Subject: Chicago Bears Second charitable donation - Family Fest Ticket - Incentivizing Covid vaccinations
Our client: Chicago Bears June 23, 2021

[Warning: External email]

Rich,

As a follow up to my prior email, our client, the Chicago Bears is also contemplating making a second donation to the City of Chicago. This latter donation will consist of 10 tickets (\$10. each) to the Bears Family Fest event at Soldier Field with a total cumulative face value of \$100.

Assuming permissible, the tickets will be transmitted to Elisa Sledzinska Project Coordinator, Department of Business Affairs and Consumer Protection who solicited the charitable tickets for a City sponsored Covid 19 vaccination promotion event scheduled for this Saturday, June 26th.

It should be noted again that the tickets are not to benefit any public official and that the recipients receiving the vaccine and tickets are not known to the club. The purpose of the donation is to encourage Chicago event attendees to get vaccinated.

In the event you have any questions, please do not hesitate to contact me. Thank you.
