Subject: Gift to the City

Comptroller Rehwinkel,

Last week I received a box of promotional materials from one of the vendors (Miovision) I work with in improving traffic signal technology. The items include a flashlight, a multi tip screwdriver, a measuring tape, a Swiss-army knife type multipurpose device, a hat, and a polyester bag. Although the items are promotional materials with the vendor's logo on these, I asked the Board of Ethics/Exec. Director Steve Berlin on what to do with these as it looked like the items together would cost more than \$50 in the open market. I understand the options I have with this gift is to return them, donate to charity, or accept it on behalf of the City and notify the Comptroller. I am opting for the third options, to accept these on behalf of the City, and plan to use these in our daily operations.

Please let me know if you need more information on these items.

Thank you,
Abraham

Abraham Emmanuel

Deputy Commissioner – Traffic Safety
Chicago Dept. of Transportation
