Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 21-02 Lots

The following information is provided in response to questions posed at our department's hearing on November 4, 2020 to discuss the proposed 2021 budget.

Alderman Mitts asked for a list of city-owned and Cook County Land Bank-owned lots.

See attached Cook County Land Bank Inventory.

Below, please find information related to the City's land inventory. These are some quick facts, but DPD is happy to provide additional information at any time based on your specific questions. If Aldermen would like to know what lots are in their Ward, they can always access the public dataset here: <https://data.cityofchicago.org/Community-Economic-Development/City-Owned-Land-Inventory/aksk-kvfp/data>

[City-Owned Land Inventory | City of Chicago | Data Portal](#)

Note, 8/11/2020: Please see

<http://dev.cityofchicago.org/open%20data/data%20portal/2020/08/11/city-owned-property.html> for information about changes to this dataset. -- Property currently or historically owned and managed by the City of Chicago. Information provided in the database, or on the City's website generally, should not be used as a substitute for title research, title evidence, title insurance, real estate tax exemption or payment status, environmental or geotechnical due diligence, or as a substitute for legal, accounting, real estate, business, tax or other professional advice. The City assumes no liability for any damages or loss of any kind that might arise from the reliance upon, use of, misuse of, or the inability to use the database or the City's web site and the materials contained on the website. The City also assumes no liability for improper or incorrect use of materials or information contained on its website. All materials that appear in the database or on the City's web site are data.cityofchicago.org

Of course, we are always happy to provide a spreadsheet of lots in a given Ward (or other specific datasets).

City Land Inventory Facts- October 26, 2020

- Unique PINS in COLS: 14,125 (City Owned)*
- R-zoned PINS in COLS: 7,685
- Parcels or Sites larger than 1 acre: 757 (includes individual larger parcels and contiguous parcels which taken together are larger than 1 acre)

Breakdown of City-Owned PINS in COLS:

Facility	1,589
Dept of Housing Pending Sales	68
DPD Pending Sales (<i>Includes 687 Large Lots</i>)	952
Open Space Projects & Sites	1,418
Revenue Lots	59
Total Facilities, Sales & Projects	4,086
Total Surplus	10,039
Total Unique PINS	14,125

Please note that while DPD is working continuously to provide up-to-date and accurate information, due to the size, scope, and historical reach of the land inventory, this is not a perfect dataset. Further, there are many parcels which are city-owned and not under specific use (defined here as “surplus”) that may otherwise be unsuitable for sale or development due to various factors such as being of sub-standard size.

Maggie Cassidy (DPD's COLS manager) is available to answer questions about inventory. Nelson Cheung is available to answer questions about DPD land sale programs. Irma Morales is available to answer questions related to DOH land sale programs.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 21-08 Housing Market

The following information is provided in response to questions posed at our department's hearing on November 4, 2020 to discuss the proposed 2021 budget.

Alderman Hadden asked for projections on Chicago's housing market in 2021.

Recent housing data that incorporates the impact of COVID on regional markets, including Chicago's, are inconclusive for 2021. National trend level reports from the National Association of Realtors, Realtor.com, and others offer some insight:

There is a growing demand for housing across the U.S. given historically low mortgage rates; however, the U.S housing market could slow down in 2021. Lower inventory could cause home sales to drop just under 2% annually and flatten home prices, with some housing markets exhibiting negative home prices. Those cities include Chicago (-0.3%), San Francisco (-0.4%), Las Vegas (-1.1%), Detroit (-1.0%), and St. Louis (-0.3%). If true, this would be the first time this will have happened since the 2008-09 recession. With home values weakening, sellers may have little incentive to put their homes up for sale. Single-family home construction is increasing, and the forecast is for a 6% annual gain, but so far, it has been on the upper end of the market and not at the entry-level where demand is strongest. The good news is, mortgage rates are forecasted to remain low. On the flip side, increases in the number of long-term unemployed in the U.S. could "dampen" demand in 2021.

In local news, according to the latest data from the Illinois Association of Realtors, the median home sales price in the City of Chicago was \$322,500 in September 2020, up 10.4% from September 2019. Home sales in the City of Chicago during this same period increased by 28.1%.

Industry observers point to record low-interest rates as the primary reason for the demand for property in Chicago.

As always, please let me know if you have any further questions.

ID#: 21-09 Cost Efficiencies

The following information is provided in response to questions posed at our department's hearing on November 4, 2020 to discuss the proposed 2021 budget.

Alderman Lopez asked for a list of ways in which DOH is creating cost efficiencies around construction to build and sell housing units at a more affordable price point.

To lower unit costs of construction of multi-family buildings, the Department of Housing employs the following measures:

- We require 3 general contractor bids and 3 sub-contractor bids for construction work.
- Emphasize QAP rehab in higher-cost areas to avoid the higher acquisition costs of land.
- We enforce the requirements to have a Guaranteed Maximum Price Contract where cost savings go back to the City to re-invest in future affordable housing units.

ID#: 21-10 Design

The following information is provided in response to questions posed at our department's hearing on November 4, 2020 to discuss the proposed 2021 budget.

Alderman Dowell asked for an updated status on our Disruptive Design competition.

Neighborhood Housing Services (NHS) submitted one of the winning Disruptive Design proposals for CL4WF in Humboldt Park and Bronzeville, initially on Feb 17, 2020, and fully completed on June 17, 2020 (adding the 3rd ward lot to their application.) In their application, the initial 2-unit construction design is \$300,000 with a proposed sale price of \$375,000.

The city-owned land/lot list and design are attached.

DOH no longer meets with developers for design review, however, a DOH design review was completed for the submitted drawings and provided to NHS on October 2, 2020. The current procedure is to wait until DOH requested revisions are sent in before proceeding to DPD Design Review. NHS responded to DOH with questions on October 16, 2020 - see attached PDF.

NHS was informed on September 9 that a Phase 1 was required. To our knowledge they did not submit the request yet to AIS.

ID#: 21-14 Community Engagement

The following information is provided in response to questions posed at our department's hearing on November 4, 2020 to discuss the proposed 2021 budget.

Alderman Lopez asked for metrics pertaining to our community engagement successes and failures.

See attached.

As always, please let me know if you have any further questions.

12.14 Metrics for community partnership success/failure

This year, the Department of Housing created the Office of Community Engagement, Racial Equity and Strategic Initiatives. The goal of this office is to develop a holistic approach to public engagement, meaning that we will work with aldermen, City Departments, advocates, philanthropy, financiers, community organizations and, at the center of it all, will be the residents of Chicago.

Some of our successes this year have been:

- Inclusionary Housing Task Force – This was a 20-member body of developers, development lawyers and analysts, community advocates, and independent researchers to discuss reforms to the Affordable Requirements Ordinance. In September, we published a staff report authored by the Task Force for public comment.
- Racial Equity Impact Assessment of the QAP – In partnership with Enterprise Community Partners and Chicago United for Equity, we met with over 160 stakeholders, including more than 40 residents of affordable housing. The input received will help shape our next iteration of the QAP.
- Illegal Lockouts Education Campaign – In partnership with the Metropolitan Tenants Organization, Lawyers' Committee for Better Housing and the Chicago Police Department, we created a Know Your Rights one-pager and translated it into 7 different languages with the help of our delegate agencies; created guidance for police officers through a video recording and brief; and, brought in our Call Centers 311/911 to help us track the calls and keep a pulse on the problem.

Success for us means that residents feel supported and heard by the Department of Housing and that the amount of transparency and public participation that we offer are never in question but rather creates a stronger bond with the public.
