SECTION TWO – DFSS PROGRAM DESCRIPTION

A. Program Goals

Supervised Visitation and Safe Exchange for Domestic Violence programs consider as their highest priority the safety of child(ren) and adult victims when providing visiting parents with opportunities to visit with child(ren) of whom they do not have custody. Supervised Visitation services protect the safety of the custodial parent and the child (ren) during a supervised visit between the visiting parent and the child (ren). Safe exchange services protect the safety of the custodial parent during the transfer of child (ren) to the visiting parent for an unsupervised visit. Safety is facilitated by structural elements of the facility such as separate parking lots, entrance and exits, and waiting rooms for custodial and visiting parents. Additionally, staggered arrival and departure times and security cameras are utilized to augment safety. Supervised Visitation and Safe Exchange services covered by this grant are court-ordered due to a history of intimate partner violence between the custodial and visiting parents.

B. Target Population

Any Chicago resident (and their children) who has been the victim of intimate partner violence and has been court-ordered to utilize a supervised visitation and safe exchange program is eligible for services. At least one parent must be a resident of the City of Chicago. Delegates must be able to offer services to underserved populations including undocumented victims, those whose do not speak English, male victims, those who are disabled, and LGBTQ victims.

2019 SCOPE OF SERVICES

SECTION THREE – REQUIRED CORE PROGRAM ELEMENTS

Delegates must deliver, at a minimum, all of the following services:

- Respond to service requests within 48 hours
- Develop a visitation plan and facilitate court-ordered supervised visitation between visiting parent and child (ren).
- Monitor visits to assure appropriate interaction between visiting parent and child(ren)
- Facilitate safe exchanges of child (ren) from custodial parent to visiting parent, monitoring compliance with time allotted for visit, and facilitating the safe exchange of child (ren) back to custodial parent.
- Provide a secure location for a supervised visitation program and determine the ability to also conduct safe exchanges at the location
- Develop program policies and procedures for ongoing safety for the custodial parent and child(ren) from the visiting parent
- Develop security policies and protocols that meet the safety needs of the community and individuals using the facility including the use of security personnel and security devices.
- Develop criteria by which cases are rejected, suspended, or terminated if the safety needs of custodial parent, visiting parent, or child (ren) cannot be met.
- End visits, or do not allow exchanges to take place, if parents engage in behavior that compromises or endangers the emotional or physical safety of child (ren), the custodial parent, Applicant staff or other individuals. Prior to terminating a visit and if it is safe to do so, the Applicant staff can attempt to redirect or stop a parents behavior.
- In order to ensure the physical, auditory, and visual separation of custodial and visiting parents while on-site, facilities must have the following structural and safety elements in place as provided in the U.S. Department of Justice, Office on Violence Against Women “ Guiding Principles for Safe Havens: Supervised Visitation and Safe Exchange Grant Program”:
 - Use staggered arrival and departure times. DFSS recommends at least a 15 minute gap between the time visiting and custodial parents arrive as an added precaution. If the visiting parent is running late, DFSS recommends that the delegate call the custodial parent to delay their arrival time.
 - Provide separate entrance and exits for custodial and visiting parents to decrease the likelihood that parents will come into contact with one another while traveling to and from the center.
 - Allow custodial parents to wait on- or off-site, based on the safety needs, age and developmental stage of the visiting child (ren). The waiting area must be secure and not in a location accessible to the visiting parent. DFSS requires the waiting areas have doors that can be secured by the Applicant. DFSS recommends that the visiting parent should not be able to hear the custodial parent or determine where he/she is waiting in the facility as additional safety precaution.

- Maintain security cameras. DFSS recommends that the security cameras are installed in strategic locations, including entrances for custodial and visiting parents, on elevators, stairwells and throughout the facility to ensure the safety of the child (ren), custodial parent and visiting parent.
- In circumstances where such features are not available, the Applicant must develop and implement enhanced procedures to ensure the safety of all clients, and that custodial and visiting parents do not come in contact with one another. If the Applicant plans to make facility improvements to improve the physical, auditory, and visual safety features of the facility during the contract term, that plan along with the enhanced safety plans and procedures must be submitted with the contract paperwork. DFSS may visit the proposed locations to examine the facility design to ensure the proposed facilities will decrease the opportunity for parents to come into contact with one another.
- Coordinate victim care within the agency and with other agencies to expand the range of services available to victim
- Provide referrals to survivors in need of services beyond SVSE, including, but not limited to housing, food, transportation, public benefits, job training, medical care, etc.
