PROCUREMENT HISTORY (INCLUDING FUTURE PROCUREMENT OBJECTIVES)

1. Describe the requirement and how it evolved from initial planning to its status.

   The Chicago Police Department received homeland security grant funding to purchase an underwater Remote Observation Vehicle (ROV). Research was conducted and based on the needs of the mission this unit was chosen.

2. Is this a first time requirement or a continuation of previous procurement from the same source? If so, explain the procurement history.

   This is a first time purchase. The Chicago Police Department’s Marine & Helicopter Unit does not have this type of equipment.

3. Explain attempts made to competitively bid the requirement. (Attach copy of notices and list of sources contacted)

   Based on the mission of the unit and the locations of where it will be used this is the only ROV that can fulfill the requirements. VideoRay is the only manufacture and distributor of this unit.

4. Describe all research done to find other sources. (List other cities contacted, companies in the industry contacted, professional organizations, periodicals and other publications used).

   The Commanding Officer of the Chicago Police Department’s Marine & Helicopter Unit investigated the different ROV’s on the market. The only ROV that could fulfill the requirement of the Department is the VideoRay model.

5. Explain future procurement objectives. Is this a one-time request or will future requests be made for doing business with the same source?

   Additional funds have been requested through various grant programs to purchase additional unit(s). At this time those funds have not been awarded.

6. Explain whether or not future competitive bidding is possible. If not, why not?

   VideoRay is the only manufacture and distributor of this unit. The company controls the distribution by designating representatives. The company controls the pricing of the product.
1. What is the estimated cost for this requirement (or for each contract, if multiple awards contemplated)? What is the funding source?

The base model is approximately $16,205.00. Attached is an options list and price list. The Chicago Police Department currently has approximately $20,000 to purchase a unit. The funds are from a 2005 Buffer Zone Protection Grant Program that expires 31 December 2006. There are no extensions to the grant.

2. What is the estimated cost by fiscal year, if the job project or program covers multiple years?

Does Not Apply

3. Explain the basis for estimating the cost and what assumptions were made and/or data used (i.e. Budgeted amount, previous contract price, current catalog or cost proposal from firms solicited, engineering or in-house estimate, etc).

Quote from the company.

4. Explain whether the proposed Contractor or the City has a substantial dollar investment in original design, tooling or other factors which would be duplicated at City expense if another source was considered. Describe cost savings or other measurable benefits to the City which may be achieved.

Does Not Apply

5. Explain what negotiation of price has occurred or will occur. Detail why the estimated cost is deemed reasonable.

Does Not Apply
1. Explain how the schedule was developed and at what point the specific dates were known.

Does Not Apply

2. Is lack of drawings and/or specifications a constraining factor to competitive bidding? If so, why is the proposed Contractor the only person or firm able to perform under these circumstances? Why are the drawings and specifications lacking? What is the lead time required to get drawings and specifications suitable for competition? If lack of drawings and specifications is not a constraining factor to competitive bidding, explain why only one person or firm can meet the required schedule.

Does Not Apply

3. Outline the required schedule by delivery or completion dates and explain the reasons why the schedule is critical.

The current grant will expire on 31 December 2006. There are no grant extensions available.

4. Describe in detail what impact delays for competitive bidding would have on City operations, programs, costs and budgeted funds.

Does Not Apply
EXCLUSIVE OR UNIQUE CAPABILITY "EXCLUSIVE OR UNIQUE CAPABILITY"

1. If contemplating hiring a person or firm as a Professional Service Consultant, explain in detail what professional skills, expertise, qualifications, other factors make this person or firm exclusively or uniquely qualified for the project. Attach copy of cost proposal and scope of services.

   Does Not Apply

2. Does the proposed firm have personnel considered unquestionably predominant in the particular field?

   Does Not Apply

3. What prior experience of a highly specialized nature does the person or firm exclusively possess that is vital to the job, project or program?

   Does Not Apply

4. What technical facilities or test equipment does the person or firm exclusively possess of a highly specialized nature which is vital to the job?

   Does Not Apply

5. What other capabilities and/or capacity does the proposed firm possess which is necessary for the specific job, project or program which make them the only source who can perform the work within the required time schedule without unreasonable costs to the City?

   Does Not Apply

6. If procuring products or equipment, describe the intended use and explain any exclusive or unique capabilities, features and/or functions the items have which no other brands or models, etc. possess. Is compatibility with existing equipment critical from an operational standpoint? Explain why.

   The company manufactures an underwater ROV that is small and compact. The unit can be controlled from the surface and has a camera that will allow personnel on the surface to view the image sent by the ROV. The ROV is small and compact so it can be transported easily and once deployed can reach small confined areas, such as underneath Navy Pier.

   The ROV will be used for homeland security purposes to search for and identify underwater hazards and explosive devices.
7. Is competition precluded because of the existence of patent rights, copyrights, trade secrets, technical data, or other proprietary data? Attach documentation verifying such.

The VideoRay has the following features that cannot be found on other brands.

- Weighs less than 13 pounds
- Includes a tilt-able high resolution color video camera in front and a high resolution, low light black and white camera in the rear
- Exterior is manufactured using anodized aluminum, acrylic and polycarbonate plastics and stainless steel.
- The system is easily transportable in two hard Pelican type cases
- The system is built upon an open architecture that supports modular sensor exchanges for accessories such as a manipulator, sonar, various vehicle tracking systems, material thickness gauges, radiation and water quality sensors
- The system includes halogen lights that are controllable from the surface for capturing images in no natural light conditions
- The system has a tether deployment system
- The company provides a comprehensive support and maintenance program that will provide the City with a loaner ROV while the purchased ROV is being repaired

8. If procuring replacement parts and/or maintenance services, explain whether or not replacement parts and/or services can be obtained from any other sources? If not, is the proposed firm the only authorized or exclusive dealer/distributor and/or service center? If so, attach letter from manufacturer.

VideoRay is the sole distributor of parts and accessories for the products.
MBE/WBE COMPLIANCE PLAN

1. All submissions must contain detailed information about how the proposed firm will comply with the requirements of the City's Minority and Women Owned Business program. All submissions must include a complete C-1 and D-1 form, which is available on the Procurement Service page on the City's intranet site.

OTHER "OTHER"

1. Explain other related considerations and attach all applicable supporting documents (an approved Information Technology Strategy Committee (ITSC) form, an approved Request for Individual Contract Services form, etc.)

REVIEW AND APPROVAL "REVIEW AND APPROVAL"

This form must be signed by both the Originator of the request and approved by the Department Head or authorized designee.
