Hi Steve,

As per required after attending this meeting, I am submitting this summary:

I attended the Apple Local Government Forum co-hosted by CDW-g in Chicago from 9:30a to 12p where they highlighted mobile technology solutions focused on the following: Modernizing government agencies, Driving ROI through mobile app development, Maintaining security and privacy, and Simplifying management and deployment. They provided subject matter experts to help us gain insight into potential Apple solutions for government agencies that were in attendance at the meeting.

Thank you,  
Raed

PS – Only had a bottled water. Nothing vegan.
