DESCRIPTION OF PROGRAM AND ACTIVITIES - ALL PROGRAMS

Please review the Core Elements of the program model in Section B. In a brief statement, please describe
activities to be performed to address the needs of the target population and achieve key performance
outcomes, focusing on activities not captured in Core Elements. If relevant, describe coordination with other
source(s)/partner(s). This section is expected to describe the program(s) at full operational capacity.

SECTION B - PROGRAM GOALS AND CORE ELEMENTS

DFSS Homeless Division Goals

The DFSS Homeless Services Division seeks to create an effective crisis response system that prevents homelessness whenever possible and rapidly returns people who experience homelessness to stable housing.

Program Goals

The goal of the shelter system as a whole is to provide a safe, accessible place to stay for those experiencing homelessness and to move them towards and into appropriate and stable permanent housing. Shelters achieve this ultimate goal by connecting homeless households with appropriate housing options as well as other services and community resources that will help them obtain or maintain housing (including building income and addressing a variety of physical, mental, emotional, and other needs).

Target Population

The target population for shelters is households that are literally homeless (in accordance with the federal <u>HEARTH definition</u>). Sub-populations include single adult men, single adult women, families, and youth. Programs may also specialize in serving the following groups:

- Victims of domestic violence
- Medically vulnerable (i.e., those discharged from hospital but still significantly ill or injured)
- LGBTQA persons
- Those with limited English proficiency (in recent years, Spanish and Polish speakers have been most common)
- Sex-offenders (who cannot be served at many locations due to zoning and proximity to children)
- Seniors (age 60+)
- Persons with disabilities who require ADA and Section 504 compliant facilities

Core Elements

All Interim Shelters

Interim shelters can provide a variety of services and/or linkages dedicated to re-housing clients as quickly as possible. They are open 24-hours with assigned bunks/beds and offer a broader range of amenities (e.g. showers, storage, laundry).

Interim shelters should provide high-quality, case management focused on housing placement and increasing income. Case management approaches should reflect best practices in the field including individualization, strengths-based approaches, client-driven goal setting, and providing patient and consistent support. These shelters also ensure access to other services (through direct provision or linkages to other providers and community resources) that can address client needs and support their journey into housing including but not limited to: benefits screening, physical and mental health services, substance abuse treatment, employment/job readiness services. Shelters should strive to provide these services and linkages in a coordinated, client-centered manner. Shelters serving families should also meet the needs of children including appropriate connections to care and education (e.g. children over 5

are attending school, children under 5 are connected to appropriate developmental screenings, early childhood education programs, and other childcare resources). Once clients are housed, shelters should ensure they are connected to other local community resources that can provide ongoing support to ensure they remain housed.

DFSS expects interim shelters to take robust approaches to diversion which may involve problemsolving conversations, crisis resolution, identifying community supports, and offering lighter-touch solutions. Shelters can also offer creative solutions to housing clients who are unlikely to be prioritized for CoC housing resources distributed through the CES process.

Enhanced or Specialized Services

Enhanced shelters provide a set of specialized and/or more intensive services that address the needs of different sub-populations with the goal of moving households into appropriate and stable permanent housing. Staff should be specially trained to address the needs of the intended clients. Based on the model, enhanced shelters may offer case management at lower caseload ratios and may provide a broader array of services in-house than other interim shelters.

- <u>Domestic violence (DV) interim housing</u>: Domestic violence shelters will provide a set of services specific to this population including crisis and domestic violence counseling, safety planning and assessment, and legal advocacy for Orders of Protection. Regulations governing DV shelters will differ from other shelters to reflect the heightened safety needs of this sub-population. DV shelters will have a safe, undisclosed location for all services and are not required to enter data into HMIS.
- Youth interim housing (ages 14-24): Shelters serving youth should follow the core elements of the youth interim program model including developmentally-appropriate case management and psychosocial assessment, life/independent living/interpersonal skills training to help young people transition to living on their own, and safety assessments. These shelters must be welcoming and easy to access for the diverse youth outlined in the target population description above. Staff should also be trained in positive youth development and have experience in working with vulnerable youth and their families.

SECTION C - PERFORMANCE MEASUREMENT

Overview

DFSS is committed to moving beyond measuring *how many* people receive services, to focus on whether Chicagoans are *better off* after receiving services. As part of this outcome-oriented approach, DFSS has implemented a Strategic Framework that guides how the department measures, reports on, and reviews its priorities and outcome goals, and uses them to drive contracting, decision-making and greater collaboration.

