CHIEF PROCUREMENT OFFICER DEPARTMENT OF PROCUREMENT SERVICES
INSTRUCTIONS FOR PREPARATION OF NON-COMpetitive PROCUREMENT FORM (Rev. 5/04)

If a City Department has determined that the purchase of supplies, equipment, work and/or services can not be done on a competitive basis, a sole source justification must be prepared on this "Justification for Non-Competitive Procurement Form" in which procurement is requested on a non-bid or non-competitive basis in accordance with 65 ILCS 5/9-10-4 of the Illinois Compiled Statutes. All applicable questions in each Subject Area below must be answered. The information provided must be complete and in sufficient detail to allow for a decision to be made by the Non-Competitive Procurement Review Board. Also attach a complete CPAC Project Checklist, and any other required forms (see Other #1, below). The Board will not consider justifications with incomplete information documentation.

PROCUREMENT HISTORY

1. Describe the requirement and how it evolved from initial planning to its present status.
2. Is this a first time requirement or a continuation of previous procurement from the same source? If so, explain the procurement history.
3. Explain attempts made to competitively bid the requirement. (Attach copy of notices and list of sources contacted).
4. Describe all research done to find other sources. (List other cities contacted, companies in the industry contacted, professional organizations, periodicals and other publications used).
5. Explain future procurement objectives. Is this a one-time request or will future requests be made for doing business with the same source? If so, why?
6. Explain whether or not future competitive bidding is possible. If not, why not?

ESTIMATED COST

1. What is the estimated cost for this requirement (or for each contract, if multiple awards contemplated)? What is the funding source?
2. What is the estimated cost by fiscal year, if the job project or program covers multiple years?
3. Explain the basis for estimating the cost and what assumptions were made and/or data used (ie. budgeted amount, previous contract price, current catalog or cost proposal from firms solicited, engineering or in-house estimate, etc.).
4. Explain whether the proposed Contractor or the City has a substantial dollar investment in original design, tooling or other factors which would be duplicated at City expense if another source was considered. Describe cost savings or other measurable benefits to the City which may be achieved.
5. Explain what negotiation of price has occurred or will occur. Detail why the estimated cost is deemed reasonable.

SCHEDULE REQUIREMENTS

1. Explain how the schedule was developed and at what point the specific dates were known.
2. Is lack of drawings and/or specifications a constraining factor to competitive bidding? If so, why is the proposed Contractor the only person or firm able to perform under these circumstances? Why are the drawings and specifications lacking? What is the lead time required to get drawings and specifications suitable for competition? If lack of drawings and specifications is not a constraining factor to competitive bidding, explain why only one person or firm can meet the required schedule.
3. Outline the required schedule by delivery or completion dates and explain the reasons why the schedule is critical.
4. Describe in detail what impact delays for competitive bidding would have on City operations, programs, costs and budgeted funds.

EXCLUSIVE OR UNIQUE CAPABILITY

3. What prior experience of a highly specialized nature does the person or firm exclusively possess that is vital to the job, project or program?
4. What technical facilities or test equipment does the person or firm exclusively possess of a highly specialized nature which is vital to the job?
5. What other capabilities and/or capacity does the proposed firm possess which is necessary for the specific job, project or program which makes them the only person or firm that can perform the work within the required time schedule with unreasonable costs to the City?
6. If procuring products or equipment, describe the intended use and explain any exclusive or unique capabilities, features and/or functions the firm has which no other brands or models, etc., possess. Is compatibility with existing equipment critical from an operational standpoint?
7. Explain why.
8. Is competition precluded because of the existence of patent rights, copyrights, trade secrets, technical data, or other proprietary data? Attach documentation verifying such.
9. If procuring replacement parts and/or maintenance services, explain whether or not replacement parts and/or services can be obtained from any other sources? If not, is the proposed firm the only authorized or exclusive dealer/distributor and/or service center? If so, attach letter from manufacturer.

M/WBE COMPLIANCE PLAN

1. All submissions must contain detailed information about how the proposed firm will comply with the requirements of the City's Minority and Women Owned Business Program. After review and final disposal from the Board, this form will be stamped to indicate the final disposition and signed by the Chairperson of the Board of authorized designee."
PROCUREMENT HISTORY

1. Describe the requirement and how it evolved from initial planning to present status.

On November 26, 2003, the final area of non-compliance for CDHS' (now "FSS" - the Department of Family and Support Services') Head Start Program, was corrected and the deficiency status lifted. This was due to the development of a HSEV (Head Start Eligibility Verification) and a MER (Monthly Enrollment) forms to determine eligibility and number of children in the Head Start program. It was intended that the HSEV Paradox database system would be reconfigured to an Oracle, internet accessible system to be fully functional.

