## **Purpose of this amendment:**

The purpose of this amendment is to re-allocate CDBG CV funds. In 2020, the City of Chicago received \$66,860,727 of CDBG CV funds to prevent, prepare for and respond to the spread of COVID-19. Since then, the City has completed most of its planned CDBG CV projects, and due to many projects coming in under budget, there are remaining CDBG CV funds available to be re-allocated. In this amendment, we create a new project which will receive all remaining CDBG CV funds, and we adjust the amount of funding for all other CDBG CV projects accordingly. As we move towards the end of the CDBG grant, any additional unspent funds will be given to that project as well.

## **Executive Summary**

### **ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)**

#### **1. Introduction**

The City of Chicago (City) receives an annual formula allocation of grant funds from the U.S. Department of Housing and Urban Development (HUD). To receive the funds, the City is required to develop a five-year Consolidated Plan that identifies community development priorities and multi-year goals through an assessment of affordable housing and economic development needs, an analysis of housing and economic market conditions, and available resources. The Consolidated Plan is carried out through Annual Action Plans which summarize the specific actions, activities, and financial resources that will be used each year to address the priority needs and goals identified in the Consolidated Plan. The four grant programs guided by these regulations are:

Community Development Block Grant (CDBG): CDBG funds are used to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities primarily for low- and moderate-income persons.

HOME Investment Partnerships (HOME): HOME funds are used for a wide range of activities including acquiring, developing, and/or rehabilitating affordable housing for rent or homeownership.

Emergency Solutions Grant (ESG): ESG funds are used to engage persons and families experiencing homelessness; improve the number and quality of emergency shelters for persons experiencing homelessness; help operate shelters; provide essential services to shelter residents; rapidly re-house persons and families experiencing homelessness; and prevent families and individuals from becoming homeless.

Housing Opportunities for People with AIDS (HOPWA): HOPWA funds provide housing assistance and related supportive services for low-income persons living with HIV/AIDS and their families.

The City estimates the following entitlement funding allocations for Year One (2020) of the 2020-2024 Consolidated Plan. At a minimum, the City anticipates level funding throughout the implementation period of this Consolidated Plan. The total funding anticipated over the next 5 years is \$569,660,300.

## **2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview**

The City of Chicago is required to use HUD's Performance Outcome Measurement System (POMS). The POMS was developed to enable HUD to collect and aggregate standardized performance data on entitlement-funded activities from all entitlement grantees nationwide for use in reporting to Congress on the effectiveness of formula entitlement programs in meeting HUD's strategic objectives.

The 2020-2024 Consolidated Plan outlines the various activities the City proposes to carry out to achieve the federal program objectives required by HUD: provide decent housing; establish and maintain a suitable living environment; and expand economic opportunities. These objectives are combined with three performance outcome categories: availability/accessibility; affordability; and sustainability. The City is required by federal law that housing and community development grant funds primarily benefit low- and moderate-income persons. The City will undertake the following activities to achieve these objectives and outcomes:

### Provide Decent Housing

The City will promote affordable housing for low- and moderate-income residents through:

- Rehabilitation and construction of multi-family properties
- Stabilization and preservation of troubled single-family and multi-family properties
- Home modification programs for the elderly and people with disabilities
- Housing counseling services
- Homeownership programs

### Establish and Maintain a Suitable Living Environment

The City will make living environments more available, accessible, affordable and sustainable for low- and moderate-income residents through:

- Supportive services for the homeless
- Supportive services for populations with special needs, including the elderly, people with disabilities and individuals living with HIV/AIDS
- Mental health and crisis intervention services for adults and youth
- Domestic violence services

- Code enforcement

#### Expand Economic Opportunity

The City will promote economic opportunities for low- and moderate-income residents through:

- Industry-specific and general job training and placement programs

The 2020-2024 Consolidated Plan outlines the various activities the City proposes to carry out to achieve the objectives and associated outcomes required by HUD. The City will undertake activities within the following categories: housing construction and rehabilitation, public services and community development, business/economic development and homelessness prevention activities.

### **3. Evaluation of past performance**

In order to provide a context for this Consolidated Plan, the City reviewed Consolidated Annual Performance and Evaluation Reports (CAPERs) submitted to HUD during 2015-2019 and HUD's subsequent Program Year End Review Letters. The CAPER lists the City's accomplishments in meeting the goals and priorities established in the Consolidated Plan. The City's 2019 CAPER may be viewed at: [www.cityofchicago.org/grants](http://www.cityofchicago.org/grants).

During the last five years, the City has demonstrated timeliness in expending grant funds as prescribed by 24CFR 570.902(a)(1) which measures timeliness by requiring that entitlement grant funds available by the U.S. Treasury was less than 1.5 times the entitlement grant for the current year. The City has also demonstrated compliance with 24CFR 570.200(a) (3), the Overall Benefit Certification which requires that not less than seventy percent of the aggregate of CDBG expenditures be used for activities benefiting low-moderate income constituents.

During the period of 2015-2019, the City received a total of \$373,958,069 in CDBG entitlement funding to support the City's strategic plan to improve low to moderate income communities and increase affordable housing. Also, during this time, the City's CDBG allocation has decreased by 3% requiring the City to adjust its goals in the Annual Action Plans. Despite these reductions the City has made substantial progress in addressing the needs of the most vulnerable populations.

### **4. Summary of citizen participation process and consultation process**

The citizen participation and stakeholder consultation process are key components of the development of the Consolidated Plan as set forth in Subpart B of 24 CFR Part 91. The City strives to ensure that the Consolidated Plan planning process includes opportunities for public participation, such as public hearings and public comment periods; involvement of affected persons and other concerned citizens; transparency and freedom of access to the proposed Consolidated Plan and Action Plan; and

consultation with public and private agencies that provide assisted housing, health services, and fair housing services for children, veterans, youth, elderly, persons with disabilities, persons living with HIV/AIDS, and their families, and due to new regulations, broadband internet providers. To solicit input on the proposed 2020-2024 Consolidated Plan, the City engaged in various activities, including public hearings, online surveys and community meetings.

Each year, the City prepares an annual budget that accounts for all revenue from taxes and other sources, including those referenced in this Consolidated Plan, and sets forth a plan for how the City intends to utilize those resources over the course of the following year. In the fall, the Mayor's Office and OBM present a balanced budget to City Council. The City Council then holds committee and public hearings on the Mayor's proposed budget and may propose amendments to it. These hearings include opportunities for the public to provide comments on the proposed use of CDBG, ESG, HOME, HOPWA funds. Once the proposed budget, as amended, is approved by the City Council, it becomes the Annual Appropriation Ordinance.

