ID#: 50-02

The attached information is in response to questions posed at our department's hearing on October 26th, 2017 to discuss the proposed 2018 budget.

Alderman Pat Dowell asked how many times DFSS' Homeless team has visited the encampment at 51st and Federal.

Since July 2017, our DFSS Homeless Outreach and Prevention teams have visited the encampment at 51st and Federal three times.

During their visits, the Outreach and Prevention staff members attempt to build a rapport with the homeless individuals and engage them in services. Successful engagements often take multiple interactions with a given individual before he/she accepts services.

As always, please let me know if you have further questions.

The table below provides the names of these delegate agencies and their program types:

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 50-05

The attached information is in response to questions posed at our department's hearing on October 26th, 2017 to discuss the proposed 2018 budget.

Alderman Waguespack asked DFSS to provide potential regulations and/or a good community practice agreement for shelters that are not regulated or funded by the City. (He referred to Community Service Centers as a potential model).

DFSS funded shelters are required to operate under performance outcomes as outlined in the Continuum of Care's Program Model Chart:

https://allchicago.org/sites/allchicago.org/files/2014_PMC_Updated_February_2017.pdf

These performance measures are reviewed on a quarterly basis by DFSS to confirm whether targeted goals are being met. Those who are not, are provided technical assistance in trying to meet their particular outcomes. In addition, shelters are required to utilize the Coordinated Entry System (CES) housing assessment to access additional support services.

For programs that DFSS does not fund, these performance measures do not apply nor do we monitor them.

As always, please let me know if you have further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 50-06

The attached information is in response to questions posed at our department's hearing on October 26th, 2017 to discuss the proposed 2018 budget.

Alderman Scott Waguespack asked for an explanation of the Homeless Management Information System (HMIS) and how we use it to track outreach efforts and measure performance.

All agencies that receive funding through the U.S. Department of Housing and Urban Development are required to enter data into HMIS. DFSS requires all Homeless Division delegate agencies to utilize HMIS because it has evolved into the primary data platform for the homeless system. All facets of the system and services are tracked in HMIS – outreach, assessment, ongoing service attempts, matches to housing and housing placements. All Chicago is the HMIS lead Agency and sets Standard Operating Procedures and Data Standards, which outline workflow data entry requirements.

Outreach and Engagement delegate agencies enter assessments, outreach attempts, services provided and housing placements in HMIS. DFSS and All Chicago monitor outcomes at a delegate agency and system performance level. System performance measures track the number of housing placements from the street; this is also a delegate agency performance measure. System performance is measured through a dashboard on a quarterly basis and delegate agencies report quarterly to DFSS.

The use of HMIS as a shared data platform by all homeless service organizations also allows the system to identify when multiple agencies are serving the same individual. When this is flagged, service providers come together to collaborate on services with the individual so that there is a primary entity responsible for coordinating care across providers.

As always, please let me know if you have further questions.

The following is the response to a question posed at our department's hearing on October 26, 2017 to discuss the proposed 2018 budget.

Alderman Michael Scott Jr. requested a table with the One Summer Chicago (OSC) youth participants in the 24th ward. The number of 2017 OSC participants in the 24th ward was **1,026**. The ward had the second highest number of youth hired as part of OSC 2017. The department is not able to provide a listing with names of youth participants because that is protected participant information and can only be shared to support employment opportunities between OSC partners.

As always, please let me know if you have any further questions.

ID#: 50-19

The attached information is in response to questions posed at our department's hearing on October 26, 2017 to discuss the proposed 2018 budget.

Alderman Brendan Reilly asked how many vacancies are funded in the 2018 budget.

The Department of Family and Support Services has 80 vacancies funded in the 2018 budget. Of these 80 vacancies, 73 are grant-funded positions. We currently have an unusually high number of vacancies due to the new Early Childhood Block Grant we received starting July 1, 2017 from Chicago Public Schools. This grant has resulted in 38 new positions to the department.

DFSS estimates that 8 of these vacancies will be filled by the end of 2017.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 50-22

The attached information is in response to questions posed at our department's hearing on October 26, 2017 to discuss the proposed 2018 budget.

Alderman Brendan Reilly asked to list departmental efficiencies and cost-savings.

Below are examples of departmental efficiencies and cost savings implemented within the Department of Family and Support Services (DFSS):

- In July 2017, DFSS received a \$58M grant from Chicago Public Schools (CPS) to manage their birth-to-five community-based early learning programs and create a single city-wide program. This reduced the duplication of community-based funding contracts between CPS and DFSS and streamlined the contracting and administrative burdens placed on more than 101 early childhood education agencies across the city.
- As part of the Office of Budget and Management's initiative to reduce printing costs, DFSS is working to reduce the number of printers it maintains. This includes reducing costs that were historically budgeted to printer supplies and maintenance.
- DFSS has worked with its partners and stakeholders to develop and launch a new Strategic Framework – an approach that is transitioning DFSS to a more outcomes-oriented model. The Strategic Framework consists of a refreshed mission, priorities, and

goals, along with a plan for how DFSS will measure, report on, and review them in the years to come to inform decision-making and drive greater collaboration within DFSS.

As always, please let me know if you have any further questions.
