Subject: Ethics Request Sans 401 Return Document

R/Sgt. is submitting this document in the full interest of disclosure and compliance with the ethics ordinance.

From 19-24-August 2019, R/Sgt. attended Sans Sec 401 Security Essentials Bootcamp Style at the Embassy Suites Magnificent Mile 501 N. Columbus Drive Chicago, IL in furtherance of his official duties as a Task Force Officer with the FBI Chicago Cyber Task Force. R/Sgt. attended the week long comprehensive training course for Cyber Security Professionals. Upon R/Sgt.'s successful completion of the associated examination for SEC401, R/Sgt. will receive the GSEC certification from GIAC, an industry standard and accepted Cyber Security credential.

The training and expenses (including testing fees) were paid for by the Federal Bureau of Investigation in accordance with the Memorandum of Understanding (M.O.U.) between the Federal Bureau of Investigation and the Chicago Police Department regarding the Chicago Cyber Task Force (CTF) dated 21-Dec-2015.

Per Section XI of the M.O.U. "All CTF-related travel of non-FBI personnel requires the approval of the CTF Supervisor and Participating Agency authorization prior to travel. To avoid delay in operational travel, the Participating Agency will provide general travel authority to all of its participating employees for the duration of the employee's membership in the CTF. For domestic travel, CTF personnel will be responsible for appropriate notifications within his or her Participating Agency, as well as standard FBI travel approvals and notification. The CTF will obtain FBI Headquarters authorization and country clearances for CTF personnel required to travel outside the United States. The FBI will pay costs for travel in accordance with the Federal Travel Regulations of all CTF personnel to conduct investigations outside the field office territory."

Sans SEC401 Security Essentials introduced students to the critical components of network security in an in-depth, comprehensive six-day course. R/Sgt. was instructed with essential, up-to-the-minute knowledge and skills required for effective performance when given the responsibility for securing systems and/or organizations. This course helps prepare attendees for the GIAC Security Essentials (GSEC) examination.

R/Sgt. attended this course and is following up in order to be compliant with the City of Chicago Ethics Ordinance.