City departments that administer entitlement grant programs regularly engage with citizen groups, external advocates and community-based organizations to ensure programs meet the needs of the community. Department staff participates in taskforces, committees, and councils. City departments are in constant dialogue with their non-profit service providers across programs to ensure that programs respond to community needs and follow best practices. City departments engaged various advisory groups in the development of the Consolidated Plan and 2020 Action Plan priorities through these discussions.

The Office of Budget and Management held numerous public hearings to solicit input on the needs and priorities of communities. These meetings were held around the City and advertised in various languages. In addition, in late 2018 and early 2019, the City engaged stakeholders from various organizations in roundtable and one on one discussions. During these discussions, the Chicago Metropolitan Agency for Planning presented data collected for the Needs Assessment and Market Analysis. The City engaged stakeholders by conducting various activities to assess gaps in service and geographic priorities while also soliciting input on efficient use of funding to fill those needs.

## **5. Summary of public comments**

A summary of the public comments received will be included in the appendix of the final Consolidated Plan. It will incorporate the comments received from the three public hearings already conducted, stakeholders' input in various City meetings, and comments sent to the Office of Budget and Management. Comments received after this draft is released will also be included.

## **6. Summary of comments or views not accepted and the reasons for not accepting them**

All comments received to date have been accepted and considered in the development of the Consolidated Plan. The City of Chicago is committed to transparency and accountability to all residents.

A final summary comments will be included in the appendix of the Consolidated Plan and 2020 Action Plan submitted to HUD.

## **7. Summary**

The City of Chicago's proposed 2020-2024 Consolidated Plan and 2020 Action Plan identifies the housing and community development needs of predominantly low-income communities of Chicago. The objective is to target available resources to meet the identified needs in order to revitalize neighborhoods and improve the quality of life of Chicago residents.

The Consolidated Plan provides a unified vision for community development and housing actions with the primary goals of providing affordable housing and public services, revitalizing neighborhoods, supporting homeless and special needs populations, eliminating slum and blight and expanding economic development opportunities.

The 2020 Action Plan that begins January 1, 2020 identifies funding for projects that address Chicago's most critical needs. Funding levels identified in this Plan are estimates based on HUD allocations for the current fiscal year. When Fiscal Year 2020 allocations become known, any discrepancies due to a change in funding or program income will be remedied using unspent funds from the previous year. If "substantial amendments" to the Plan are needed, citizens will be provided with reasonable notice and the opportunity to comment on the proposed changes, per the City's Citizen Participation Plan.

## The Process

### PR-05 Lead & Responsible Agencies 24 CFR 91.200(b)

#### 1. Describe agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source

The following are the agencies/entities responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

Agency Role	Name	Department/Agency
CDBG Administrator	CHICAGO	Office of Budget & Management
HOPWA Administrator	CHICAGO	Chicago Department of Public Health
HOME Administrator	CHICAGO	Department of Housing
ESG Administrator	CHICAGO	Department of Family and Support Services

**Table 1 – Responsible Agencies**

#### Narrative

The City's Office of Budget & Management (OBM) is the lead department responsible for coordinating the development of the Consolidated Plan and annual Action Plan. OBM is also responsible for providing guidance and policy direction for the implementation of eligible programs that support the overall strategy for community revitalization. The City's Departments of Finance, Law and Fleet and Facilities Management provide administrative resources to the lead departments responsible for administering entitlement funds.

#### Consolidated Plan Public Contact Information

## **PR-10 Consultation – 91.100, 91.110, 91.200(b), 91.300(b), 91.215(I) and 91.315(I)**

### **1. Introduction**

The City recognizes that strong collaboration with key stakeholders is vital to ensuring community needs, and in particular the needs of low-income communities are addressed. Planning for this Consolidated Plan began with the development of several other plans including: 2019-2023 Affordable Housing Plan; Chicago's Plan 2.0: A Home for Everyone; Chicago Housing Authority, Plan Forward: Communities that Work; A Plan for Economic Growth and Jobs; ON TO 2050; Healthy Chicago 2.0; Resilient Chicago; Chicago Area Unified HIV Plan; and Planning for Progress.

**Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I)).**

The City coordinated between public and private housing providers, private and governmental health organizations, mental health service agencies and others to inform the Consolidated Plan needs assessment and strategic plan. To create other City plans, the City consulted a broad variety of stakeholders, outlined in the following:

#### **City of Chicago 2019-2023 Affordable Housing Plan**

The City's 2019-2023 Affordable Housing Plan, "One Chicago: Housing Strategies for a Thriving City", was created by DPD and approved by City Council on December 12, 2018. To implement this plan, the City of Chicago created the new Department of Housing. The One Chicago plan seeks to provide for a more equitable neighborhood landscape, including the support of more affordable housing in gentrifying neighborhoods, more tools to help property owners combat displacement, and more incentives for new housing construction in under-invested neighborhoods.

The plan was developed through a seven-month planning process with the assistance of an Advisory Committee of approximately 120 housing professionals and stakeholders, more than twice as many as for the previous five-year plan. Members of the public also added insight, participating in a public hearing and submitting more than 150 ideas through an online portal. Innovations incorporated into the plan include a three-tiered approach to the housing needs of different neighborhoods, including high-, moderate- and lower-cost submarkets.

#### **Healthy Chicago 2.0 and Healthy Chicago 2025**

The Chicago Department of Public Health (DPH) collaborates with the Partnership for Healthy Chicago (Partnership), a public-private partnership comprised of over 40 multi-sector members, to complete Healthy Chicago 2.0 and begin planning for Healthy Chicago 2025, two consecutive five-year community health improvement plans which overlap with the Consolidated Plan. DPH, the local public health

authority for the City of Chicago, uses the findings from the assessment to guide its work with partners toward populations at most risk.

This process focuses on how the root causes of health can be addressed through collective action addressing policies, systems, and environmental changes needed to reduce racial disparities in health outcomes. Other city departments that administer entitlement grant programs are also involved in this community improvement planning process.