The DFSS Homeless Services Division seeks to actively and regularly collaborate with delegate agencies to enhance contract management, improve results, and adjust program delivery and policy based on learning what works.

Performance Indicators

To track progress toward achieving our goals outlined in Section B assess success of the program, DFSS will monitor a set of performance indicators that may include, but are not limited to:

- Percentage and number of participants who exit shelter to permanent (or more stable) housing.
- Percentage and number of participants who exit shelter to permanent (or more stable) housing at each of these time intervals: within 120 days, 180 days, and 270 days of entry.
- Percentage and number of households assessed for the Coordinated Entry System.
- Percentage and number of households without source of non-cash benefits at entry that obtained non-cash benefits through mainstream resources.
- Percentage and number of households that return to homelessness.

To monitor and recognize intermediate progress toward the above performance indicators, DFSS also intends to track output metrics across all shelter programs that may include, but are not limited to:

- Average length of stay in shelter.
- Utilization of shelter bed capacity.
- Number of participants enrolled.
- Number of participants diverted.
- Percent exiting to another homeless services location.

DFSS may also monitor metrics specific to different types of interim shelter programs, including but not limited to:

- For domestic violence interim housing programs:
 - Percentage of households that learn about safety planning and the cycle of violence, respectively
- For youth interim housing programs:
 - Percentage of participants increasing community connection and support as evidenced through eco-map or comparable evidence-based tool
 - Percentage of participants engaged in programs or services designed to increase employment readiness

The DFSS Homeless Services Division will work with the delegate community to further develop this measurement framework to ensure appropriate metrics are tracked for specific programs and subpopulations. DFSS is especially interested in monitoring trends in performance over time, with the goal

of continuous improvement against these metrics.

DFSS will also continue to seek alignment with the Chicago Continuum of Care Program Models Chart to improve consistency with performance measurement across DFSS and Continuum of Care funded programs. Depending on funding stream, outcomes in addition to the program models targets will be included for some program types. DFSS reserves the right to revise scopes of service when further guidance is issued on system-wide performance standards.

Data Reporting

The parties recognize that reliable and relevant data is necessary to create a common understanding of performance trends, ensure compliance, evaluate program results and performance, and drive program improvements and policy decisions.

To the extent possible, DFSS will collect performance data from the **Homeless Management Information System (HMIS)**. Programs, with the exception of Domestic Violence programs, are expected to participate in the HMIS system. (Domestic Violence programs must use a compatible system.) Requirements include:

- Enter data into HMIS within 2 days of client interaction, and adhere to required data standards based on project type as outlined in the HMIS Data Standards Manual and as prescribed by the HMIS Lead Agency.
- Participate and be compliant in the HMIS Quarterly Data Assessment clean-up process.

Where HMIS data is insufficient, DFSS reserves the right to request/collect other key data and metrics from delegate agencies, including client-level demographic, performance, and service data. Requested data shall include, but may not be limited to, aggregate and individual-level information on:

- Clients referred for services, enrolled in services, and discharged from services
- Activities undertaken by the delegate agency to service clients referred for services, and the timeliness of those activities
- Findings of assessments completed by the delegate agency in the course of delivering services
- Client outcomes during and following service delivery
- Utilization and spending against contract award

Delegate agencies will be expected to collect and share data with DFSS according to the format, frequency, and submission protocol specified by DFSS. Delegate agencies agree to make reasonable efforts to collect additional data related to performance as requested by DFSS.

Meetings

Regular reviews of and conversations around program performance, program results and program data, particularly related to the goals outlined in this agreement, will allow DFSS and the delegate agencies to employ real-time information to track performance, identify good practice, and swiftly, collaboratively, and effectively address any challenges experienced on the ground by delegate agencies and the target population.

At such meetings, the parties will review data and reports to:

- a) Monitor progress, highlight accomplishments, and identify concerns
- b) Collaboratively design and implement operational changes to continuously improve processes and outcomes

c) Develop strategies on broader systems changes to improve service delivery and coordination between services

Periodic meetings may take place according to a schedule to be established by DFSS, with reasonable notice provided for delegates.

. . .

Meetings shall include, at least, the DFSS Division Director, or designee, and the delegate agency's chief executive officer, or designee. Each party may be represented by additional representatives as such party deems appropriate. DFSS may request the attendance of additional parties as it deems appropriate. Representatives from delegate agencies will attend all meetings as requested by the Department. Meetings may take place individually or jointly with other delegate agencies.

