CITY OF CHICAGO

DOMESTIC VIOLENCE HELP LINE REPORT:

2009 Victim Area Profiles

The City of Chicago Domestic Violence Help Line

The City of Chicago, Domestic Violence Help Line is a 24 hour-7 days a week, toll-free telephone service that functions as a clearinghouse to domestic violence services in Chicago and throughout Illinois. The service is confidential and multi-lingual.

The Domestic Violence Help Line was established in 1998 and is a service of the City of Chicago, Department of Family and Support Services, Division on Domestic Violence. It is staffed under a partnership agreement with the Chicago Metropolitan Battered Women's Network. Domestic violence advocates called VIRAs (Victim Information and Referral Advocates) provide callers with general domestic violence information, safety planning support, and referrals to domestic violence services that can include a 3-way telephone linkage with the Help Line advocate, the caller, and a domestic violence provider agency. Referrals can be made to over 400 agencies that provide domestic violence services in Chicago and Illinois. Shelter, counseling, legal advocacy, legal representation, children services, and abuser services are among the many service referrals that can be provided to callers.

Domestic Violence Help Line Report 2009

The Domestic Violence Help Line Report: Victim Area Profiles (2002 – 2006) historically described characteristics and service needs of Chicago area domestic violence victim calls taken by the City of Chicago's Domestic Violence Help Line. The 2007 and 2008 reports were expanded to include victim service calls in Illinois, in addition to the Chicago victim service calls. The 2009 report presently reflects all calls taken by the Help Line, in addition to Chicago and Illinois victim service calls. This 2009 report is organized to describe: 1) all calls received by the Help Line, 2) all victim service calls with or without a zip code, 3) Chicago only service calls where a zip code was provided, and 4) Illinois service calls where a zip code was provided. Data for the Help Line reports are retrieved annually and reflect a calendar year The current reporting period is for January 1, 2009 – December 31, 2009. Information contained in this report is not intended to be an indicator of prevalence or incidents of domestic violence in Chicago or Illinois. It is for descriptive purposes only.

Data Source and Methods

The City of Chicago Help Line operates on multiple databases that allow VIRAs to record case specific information about a call, a victim, as well as search for domestic violence service provider programs in Chicago and Illinois. These databases are a unique and comprehensive data source for analyzing characteristics, referral source, and/or service needs of victims of domestic violence in Chicago and Illinois. Each database can be analyzed separately and/or linked to facilitate comprehensive analysis of the experiences of domestic violence victims. Descriptive analysis of this data is produced in an annual report - Domestic Violence Help Line Report: Victim Area Profiles. Additional analyses of the Help Line data has been reflected in conference presentations and previous publications of the Division of Domestic Violence. "Missing data" in survey research will occur when callers decline or are unable to respond to questions or when questions are omitted. As in other similar descriptive reports, missing data was excluded from this report.

Reports and Publications

Visit the Division of Domestic Violence website - www.cityofchicago.org/domesticviolence - to access the current Help Line Report as well as other reports, produced by the Division on Domestic Violence in the City of Chicago's Department of Family and Support Services.

Domestic Violence Help Line: All Calls Description

All Calls Description

The Help Line received 32,336 calls for the time period of January 1, 2009 through December 31, 2009. Calls were classified as 1) calls for domestic violence (DV) victim services (34%), 2) calls for DV information only (9%), such as requests for DV materials, volunteer/internship opportunities, or cellular phone donations, 3) direct links to services for repeat DV calls (32%), 4) non-DV related calls (5%), or

5) administrative calls (15%), such as hang-ups, wrong numbers, or transfers. Five percent (5%) of all calls received were missing information used to classify these calls.