To engage the community, DPH and the Partnership use the Mobilizing for Action through Planning and Partnerships (MAPP) tool, developed by the National Association for County and City Health Officials (NACCHO) in cooperation with the Centers for Disease Control & Prevention (CDC). During this process, DPH and partners conducted 4 community health assessments, including a community themes and strength assessment during which 4,000 Chicagoans responded to a survey; 42 focus groups were held with special need populations such as those recently reentering the community from jail or prison; teen parents; homeless individuals, and others. Many existing community plans were consulted, and several racial equity agendas developed by advocacy groups also contributed to helping define the strategic priorities of the plan. Community members validate the strategic issues identified from the assessments, and then participate in work groups which define strategies and metrics for measuring progress. The four goals of Health Chicago 2025 are:

Goal 1: Transform policies and processes to foster anti-racist, multicultural systems

Goal 2: Strengthen community capacity and youth leadership

Goal 3: Improve systems of care for populations most affected by inequities

Goal 4: Further the health and vibrancy of neighborhoods most affected by inequities

**Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness**

The City is actively involved with the Chicago Continuum of Care (CoC), All Chicago Making Homelessness History (All Chicago), which is the CoC's designated Collaborative Applicant, and the Chicago CoC Board of Directors. The CoC Board is a public-private planning body with representatives from local, state, and federal government agencies along with a broad base of constituency groups, including persons with lived homelessness experience and service providers. The CoC Board is the CoC governing body and makes policy decisions on funding priorities for HUD McKinney-Vento funding and other resources needed to achieve the goals of Chicago's plan to prevent and end homelessness, Plan 2.0, and monitoring the progress of that plan. The Department of Family and Support Services (DFSS), working with its partner agencies, completed Plan 2.0, and along with All Chicago, serves as a lead implementing agency under the direction of the CoC Board.

Plan 2.0 is Chicago's strategic plan to address the needs of persons experiencing homelessness, particularly persons and families with children experiencing chronic homelessness, veterans, and

unaccompanied youth, as well as those at risk of homelessness. In 2018, the Chicago CoC launched the Action Agenda, a strategy and work plan for the CoC. All Chicago and DFSS to be more action-oriented in our work to end homelessness. The Action Agenda encompasses four key strategies to strengthen and focus the work:

1. Organize. Create an infrastructure of working groups focused on actions that advance the goals of Plan 2.0 and include everyone's voice at the table.
2. Empower. Empower All Chicago as the backbone organization leading the CoC to achieve the goals of Plan 2.0.
3. Elevate. The CoC Board approves policies recommended by working groups and aligns the resources and activities to support policies.
4. Amplify. Build political will to align leadership, set concrete targets, and expand housing inventory.

To view Plan 2.0, please visit DFSS' website at:

[http://www.cityofchicago.org/city/en/depts/fss/supp\\_info/plan\\_to\\_homelessness.html](http://www.cityofchicago.org/city/en/depts/fss/supp_info/plan_to_homelessness.html).

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards and evaluate outcomes, and develop funding, policies and procedures for the administration of HMIS**

Chicago's CoC also helps determine how to allocate ESG funds, develop performance standards and evaluate outcomes, develop funding, and establish policies and procedures for the administration of the Homeless Management and Information System (HMIS). DFSS, with the CoC, established standard performance measures for the program models consistent with Plan 2.0 (inclusive of ESG funded models). These performance standards are reviewed and approved by the CoC Board. Outcomes for City-funded programs are evaluated by DFSS through quarterly reports from each delegate agency. All Chicago, as the CoC's designated HMIS Lead Agency, reviews HMIS data quality performance of all CoC and DFSS programs. DFSS incorporates HMIS compliance into monitoring and funding application review criteria.

Each program model has performance measures that contribute to the broader HUD system performance goals. DFSS has incorporated elements of these performance measures into its scopes of service for homeless programs contracts.

The City accepts feedback on the use of ESG and other federal funds through the public comment period and through a survey that was distributed widely throughout the CoC. The development of funding, policies and procedures for the administration and operation of HMIS is a function of the CoC Board, which includes representatives from the City of Chicago, including DFSS. The HMIS Committee of the CoC Board develops and updates standard operating procedures for HMIS, the data quality review

process, and training and implementation needs, which are reviewed and approved by the full CoC Board. All Chicago utilizes the policies and procedures established by the HMIS Committee.

**2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdictions consultations with housing, social service agencies and other entities**

### Identify any Agency Types not consulted and provide rationale for not consulting

The City did not exclude any agency types from participating in the Consolidated Plan planning process.

### Other local/regional/state/federal planning efforts considered when preparing the Plan

<b>Name of Plan</b>	<b>Lead Organization</b>	<b>How do the goals of your Strategic Plan overlap with the goals of each plan?</b>
Continuum of Care		
One Chicago - Housing Strategies for a Thriving Ci	Chicago Department of Housing	The housing goals for this Consolidated Plan overlap with the City's goals in the five-year housing plan
Plan Forward - Communities that Work	Chicago Housing Authority	The City referred to the most recent CHA plan in the development of the goals for the public housing section of the Consolidated Plan.
ON TO 2050	Chicago Metropolitan Agency for Planning	The goals for affordable housing and community development in the consolidated plan overlap with CMAP's goal of achieving greater livability through land use and housing.
Chicago's Plan 2.0 A Home for Everyone/Continuum	Chicago Department of Family and Support Services/All Chicago	All Chicago serves as the lead implementing agency for Chicago's Homelessness Plan 2.0.

Name of Plan	Lead Organization	How do the goals of your Strategic Plan overlap with the goals of each plan?
A Plan for Economic Growth and Jobs	World Business Chicago	Job training and placement services referenced in the consolidated plan further the future workforce development goals of this plan.
Healthy Chicago 2025	Chicago Department of Public Health	The goals for additional health care services in the consolidated plan overlap with Healthy Chicago's goal to improve systems of care for populations most affected by inequities, particularly behavioral health.

**Table 3 – Other local / regional / federal planning efforts**

**Describe cooperation and coordination with other public entities, including the State and any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(l))**

In addition to the various strategic plans referenced in the section above, the City considered other local/regional/state/federal planning efforts and will continue its efforts to coordinate further with local, regional, state and federal partners to create opportunities for comprehensive strategic planning and to reduce duplication of efforts at the local level.

From 2019-2020, the City of Chicago, partnering with Enterprise Community Partners, has embarked on a regional assessment of fair housing. Collaborating with Cook County, regional municipalities, stakeholders, PHA's, Civic Organizations and the Chicago Metropolitan Agency for Planning, the City will assess the current state of fair housing issues and develop community-informed and evidence-based goals and strategies to address the identified fair housing issues.

**Narrative (optional):**

The City of Chicago is engaged in constant consultation with stakeholders through not only the Consolidated Planning process but through all the City plans that make up the Consolidated Plan. Through this 5 Year cycle, the City will continue to engage all available resources in planning and executing project to better serve residents.

## **PR-15 Citizen Participation – 91.105, 91.115, 91.200(c) and 91.300(c)**

### **1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting**

HUD requires entitlement jurisdictions to provide for citizen participation in developing the Consolidated Plan. The City's citizen participation plan largely centers on public hearings, public comment periods, and online surveys to assist in gathering input from the public.

