**SECTION TWO – DFSS PROGRAM DESCRIPTION**

**A. Program Goals**

The purpose of the Supervised Visitation and Safe Exchange (SVSE) program is to increase victim safety by providing SVSE services to custodial parents, visiting parents, and their children in a safe environment.

The SVSE program’s highest priority to be the safety of children and adult victims when providing visiting parents with opportunities to visit with their children. Therefore, the target population for this program is victims of intimate partner violence and their children. SVSE services are court-ordered based on findings by a judge of intimate partner violence by the visiting parent. SVSE services protect the safety of the custodial parent and the children during a supervised visit between the visiting parent and the children through staff-monitoring of the visit and separating the parents before, during, and after the visit. Safe Exchange services protect the safety of the custodial parent during the transfer of children to the visiting parent for an unsupervised visit, and by separating the parents before, during, and after the exchange and monitoring the return of the children from the visit.

**B. Target Population**

The program is targeted to those who have been court-ordered for SVSE services, based on findings from a judge that visitation or exchange between the visiting parent and children must be monitored by third party social services. The program targets intimate partner violence

victims and persons with whom they have children in common. Only one parent must be a city of Chicago resident.

### **SECTION THREE – REQUIRED CORE PROGRAM ELEMENTS**

Delegates must deliver the following services.

#### Accepting Participants

- Respond to service requests within 48 hours of their referral from court.
- Conduct individual intake/orientation sessions with new participants. Develop a visitation plan and facilitate court-ordered visitation between visiting parent and children.
- Provide culturally competent supervised visitation services that accommodate individuals who speak languages other than English; offer services to underserved populations including undocumented individuals, male victims, visitation units comprised of same-sex parents, those who are disabled, and LGBTQ individuals.

#### Advising Participants

- Each staff person providing services must have 40 hours of domestic violence training from an agency authorized by the Illinois Certified Domestic Violence Professional Board. For new or untrained staff, training must be completed within 90 days of hire or contract start date.
- Each staff person providing services must comply with the State of Illinois Mandated Reporter Training requirement.
- Conduct an assessment with the custodial parent, visiting parent, and children to assess their safety during services and ability to comply with court order.
- Provide explanation of victim rights and legal protections under the IDVA as needed.
- Provide explanation of how to obtain or modify an Order of Protection as needed.
- Ongoing assessment of the custodial parent and children to provide comprehensive services such as crisis intervention counseling, parental support, and training, as well as individual and group counseling. These services may be provided directly or through a formal linkage agreement.

#### Facility

In order to ensure the physical, auditory, and visual separation of custodial and visiting parents while on-site, facilities must adhere to the following structural and safety elements in place as provided in the U.S. Department of Justice, Office on Violence Against Women “Guiding Principles for Safe Havens: SVSE Grant Program”:

- Provide **separate entrance and exits** for custodial and visiting parents to decrease the likelihood that parents will come into contact with one another while traveling to and from the center.
- Coordinate **staggered arrival and departure times**. DFSS recommends at least a 15-minute gap between the time visiting and custodial parents arrive as an added precaution. If the visiting parent is running late, DFSS recommends that the delegate call the custodial parent to delay their arrival time.
- **Allow custodial parents to wait on- or off-site**, based on the safety needs, age, and developmental stage of the visiting children. The waiting area must be secure and not in a location accessible to the visiting parent. DFSS requires that the facilities have separate waiting areas for custodial and visiting parents. DFSS recommends that the visiting parent should not be able to hear the custodial parent or determine where he/she is waiting in the facility as additional safety precaution.
- **Maintain security cameras**. DFSS recommends that security cameras are installed in strategic locations, including entrances for custodial and visiting parents, on elevators, stairwells, and throughout the facility to ensure the safety of the children, custodial parent, and visiting parent.
- In circumstances where the above mentioned structural and safety elements are not available, the program must provide procedures to ensure the safety of all clients and that custodial and visiting parents do not come in contact with one another.
- Services may be provided remotely via telephone, video, or other methods if extenuating circumstances preclude the use of in-person visits and the services do not violate the court order for services where deemed appropriate.

#### Minimizing Victim Risk

- Where applicable, create a victim-led plan for ongoing safety for the custodial parent and children from the visiting parent.
- Facilitate safe exchanges of children from custodial parent to visiting parent, monitoring compliance with time allotted for visit, and facilitating the safe exchange of children back to custodial parent.
- Facilitate safe exchanges and visits while maintaining victim and child safety and confidentiality.
- Develop and keep current program policies and procedures for ongoing safety for the custodial parent and children from the visiting parent for both in-person and remote services.
- Develop and keep current security policies and protocols that meet the safety needs of the community and individuals using the facility including the use of security personnel and security devices.
- Develop criteria by which cases are rejected, suspended, or terminated if the safety needs of custodial parent, visiting parent, or children cannot be met.

- End visits or monitored virtual visits, or do not allow exchanges to take place, if parents engage in behavior that compromises or endangers the emotional or physical safety of children, the custodial parent, program staff, or other individuals. Prior to terminating a visit and if it is safe to do so, the program staff must attempt to redirect or stop a parent's behavior.
- Report incidents to DFSS immediately and provide written incident reports within 24 hours.

