Good morning,

See attached

Let me know if you have any questions

Best,
Tracy Murray

I, Tracy Murray, Chief of Staff to 9th Ward Alderman Anthony Beale, traveled to New Orleans from May 15 to May 19, 2024, in an official capacity. The training, 'Undo Racism-Community Organizing,' which utilized 'The Principles of Anti-Racist Organizing' from The People's Institute for Survival and Beyond, was paid for by Main Street Now with the purpose of social transformation and strengthening the 9th Ward. The tools included organizing principles such as Undo Racism, Understanding History, Celebrating All Cultures, Collaborating, and Networking.

My attendance at this workshop aimed to equip me with skills on 'How to Better Serve My Community' and to apply these practices in the 9th Ward. The goal to equip and assist me as I educate local organizers with a historical approach, power analysis, and strategic planning to strengthen our community. The workshop's systemic approach emphasizes learning from history, developing strong leadership, maintaining accountability in communities, creating, collaborating, and growing networks to better serve and strength our community.

These tools will be used to build an effective movement for social transformation.

Sincerely,

Tracy Murray
Chief of Staff to
Anthony Beale
9th Ward Alderman