To encourage citizen participation in the consolidated planning process, the City held three public hearings to discuss the needs of the community. The public hearings provide an opportunity for all Chicago residents and community groups to communicate their views on needs and priorities to the City. The hearings were strategically located on the South, West and North sides of the City. Public notices were published in four local newspapers, the Chicago Sun-Times, the Chicago Defender, Hoy, a Spanish language newspaper, and Dziennik Zwiazkowy, a Polish language newspaper. The meetings allowed residents to convey their needs and priorities on City funding using a live polling service, Poll Everywhere.

Beginning after the first Consolidated Plan Public meeting, on April 29, 2019, the City began collecting comments from residents. On August 1, 2019 the City opened the Consolidated Plan public survey and blasted it out to over 1200 service providers to send to their constituents.

In addition to the HUD focused Citizen Participation, the Chicago Mayor's Office, in conjunction with the Office of Budget and Management embarked on a series of town halls across the City. During the town halls, citizens were able to speak directly to the Mayor. Many comments focused on affordable housing, mental health, equity, and violence prevention, which are all funded, in part, through HUD Entitlement funds.

This proposed 2020-2024 Consolidated Plan was posted on the City's website on October 8, 2019. Public Comments and a final summary of Citizen Participation will be included in the submission to HUD.

## Needs Assessment

### NA-05 Overview

#### Needs Assessment Overview

Using 2011-15 Comprehensive Housing Affordability Strategy (CHAS) data provided by HUD along with aggregating data from other sources in partnership with the Chicago Metropolitan Agency on Planning (CMAP), the City has created a needs-based framework to select projects funded by entitlement grant funds. Priority needs were identified in the areas of housing, homelessness, special needs and non-housing community development and formed the basis for choosing specific activities for the 2020-2024 Consolidated Plan and related annual action plans.

#### Housing

The most common housing problem in Chicago is cost burden. Cost burden is the fraction of a household's total gross income spent on housing costs. This was a problem for households across most income groups but the most for low-income renter households. Renter households comprised 45% of total households within the lowest income group that paid 50% or more of their income on housing. Owner households within this income group comprised 13% of total households. Many of Chicago's working-class families and individuals, the bedrock of the City's middle-class, find housing increasingly expensive and homeownership increasingly more difficult to achieve.

The second most common housing problem is overcrowding, defined by HUD as more than one person per room, not including bathrooms, porches, foyers, halls or half rooms. Over 36,000 households were overcrowded across all income groups, 77% of which were renter households. Of these, 26,200 were low-to moderate- income households earning between 0-80% of the Area Median Income (AMI).

#### Public Housing

In 2018, The Chicago Housing Authority (CHA) reported that approximately 22,141 public housing households and Housing Choice Voucher holders consist of seniors, and 25,990 consist of people with disabilities. The CHA considers these populations in most need of assistance because they are least able to transition off housing subsidies.

#### Homeless Needs

The 2018 Point-in-Time (PIT) Homeless Survey showed that a total of 5,450 people experienced homelessness, and approximately 565 families, which is a 1% decrease from 2017 and the lowest number of families since Chicago has been conducting counts under the current methodology. In 2018, 2,196 unaccompanied singles spent the night in a shelter which is a slight increase since 2017 but still below 2016. The unsheltered homeless population declined by 204 people, a 13% reduction from the

2017 homeless count. The number of homeless veterans has decreased by 18% since 2016. Black/African Americans experienced homelessness at higher levels than other groups.

**Non-Homeless Special Needs**

Non-homeless populations at-risk include seniors, persons with physical, developmental and mental health disabilities, victims of domestic violence, persons living with HIV/AIDS and immigrants. These populations require a variety of supportive services to remain safe, independent, healthy and stable.

**Non-Housing Community Development**

These priority needs include critical public services such as fair housing, housing counseling, job training and infrastructure and public improvements in low-and moderate-income community areas.

## NA-10 Housing Needs Assessment - 24 CFR 91.205 (a,b,c)

### Summary of Housing Needs

This section describes local demographic changes and common housing problems to help identify housing needs in the city of Chicago. The four common housing problems defined by HUD include: cost burden, overcrowding, lack of a complete kitchen or lack of plumbing facilities (also defined as substandard housing). CHAS data shows that of the total 1,033,022 households in Chicago, 23% live in the lowest income category with incomes under 30% of HUD Adjusted Median Family Income (HAMFI). There are a larger number of small family households, defined as a family with two to four members, living within this income category than large family households, defined as a family with five or more members. Almost 32% of households contain at least one person 62-75 years of age or older. Households with one or more children 6 years old or younger comprise 18% of the total.

Cost burden is the most common housing problem for residents in Chicago. At 45% of total households, renter households represented the highest number impacted by severe cost burden. These households spent more than 50% of their income on housing costs.

Demographics	Base Year: 2010	Most Recent Year: 2016	% Change
Population	2,703,466	2,714,017	0%
Households	1,033,022	1,042,579	1%
Median Income	\$46,877.00	\$50,434.00	8%

**Alternate Data Source Name:**

2012-2016 ACS

**Data Source**

**Comments:** Institute for Housing Studies at DePaul University

**Describe the number and type of single person households in need of housing assistance.**

According to HMIS data, in 2018, there were 11,640 single person households new to the homeless system that entered shelters, safe havens, interim housing, transitional housing or homeless prevention programs. Of these, 26% were age 30 or under, 64% were between the ages of 31 and 60, and 11% were 65 or older. Also, 76% were African American, 19% were white, 1% were Asian, 1% were Native Hawaiian or other Pacific Islander, and 2% were American Indian or Alaska Native; and 8% of single person households identified as Hispanic/Latino. Finally, 58% of single person households entering the homeless system reported at least one disabling condition.

**Estimate the number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault and stalking.**

The City of Chicago Domestic Violence Hotline served a total of 24,723 callers in 2018, and of those callers, 6,646 were seeking domestic violence shelter, about a 25% increase from 2017. DFSS' current domestic violence homeless shelters assisted 1,073 survivors over the course of 2018. As of 9/30/19, we have already surpassed the number of 2018 requests for shelter/housing with 6,834 requests through the third quarter of 2019.

Many domestic violence victims are placed in non-domestic violence shelter beds when at capacity. Domestic violence shelters provide similar enhanced services that the DFSS domestic violence program provides such as counseling and legal advocacy. Domestic shelter providers also work with legal aid organizations to provide victims with representation in court proceedings. Domestic violence shelter clients often do not have the resources to afford stable housing, including first month's rent and a security deposit. This puts these families at a high-risk of becoming homeless.