The Help Line received most calls during the weekday (Monday – Friday) in the morning between the hours of 5 – 11 am and in the afternoon between the hours of 12 – 4 pm. Most calls were conducted in English (94%) followed by Spanish (5%) speaking callers. Less than half a percent of calls were taken in "other" languages that included Polish, Urdu, Hindi, Mandarin Chinese, other Chinese, Vietnamese, Russian, French, Tagalog, Japanese, Ukranian, Yugoslavian, Thai, Serbian, and Greek. Domestic Violence callers identified the police (44%), domestic violence and social service agencies (26%) and themselves (14%) as the referral source. Least often mentioned were work or school (1%), criminal or civil services

¹ A "link only" service is available to repeat victim callers. This service provides a direct connection to a previously identified agency.

(1%), and other information services (2%). This information was not required for the remaining link only, non DV related, or administrative calls to the Help Line.

DV Calls for Victim Services

One-third (34%) of all calls to the Domestic Violence Help Line were calls for domestic violence victim services (n=10,994). Calls for victim services could be placed by any caller seeking service referral/information on behalf of a victim. The following sections describe victims' characteristics, violence experience, service referral, and service needs for victim service calls where comprehensive victim information (n=9,650) was collected. This information is reported by victim location.

- 1) All calls (n=9,650) for victim service with or without a zip code,
- 2) Chicago (n=5,718) only calls for victim services where a zip code was provided, and
- 3) Illinois (n=8,162) calls for victim services where a zip code was provided.

All Calls for Victim Services

Of the 10,994 domestic violence calls for victim services, 88% included comprehensive victim information (n= 9,650). The majority of these calls were placed by victims (84%), followed by third party (12%) callers (e.g., family member, social worker, or employer) and unidentified (5%) callers. Victims were mostly female (92%), followed by male (7%) and two transgendered victims. Victims' ages ranged from 12 to 90 and the average age was 34. More than half of the victims were identified as Black (52%), followed by White (24%) and Hispanic (20%). Half (50%) of victims had children. Forty-seven percent (47%) of victims had dependent children 0-18 years of age and 20% had young children 0-5 years of age. Victims had between 1-9 dependent children (average 2) and 7% victims were pregnant at the time a call was made to the Help Line.

The majority of calls for victim services were conducted in English (94%). Six percent were conducted in Spanish and the remaining calls were taken in "other" languages including Polish; Urdu; Hindi; Mandarin Chinese; Russian; French; Japanese; Serbian; and Other. A VIRA, the language line, or a relay operator conducted 6% of calls in a language other than English.

Most victims experienced multiple forms of abuse, that is 75% of victims were both physically and emotionally abused, followed by physical, sexual, and emotional abuse together (14%). Less than 1% was sexually and emotionally abused together. Among reports of singular forms of abuse, 10% were emotionally abused only and less than 1% were only physically or sexually abused. Fifteen percent

(15%) of victims had an order of protection against their abuser at the time a call was placed to the Help Line.

Victims experienced violence primarily in intimate partner (90%) relationships, with 10% reporting family/household violence. Of the 90% of victims who experienced intimate partner violence (IPV), ² abusers were identified as a cohabitating partner (37%), a spouse (29%), or an ex-spouse (24%). Female victims in IPV relationships were primarily abused by a male (91%); a smaller percentage was abused by another female (3%). Five percent (5%) of male victims were abused by a female and 1% was abused by another male. Of the victims of family/household violence (10%), a family member (89%), roommate (9%), or personal attendant (2%) was the abuser. A parent (31%), child (26%), or sibling (20%) was most often the family member abuser. Abusers were male (89%), between 11-87 years old with an average age of 36 years, and were identified as Black (57%) followed by White (22%) and Hispanic (18%).

The majority of victim service callers reported that the police (57%) referred them to the Help Line, followed by domestic violence/social service agencies (22%). Callers mostly (97%) requested one service (range 1-4). Shelter (41%) and legal support (23%) were the most frequent service requests.

