Subject: Grubhub Donation

Good afternoon,

Grubhub reached out to the City to inquire about providing incentives for vaccination. They have offered to partner with us on our Protect Chicago At Home program to offer a \$50 Grubhub gift card to each household who books an appointment for at home vaccination. They will support 225 households per week for 8 weeks (\$90,000 donation) – a household will only be eligible for one gift card at the first dose visit. The gift cards will be printed and provided to the City and our mobile contractors will distribute them as they attend appointments.

They are also considering a donation for gift cards to each household that already received vaccination via this program but we are waiting to hear back on that.

Please advise if we need to take any further action to report the donation.