In estimating the housing needs of the disabled, DFSS reviewed data collected by its Aging and Disability Resource Center (ADRC) operated as part of the State of Illinois' Aging and Disability Network. The ADRC is a network of aging and disability agencies working in a coordinated effort to provide individuals with integrated access to public benefit programs, community-based services, long-term options and supports. Through the ADRC, the general public including persons with disabilities and older adults can receive information and services from a centralized source rather than contacting multiple organizations. In 2018, approximately 700 older adults, including individuals with disabilities, contacted the ADRC requesting information or assistance regarding housing.

The high number of calls received by the Mayor's Office for People with Disabilities (MOPD) is a testament to the demand for affordable and accessible housing in Chicago. In 2018, MOPD received

1,487 calls from individuals seeking information about accessible and affordable housing (529 seeking affordable housing, 454 seeking accessible housing and 146 seeking affordable accessible housing).

### **What are the most common housing problems?**

The most common housing problem in Chicago is cost burden. By HUD standards, families that pay more than 30% of their gross income on housing are considered to be cost burdened. This is a problem for households across most income groups but most significantly for low-income renter households.

According to 2011-2015 CHAS data, renter households earning 0-30% AMI make up 54% of total households that are paying 50% or more of their income on housing, which is considered severe cost burden. Owner households within this income group comprise 14% of total households paying 50% or more of income on housing.

Similar problems were seen within the 30-50% AMI group where 11% of total households paying 50% or more of their income on housing comprise of renter households and 9% of them are owner households. Overall, a total of 194,465 households earning between 0-50% AMI have a housing cost burden of 50% or more. Another major population are the 25,000 households with no income.

The second most common housing problem is overcrowding. Over 36,000 households were overcrowded across all income groups, 77% of which were renter households. Of these, 20,700 were low- to moderate- income households earning between 0-50% AMI. Substandard housing was another problem facing a significant amount of Chicago households. There were 8,550 households with incomplete plumbing or kitchen facilities, of which 6,140 were renter households earning within 0-50% of AMI. That is why the City has created programs to aid in the rehabilitation of housing for those suffering from the problems mentioned above.

Access to broadband is the third common housing problem. Currently, according to U.S. Census American Community Survey data, nearly 30% of Chicago residents currently do not have access to broadband at home. Chicago residents face disparities – often along geographic, racial, gender, and economic lines – in their access to at-home broadband, digital skills trainings, and workforce opportunities within the technology sector.

### **Are any populations/household types more affected than others by these problems?**

The CHAS data shows that small related renter households and elderly renter households earning 0-30% AMI were affected more by cost burden than other household types, approximately 47,075 and 31,570 respectively. Cost burden also affected small related renter household types earning between 30%-50% AMI at 37% of total renter household types in that income range. This highlights the need for an increase in the number of affordable housing units in Chicago as the demand increases.

**Describe the characteristics and needs of Low-income individuals and families with children (especially extremely low-income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered 91.205(c)/91.305(c)). Also discuss the needs of formerly homeless families and individuals who are receiving rapid re-housing assistance and are nearing the termination of that assistance**

Many Chicagoans live in poverty and are unable to find living wage jobs; contributing to the number of people at risk of or experiencing homelessness. Chicago utilizes homelessness prevention programs to serve individuals and families at risk of homelessness. These programs provide one-time (in a 24-month period) assistance to households experiencing a temporary financial crisis and are at risk of homelessness as a result. The most common crises are loss of employment or a decrease in work hours, a significant change in household composition, a medical emergency, a natural disaster, a death in the family, and the potential loss of subsidized housing. Households ranged in size from one to seven people. The most common characteristic households that receive assistance in this program is a lack of savings for crisis situations like a short-term job loss or a few weeks off from work. DFSS manages a mobile outreach program that provides shelter transportation, emergency food assistance and well-being checks to Chicagoans who are at risk of entering the shelter system. In 2018, DFSS served 9,058 households and 9,972 clients. Data from the program's Enterprise Case Management (ECM) shows that in 2018, 37% of households receiving assistance were families with children and 9% of the children were under the age of 18, 46% had never experienced homelessness before, 43% had not lived in a shelter in the past twelve months, and 8% of individuals served were 62 or older. 78% of individuals served identified as Black/African Americans, 14% white and 6% Hispanic or Latino. 17% of individuals served reported having a disability and 7% identified as veterans. Finally, 77% of households served had no income, 11% had a gross monthly income of \$1-100, 9% had a gross monthly income of \$501-\$1000, and nearly 3% had a gross monthly income of \$1001 or more.

In 2014, the City launched the Rapid Re-Housing (RRH) program under the Emergency Solutions Grant. In 2018, households served ranged in size from 1-8 people and the average monthly household income was \$911. All the individuals and families in the program came from Interim Shelter programs, Domestic Violence shelters, were on the streets, or in other places not intended for human habitation. 27% were extremely vulnerable (homeless and reporting one or more disabilities, including medical issues, mental health issues, and substance abuse issues). As of the end of 2018, 62 households have reached at least six months of RRH assistance and are anticipated to exit the program within the next 6 months. Of the households active during 2018, 31% were comprised of adults with children and 69% were comprised of single adult only households. 27% of all active individuals in 2018 reported having a disabling condition. The race breakdown of the households is as follows: 86% Black/African American; 12% White; 10% American Indian or Alaska Native; and 1% Native Hawaiian or another Pacific Islander. 92% of households are non-Hispanic/non-Latino and 7% are Hispanic/Latino, and 1% did not report a race. The household size breakdown is 14% with 2 people; 9% with 3; 4% with 4; 2% with 5; 2% with 6; and 5% with 7+.

Although 95% of households moving into a RRH unit exit RRH program to permanent housing situations, individuals and families had a variety of barriers to remaining stably housed including high rent burdens, low-wage jobs in fields with high turnover, low education levels, poor credit histories, mental health and substance use concerns, extended family which is just as stretched and stressed as they are, and children with health issues/special needs. The most significant concern for households nearing the end of their RRH assistance is maintaining enough income to cover their housing expenses.

**If a jurisdiction provides estimates of the at-risk population(s), it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates:**

The City's operational definition of the at-risk population was determined by federal and state guidelines. The federal guidelines used are found in the Emergency Solutions Grant Interim Rule and include the following at-risk characteristics:

An individual or family who: (i) Has an annual income below 30% of median family income for the area; AND (ii) Does not have sufficient resources or support networks immediately available to prevent them from moving to an emergency shelter or another place defined in Category 1 of the "homeless" definition; AND (iii) Meets one of the following conditions: (A) Has moved because of economic reasons 2 or more times during the 60 days immediately preceding the application for assistance; OR (B) Is living in the home of another because of economic hardship; OR (C) Has been notified that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance; OR (D) Lives in a hotel or motel and the cost is not paid for by charitable organizations or by Federal, State, or local government programs for low-income individuals; OR (E) Lives in an SRO or efficiency apartment unit in which there reside more than 2 persons or lives in a larger housing unit in which there reside more than one and half persons per room; OR (F) Is exiting a publicly funded institution or system of care; OR (G) Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved Con Plan.

