Dear Friends:

I hope you had an enjoyable and fun-filled summer. Fall is always a special time of year, a transition marked by beautiful autumn colors, cooler days and the wonderful programming awaiting your participation at DFSS Regional and Satellite Senior Centers. So in this spirit, we invite you to join us at any of our Department of Family and Support Senior Centers. We have planned a wide array of programs and activities that you are sure to enjoy including: engaging classes, wonderful holiday events, access to information and resources on available programs and services, and opportunities to stay involved with the community.

Remember to take advantage of the Flu Shot Clinic scheduled at your local senior center. Stay well and have a wonderful holiday season.

Sincerely,

Lisa Morrison Butler, Commissioner
Chicago Department of Family and Support Services

A Note from the Executive Director

Dear Fellow Seniors:

Welcome to the last quarter of 2019! We have some great programs this year and hope you approve. Thank you for coming out and participating in Mayor Lori Lightfoot’s Senior Fest 2019, it was wonderful to see all of you. Take time this Fall to celebrate family, welcome new friends, delight in opportunities to grow, and pay attention to all that’s changing around you.

I wish you and your loved ones a wonderful holiday season and hope to see you at your events during this quarter.

Blessings,

Joyce
Chicago Department of Family & Support Services – Senior Services Area Agency on Aging

Chicago Department of Family and Support Services - Area Agency on Aging is designated by the United States government under the Older Americans Act, and by the Illinois Department on Aging, as the “Area Agency on Aging” for the City of Chicago. Area Agencies on Aging are part of a nationwide network of State and local programs that help older people to plan and care for their life long needs. With the goal of keeping seniors living independently in their own homes for as long as possible, Senior Services - Area Agency on Aging provide a wide range of options that allow older adults, ages 60 and over, access to services and programs that allow them to remain healthy, safe, and independent.

Information & Assistance Services

Information and Assistance is the key element to accessing all programs and services for senior citizens, and is a “one stop link” to elder care service providers in the city of Chicago and throughout the nation. By placing a call to (312) 4016, an older person or caregiver receives information about the services offered by the Chicago Department of Family and Support Services and the aging network. Central Information and Assessment is located in City Hall, 121 North LaSalle St., Room 100, with five (5) community locations in the Regional Senior Centers.

Regional and Satellite Senior Centers

DFSS Senior Centers offer a variety of social, educational, cultural, recreational activities for seniors and their informal caregivers. There are twenty-one (21) senior centers located throughout the city. Contact information for each of the centers is listed on the back page of the brochure. Each center is tailored to the needs and interests of the local community. All centers offer resources for caregivers, Life Enrichment activities, computer learning centers including internet access, fitness programming, congregate dining, and more.
### Benefits Eligibility Checkup
Using an on-line benefits calculation tool, trained staff screen seniors for hundreds of federal, state and local benefits programs, including; prescription drug coverage, weatherization, energy assistance, & financial assistance. Staff then works with seniors in applying for identified benefits.

### Caregiving Resources
Informal/familial caregivers are provided a variety of assistance and supports to aid them in caring for their older loved ones. Services such as one-on-one counseling, family mediation, support groups, newsletters, information and referrals and education opportunities are available.

### Care Coordination Services
Through a referral from I&A, trained and certified care coordinators from the Illinois Department on Aging Community Care Program will provide a comprehensive needs and eligibility assessment and create appropriate individualized plans of care utilizing a variety of in-home services, allowing seniors to live as independently as possible in their homes and communities. Plans of care are monitored and updated as needed.

### Chicago Fitness Plus
Award-winning fitness program that boosts endurance, strength, balance and flexibility. Senior centers are equipped with senior friendly exercise equipment and staffed by experienced, certified senior fitness professionals who lead group exercise classes and one-on-one training.

### Chore/ Housekeeping: Heavy Duty & Short-Term
Heavy Duty Chore is an one-time intensive cleaning for seniors whose living conditions pose a threat to their health and safety. Services include trash removal, window cleaning, moving heavy furniture and packing. Short-Term Chore assists seniors recuperating from a short-term illness; a temporary medical disability; and/or has been recently discharged from a medical setting. The temporary housekeeping assistance includes: light housekeeping tasks, laundry, and/or shopping.

### Adult Protective Services Program
Trained and certified Adult Protective Services Caseworkers respond to reports of alleged physical, emotional and sexual abuse, neglect, confinement or financial exploitation of any person, age 18-59 living with a disability or older adults living in the community. The program provides assessment, investigation, intervention and follow-up services to victims. Investigators work with the eligible adult to develop a plan to alleviate the abusive situation and reduce the risk of further harm to the eligible person.

### Foster Grandparent Program
Opportunity for seniors to make a difference in a child's life. This program also gives the senior volunteer a presence in the community, free annual physicals and the ability to supplement their monthly income.

What is Medicare?