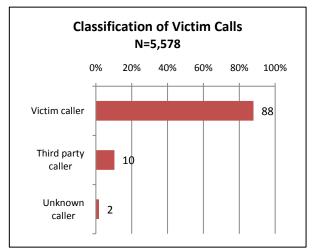

_

² Intimate partner violence (IPV) was defined as violence occurring among those in the following intimate relationships: spouse, ex-spouse, cohabitating partner, dating partner, or child in common only. Family or household relationship violence was defined as occurring in non-intimate relationships such as those among family members, roommates, or personal attendants (e.g., caregiver).

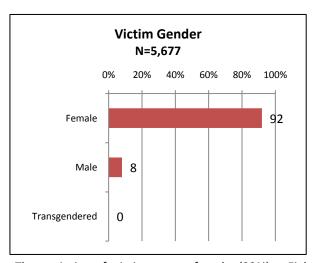

Calls for Victim Services

CHICAGO

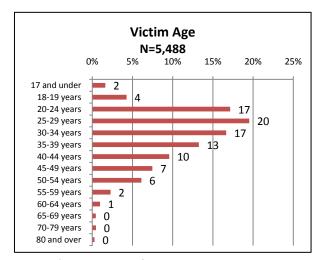

In 2009, 10,994 calls to the Domestic Violence Help Line were calls for domestic violence victim services. More than half of these calls (n=5,718) were Chicago callers identified by a zip code. This section of the report describes victim characteristics, violence experience, service referral, and service needs for Chicago victim service calls.

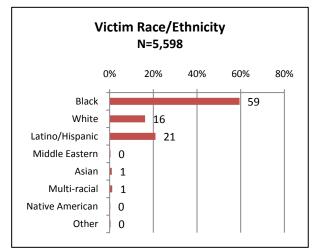

The majority of Chicago calls for victim services were placed by the victim (88%). Ten percent (10%) of calls were from third party callers, such as a family member, social worker, or an employer on behalf of a victim.

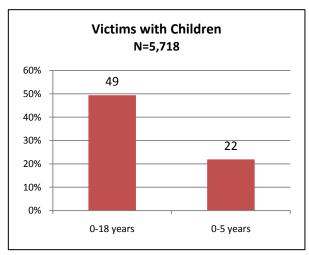

The majority of victims were female (92%). Eight percent (8%) of victims were male and one victim was transgendered.

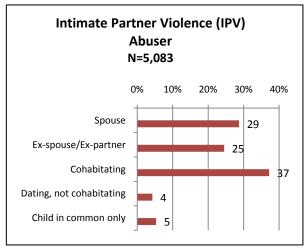

Victims' ages ranged from 12 to 90 and the average age was 34.

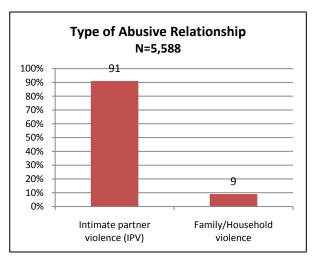

More than half of the victims were Black (59%), followed by Hispanic (21%) and White (16%).

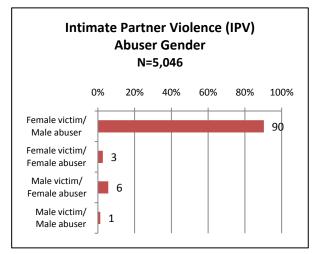

Over half (52%) of victims had children which could include an adult child. Forty-nine percent (49%) of victims had dependent children 0-18 years of age and 22% had young children 0-5 years of age. Victims had between 1-8 dependent children. The average number of children was 2. Six percent (6%) of victims were pregnant at the time a call was made to the Help Line.

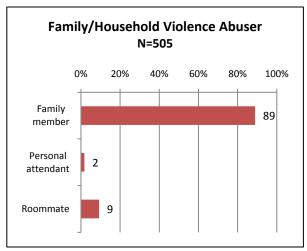

Of the 91% of IPV victims, abusers were mainly a cohabitating partner (37%), a spouse (29%), or an exspouse/partner (25%).