Uses of Data

DFSS reserves the right to use data related to delegate agency performance, including but not limited to data submitted by the delegate agency, for the following:

- a) In the periodic meetings described above to review program performance and develop strategies to improve program quality throughout the term of the contract.
- b) To guide DFSS program development, evaluate programs, inform policies, and inform contract decisions such as payment rates, contract extensions or renewals, and evaluation of proposals by the delegate agency in response to any future solicitations by DFSS for goods or services.
- c) Any other purposes identified by DFSS.

SECTION D - REQUIREMENTS

Program Requirements

Programs must adhere to the standards set forth in the **HEARTH Act**, see https://www.hudexchange.info/homelessness-assistance/hearth-act/. Agencies are responsible for learning about any revisions or updates to the legislation throughout the course of the contract and revising policies and procedures as necessary.

Programs must adhere to the Core Values and Core Elements of homeless services programming, as defined by the Chicago **Continuum of Care** in the **Program Models Chart**, as well as the Essential Elements for the appropriate program model, see

https://allchicago.org/sites/allchicago.org/files/2014_PMC_Updated_February_2017.pdf. Agencies are responsible for awareness and adherence to the most recent version of the Program Models Chart.

Programs must participate in the **Coordinated Entry System** (CES) and follow CES Policies and Procedures as detailed for the appropriate program model, see https://www.csh.org/chicagoces/.

Additional and Priority DFSS Requirements for All Programs

• Family preservation: Programs designated to serve families with children under 18 shall not deny admission to any family based on the age of any child under age 18, family composition or the marital status of the adults in the family. Families with children who are 18 years of age or older and are still enrolled in and attending high school should not be separated. Families served must consist of one or more dependent children in the legal custody of one or more adults who, prior to losing housing, were living together and working cooperatively to care for the children. This definition includes two-parent and one-parent families, including those with same-sex partners, families with intergenerational and/or extended family members, unmarried couples with children, families that contain adults who are not the biological parents of the children, and other family configurations.

To reflect this family preservation policy, delegate agencies must have written standards for eligibility that promote access to program services for all families, regardless of the age of children, family composition or marital status.

- Programmatic changes: Please note if there are any changes to your staff, facility, facility
 location or Scope you must notify in writing to your DFSS Program Liaison and Director of
 Homeless Services Division.
- Participation in system activities:
 - Assist DFSS in responding to extreme weather emergencies.
 - Participate in the Annual Homeless Point in Time Count and other special initiatives as required by DFSS.
 - When requested, conduct Yearly Public Health and Fire inspections in collaboration with DFSS and other appropriate entities.

- Must voucher monthly. Below illustrates what percentage of the grant should be expended quarterly.
 - First quarter 25%
 - Second Quarter 50%
 - Third Quarter 75%
 - Fourth Quarter 100%

Additional requirements if applicable:

- All agencies that work with children shall be in compliance with the Illinois Child Abuse and Reporting Act; employees shall complete the Mandated Status Form & it must be kept filed at agency.
- Background checks are required for programs whose staff and volunteers have interaction with children.
- All agencies that handle food must have appropriate staff with food handler certificate.

DFSS Requirements for Shelter Programs

Shelters must:

- Provide daily data for the DFSS Catholic Charities Shelter Bed Clearinghouse and the Salvation Army Emergency Homeless Assessment and Response Center (EHARC).
- Inform participants of their rights, responsibilities, and expectations.
- Have written policies and procedures for intake, grievance, and how conflicts and other crises will be addressed and resolved.
- Accept clients over the weekends.
- Submit the Quarterly Bed bug certification.
- Submit bed census reports upon request.
- Ensure that all children ages 0 to 5 receive development screenings (either direct or through Child Find)
- Ensure that all children ages 5 and up are enrolled and are attending school regularly.
- Comply with applicable local fire, environmental, health, and safety standards and regulations which apply to the safe operation of the shelter.
- Be maintained in clean and sanitary condition.

Shelters must not:

- Conduct pre-intake interviews prior to a family's arrival in shelter.
- Maintain a waiting list.
- Require clients to participate in any religious services or other forms of religious expression.

SECTION E - SUBMITTAL AND APPROVAL

CERTIFICATIONS:

□ By checking this box your agency certifies that all information provided in the Scope of Services is correct and that the agency will comply with the requirements listed in the Scope of Services.
