

OFFICE OF EMERGENCY MANAGEMENT AND COMMUNICATIONS
CITY OF CHICAGO

Reference No.: 13-00378

MEMORANDUM

TO: The Honorable Carrie M. Austin
Chairman, Committee on the Budget and Government Operations

FROM: Gary W. Schenkel
Executive Director
The Office of Emergency Management and Communications (OEMC)

DATE: November 20, 2013

RE: Request for information from Alderman Cochran

The Office of Budget and Management has provided answers to a number of the questions raised by Alderman Cochran in his letter dated October 24, 2013. For the remaining questions, please find the response of the Office of Emergency Management and Communications regarding the 2014 budget.

1. Response provided by OBM.
2. Response provided by OBM.
3. Response provided by OBM.
4. Response provided by OBM.
5. Response provided by OBM.

6. Race and gender and numbers of new hires and promotions in 2014:

OEMC New Hires and Promotions

OEMC - Promotions	Male		Female		Total	
	Number	%	Number	%	Number	%
African American	0	0.00%	12	66.67%	12	66.67%
Hispanic	0	0.00%	1	5.56%	1	5.56%
White	3	16.67%	2	11.11%	5	27.78%
Total	3	16.67%	15	83.33%	18	100.00%

OEMC - New Hires	Male		Female		Total	
	Number	%	Number	%	Number	%
African American	22	22.92%	46	47.92%	68	70.83%
Asian	1	1.04%	0	0.00%	1	1.04%
Hispanic	3	3.13%	3	3.13%	6	6.25%
White	13	13.54%	8	8.33%	21	21.88%
Native	0	0.00%	0	0.00%	0	0.00%
Total	39	40.63%	57	59.38%	96	100.00%

7. Current list of complaint codes for 311

See Attachment #1

8. Update on roll-out of new 311 query system:

The responses to the Request for Proposal (RFP) are due November 22, 2013. We are targeting vendor selection for Q1 2014. It is anticipated that implementation will proceed in a phased approach. 311 City Services and the Department of Water Management have been identified as the pilot departments. After the pilot is concluded, Department of Buildings, Department of Family and Social Services, Department of Transportation, and Department of Streets & Sanitation will have their service requests configured and will transition to the new system. All service requests covering the remaining 25 departments will then be transitioned.

9. Response provided by OBM.

10. Comparison of overtime (account 0020) for 2013 and projected 2014. By division and bureau, how was overtime utilized in 2012 and 2013 year to date; and by the same divisions and bureaus what were the vacancies during the same time periods. Provide the same information, in the same manner, projected for the remainder of 2013 and 2014. Include an explanation for variation and what options have and will be used to lower overtime.

Division	2012	2013 Through October	2013 Expected YE
311	\$157,895	\$81,603	\$96,896
911 - Aviation Dispatch	\$193,522	\$234,196	\$268,456
911 - Fire Dispatch	\$1,140,917	\$1,139,581	\$1,343,140
911 - Police Dispatch	\$4,920,028	\$5,853,883	\$6,114,925
Administration	\$11,551	\$144	\$173
Emergency Services		\$185	\$0
ISCN	\$410,225	\$375,813	\$420,107
TCA'S	\$89,582	\$69,570	\$68,975
Grand Total	\$6,923,720	\$7,754,976	\$8,312,673

Projected OT for 2014 is \$6 million.

The increase in overtime from 2012 to 2013 was due to the increased number of vacancies from 2012 into 2013. In 2013 OEMC hired twenty-nine Call Takers and Dispatchers that will complete training and be on a regular schedule by December reducing the need for overtime to meet the minimum staffing required to meet the goal of answering 95% of all 9-1-1 calls within three rings.

11. Response provided by OBM.

12. Response provided by OBM.

13. List of equipment purchased with other grant or city funds (i.e. homeland security grants) in 2013 and expected to be purchased in 2014. Please identify source and amounts:

Buffer Zone Protection Program (BZPP) 2010: Bollards, Operation Virtual Shield (OVS) Cameras, Chicago Police Department (CPD) Containment Vessel, Crash Gate, Chicago Fire Department (CFD) Portable Lights, CFD Handheld Thermal Search Cameras, CPD Repeater, and CPD Long Pole Camera
 Port 2008: OVS Cameras River/Bridges

Port 2010: CFD Dive Equipment, CPD Ballistic Shield Body Armour, CPD Dive Equipment, CPD Night Vision Goggles, CFD Night Vision Binoculars, Forward Looking Infrared (FLIR) Cameras
 Metropolitan Medical Response System (MMRS) 2010: CFD Simulation Lab Equipment

The Urban Area Security Initiatives (UASI) 2010: OVS Cameras, Radios, CPD Sensitive Compartmented Information Facility (SCIF) Equipment, Ballistic Helmets for CPD, CPD Special Weapons and Tactics (SWAT) Tactical Robots, CPD Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) Respirators, CFD Simulation Lab, CBRNE Detection and Response Equipment, Firehouse Connectivity, 12 LEAD EKG project.