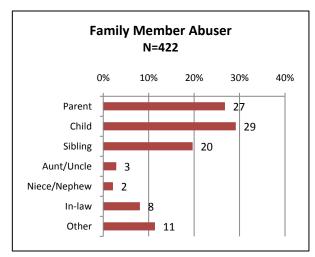

Victims were abused by an intimate partner (91%), followed by someone who was a family or household (9%) member.

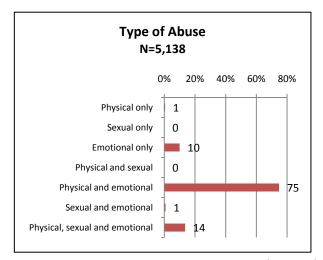

Female IPV victims were primarily abused by a male (90%) and 3% were abused by another female. Six percent (6%) of male victims were abused by a female and 1% was abused by another male.

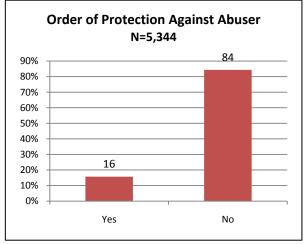

Of the 9% of victims of family/household violence, a family member (89%) was identified as the abuser.

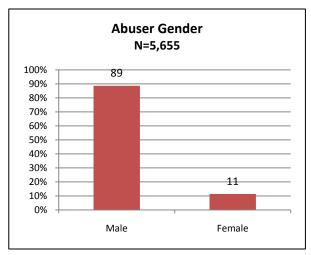

A child (29%), parent (27%), or sibling (20%) was most often the family member abuser.

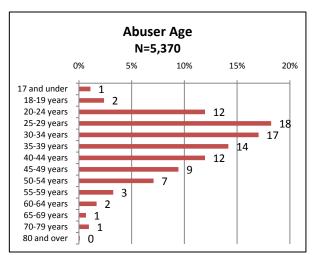

Victims experience singular and multiple forms of abuse. Ten percent (10%) were emotionally abused only, 75% experienced a combination of physical and emotional abuse, and 14% were victims of physical, sexual, and emotional abuse together.

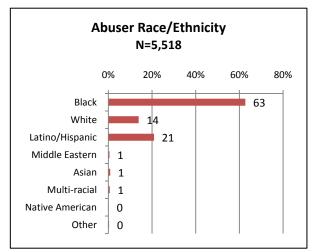

Sixteen percent (16%) of victims had an order of protection against their abuser at the time a call was placed to the Help Line.

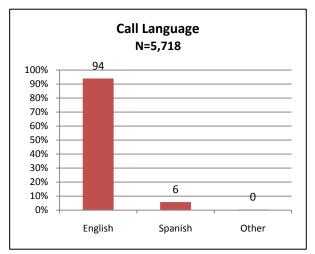

Abusers were mostly male (89%).

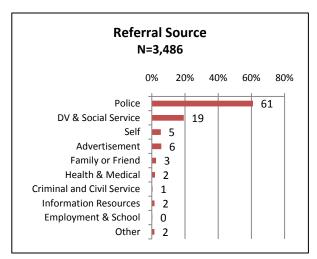

Abusers' ages range between 11-87 years old and the average age was 36.

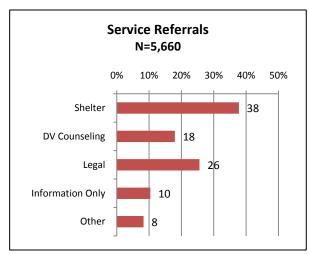

Nearly two-thirds of abusers were Black (63%), followed by Hispanic (21%) and White (14%).

The majority of victim service calls were conducted in English (94%). Less than 1% of other Chicago call languages included Polish, Mandarin Chinese, and Russian. The language line was used for 5% of service calls in a language other than English.

