Deputy Director

Steven J. Bertin

Yours very truly,

The staff's conclusion is based on the application of the City's Governmental Business Ordinance to facts stated in this letter. It requires stricter than those contained in the Police Ordinance.

[Handwritten note: "Your letter is in receipt of the City's Governmental Business Ordinance."

[Handwritten note: "The City's Governmental Business Ordinance does not authorize or permit the contracting or performing of contracts or from obtaining or operating under contract without compliance with the requirements of the City's Governmental Business Ordinance."

[Handwritten note: "The City's Governmental Business Ordinance requires that contracts be authorized and paid for by the School Board, and the School Board is the only authority to raise its own funds and authorize and approve the school board's powers and duties, and it grants the School Board"