Realizing that the development of the Oracle system was taking longer than anticipated, the Department requested an Emergency contract for Nulinx International Inc. (COPA) to immediately implement a child enrollment and tracking system for the City’s Head Start and Child Care program which served approximately 20,000 children. The firm was identified with the assistance of the Department of Business Information Systems (BIS) as the only source which would meet all of our tracking needs for family and child data in addition to eligibility and enrollment.

It was also realized during this time that the costs associated with customizing reporting requirements by the grantor, HSS would be cost prohibitive. Due to the urgent need for the unique services that could be provided by Nulinx, the Department entered into an agreement with Nulinx to provide swipe card and associated expenses to track attendance, subscription fees, customization and training. Intranet services were also included in this contract in 2005.

Based on the Department's continued needs and the exclusive nature and unique capabilities of Nulinx and its COPA system, FSS is requesting to contract with Nulinx International, Inc. for 2009. The Department would like to contract with Nulinx to serve as the host organization for use of the COPA internet system which would provide multiple services including: 1) data tracking and customized reporting as it relates to Head Start enrollment and eligibility; 2) comprehensive intranet services for FSS and its Head Start/Child Care agencies; and 3) data tracking which includes customized billing and reimbursement reports for Child Care related programs, both at the family and child level as well as site reimbursements by the Grantee.

2. Is this a first time requirement or a continuation of previous procurement from the same source? If so, explain the procurement history.

This is a continuation of a previous software license contractual agreement. Due to the fact that the contract ended on November 30, 2008, the Department is requesting sole source approval for a new contract.
3. Explain attempt to competitively bid the requirement

Nulinx is the only company that supports this product, and as a result, a competitive bid is not possible.

4. Describe all research done to find other sources

Initially, the Department attended a Vendor’s Fair to identify those contractors that could potentially meet our needs. No other sources were identified, as Nulinx is the only company that supports the COPA product. Other vendors at the fair include HSFIS and Galileo.

5 Explain if future competitive bidding is possible? Is this a one-time request or will future requests be made for doing business with the same source?

Future competitive bidding is NOT possible as the Department has identified Nulinx as the only organization that can provide this product which is proprietary, currently in use, highly customized, and solely dependent upon Nulinx personnel. FSS requests that approval be based on a blanket agreement between our Department and Nulinx with two (1) year extension options. Yes, there may be future requests.

6. Explain whether or not future competitive bidding is possible. If not, why not?

Future competitive bidding is NOT possible because both FSS and the United States Department of Health and Human Services (HHS) are fully satisfied with the firm’s services, Nulinx has established a continuity of services over the past several years which ensures ongoing quality services, and it would be impractical to implement a new system given the high costs that would be realized to develop a system with similar capabilities.

Estimated Cost

1. What is the estimated cost for this requirement? What is the funding source?

The estimated cost for this system is: $487,800. The funding sources are Head Start (Federal) and Child Care (State) funding.

2. What is the estimated cost by fiscal year, if the job project or program covers multiple years?

The estimated costs are as follows:

Year 1 - $487,800
Year 2 - $509,800
Year 3 - $(Year 2 Amount + estimated 5%)
Year 4 - $(Year 3 Amount + estimated 5%)
3. **Explain the basis for estimating the cost and what assumptions were made and data used.**

The Vendor’s cost proposal is based on requirements identified by key FSS staff and all applicable Federal, State and local rules and regulations.

4. **Explain whether the proposed Contractor or the City has a substantial dollar investment in original design, tooling or other factors which would be duplicated at City expense if another source was considered. Describe cost savings or other measurable benefits to the City which may be achieved.**

- The City has invested over 1.7 million dollars in services received from Nulinx since 2004. Due to the fact that the COPA system was already developed prior to use by FSS, major costs normally associated with development and implementation of such a system were not incurred.

- The COPA (system) is already developed and readily available an in use. Due to the fact that the system has been so well received by the funding source, it is intended that its continued use will ensure that the City is in compliance with Head Start requirements, thus helping to ensure that FSS will receive its 114.6 million Head Start and 44.3 million State of Illinois Child Care awards.

- All hardware, staff required for maintenance, software licensing and maintenance, hosting fees, and updates, etc. are included in the subscription cost (with any additional trainings provided and quoted on an as needed basis).

- In order to custom create a system such as COPA, it could take years, millions of dollars, and an ongoing commitment for support, development and maintenance.

- A combined Head Start and Child Care system will likely save tens of thousands of dollars because it eliminates inefficiencies such as duplicate data entry and tracking.

