Subject: Airport Cities Conference - April 22-28 2013

Steve,

Commissioner Andolino has returned from the Airport Cities World Conference & Exhibition (ACE) April 22-28, 2013. ACE is the annual meeting place supporting the airport city development and aerotropolis community.

ACE brings people working in airport development together and focuses on the concept of evolving an airport and its surrounding area into a unique business and tourist destination in its own right.

ACE, now reaching its 11th Anniversary, allows attendees such as real estate developers, industry suppliers and airport CEOs to share their knowledge, experiences and best practices with others interested in using the model to develop and expand their very own airport cities.

The conference organizers covered the cost of the Commissioner's flight, her hotel stay and conference registration fees.

Also, the Commissioner participated in a VVIP tour sponsored by KwaZulu Natal Tourism Board. She toured the King Shaka International Airport, the Dube Trade Port and other sites in Durban, South Africa. The flights to and from Durban, meals and 1 night hotel stay were picked up by the KwaZulu Natal Tourism Board

Sincerely,

Tracy L. Walsh
Assistant to the Commissioner
Chicago Department of Aviation