The state guidelines used are found in the Homelessness Prevention Program Act (Statute: 310 ILCS 70). The statute considers households to be at-risk of homelessness and eligible for prevention assistance if they are facing a one-time crisis such as temporary loss of job, fire, illness, etc. that can be resolved with one-time financial assistance. Both federal and state definitions are used to describe the at-risk populations referenced in the consolidated plan narratives.

Estimates referenced in the narrative were gathered using data from DFSS' Mobile Outreach programs about households presenting for shelter and from the Rapid Re-Housing program. General descriptors without numbers were provided by state prevention programs.

## **Specify particular housing characteristics that have been linked with instability and an increased risk of homelessness**

The lack of affordable housing for lower-income households has been linked with instability and an increased risk of homelessness. Rental housing costs continue to be high while financial benefits (Supplemental Security Income (SSI), Social Security Disability Insurance (SSDI)) may increase only slightly leaving individuals to pay 50% or more of their income for housing. Additionally, DFSS recently analyzed data on residents of 18 shelter programs and found that insufficient income from employment is also a major characteristic that contributes to increased likelihood of homelessness. DFSS has found that the AMI of most households that enter the homeless system are in the 0-30% range, reflecting extreme poverty.

Instability and increased risk of homelessness by people with disabilities is often associated with lack of resources, frequent moving, living in the home of another, eminent eviction, living in a hotel or motel, and exiting an institution (such as jail or mental health facility) or a system of care (skilled nursing care). Other areas that could impact stability are prolonged unemployment, deteriorated housing, older housing stock, domestic violence, mental illness, drugs or alcohol addictions, death of a family member, medical expenses and/or another unanticipated emergency expenditure.

Based on long term statistical data accumulated from the MOPD, Home Modification program (HomeMod), the City has derived that people with disabilities with below average incomes are more likely to be at risk of homelessness. Higher costs of medical payments and ongoing care increase risk of homelessness. HomeMod provides accessible modifications to homes at no cost to clients enabling them to be less at risk of displacement and homelessness. A challenge to the HomeMod program is the rising cost of materials and supplies associated with construction, resulting in a continuing per project total cost increase. MOPD has seen a steady increase in the cost of construction in the past 10 years. In addition to HomeMod, MOPD's Independent Living Program (ILP) provides supportive services which include Personal assistance and homemaker services (PA/HMS) to people with disabilities, who without this assistance would most likely experience a decline in their standard of living that could lead to homelessness.

## **Discussion**

Housing problems continue to impact a significant portion of the population in the city of Chicago. Using 2011-2015 CHAS data, the City identified that 22% of total households lived in the lowest income category with incomes below 30% of HUD Adjusted Median Family Income (HAMFI). Of these, small-family households comprised the largest percentage living in the lowest income category at 29%.

Renter households were more likely to have one or more of the four housing problems defined by HUD. They comprised 69% of total households experiencing one or more of the four housing problems as compared to 31% of owner households. Approximately 50% of the renter households were living in the lowest income category. Households operating at a deficit see higher rates of homelessness, frequent

changes of residence, and a multitude of other issues. The dual effect of a low income and decreasing affordable housing stock has proven extremely problematic to the elderly and those with disabilities. The elderly and disabled are often impacted by fixed income, rising medical costs, and access to services.

The City, through the efforts of DOH, DFSS and MOPD, seeks to address the housing problems residents experience by increasing the supply of affordable housing, reducing housing cost burden and overcrowding, and facilitating investment to upgrade substandard housing in neighborhoods across the City, especially those that are home to households with incomes below 30% of the AMI.

The City of Chicago suffered major storms on April 17th and 18th in 2013 that brought extensive damage to certain areas of the city, that were highly vulnerable to flooding. On May 10, 2013, the U.S. Department of Homeland Security's Federal Emergency Management Association (FEMA) issued a Presidential Disaster Area declaration. As a result, HUD allocated multiple waves of CDBG-DR funding in the to the City of Chicago to help in recovery efforts of community areas that were most impacted by the storms.

Following the flood, the city received 2,500 calls regarding flooded basements, 571 calls for water in the streets, and 32 calls for flooded viaducts as a result of the April floods. Commonwealth Edison estimated that approximately 24,000 residents lost power due to the flooding.

Of the 40,000 plus individuals who applied for housing assistance from FEMA:

- 22,901 had an income of less than \$30,000;
- 8,554 were over the age of 62;
- 1,571 individuals had a hearing, visual, mental, or other disability;
- 38,445 of the applicants had no flood insurance; and
- 18,248 lacked homeowner's insurance.

## **NA-15 Disproportionately Greater Need: Housing Problems – 91.205 (b)(2)**

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

### **Introduction**

#### **0%-30% of Area Median Income**

According to 2011-2015 CHAS data, there were a total of 235,825 households in Chicago within the extremely low-income group. Of these households, 184,540 experienced at least one of the four housing problems and comprised of 78.3% of the total households within the extremely low-income category. Within the racial and ethnic groups, the CHAS data shows that, while at a slightly lower percentage than the category of need as a whole, Black/African American households made up the single largest group in this income category, with 87,700 households, or 76% of the total, experiencing at least one of the four housing problems. Approximately 86.3% of Hispanic households had experienced one or more of the housing problems, 8% higher than the category as a whole. Additionally, Hispanic households experienced the second highest number of households with one or more housing problems at 42,875. Asian households represented the lowest percentage of households experiencing one or more housing problem with at 67.1% of the total.

#### **30%-50% of Area Median Income**

There was a total of 151,260 households in Chicago within the low-income group. Of these households, 116,570 experienced at least one or more of the four housing problems and comprised 77% of all households within the low-income category. Within the racial and ethnic groups, the percentage of low-income Asian households experiencing at least one of the four housing problems was 81.5%. This figure was 4.5% greater than the percentage of all low-income households that experienced at least one housing problem, and the highest percentage within this income category. Per HUD's definition, no racial or ethnic groups had a disproportionate housing need of 10% above the category average. However, as was the case in the extremely low-income category most groups experience one or more housing problem at significantly high percentages. Hispanic households experienced the second highest percentage of households with one or more housing problems were at 78.5%, which is higher than the average but well below HUD's definition of a disproportionate need compared to the income category as a whole.