UASI 2011: OVS Cameras at Grant Park, Mobile Cameras, Interop Radios, CPD Respirators, CPD turret wagons, radio battery vehicle, CPD Crime Prevention and Information Center (CPIC) equipment

UASI 2012: Public Safety Radio Cache, OVS Cameras, Firehouse Connectivity,

MMRS 2011: CFD Sim Lab Equipment

Port 2011: CPD Boat Engines, OVS Camera at Navy Pier

14. **List of venues that have been billed by OEMC in 2013 for traffic aides. Include how much they have been billed and how much the city has received:**

See Attachment #2

15. **List of requirements of the Department of Homeland Security (DHS) to meet their funding and the guidelines for utilization:**

Guidelines on funding vary by specific grant but overall the homeland security grant programs focus on prevention, protection, response, and recovery from acts of terrorism or other all hazards incidents. Any equipment must appear on the DHS Authorized Equipment List. Port Security Grant Program focuses funding on securing the ports and waterways. MMRS grant focuses on the integration of emergency management and health and medical systems. BZPP funds focused on critical infrastructure and key resources as were defined by DHS. Specific funding guidelines are set forth each year on the DHS website under the Homeland Security Preparedness Grant Programs.

UASI - The UASI program provides financial assistance to address the unique planning, equipment, training and exercise needs of high-threat, high-density urban areas. The grant helps the City build an enhanced and sustainable capacity to prevent, respond to, and recover from threats or acts of terrorism. UASI funded projects are decided by the Urban Area Working Group (UAWG).

Port - The Port Security grant provides funding for the City to protect and secure the Port of Chicago. The City works with Captain of the Port of Chicago on project funding decisions.

MMRS - The MMRS grant helps expand the capabilities of the City of Chicago and the surrounding communities to respond to a public health crisis and mass casualty events. The grant works in tandem with the Urban Area's efforts under the Urban Area Security Initiative. An MMRS advisory council helps

to determine operational needs and works with OEMC, Chicago Department of Public Health (CDPH) and local area hospitals and medical facilities for planning, training and exercises.

Emergency Management Performance Grants (EMPG) - The Emergency Management Agency (EMA) grant reimburses state emergency management agencies for personnel and other miscellaneous costs associated with day-to-day emergency management operations. The EMA is awarded to the State Administrative Agency which then in turn creates a separate award for the Urban Area, the EMPG. The City of Chicago employs emergency responders through an Emergency Operations division within OEMC. This division works with other city departments, including police and fire to respond to all types of emergencies across the City. Reimbursements are received for emergency management personnel salaries and supplies.

Regional Catastrophic Preparedness Grant Program (RCPGP) - The RCPGP provides funding for regional catastrophic planning throughout the entire region. The grant is used to help to identify planning gaps and capability assessments for regional evacuation and sheltering. The Regional Catastrophic Planning Team (RCPT) is the voting committee that implements projects under this grant.

16. Number of 911 calls broken down by district/ward:

2013-YTD EVENTS STATS

(01-Jan to 05-Nov, 2013)

Note that (+) Districts have been decommissioned

024	91,547
025	136,191
OTH	289,783
Total	2,806,955

17. Update on unified camera surveillance network:

We have implemented a Physical security information management (PSIM) system that has allowed us to incorporate disparate Video Management Systems from other city departments and city agencies. Among them are the Chicago Transit Authority (CTA), Chicago Housing Authority (CHA), Chicago Public Schools (CPS), Department of Aviation (DOA), etc. This has allowed us to incorporate over 22,000 cameras under one unified application. This makes camera selection much easier. It also provides a geographical representation of all cameras throughout the city. A user can zoom into any location on the city map and select the desired camera from the map.

18. Is there any way to track how long it takes for an officer to arrive on the scene after someone has called 911?

OEMC is able to track the time from once a call is received to the time when the call is dispatched. However, OEMC is not able to track the time at which an officer arrives on scene after someone has called 9-1-1.

19. Response provided by OBM.

20. Traffic signals falls under the jurisdiction of CDOT, and would be better directed to that department.

21. How long does OEMC keep the tapes from their cameras?

Depending on the type of camera installation, recordings are stored for between 12 and 30 days. However, if a recording is requested and it is available it is kept on site indefinitely.