Medicare is health insurance for:
- People 65 or older
- Certain people under 65 with disabilities
- People of any age with End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant)

What are the different parts of Medicare?

Medicare Part A (Hospital Insurance) helps cover:
- Inpatient care in hospitals
- Skilled nursing facility care
- Hospice care
- Home health care

Medicare Part B (Medical Insurance) helps cover:
- Services from doctors and other health care providers
- Outpatient care
- Home health care
- Durable medical equipment (like wheelchairs, walkers, hospital beds, and other equipment and supplies)
- Many preventive services (like screenings, shots, and yearly “Wellness” visits)

Medicare Part D (Medicare prescription drug coverage):
- Helps cover the cost of prescription drugs
- Run by Medicare-approved drug plans that follow rules set by Medicare
- May help lower your prescription drug costs and help protect against higher costs in the future
Your Medicare options

When you first enroll in Medicare and during certain times of the year, you can choose how you get your Medicare coverage. There are 2 main ways to get Medicare:

**Original Medicare**

- Original Medicare includes Medicare Part A (Hospital Insurance) and Part B (Medical Insurance).
- If you want drug coverage, you can join a separate Part D plan.
- To help pay your out-of-pocket costs in Original Medicare (like your 20% coinsurance), you can also shop for and buy supplemental coverage.
- Can use any doctor or hospital that takes Medicare, anywhere in the U.S.

**Medicare Advantage**

(also known as Part C)

- Medicare Advantage is an “all in one” alternative to Original Medicare. These “bundled” plans include Part A, Part B, and usually Part D.
- Plans may have lower out-of-pocket costs than Original Medicare.
- In most cases, you’ll need to use doctors who are in the plan’s network.
- Most plans offer extra benefits that Original Medicare doesn’t cover— like vision, hearing, dental, and more.

You can add:
- Part D

You can also add:
- Supplemental coverage
  (Some examples include coverage from a Medicare Supplement Insurance (Medigap) policy, or coverage from a former employer or union.)

Most plans include:
- Part D

Some plans also include:
- Lower out-of-pocket costs

The Theme for National Family Caregivers Month
November 2019 is

#BeCareCurious

Family caregivers want their loved ones to have the best care possible – at the doctor’s office, at the hospital, and at home. We encourage family caregivers across the country to ask questions, explore options and share in the care decisions that affect the health and well-being of their loved ones.

#BeCareCurious About

Your Loved One’s Goals

You know your loved one better, and spend more time with them, than anyone else does. Talk to them about what their goals are for treatment and their care in general. It can be hard to talk about goals when facing a disease. But these talks help make sure your loved ones are getting the care they want.

Treatment Options

Is your loved one responding well to treatment? If not, ask your doctor if there are other options. New treatments are available every day. Whether it’s a different dose, a new medication, or a new procedure, speak up and ask your doctor if there are options you and your loved one should consider.

Research

The internet is a great research tool, but it can also be full of conflicting, and even dangerous, advice – so don’t stop there! Be curious about that article you just read. Is it from a reliable source? Talk to friends, family and doctors to ask as many questions as possible to learn about your loved one’s condition.

The Care Plan

If your loved one is in the hospital, be sure to ask what happens next. Will they need home care after being discharged? Are there new medications or procedures you will need to manage at home? Will you be trained on what to do and how to do it? A lot of care happens at home and you need to be prepared to provide that care.

Coverage

Don’t be shy about asking questions about insurance coverage. Is your parents’ Medicare plan the best option or should you change plans during open enrollment? Was a medication switched for a medical reason, or because your insurance no longer covered it? If coverage was denied, what can you do to change their minds?

Family caregiving is stressful, but the more you know, the more confident and capable you will be when providing care. Remember – knowledge is power!

So this November, during National Family Caregivers Month, take time to

#BeCareCurious about your loved one’s care!

caregiverAction.org

can.
Need Support to Assist in your Caregiving Duties?

DFSS Caregiver Program: Counseling & Support Services

- Are you an unpaid caregiver who lives with a frail Older Chicagoan at least 60 years of age and provides assistance with their daily activities?

- Are you the unpaid caregiver who lives with an individual with Alzheimer’s disease or a related disorder with neurological and organic brain dysfunction and you assist them with their daily activities?

- Do you need to speak to a counselor or therapist?

- Would you like to meet and interact with fellow caregivers?

The Chicago Department of Family and Support Services Counseling and Support program may be able to provide you with needed assistance. We will have a case manager come to your home and conduct an in-home assessment to determine your eligibility for the Counseling & Support program and provide you with additional information on Caregiving resources.

The Caregiver Counseling Program provide Family/Individual Counseling, Therapy, Support Groups and Gap Filling services.

ABOUT OUR TRIPS AND EVENTS

WAIVERS: Every trip/event participant must register by completing and signing a Senior Services Emergency Contact/Waiver.

