Conference information as quoted from the promotional materials:

" What you will learn from the experts:

This year's keynote from Lee Kaiser will provide you with the knowledge to Minimize Fire Risk and Maximize Recovery in your mission critical facility.

- Understand "Mission Critical" and see if your facility is MC.
- Learn the impact of fires on businesses using case studies.
- Understand detection for special hazards.
- Learn best practices for data centers and pharmaceutical warehouses.
- Get advice on early response to fires and the various types of systems you can use.
- Contrast risk and recovery using carbon dioxide systems, clean agent systems and water mist systems.
- See predictions on future needs of Mission Critical facilities and their fire protection."

Cost of attendance of \$100.00 was covered by a grant provided by ORR Fire Protection. This is the grant application site link:
