ACCESSIBILITY FOR PERSONS WITH DISABILITIES

DFSS is committed to ensuring that all individuals requesting program assistance provided by the Homeless Services Division have access to homeless shelters and any of its related services. To ensure this access, DFSS has listed policies that DFSS staff and the Delegate Agency must follow in working with persons with disabilities.

Check either Yes or No for each site location to inform DFSS if the Delegate Agency:

- a) is compliant with the **Americans with Disabilities Act (ADA)**. For more ADA information, refer to <https://www.ada.gov/>; and/or
- b) adheres to policies ensuring accessibility for persons with disabilities via **Section 504** which includes **Reasonable Accommodations**. For more information, refer to https://www.hud.gov/program_offices/fair_housing_equal_opp/disabilities/sect504faq

Section 504 requires DFSS and the Delegate Agency to take proactive steps to ensure equal access for homeless persons with disabilities, as long as such actions do not require a fundamental alteration of the program or impose an undue financial and administrative burden. This means that DFSS and Delegate Agency must ensure that homeless persons with disabilities are able to request shelter, access shelter, and benefit from services provided in shelters.

Adherence with Section 504 policies includes ensuring reasonable accommodation for persons with disabilities. A reasonable accommodation is a change, adaptation, or modification to a policy, program, or service that will allow a qualified person with a disability to participate fully in a program or take advantage of a service. For DFSS and its Delegate Agencies, this includes locating and accessing emergency shelters, including public and common use spaces, and participating in services offered to clients at these facilities.

DESCRIPTION OF PROGRAM AND ACTIVITIES – ALL PROGRAMS

Review Section B – Program Goals within this Scope of Services, focusing primarily on the Core Elements to better serve the Target Population. In a brief statement, describe activities performed by your program to achieve the program model's goals and its Section C – Performance Measures. If relevant, describe coordination with other source(s)/partner(s). This section describes the program's actions at full and optimum operational capacity to meet requirements and outcomes.

--

SECTION B – PROGRAM GOALS

DFSS HOMELESS DIVISION GOALS

The DFSS Homeless Services Division seeks to create an effective crisis response system that prevents homelessness whenever possible and rapidly returns people who experience homelessness to stable housing. The Division does this by supporting a range of services and infrastructure for people experiencing (or at risk of) homelessness including prevention, shelter, outreach, and engagement, housing supports, and system planning/coordination efforts. The Division also works closely and collaboratively with the Chicago Continuum of Care (CoC), the CoC's designated Collaborative Applicant (All Chicago), the CoC's Coordinated Entry System (CES), other City agencies, and community-based organizations to coordinate across the broader ecosystem of homeless services in the City towards the ultimate aim of preventing and ending homelessness in Chicago.

DFSS is committed to working with its partners to build and advance equity goals, with the recognition that identifying and addressing systemic racism and inequity within homeless services, programs, and policy is critical to our goal of preventing and ending homelessness.

PROGRAM GOALS

The goal of Youth Transitional Housing is to quickly house young people experiencing housing instability while providing the developmentally appropriate support needed for them to remain stably housed and build a foundation for success in the future. Programs must provide young people, with a variety of unique needs, with appropriate housing and support services and connection to benefits, education and employment support, legal aid, leadership opportunities, and links to physical and mental health care are integral to the success of Youth Housing Supports.

Youth Transitional Housing is part of a broader system oriented toward ensuring that youth experiencing homelessness are quickly housed and connected to the support they need to thrive as soon as possible. In 2019, the Chicago CoC's Youth Sector and Youth Action Board, with the support of a national consultant, created the [Chicago Youth Sector Housing Program Model Design](https://allchicago.org/wp-content/uploads/2020/01/Chicago-Youth-Sector-Program-Model-Design.pdf) (<https://allchicago.org/wp-content/uploads/2020/01/Chicago-Youth-Sector-Program-Model-Design.pdf>). This document outlines mutually agreed-on philosophies and values, the array of housing models needed in Chicago, and aspirational program standards critical to increase system effectiveness.

Transitional housing is a housing intervention that provides youth with medium-term housing and supportive services with a connection to stable/permanent housing. Transitional housing programs are designed to empower youth in achieving self-sufficiency and housing.

TARGET POPULATION

The target population is unaccompanied or parenting youth who are currently experiencing housing instability. The age range for these programs is 14 years old up to the young person's 25th birthday at time of enrollment. Unaccompanied refers to young people experiencing housing instability not part of a larger family structure.

SECTION C – PERFORMANCE MEASURES

PERFORMANCE MEASURES

To track progress toward achieving the outcome goals of this program and assess success, DFSS will monitor a set of performance indicators that may include, but is not limited to:

- The core outcome for youth transitional housing is stabilization and connection to permanent housing. Metrics for this are:
 - 70% of participants will exit to stable housing
 - 50% of participants without a source of reportable income will report an increase in cash benefits or income
- To monitor and recognize intermediate progress toward the above performance indicators, DFSS also intends to track output metrics that may include, but are not limited to:
 - 50% of participants will exit with employment
 - 50% of participants will exit with a high school diploma or will be enrolled in an educational program (high school, GED prep classes, vocational training, college)
 - Reduction to the average number of days between referral and placement
- DFSS will also monitor the above metrics by race, ethnicity, gender, age, and other characteristics as appropriate to track equity in outcomes and outputs.

The specific targets above were established by the CoC for these types of programs. The Chicago CoC is currently refining outcome measures for youth programs as part of a [system wide performance refinement](#). DFSS will work with delegate agencies to update performance measures as the CoC finalizes the revisions to the Program Model chart.

In addition to the performance indicators and output metrics listed above, DFSS is interested in reviewing the program performance with an equity lens focusing on LGBTQ youth and youth of color. DFSS also encourages Respondents to propose additional indicators and metrics, including those that demonstrate early success and are indicative of the participants' progress.

Within this framework, DFSS is focused on continuous improvement against these metrics. We are committed to working with delegate agencies to monitor performance against these indicators, including establishing relevant baselines or benchmarks and sharing data with delegate agencies to assess and understand our progress. DFSS expects that performance by these metrics will vary by sub-population served, and DFSS will continue to work with the delegate community to understand the factors influencing performance and to set appropriate performance expectations based on specific programs and sub-populations.

DFSS plans to track performance throughout the term of the contract and will use this information (including absolute and relative performance on metrics and improvement over time) to inform future funding decisions. DFSS therefore may add metrics in contracts as we continue to refine our approach to understanding and managing performance in upcoming contracts and over the years to come.

Programs shall collect programmatic data within the Chicago Homelessness Management Information System (HMIS) and are expected to comply with the [Chicago Data Quality Plan](https://hmis.allchicago.org/hc/en-us/articles/115005316526-Chicago-HMIS-Data-Quality-Plan) (<https://hmis.allchicago.org/hc/en-us/articles/115005316526-Chicago-HMIS-Data-Quality-Plan>).

DATA REPORTING

As part of DFSS' commitment to become more outcomes-oriented, the Homeless Services Division seeks to actively and regularly collaborate (such as periodic meetings) with delegate agencies to review program performance, learn what works, and develop strategies to improve program quality throughout the term of the contract. Reliable and relevant data are necessary to ensure compliance, inform trends to be monitored, evaluate program results and performance, and adjust program delivery and policy to drive improved results. As such, DFSS reserves the right to request/collect other key data and metrics from delegate agencies, including client-level demographic, performance, and service data, and set expectations for what this collaboration, including key performance objectives, will look like in any resulting contract.

Upon contract award, delegate agencies will be expected to collect and report client-level demographic, performance, and service data as stated in any resulting contract. These reports must be submitted in a format specified, and by the deadlines established by DFSS.

Delegate agencies must implement policies and procedures to ensure privacy and confidentiality of client records for both paper files and electronic databases. Homeless Services Division delegate agencies, except for domestic violence organizations, must use HMIS to track data and produce required reports. All Chicago administers Chicago CoC's HMIS. For more information about accessing HMIS and training, please visit: (<https://hmis.allchicago.org/hc/en-us/articles/360021285732-Getting-HMIS-Training-Step-by-Step-How-To-Get-Trained-in-HMIS-for-Supervisors-and-Staff>).

USES OF DATA

- c) Any other purposes identified by DFSS.

ACTIVE CONTRACT MANAGEMENT (MEETINGS)

Periodic meetings may take place, as scheduled by DFSS with reasonable notice to the Delegate Agency. The meetings will utilize program data, reporting and other relevant information to actively manage the Delegate Agency's performance and progress towards goals set in the Scope of Service. During these meetings, Agencies are encouraged to raise any concerns or challenges they are having in serving their target population.

DFSS intends to utilize Delegate Agency performance data in these meetings, with the goals of:

- a) Monitoring performance progress, highlighting accomplishments, and identifying concerns.
- b) Engaging in collaborative continual improvement processes regarding the outcomes and operations of delegates.
- c) Developing system-wide strategies that improve service delivery and coordination between program models.
- d) Discussing challenges and successes pertaining to program goals, performance measures, and requirements to be adhered to by the Delegate Agency.

Meetings shall include, at least, the DFSS Division Director or designee, and the Delegate Agency's Chief Executive Officer or designee. Each party may be represented by additional representatives as such party deems appropriate. DFSS may request the attendance of additional parties as it deems appropriate. Representatives from the Agency will attend all meetings as requested by DFSS. Meetings may take place individually or jointly with other Delegate Agencies.

SECTION D – REQUIREMENTS

PROGRAM REQUIREMENTS

Successful programs will incorporate the following best practices:

- Youth-dedicated shelters must provide unaccompanied youth experiencing homelessness with temporary shelter intended to resolve an immediate experience of homelessness while providing services that address basic needs and connections to other supportive services without any precondition and minimal requirements to stay. This intervention must not require any preconditions such as sobriety, income, medication compliance, or any other barrier to entry or ability to reside in the program.
- Shelters must provide or connect to a flexible array of supportive services with a clear purpose to bridge participants to longer-term housing options while keeping youth participants safe and engaged.
