

# Grocery Location Analysis

Grocery stores (excluding pharmacies) over 10,000 square feet with 1 mile buffer

Grocery stores (excluding pharmacies) over 2,500 square feet with 1/2 mile buffer

- Underserved area in community with incomes below Chicago median income
- Underserved area in community with incomes at or above the Chicago median income
- Area served by existing grocery store location or non-residential area
- Area served by existing stores in suburban Cook County
- Service area for store in the development process
- ★ City identified site for food retail opportunity

\* Grocery locations are derived from City of Chicago, Food Retail Establishment license information. The dataset includes stores with NAICS codes directly related to grocery sales. The dataset does not include stores with NAICS codes for pharmacies or general merchandise sales or other stores that may sell food such as gas stations.

\*\* Stores in suburban Cook County were provided by Daniel Block based on his survey of supermarkets throughout Cook County. This analysis only includes stores that are within one mile from the City of Chicago city limits.