RESERVATIONS: Reservations are not guaranteed until the ticket is paid for. Please do your best to register as early as possible, since many of our trips and events fill up quickly.

REFUNDS: In order to make programs available to as many people as possible, we do our best to keep costs low. We base the cost per person by dividing the cost of the outing by the number of people we expect on the bus. We therefore regret we are unable to give refunds or discounts. However, if we have a waiting list and are able to sell your seat on or before the day of the trip, we will be happy to refund your money. Otherwise, we suggest you give your ticket to a friend as an “early” birthday or holiday present. Naturally we will refund your money if an event is canceled or significantly altered by Senior Services.

WHEELCHAIRS: If you use a wheelchair and would like to participate, please contact us at (312) 746-4798 to discuss arrangements.

TELEPHONE NUMBERS: When you register, make sure that you provide us with your phone number. Sometimes, in order to fill buses, we need to combine two locations. This can result in a change in the date of your program. If we have your phone number, we can contact you to work out these details.

PROMPTNESS: Most of our events and trips are on tight time schedules, and it is our policy to leave promptly at the stated departure time. This makes us unable to wait for latecomers. We regret that no refunds can be given to tardy participants who miss a bus.

NAME TAGS: We require participants to wear name tags as identifiers as part of our safety procedures.

COURTESY: Participants who go on our outings are expected to cooperate with group leaders, bus drivers and staff, as well as key persons in charge at the point of destinations. Any seniors or group leaders who are uncooperative - by being late, refusing to accommodate reasonable requests, or showing rude or anti-social behavior will be denied access to future trips, programs and events for the safety and comfort of the rest of the participants.
ABOUT OUR TRIPS AND EVENTS CONT...

GROUP ISSUES: Group leaders must obtain reservation numbers to register for trips. Payment must be made by the Money Due Date given at time of registration. Unless otherwise designated, Group leaders are given one complimentary ticket when leading 19 or more participants. When two groups share a bus, the first group boarding the bus should fill in the driver’s side of the bus, leaving the passenger side for group two. Front seats by the driver are reserved for the group’s leader or Family & Support Services staff. Group leaders are responsible for taking attendance to make sure everyone is accounted for and for bringing emergency forms for each participant. Group leaders must immediately let staff know of any accidents or incidents that occur during the trip. (We salute the energy and dedication of our group leaders! We couldn’t host these programs without them).

ACCOMMODATIONS FOR PERSONS WITH HEARING IMPAIRMENTS: If you need a sign language interpreter for any of our lectures, programs or classes, please let us know as soon as possible so we can make the necessary arrangements. You can let us know by either calling your center on your TTY, writing a letter, stopping in or asking a friend to contact us. We welcome your participation.

PARKING: The five Regional Senior Centers have adjacent free parking. Regrettably, Renaissance Court has NO free parking, but plenty of public transportation options.

PREPARATION: Since some of our outings require walking, climbing or varying amounts of stamina, participants are responsible for learning about programs and trips before signing up for them, paying close attention to all trip details and any trip advisories or cautions. Proper footwear and clothing are the participant’s responsibility.

Diabetics may want to consider bringing their own snacks should they have concerns about an event’s meal service time.

EXTREME WEATHER WARNING: In case of severely hot, cold or extreme weather please call centers to confirm trips and events.

DISCLAIMER: Senior Services is not responsible for opinions or recommendations of vendors or facilitators.

The most important component of the Wellness Program is YOU! Healthy living helps to prevent chronic disease and certain disabilities. It can ensure that today’s older persons as well as future generations not only live longer, but also live better. It’s never too late to adopt healthy lifestyle habits. The Wellness Program can help you start a personal wellness program or provide you the support you need to maintain your wellness goals.

- The Wellness Program at Central West, Southeast (Atlas) and the Southwest Senior Centers is provided by the Bowman Center/Rush University Medical Center.
- The Wellness Program at the Northeast (Levy) Senior Center, Northwest (Copernicus) Senior Center, and Renaissance Court is provided by White Crane Wellness Center.

At each senior center, the latest information on healthy living and disease prevention is provided through monthly talks with the wellness nurse, social worker, dietitian, and pharmacist.

Take a look at the wellness schedule at the center nearest you and meet the wellness team. It is the first step to a healthier lifestyle.
## WELLNESS TEAM OF PROFESSIONALS

### WELLNESS NURSE

The Wellness Nurse is available weekly at each center. The Wellness Nurse is knowledgeable about health issues and provides education, guidance and insight. The Wellness Nurse provides blood pressure and other health screenings, support groups, and monthly health talks to help you manage your health.

### SOCIAL WORKER

The Social Worker is available several times each month by appointment for private, one-on-one consultations. See the Social Worker for advice and information on resources for those times when you are faced with life’s challenging issues. The Social Worker also leads a discussion group on a variety of topics focusing on contemporary issues of aging.