#### **50%-80% of Area Median Income**

There was a total of 168,935 households in Chicago within the moderate-income group. Of these households, 81,300 experienced at least one of the four housing problems and comprised 48.1% of all households within the moderate-income category. The data showed that only Pacific Islander households experienced a disproportionately greater housing need than the total at 66.7%. However, the total number of Pacific Islander households in this income category is very small, at 30 households. Within the other racial and ethnic groups, Asian households experienced the highest percentage of households with one or more housing problems at 55.1%. Of the low-income households experiencing

one or more housing problems, American Indian/Alaskan Native households represented the lowest percentage at 31.7%.

### 80%-100% of Area Median Income

There was a total of 91,530 households in Chicago within the middle-income group. Of these households, 29,735 experienced at least one of the four housing problems and comprised 32.4% of all households within the middle-income category. Within racial and ethnic groups, Asian middle-income households experienced at least one of the four housing problems at 44.7%. Since that is more than 10% higher than the percentage for the income group, they meet the HUD definition of having a disproportionate need. White households represented the next highest number of with one or more housing problems at 37.5%, followed closely by Hispanic households at 32%, and Black/African American households at 22.5%. Pacific Islander households had the smallest proportion of middle-income households.

### 0%-30% of Area Median Income

Source:

\*The four housing problems are:

1. Lacks complete kitchen facilities, 2. Lacks complete plumbing facilities, 3. More than one person per room, 4. Cost Burden greater than 30%

**Discussion**

The 2011-2015 CHAS housing problem estimate for the City of Chicago reported 647,550 low to moderate- and middle-income households. Of this total, 412,145 or 63.6% experienced at least one of four housing problems: lacks complete kitchen facilities, lacks complete plumbing facilities, more than one person per room, and cost burden paying greater than 30% of monthly income on housing costs.

The only race or ethnicity household type that had a disproportionate need in any of the income categories was Pacific Islander households in the moderate-income category, and Asian households at the middle-income level. However, while exceeding 10% of the proportion for all moderate-income households as a whole, the total number of Pacific Islander households in that income category experiencing one of the four housing problems reported was only 30 households. With such a small estimate, evaluations must be made with caution. Asian households at the middle-income level also represented a small percentage of the total in that income category at just under 6%.

Although they did not have a disproportionate need in any of the income categories, Hispanic households had the greatest proportion of households experiencing one of the four housing problems at 65.8%. Hispanic households had the highest proportion in extremely low-income category. Hispanic households had the second highest proportion of low-income, and middle-income households experiencing at least one of the four housing problems behind Asian and White households respectively.

## **NA-20 Disproportionately Greater Need: Severe Housing Problems – 91.205 (b)(2)**

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

### **Introduction**

#### **0%-30% of Area Median Income**

Per HUD, a disproportionate need exists when the percentage of households of any race or ethnicity within a given low to moderate income category is 10% greater than the percentage of all households within that same income category. A total of 235,830 households in Chicago were extremely low-income according to estimates from the 2011-2015 American Community Survey. Of these, 156,215, or 66.2%, experienced at least one of the four housing problems defined as severe, which includes the lack of a complete kitchen and/or plumbing facilities, having more than 1.5 persons per room and monthly housing costs exceeding 50% of monthly income. While no percentage of extremely low-income households of any racial or ethnic group experiencing one of the two severe housing problems exceeded the HUD threshold of 10% of the total percentage, American Indian/Alaskan Native and Hispanic households were the highest at 71.2%, and 71.3% respectively.

#### **30%-50% of Area Median Income**

A total of 151,260 households in Chicago were low-income. Of these, 55,880, or 36.9% of households experienced at least one of the four housing problems defined as severe, lacking complete kitchen and plumbing facilities, more than 1.5 persons per room and monthly housing costs exceeding 50% of monthly income. No group of low-income households of any race or ethnicity experiencing at least one of the four severe housing problems exceeded 10% of the total low-income households experiencing at least one of the four severe housing problems. Of low-income households experiencing at least one of the four severe housing problems, American Indian/Alaska Native had the highest percentage at 46.1%. While very close to the HUD defined level of disproportionate need, the total number of American Indian/Alaska Native households is only 269. These households were followed closely by Asian households at 43.9%. White and Hispanic households were also above the overall category percentage at 39.6% and 37.4%, respectively.

#### **50%-80% of Area Median Income**

A total of 168,940 households in Chicago were moderate-income. Of these, 29,250, or 17.3% of households experienced at least one of the four housing problems defined as severe, lacking complete kitchen and plumbing facilities, more than 1.5 persons per room and monthly housing costs exceeding 50% of monthly income. The percentage of moderate-income Asian households experiencing at least one of the four severe housing problems was the highest at 23.7%. This is 6.4% greater than the percentage of all moderate-income households that experienced at least one of the four severe housing problems. Per HUD's definition, no moderate-income households have a disproportionate housing need. Hispanic households also had a higher than average housing need with 21.8% reporting one of the two severe housing problems.

### 80%-100% of Area Median Income

A total of 91,530 households in Chicago were middle income. Of these, 8,610, or 9.45 of households experienced at least one of the four housing problems defined as severe, lacking complete kitchen and plumbing facilities, more than 1.5 persons per room and monthly housing costs exceeding 50% of monthly income. No percentage of middle-income households of any racial/ethnic group experiencing at least one of the four severe housing problems exceeded 10% of the total percentage of all middle-income households experiencing at least one of the two severe housing problems. Therefore, no middle-income household of a specific race/ethnicity had disproportionate need. Asian households were close to meeting the disproportionate need threshold at 17.7%, with Hispanic households also above average with 12.1% reporting one or more of the severe housing problems.

### 0%-30% of Area Median Income

Severe Housing Problems*	Has one or more of four housing problems	Has none of the four housing problems	Household has no/negative income, but none of the other housing problems
Jurisdiction as a whole	156,215	54,525	25,090

**Discussion**

The 2011-2015 CHAS housing problem estimate for the City of Chicago returned 647,560 low to moderate- and middle-income households. Of this total, 249,955 or 38.5% experienced at least one of the four severe housing problems, lacks complete kitchen facilities, lacks complete plumbing facilities, more than 1.5 persons per room, and cost burden paying greater than 50% of monthly income on housing costs.

Based on HUD's criteria, no race/ethnicity household type had a disproportionate need in any of the income categories. American Indian/Alaska Native households came close to the HUD definition of disproportionate need in the low-income category. However, while nearly exceeding 10% of the proportion for all moderate-income households, the estimate of American Indian/Alaska Native households experiencing at least one of the four severe housing problems was only 124 households. With such a small estimate, evaluations must be made with caution. Asian Households at the middle-income level were also close to the 10% threshold of having a disproportionate need.

