The following information is provided in response to questions posed at our department's hearing on October 12, 2022 to discuss the proposed 2023 budget.

Alderman Dowell asked for information on why the City charges a fee for certifications.

The certification fee is set forth by ordinance, specifically Section 2-92-490(b) which states that "...each such application submitted to the Contracting Equity Officer shall be accompanied by a non-refundable \$250.00 fee."

---

The following information is provided in response to questions posed at our department's hearing on October 12, 2022, to discuss the proposed 2023 budget.

Alderman Lee requested information on what causes lag time in the processing of MBE/WBE certification applications.

Incomplete/insufficient documentation from applicants and delays in responses to DPS' requests for additional information often contribute to this timeframe. There are often multiple exchanges between DPS and the applicant to ensure that the application is complete and sufficient. DPS is more proactively engaging applicants with the goal of making these exchanges more productive and reducing the overall time for these applications to be processed.

As always, please let me know if you have any further questions.

**Re:** Request for Information from Annual Appropriation Committee Hearing

**ID:** 35-14 Environmental Implementation

---

The following information is provided in response to questions posed at our department's hearing on October 12, 2022, to discuss the proposed 2023 budget.

Alderman Vasquez requested the report on environmental implementation plan.

DPS has standard environmental terms and conditions for both work services and construction contracts which includes Compliance with Environmental Laws, Preference for Recycled Materials, No Waste Disposal in Public Way MCC 11-4-1600(E), Environmental Permits, and Environmental Protection.

As it relates to a rebid of the asphalt specification, DPS is working with CDOT and CDPH on stricter environmental requirements. In general, requests for additional such requirements are initiated by user departments and are tailored to the specific contract or circumstances working closely with the Department of Law and other relevant departments.

As always, please let me know if you have any further questions.

**ID:** 35-15 LGBT Vendors

---

The following information is provided in response to questions posed at our department's hearing on October 12, 2022, to discuss the proposed 2023 budget.

Alderman Vasquez requested recommendations for addressing concerns and supporting LGBT vendors.

On January 15, 2020, Mayor Lightfoot introduced Resolution R2019-685 directing the Department of Procurement Services (DPS) to encourage participation of LGBTBEs in City contracting opportunities, and to work with the Department of Law (DOL) to assess whether there is a need for a Citywide program to promote procurement opportunities for such firms.

In support of the resolution, DPS conducted the following activities:

- Developed a landing page on the DPS website (<http://www.chicago.gov/lgbtbiz>) that includes resources for LGBTBEs such as the Buying Plan, training opportunities, links to local and national LGBT Chambers of Commerce and information and access to the LGBTQ Business survey.
- Maintained positive relationships with LGBT-focused Assist Agencies, partnering with them to further the goal of increasing LGBTBE participation in City procurement.
- Cross-promoted information about resources and programming throughout the year and presented multiple times to the LGBT Chamber of Commerce of Illinois.

Additionally, DPS and DOL worked collaboratively to develop an online survey that was promoted extensively through DPS channels, aldermanic communication, and the LGBT Chamber of Commerce. While the data collected from the survey does not support a current need for a Citywide program or certification, DPS will continue the business development activities and will continue exploring additional opportunities, engaging the LGBT Chamber, Assist Agencies, and other relevant stakeholders as appropriate. These activities include:

- Continuing to educate the vendor community about the availability of the existing Affidavit of Individual Social Disadvantage process as a pathway to certification for individuals that have experienced discrimination in the business environment. Through this process, individuals who are not in a presumptive class may be eligible to apply for certification on a case-by-case individual basis, through a finding of social disadvantage by the City's Affirmative Action Advisory Board.
- Exploring the possibility of adding optional LGBT disclosure question as part of the online certification application process.
- Monitoring other jurisdictions to ensure that the City's current approach to inclusion of LGBTBEs is comparable to those of major municipalities throughout the U.S.
- Reviewing data that is gathered as a result of EO 2021-2 related to contractor Business Diversity Programs, wherein the City is asking contractors about their spend with LGBTQ businesses, and whether the findings indicate a need to revisit this issue in the future.

---

The following information is provided in response to questions posed at our department's hearing on October 12, 2022 to discuss the proposed 2023 budget.

Alderman Taylor asked DPS about new funding for travel.

I would like to clarify my statement from the hearing. DPS had funding for travel in 2020 and previous years. However, due to the pandemic, funding for travel was removed in 2021. The travel funding request for 2023 is a restoration to pre-pandemic levels.