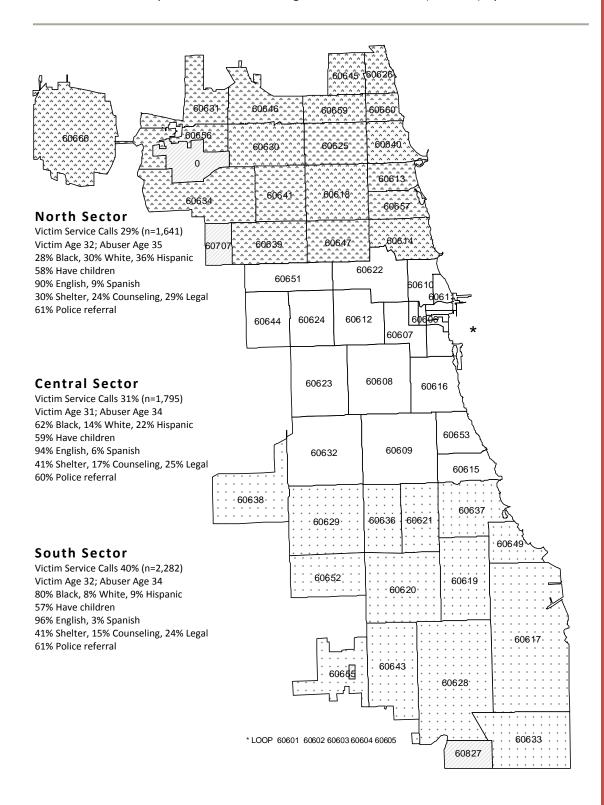

The majority of victim service callers reported that the police (61%) referred them to the Help Line, followed by domestic violence/social service agencies (19%).

Ninety percent (90%) of callers requested one service (range 1-4). Shelter (38%) and legal support (26%) were most frequently requested services.

Calls for Victim Services

ILLINOIS

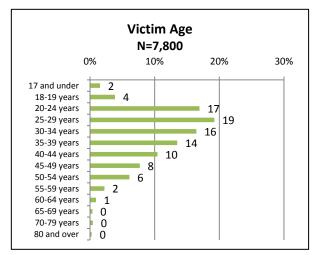

In 2009, one-third of all calls to the Domestic Violence Help Line were calls for domestic violence victim services. A quarter of these calls (n=8,162) were Illinois callers identified by a zip code. This section of the report describes victim characteristics, violence experience, service referral, and service needs for Illinois victim service calls.

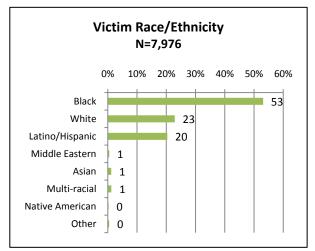

The majority of Illinois calls for victim services were placed by the victim (88%). Ten percent (10%) of calls were from third party callers, such as a family member, social worker, or an employer on behalf of a victim.

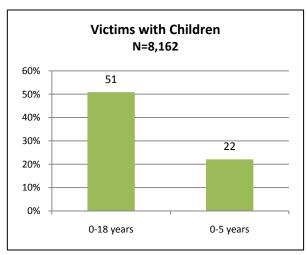

The majority of victims were female (93%), followed by 7% of male victims. One victim was transgendered.

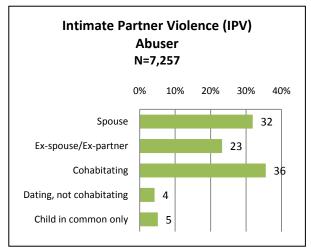

Victims' ages ranged from 12 to 90 and the average age was 34.

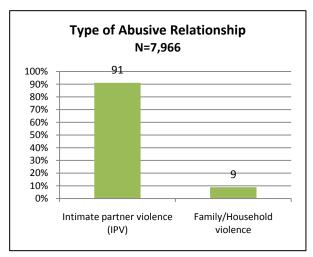

More than half of the victims were Black (53%), followed by White (23%) and Hispanic (20%).