- The time saved by this system’s 2300 users, by conservative estimates, as compared to using another system would easily realize the city over a million dollars a year.

5. **Explain what negotiation of price has occurred or will occur. Detail why the cost is deemed reasonable.**

The FSS’ IT Unit along with Administration’ Senior Management have been the leads in identifying requirements related to this system. As a result, during requirements formulation for 2009, $60,000 in costs have been eliminated. Further negotiations and cost reductions may still be possible. These savings are very good considering that costs saved by not having major development and implementation costs as well as fixed subscriptions costs are already significant.
Schedule Requirements

1. Explain how the schedule was developed and at what point the specific dates were known.

The schedule was developed by the Department's need to comply with the enrollment and eligibility requirements of the United States Department of Health and Human Services. The emergency nature of the original procurement caused the Department to seek a “solution” system as soon as possible. The contract period for continued services would now be determined by the Head Start fiscal year which ends on November 30th of each year.

2. Is lack of drawings and/or specifications a constraining factor to competitive bidding? If so, why is the proposed Contractor the only person or firm able to perform these circumstances? Why are the drawings and specifications lacking? What is the lead time to get drawings and specifications suitable for competition? If lack of drawings is not a constraining factor to competitive bidding; explain why only one person or firm can meet the required schedule.

This is NA. Nulinx has proprietary rights to the COPA product and would provide this tool to the Department on a subscription basis.

3. Outline the required schedule by delivery or completion dates and explain the reason why the schedule is critical.

- It is anticipated that the Department would enter into a contract with Nulinx by May 1, 2009. This date is critical as the vendor currently has no contract with the FSS, and based on negotiations and the contracting process – May is the earliest that we anticipate that a contract would be executed.

- This schedule is critical because the Department wants to be proactive in complying with Head Start / Child Care requirements which together include major areas such as enrollment, eligibility, and billing. We also want to be expeditious in the execution and administration of our contracts. An executed Nulinx contract will help the Department's Head Start program continue operating at its highest level of efficiency.

4. Describe in detail what impact delays for competitive bidding would have on City operations, programs, costs and budgeted funds.

Any delays in this hosting agreement with Nulinx would not only jeopardize the Department's goal to ensure that quality services continue to be provided to Chicago's children and families in need, but it would also expose the Department's to the risk of being unable to effectively track and monitor the Head Start and Child Care programs, and thus a possibility of losing over 150 million dollars in grant funds per year.
EXCLUSIVE OR UNIQUE CAPABILITY

1. If contemplating hiring a person or firm as a Professional Service Consultant, explain in detail what professional skills, expertise, qualifications, other factors make this person or firm exclusively or uniquely qualified for the project. Attach copy of cost proposal and scope of services.

Nulinx, International is the only organization that can provide specialized Head Start and Child Care tracking and reporting, in combination with site monitoring and work flow process, as well as Billing and Reimbursement features under one platform, while also providing intranet collaboration and communication simultaneously. (See Attachments II, III, and IV)

2. Does the proposed firm have personnel considered unquestionably predominant in the particular field?

Yes, Nulinx is the only organization that provides the COPA software. There are no other vendors with this proprietary software and therefore personnel with exclusive knowledge and expertise related to these services. Nulinx has been providing the Department with its exclusive software services and extraordinary personnel for several years. (See Attachments III & IV)

3. What prior experience of a highly specialized nature does the person or firm exclusively possess that is vital to the job, project or program?

Nulinx is the only organization that provides services to support the COPA product. Nulinx has had a previous contract with the City which began in June of 2004 and ended in 2008. Nulinx’ COPA system has also provided its services to numerous other major governmental agencies including the State of Arkansas’ Division of Child Care an Early Childhood Education Program.

4. What technical facilities or test equipment does the person or firm exclusively possess of a highly specialized nature which is vital to the job?

Nulinx uses cutting edge technology all under one platform (i.e. Unix) to meet the multi-faceted needs of Head Start programs, Child Care providers, City and State agencies, etc. Moreover, the new CABS, will enable the Department to have in its Child Care billing & reimbursement system, the time-tested efficiency and effectiveness that has been demonstrated by the COPA system in meeting the Department's Head Start requirements since 2004.

5. What other capabilities and/or capacity does the proposed firm possess which is necessary for the specific job, project or program which makes them the only source who can perform the work within the required time schedule without unreasonable costs to the City?