22. In the event of a large emergency or disaster, does OEMC have a system in place to contact other city employees/offices who may be able to provide assistance?

Yes – WebEOC and Continuity of Operations Planning (COOP) software.

23. Locations of blue light cameras, when they were installed, and how much each cost

See Attachment #3

24. The red light camera program is under CDOT. This question would be better directed to that department.

25. Why are some service calls entered by call center staff not searchable by aldermanic staff? Does this have something to do with the new map and when will the new map be implemented?

3-1-1 call center staff takes service calls for the entire City of Chicago. Therefore, we have access rights to enter and query citywide. We have provided aldermanic staff with two access options: one for existing ward boundaries and another for 2015 ward boundaries. Query rights are limited to your existing and/or new 2015 ward boundaries. The new map will be officially implemented in 2015.

26. Please explain fund 2890, 2883, 28110M31 and OM39. What is their designated purpose, expenditures and reason for carryover?

Funds 2890, 2883, 28110N31, and OM39 are all Urban Areas Security Initiative (UASI) grant funding. UASI is a federal grant under the Federal Emergency Management Agency (FEMA) Homeland Security Grant Program (HSGP).

The designated purpose of the UASI grant programs is to provide financial assistance to address the unique planning, equipment, training and exercise needs of high-threat, high-density urban areas. The grant helps the City build an enhanced and sustainable capacity to prevent, respond to, and recover from threats or acts of terrorism. UASI funding is shared between the Office of Emergency Management and Communications (OEMC), the Chicago Police Department, the Chicago Fire Department and the Department of Public Health (formerly Department of Environment).

Expenditures under this grant include:

- Implementation, Maintenance and Sustainment of Operation Virtual Shield camera, fiber and wireless network
- Planning for the Radio Interoperability project (including upgrading the Fire Digital Radio System and fulfilling federal Narrowbanding requirements)
- Installing and equipping all police cars with portable data terminals (PDTs)
- Purchase personal protective equipment for first responders
- Training first responders in terrorism or recovery related scenarios
- Coordinated training and exercises for large scale multi-jurisdictional scenarios

Reason for carryover into 2014 is because the grants do not expire until 2014.

27. Please identify where the Corporate Budget could be reduced if these grants were fully used.

Anything paid for currently with corporate funding cannot be supplanted with grant funds. Supplanting in this manner is a direct violation of homeland security grant fund rules. Assets paid for with corporate funding also cannot be offset even partially with grant funding as that is considered comingling of funds, and also a direct violation of grant rules.

OFFICE OF EMERGENCY MANAGEMENT AND COMMUNICATIONS
CITY OF CHICAGO

MEMORANDUM

TO: The Honorable Carrie M. Austin
Chairman, Committee on the Budget and Government Operations

FROM: Gary W. Schenkel
Executive Director
The Office of Emergency Management and Communications

DATE: November 8, 2013

Re: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 058-01-Overtime

During the recent hearing to discuss the 2014 proposed budget, Alderman Munoz requested additional information regarding how much 14,000 hours in overtime per month costs.

On average, OEMC employees earn 14,000 hours of overtime per month, at an average monthly cost of approximately \$659,000.

As always, please let me know if you have any further questions.

Chairman, Committee on the Budget and Government Operations

FROM: Gary W. Schenkel
Executive Director
The Office of Emergency Management and Communications

DATE: November 18, 2013

Re: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 058-06-Non-federated Cameras

During the recent hearing to discuss the 2014 proposed budget, you requested additional information regarding all available information from public agencies and private partners on locations of all publicly displayed cameras for each ward

Due to the significant amount of data collection required to respond to this inquiry, OEMC will work over the next year to gather information pertaining to this request.

As always, please let me know if you have any further questions.

Re: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 058-15-Surveillance Cameras

During the recent hearing to discuss the 2014 proposed budget, Alderman Reboyras requested additional information regarding relocation of cameras installed using aldermanic menu funds to new aldermanic boundaries.

The cost associated with relocating a camera is approximately \$1,800. OEMC will work with OBM to determine whether moving cameras is a capital eligible expense.

As always, please let me know if you have any further questions.

Re: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 058-18-Call Efficiency

During the recent hearing to discuss the 2014 proposed budget, Alderman Cappleman requested additional information regarding the methodology used to determine the 3-ring average answer time.

Call efficiency is the percentage of total calls answered within three (3) rings. This percentage is calculated by dividing the total number of calls answered within three (3) rings by the total number of calls. This percentage is determined by AT&T, who implemented and monitors the 9-1-1 system.

As always, please let me know if you have any further questions.