#### Provide Referrals

- Coordinate victim care within the agency and with other agencies to expand the range of services available to victims, children, visiting parent, or persons that do harm.
- Provide referrals to the Illinois Domestic Violence Hotline.
- Provide referrals to survivors in need of services beyond SVSE, including, but not limited to DFSS coordinated social services, including domestic violence, housing, food, transportation, public benefits, job training, and others such as case management, medical care, and behavioral health services as needed.
- Provide information and referral for the visiting parent for comprehensive services as needed, including referral to an Illinois Department of Human Services accredited Partner Abuse Intervention Program (PAIP) or other services for persons that do harm.
- Provide information and/or referral for legal advocacy, if needed, for any *ongoing* abusive behavior by either party.

#### Maintain Confidentiality

- Maintain confidentiality of custodial and visiting parents' and their children's information as required in the IDVA. Ensure staff expertise that prevents disclosure of confidential parent data or information.

#### Quality Improvement

- Facilitate victim completion of DDV-issued Evaluation of Services surveys and submission of surveys to the DDV.
- Ensure that custodial and visiting parents complete the victim outcome survey.
- Use victim outcome data to inform program improvement.
- Collect victim feedback on satisfaction with services.
- Use victim feedback to inform program improvement.
- Provide staff with training opportunities during the contract period intended to enhance victim services.

### Community Education and Outreach

- Provide ongoing public education workshops to educate the community about the nature, dynamics, and impact of domestic violence.
- Provide ongoing trainings to stakeholders and court personnel to educate about the benefits of the SVSE model and the availability of services to all races, gender identities, and sexual orientations.
- Participate and collaborate as needed with the Justice for Families (JFF) Initiative in a consulting or advisory role.

### **SECTION FOUR – PERFORMANCE MEASURES**

To track progress toward achieving the outcome goals of this program and assess success, DFSS will monitor a set of performance indicators that may include, but is not limited to:

- 80% of scheduled supervised visits are attended by both custodial and visiting parents.
- 80% of scheduled safe exchanges are attended by both custodial and visiting parents.
- 80% of victims surveyed agree they know more about available community resources.
- 80% of victims surveyed agree that they felt supported in making their own decisions.
- 80% of victims surveyed agree that they felt safe from their abuser while at the center.

To monitor and recognize intermediate progress toward the above performance indicators, DFSS also intends to track output metrics that may include, but are not limited to:

- Number of participants enrolled.
- Number of participants who discuss safety options with their worker.
- Number of participants who receive an explanation of their rights under the IDVA.
- Number of community education/awareness workshops presented by delegate that educate attendees about the dynamics of domestic violence and highlight the benefits of the SVSE model.
- Number of visiting parents referred to PAIP or other services through an approved linkage agreement.
- All adult clients will be requested to complete an Evaluation of Services Survey.

In addition to race and ethnicity (demographic data required by CDBG), DFSS may also track victim outcomes as a factor of sexual orientation, gender identity, and other underserved groups for the purpose of ensuring equity in services and outcomes through data collected by DFSS or in InfoNet.

Delegate agencies will be expected to collect and share data with DFSS in a format specified by DFSS. DDV seeks to actively and regularly collaborate with delegate agencies to enhance contract management, improve results, and adjust program delivery and policy based on

learning what works. As such, DFSS reserves the right to request/collect other key data and metrics from delegate agencies and set expectations for what this collaboration will look like in any resulting contract.

### **Data Reporting**

The agency will be expected to collect and share data with DFSS according to the format, frequency, and submission protocol specified by DFSS. The parties recognize that reliable and relevant data is necessary to create a common understanding of performance trends, ensure compliance, evaluate program results and performance, and drive program improvements and policy decisions. As such, DFSS reserves the right to request/collect other key data and metrics from delegate agencies including client-level demographic, performance, and service data in a format specified by DFSS.

The agency agrees to the following reporting requirements:

- Quarterly Reports detailing services provided. Data provided will include work plan services funded through this contract and all other funding sources. Format will be provided.
- InfoNet data detailing services provided. Data provided will include work plan services funded through this contract and all other funding sources. Format is the InfoNet database.
- Monthly Meetings with DFSS staff, if required.
- Narratives in the quarterly report that may highlight a particular case or services provided to victims of intimate partner violence or teen dating violence that demonstrate value in the ongoing services or a gap in services.

### **Uses of Data**

DFSS reserves the right to use data related to delegate agency performance, including but not limited to data submitted by the delegate agency for the following:

- a) In periodic meetings described below to review program performance and develop strategies to improve program quality throughout the term of the contract; and
- b) To guide DFSS program development, evaluate programs, inform policies, and inform contract decisions such as payment rates, contract extensions or renewals, and evaluation of proposals by the delegate agency in response to any future solicitations by DFSS for goods or services.

### **Meetings**

Regular reviews of and conversations around program performances, program results and program data, particularly related to the goals outlined in this agreement, will allow DFSS and the delegate agency to employ real-time information to track performance, identify good practices, and swiftly, collaboratively, and effectively address any challenges experienced by the target population.
