My credentials include Bachelors in Nursing and a Masters in Public Health. I have been the administrator for Home Health Programs, Department of Aging programs, Health Departments, establishing Federally Qualified Medical clinics and State wide Maternal and Child Health Programs.

The past twenty-six years of employment has been with either a local Health Department or with the State of Illinois. The majority of time has been spent developing and implementing Maternal Child Health (MCH) Programs.

During the past sixteen years I have worked with the federal government applying for approval and implementing a federal claiming process, which allows both the State of Illinois MCH programs and local Health Departments MCH programs to submit financial reports, documenting cost incurred by the departments that was in addition to the grants receive. The services provided are Medicaid case management services to the pregnant women and infants in the state of Illinois and is being paid for by county or city tax funds.

The cost of the case management program is placed in an electronic data system called Cornerstone. The system includes a time study, staff expense reports and agency operating expense. A very complicated report is then generated and provides the information needed to identify what the unit rate of service is.

My expertise includes the delivery of the service by the case management staff, the operation of the Cornerstone system, the cost allocation plan, and the variety and complexity of Health Department budgets. I have the ability to review the direct service activities and understand how the activities affect the overall cost of the program.

Request for a Professional Services Contract with Belinda Waller B.S.N., M.P.H.

The City of Chicago, Department of Public Health would like to enter into a Sole Source contract with Belinda Waller, a private contractor located in Tucson, AZ, who has approximately 26 years experience working for State and Local Health Departments in Illinois. The majority of time has been spent developing and implementing Maternal Child Health (MCH) Programs. For approximately 16 years she has specialized in implementing a federal claiming process, which allows both the State of Illinois MCH programs and local Health Department MCH programs to submit financial reports, documenting cost incurred by the departments that was in addition to the grants received. The services provided are Family Case Management services to pregnant woman and infants in the City of Chicago and Cook County and is paid for by city or county tax funds. She has unique experience and expertise with an electronic Statewide data system called Cornerstone. The Cornerstone system collects staff time–studies, staff salaries, agency operating expense, and client contacts. The system then generates a report that calculates the unit rate of services by using a cost allocation plan. The unit rate of service, the volume of visits, and the expenses are then used to produce the claim which is submitted for reimbursement from the federal government. By Federal law local units of government that provide case management services to the Medicaid population, and uses local funds may receive 50% reimbursement. Belinda Waller will be retained on a one-time basis to implement the Cornerstone system for CDPH, to train CDPH staff on how to use the system, and to help establish long and short-term work plans.

Belinda Waller will be paid an hourly fee based on five, eight hour work days on site at CDPH, one week per month (based upon her availability) for approximately six consecutive months or until the project is completed no later than the end of December 2007.

She will be working independently of department supervision and control. CDPH will be responsible for providing her with the data and records needed to complete the task required. She will then be finalizing the reports at her home office in Tucson, AZ and sending the results to CDPH.

Belinda Waller has a current contract with Winnebago County, and has provided the same services for Du Page County in the past.

B. The certifications, disclosures, and acknowledgments contained in this EDS will become part of any contract or other agreement between the Applicant and the City in connection with the Matter, whether procurement, City assistance, or other City action, and are material inducements to the City's execution of any contract or taking other action with respect to the Matter. The Disclosing Party understands that it must comply with all statutes, ordinances, and regulations on which this EDS is based.

C.