Nulinx’ professional staff; years of experience in serving the specific needs of governmental agencies; as well as the firm’s commitment to serve the Department’s needs will certainly guarantee that the Nulinx COPA solution will be an invaluable resource in the years ahead.
6. If procuring products or equipment, describe the intended use and explain any exclusive or unique capabilities, features and/or functions the items have which no other brands or models, etc. possess. Is compatibility with existing equipment critical from an operational standpoint? Explain why.

NA/Acquiring services.

7. Is competition precluded because of the existence of patent rights, copyrights, trade secrets, technical data, or other proprietary data? Attach documentation verifying such.

YES. Attached is a copy of the agency's previous agreement cover pages (2) which identifies the Nulinx agreement with the City as a software license agreement. (See Attachment V and VI)

8. If procuring replacement parts and/or maintenance services explain whether or not replacement parts and/or services can be obtained from any other sources? If not, is the proposed firm the only authorized or exclusive dealer/distributor and/or service center? If so, attach letter from manufacturer.

All submissions must include a complete C-1 and D-1 form, which is available on the Procurement Services page on the City's intranet site.

The vendor will be submitting a "No State Goals" letter requesting a waiver to the City's MBE/WBE requirements.

1. Explain other related considerations and attach all applicable supporting documents (an approved Information Technology Strategy Committee (ITSC) form, an approved Request for Individual Contract Services form, etc.)

On March 12, 2009, as part of the Procurement process for IT projects, FSS provided the IT Governance Board with information regarding Nulinx. The Governance Board reviewed and approved the Department's request to procure a Blanket Agreement for Nulinx.

Description

Nulinx International, Inc. is to provide the internet technology needed by the Department of Family and Support Services (FSS) to operate the Child Outcome Planning and Assessment (COPA) system. The COPA online system has three components which together enable the Department to meet its needs as it relates to child data management and related administrative processes:

- The COPA system’s main application tracks Head Start children’s enrollment and eligibility, while also providing monitoring and auditing functions. This application is a continuation of the Head Start project started in 2004 that has provided tracking and reporting information on approximately 90,000 children and families. A crucial aspect of information provided, includes the Program Information Report (PIR) data which describes important demographic information such as staffing and enrollment trends related to the Head Start program.

- The COPA application also has a communication component that allows for full intranet capabilities. The COPA Intranet system is comprised of the following: 1) FSSagency.com which allows agencies to communicate directly with each other and 2) FSSnet.com which allows FSS staff to communicate directly with each other. This communication system is comprehensive and allows FSS and its agencies to collaborate and share information in real time, which then allows these entities to address all changes and needs as they arise.

- The third component of the COPA system would be new for 2009 and is called CABS: the COPA Automated Billing System. CABS is designed to replace the Child Care Management Information System (CCMIS) and to track the requirements of the Child Care program, as well as billing and reimbursements of sites and delegate agencies. This new COPA component is expected to enhance the COPA system immeasurably, as it will combine the Head Start and Child Care programs onto one platform, thus saving the City thousands of dollars by eliminating inefficiencies created by multiple software solutions - such as wasted costs, duplicate data entry and tracking.

Other features of the COPA system include automated form updates, intranet archival capabilities, customized reporting and ongoing maintenance and support.

(See Attachments III & IV)
Time Frame

The COPA system is developed, and available for use at over 570 sites, 1600 classrooms and 2300 users.

Special Requirements/Qualifications

- The United States Department of Health and Human Services Head Start and State of Illinois Child Care programs require specialized software and expertise that are not readily available through other vendors. FSS needs the COPA system which has been exclusively designed by Nulinx to track and report data in compliance with the Head Start and Child Care funding requirements, and consequently, help to ensure that funding from these sources is maintained.

- Nulinx saves the City tens of thousands of dollars each year through COPA, because the system is readily available, extremely efficient, user-friendly, and highly customizable with its modular format. The Department’s use of COPA not only eliminates major costs that would be inevitable with the development and implementation of a similar system, but smaller costs are eliminated as well, because the system is subscription-based with no extra fees such as licensing, user, or site fees.

- Due to the fact that Nulinx has proprietary rights to COPA, Nulinx staff is uniquely qualified and experienced in providing needed maintenance and support.

- In summary, COPA is the only affordable, state of the art solution that the Department has identified which can provide specialized Head Start and Child Care tracking and reporting, in combination with site monitoring and work flow process, as well as billing and reimbursement features under one platform, while simultaneously providing intranet collaboration and communication.

Location

Nulinx was founded in California and has been solely dedicated to serving Head Start programs and child care providers since 2001 through its offices in Tarzana and Sherman Oaks California. COPA is available for not only FSS-CYS administrative staff but also for Head Start/Child Care agencies city-wide.
