like to extend this waiver if awarded a sole source contract. Please see the attached letter from NextiraOne documenting this plan and OEMC’s concurrence letter supporting the WBE waiver.
MEMORANDUM

TO: BARBARA LUMPkin
CHIEF PROCUREMENT OFFICER

FROM: Andrew Sheils
DEPUTY DIRECTOR, ADMINISTRATION

DATE: MAY 2, 2006

RE: NEXTIRA ONE – WBE WAIVER REQUEST

I am writing to request a WBE waiver for NextiraOne, LLC, as they have indicated that they will not be able to meet their WBE requirement on the new sole source contract we are currently in the process of negotiating with them. The vendor will be able to meet their MBE utilization goal. Please find a copy of NextiraOne’s waiver request enclosed.

As you may know NextiraOne provides the following services which are mission-critical to OEMC and to public safety:

- Maintain and monitor the City’s Internal Secure Communications Network (ISCN) and its sub-assemblies.
- Dispatch ISCN employees for network repair.
- Provide for the purchase, lease or rental of ISCN communication equipment, software and spare parts.
- Provide technical training and education regarding proprietary and non-proprietary Ascom, Timeplex and related manufactures such as Fujitsu and Nortel installed ISCN communications hardware.
- Provide various Additional Services such as relocating Equipment, consulting, and repair required within the hours of the Contracted Periods of Maintenance (CPM).
- Provide Customer Service Support including telephone diagnostics, problem definition assistance, on-site support, and maintenance of City-owned inventory, disaster recovery assistance.

Please let me know if there is any other information you require at this time. The existing contract is set to expire on 6/30/2006 so we are eager to make sure that DPS has all the necessary paperwork.

Thank you for your time and feel free to contact me directly at 6-9420.

SUBJECT: Sole Source Request

CONTRACT TYPE: Professional Services

CONTRACT TITLE: Term Agreement for Internal Secure Communications Network

VENDOR: NextiraOne Solutions, LLC

ESTIMATED ANNUAL COST: $2,000,000 per year

Dear Mr. Cobb:

We respectfully submit this request to the Sole Source Review Board to allow OEMC to enter into a term agreement with NextiraOne Solutions, LLC for Internal Secure Communications Network services.

NextiraOne has provided maintenance and repair services for the City’s cable and fiber since 1996, and is the sole authorized provider of Timeplex, Ascom and Milgo products. They also perform mission critical and necessary public safety functions, which are not available through other vendors. Additionally, OEMC has received a sole source approval in the past for this contract and is requesting additional approval to increase the vendor limit based on additional work that needs to be completed.

In support of this request, please find the attached: (1) the Project Checklist; (2) Requisition # 19788; (3) the Justification for Non-Competitive Procurement form; and (4) a general Scope of Work.

Please feel free to contact me directly at 2-3790 with any questions.

Sincerely yours,

Amy Gudgeon