### DIETITIAN

The Dietitian is available monthly to assist you in achieving your nutritional goals with one-on-one consultations, nutritional health talks, and discussion groups. The Dietitian shares insights about dietary needs, strategies to make positive lifestyle changes as well as the relationship between nutrition and your health.

### PHARMACIST

A Pharmacist is available at each center one half-day each month. In addition to informative presentations and question and answer sessions on medications and health-related issues, the Pharmacist is available by appointment for private, one-on-one consultations to address your concerns. Make an appointment for a “brown-bag” medication review (bring all of your medications into the pharmacist for review) to receive help with timing your medications or bring in your lab results for discussion. See each center’s postings for available appointment times.

**NURSE PRESENTATIONS**

**Vaccine Awareness**
"Immunizations/vaccines can protect you and others from getting diseases such as pneumonia, tetanus, flu, or pertussis (whooping cough). It has been estimated that diseases that could be prevented by vaccines cause more deaths each year in the United States than AIDS, breast cancer, or automobile accidents. That means 56,000 deaths could be avoided each year if people were immunized as recommended. In this talk, we review four needed immunizations, the illnesses they are preventing, and the differences between cold, flu, allergies and pneumonia."

By the time you are 65 years old, you have probably been exposed to or immunized against most of the common infectious diseases. But sometimes that protection decreases, which is why certain immunizations are recommended in the elderly community. In this session, the pharmacist will review the most up-to-date recommendations for immunizations, what vaccines you should consider based on your age or any illnesses you have, why these immunizations are important and who can give them to you.

**Care Transitions – Medication Awareness**

Hospital discharge can be a perilous process. Many patients have unintended adverse events after discharge, with an estimated 20% of patients being readmitted to the hospital within 30 days. Because patients are transitioning from not only their location of care but also from most of their health care providers, it is critical to ensure that the quality and timeliness of communication among health care providers are monitored and improved. In this session, the pharmacist will discuss the importance of reviewing and monitoring all your medications when transitioning from one care environment to another.

Diabetes in the Older Adult – Remembering What Is Important
Diabetes, or high blood sugar, is a growing problem in our population. Estimates of 10%-20% of older adults over 70 years of age will develop diabetes. Complications from untreated diabetes can lead to damage in the eyes, kidneys, heart, nerves and skin. In this session, the pharmacist will review the symptoms of diabetes, how to best manage diabetes and the safe use of medications currently available in the older adult, and why it is important to keep your diabetes under control.

Influenza (commonly known as “the flu”), is a serious and potentially life-threatening disease, especially in adults 65 years of age and older.

- Influenza, also known as “the flu,” is a common respiratory infection caused by several related viruses.
- The flu is easily passed from person to person through coughing, sneezing, or through contact with fluids from an infected person’s mouth or nose.
- Symptoms of the flu often include high fever, headache, tiredness, cough, sore throat, runny or stuffy nose, and body aches.
- As we get older, our immune system typically weakens. This generally makes it harder for us to fight disease and may also make us less responsive to vaccines. As a result, adults 65 years of age and older are at increased risk of flu and its complications. For example, the influenza virus can cause worsening of chronic conditions and it can lead to death.
- Each year in the United States, nine out of 10 flu-related deaths and more than six out of 10 flu-related hospital stays occur in people 65 years of age and older.

The flu can worsen other health problems.

- The flu is especially dangerous for people with certain conditions that commonly affect older adults, including heart disease, lung disease, diabetes, and cancer.
  - People with these conditions are more likely to develop complications from the flu that can result in hospitalization and even death.

The best way to help protect against the flu is vaccination.

- According to the Centers for Disease Control and Prevention, the single best way to prevent the flu is to get an annual vaccination, which is recommended for everyone 6 months of age and older.
  - Despite these recommendations, immunization rates among adults 65 and older are still far below public health goals. The leading reason older adults do not get the flu shot is not being aware they need it.
  - Receiving the flu vaccination each and every year is the best way and first step to help protect yourself from the flu and spreading it to friends and family.

There is a vaccine that is designed specifically for adults 65 years of age and older.

- Adults 65 years of age and older have vaccine options. In addition to the traditional flu vaccine (which helps protect against three strains of the flu virus), there is also a quadrivalent vaccine (which helps protect against four strains), and a higher dose vaccine.
  - By improving the production of antibodies in older patients, the higher dose vaccine can provide a stronger immune response to influenza than traditional vaccines.
  - These vaccine options are widely available at a doctor’s office or local pharmacy. An annual flu shot is a Medicare Part B benefit – this means that the vaccine is covered with no copay for Medicare beneficiaries 65 years of age and older.

Talk to your health care provider today about the dangers of the flu, the benefits of vaccination, and the best vaccine option to meet your needs.