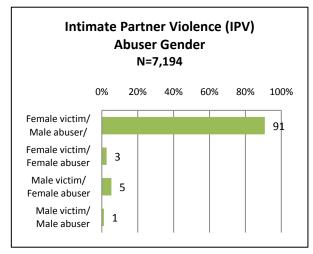

Over half (54%) of victims had children which could include an adult child. Fifty-one percent (51%) of victims had dependent children 0-18 years of age and 22% had young children 0-5 years of age. Victims had between 1-9 dependent children. The average number of children was 2. Six percent (6%) of victims were pregnant at the time a call was made to the Help Line.

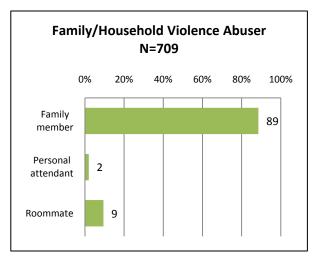

Of the 91% of IPV victims, abusers were mainly a cohabitating partner (36%), a spouse (32%), or an exspouse/partner (23%).

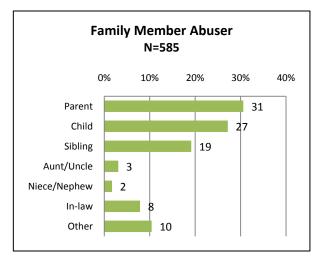

Victims were abused by an intimate partner (91%), followed by someone who was a family or household (9%) member.

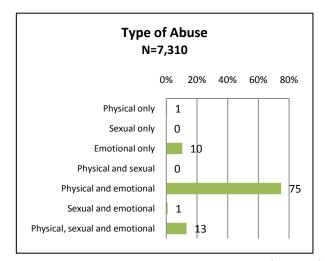

Female IPV victims were primarily abused by a male (91%) and 3% were abused by another female. Five percent (5%) of male victims were abused by a female and 1% was abused by another male.

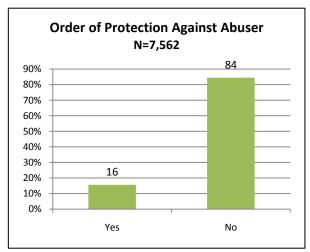

Of the 9% of family/household violence victims, a family member (89%) was identified as the abuser.

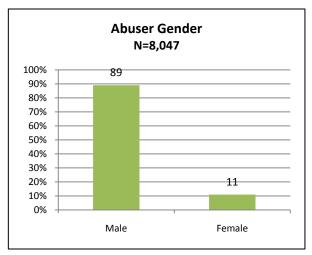

A parent (31%), child (27%), or sibling (19%) was most often the family member abuser.

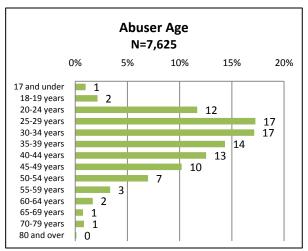

Victims experience singular and multiple forms of abuse. Ten percent (10%) were emotionally abused only, 75% experienced a combination of physical and emotional abuse, and 13% were victims of physical, sexual, and emotional abuse together.

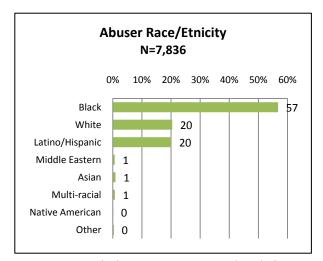

Sixteen percent (16%) of victims had an order of protection against their abuser at the time a call was placed to the Help Line.

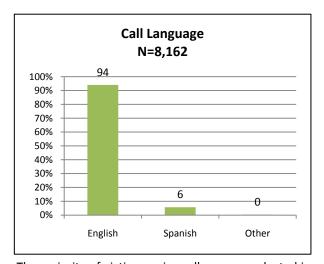

Abusers were mostly male (89%).

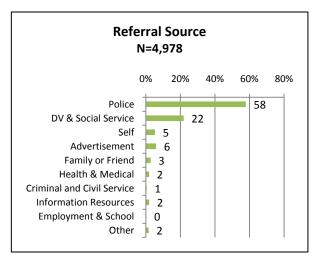

Abusers' ages range between 11-87 years old and the average age was 36.

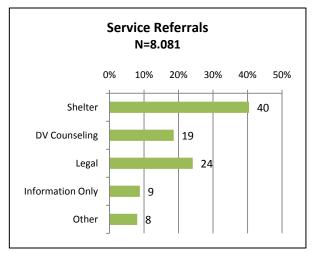

More than half of abusers were Black (57%), followed by White (20%) and Hispanic (20%).

The majority of victim service calls were conducted in English (94%). Less than 1% of other Illinois call languages included Polish, Urdu, Hindi, Mandarin Chinese, Russian, and French. The language line was used for 5% of service calls in a language other than English.

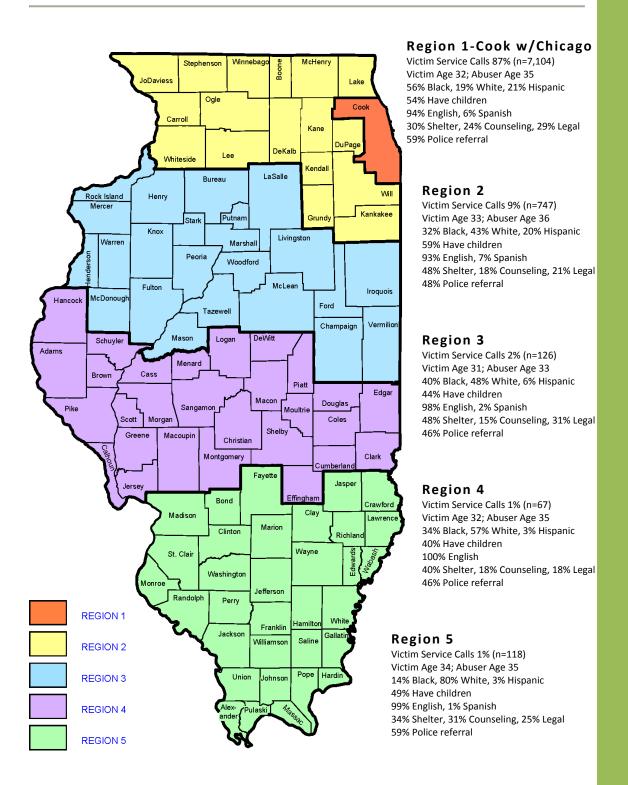

The majority of victim service callers reported that the police (58%) referred them to the Help Line, followed by domestic violence/social service agencies (22%).

Ninety percent (90%) of callers requested one service (range 1-4). Shelter (40%) and legal support (24%) were most frequently requested services.

Calls for Victim Services by REGION

This section of the report summarizes Illinois victim service calls (n=8,162) by region.

Glossary

Abuser Callers to the Help Line provide demographic information (age, sex, race) about the

victim's abuser.

Age The VIRA records the actual age of the victim and their abuser from which the average

and median ages are calculated. Where used, the median represents the middle point in the range of ages. At times, this method is chosen to be consistent with the Census

Bureau reporting of age. For presentation purposes, age groupings are also used.

Calls Classification All calls to the Help Line are classified as domestic violence calls for services, domestic violence information only, links to providers only, non-DV information

only, and administrative calls.

Census 2000 Demographics

DV Providers

Demographic information for the City of Chicago, zip code areas were obtained from the U.S. Census Bureau, Census 2000. Data was extracted using American

Fact Finder on the Census Bureau website: www.census.gov.

Children Callers are asked to provide the age and gender of all children living with the

victim. Calculated for this report are the total numbers of victims having children which can include an adult child. Of the victims who have children, dependent children 0-5 years and 0-18 years are noted. In some cases, information about children may not have been obtained or recorded therefore

the number of victims without children may be slightly higher than actual.

County Callers are asked for county designations to locate and connect them with services.

Counties are organized into 5 clusters called regions as designated by the Illinois

Department of Human Services. Profiles are created for each county cluster region.

Over 400 agencies provide domestic violence services in Chicago and throughout Illinois. Shelter, counseling, legal advocacy, legal representation, children services, and abuser services are among the many service available to

callers.

Language Language reflects the language used during the call. Most calls received by the

Help Line are conducted in English, Spanish or Polish. When callers speak a language other than English or Spanish, the Language Line or another source is

used.

Loop Included in the Loop area are all codes that are assigned by the Post Office to

the area of the Loop.

N represents the total count or the sub-population of the total count. Missing

data account for total count variations.

Race Callers identify the victim's racial category: Black/African American, White,

Latino/Hispanic, Middle Eastern, Asian, Multi-racial, Native American or Other. Percentages for each category are reported; however because the numbers are

small for the breakdown reports racial categories are grouped into Black, White, Latino and Other.

Referral By

Callers are asked who referred them to the Help Line or how they learned about the Help Line. For presentation, referral sources are grouped into seven broad categories.

Regions

Five regions were created based on county clusters as organized by the Illinois Department of Human Services. The county/counties that make up each region are listed below.

Region 1 | Cook

Boone, Carroll, DeKalb, DuPage, Grundy, Jo Daviess, Kane, Kankakee, Region 2 Kendall, Lake, Lee, McHenry, Ogle, Stephenson, Whiteside, Will, Winnebago

Bureau, Champaign, Ford, Fulton, Henderson, Henry, Iroquois, Knox, La Region 3 Salle, Livingston, McDonough, McLean, Marshall, Mason, Mercer, Peoria, Putnam, Rock Island, Stark, Tazewell, Vermilion, Warren, Woodford

Adams, Brown, Calhoun, Cass, Christian, Clark, Coles, Cumberland, De Witt, Region 4 Douglas, Edgar, Effingham, Greene, Hancock, Jersey, Logan, Macon, Macoupin, Menard, Montgomery, Morgan, Moultrie, Piatt, Pike, Sangamon, Schuyler, Scott, Shelby

Alexander, Bond, Clay, Clinton, Crawford, Edwards, Fayette, Franklin, Region 5 Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Madison, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Union, Wabash, Washington, Wayne, White, Williamson

Relationship

Callers are asked to identify the relationship of the abuser to the victim. Callers are asked to further identify the family relationship (parent, child, uncle etc.) for relationships described as a non-intimate partner family or blood relation.

Sectors

Three geographical divisions of the city based on zip code area were created for reporting: North, Central, and South. Each sector is an approximation of the North, Central, and South sides of the city of Chicago.

Service Need

VIRAs work with callers to identify the type(s) of services needed. Callers are referred, linked, and/or informed about the needed service. Identification of service need(s) does not necessitate service connection or receipt. presentation purposes, these services are grouped into four broad categories.

Calls

Victim Service Any call to the Domestic Violence Help Line seeking service information for a victim. These calls can be placed by the victim or any caller on behalf of the victim. A domestic violence victim is anyone who has experienced abuse in a domestic relationship such as from an intimate partner or a family/household member. Domestic abuse can include physical, emotional, mental, psychological, and sexual violence.

Zip Code

Victim service callers are asked for the zip code of the neighborhood for services. Calls are placed into zip code area based on the US Postal Service listing and are geographically mapped using ARC View software. Profiles are created for each zip code area that received a victim service call. Below are Chicago Area zip codes by sector.

North 60613, 60614, 60618, 60625, 60626, 60630, 60631, 60634, 60639, 60640, 60641, 60645, 60646, 60647, 60656, 60657, 60659, 60660