Although not having a disproportionate need in any of the income categories, American Indian/Alaska Native Asian households had the greatest proportion of households experiencing at least one of the four severe housing problems at 42.1%. Again, caution must be taken when evaluating because American Indian/Alaska Native households make up just over 0.1% of total households at or below 100% of Area Median Income (AMI) Asian households were the second highest with 40.7%. In fact, in the middle-

income category, Asian households were less than 2% away from having what is defined as disproportionate housing need. When totaling the raw number of households at or below 100% of AMI, Black/African American Households make up by far the largest group at over 38% of the total in the jurisdiction. They also have the third highest proportion of households experiencing at least one of the severe housing problems at 40.2%. Hispanic Households were close behind with 39.7% of households reporting severe housing problems.

## NA-25 Disproportionately Greater Need: Housing Cost Burdens – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

### Introduction:

See discussion section.

### Housing Cost Burden

Housing Cost Burden	<=30%	30-50%	>50%	No / negative income (not computed)
Jurisdiction as a whole	578,805	206,825	223,100	26,705
White	281,860	73,010	65,355	6,350
Black / African American	143,615	65,900	91,155	14,075
Asian	35,375	11,195	11,710	2,660
American Indian, Alaska Native	740	280	495	120
Pacific Islander	145	20	20	10
Hispanic	108,255	53,505	50,825	3,100

**Table 21 – Greater Need: Housing Cost Burdens AMI**

Data Source: 2011-2015 CHAS

### Discussion:

The estimate of households experiencing cost burden according to the 2011-2015 CHAS data included 1,035,430 households. Of these, 206,825 experienced cost burden and 223,095 experienced severe cost burden. Thus, the proportion of households experiencing cost burden of the jurisdiction as a whole was 19.9% and the proportion of households experiencing severe cost burden of the jurisdiction as a whole was 21.5%.

No race/ethnicity had a disproportionate need with respect to cost burden. With 24.8% of all such households experiencing cost burden, Hispanic households have the highest proportion at 3.9% greater than the proportion of households who experienced cost burden as a whole. Black/African American households also had a proportion that was higher than the jurisdiction as a whole at 20.9%.

As with the 30-50% of income cost burden category, no race/ethnicity had a disproportionate need with respect to severe cost burden higher than 50% of income. However, American Indian/Alaska Native, and Black/African American households experienced severe cost burden at significantly higher rates than the jurisdiction as a whole with 30.2% and 28.9% respectively. These figures were 8.7% and 7.4% greater

than the proportion of households who experienced severe cost burden as a whole. Hispanic households also had high rates of severe cost burden with 23.5% reporting paying more than 50% of their income on housing costs.

## **NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2)**

**Are there any income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?**

Of the four different income categories, when estimating the number and types of households that experienced at least one of the four housing problems and at least one of the two severe housing problems, Hispanic households ranked first or second in 6 out of 8 income categories. While they did not have a disproportionate need, moderate income and middle-income Hispanic households were 1% short of meeting the disproportionate severe housing need threshold.

**If they have needs not identified above, what are those needs?**

The data presented in the previous sections sufficiently identifies the needs.

**Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?**

While they did not have disproportionate need according to the ACS sample, a significant number of Hispanic households experienced one of the four housing problems or at least two of the four severe housing problems. Households with persons of Hispanic ethnicity reached 50% of all households in some census tracts. In 16 Community Areas, there were census tracts where the percentage of households with persons of Hispanic ethnicity was between 40% to 50%. To the south, these Community Areas were East Side and the Northeast section of South Deering. To the West, these Community Areas were the southeast section of North Lawndale, Lower West Side, South Lawndale, Brighton Park, Archer Heights, New City, Gage Park, West Elsdon, West Lawn, and the Northwestern part of Chicago Lawn. In the lower North West, these Community Areas are Hermosa, Belmont Cragin, the western section of Logan Square and the northern section of Humboldt Park.

## NA-35 Public Housing – 91.205(b)

### Introduction

The City's public housing system is managed by the Chicago Housing Authority (CHA). CHA is the largest owner of rental housing in the City of Chicago, providing homes to more than 60,000 families and individuals, while supporting healthy communities in neighborhoods across the city. CHA oversees more than 14,000 public housing units and administers over 48,000 Housing Choice Vouchers that allow low- income families to rent in the private market.

CHA is a municipal not-for-profit corporation, governed by a Board of Commissioners consisting of ten members, appointed by the Mayor of the City of Chicago. Along with its City of Chicago sister agencies, the Chicago Housing Authority plays a vital role in providing housing opportunities across Chicago through the provision of public housing apartments and the management of Housing Choice Vouchers. CHA's investment in new housing for seniors, veterans and families is transforming the lives of residents through better housing while helping to build stronger communities.

**Data Source Comments:** \*Does not include 437 residents identified as "Unknown Ethnicity"

## **Section 504 Needs Assessment: Describe the needs of public housing tenants and applicants on the waiting list for accessible units:**

Currently, CHA has 28,057 households with a disabled household member and 893 households who requested disability features from 2014-2018. In addition, there are currently 3,716 households across CHA's waitlists requesting an accessible unit. CHA incorporates Uniform Federal Accessibility Standards (UFAS) into new construction and rehabilitation projects, ensuring that housing is provided for people with disabilities currently residing in CHA housing as well as those on its waiting lists. Whereas most housing authorities provide 5% and 2% of their units to people with mobility and sensory impairments, CHA provides 5.3% and 2.1% respectively. To ensure compliance with the exacting UFAS standards, CHA contracts with a third-party architecture firm to certify all UFAS units.

To date, CHA has 1,751 UFAS-504 Mobility units, 386 UFAS-504 Sensory units and has certified 103 common areas as UFAS accessible. CHA also works extensively with the City of Chicago to comply with the City of Chicago's Building Code—specifically Chapter 18-11 that addresses issues of accessibility. In CHA's newly redeveloped properties, four stories or more and containing 10 or more dwelling units, 20% of the units are mandated to be made adaptable for people with disabilities and CHA works with developers to build the required units. CHA staff, including all Private Property Managers of CHA's public portfolios and all HCV contract vendors have been mandated to attend fair housing and disability trainings.

In the HCV Program, CHA partnered with the Mayor's Office for People with Disabilities (MOPD) to create the first of its kind Modification Fund—a pool of money set aside for the construction and installation of accessibility features for HCV participants. Modifications can include ramps, porch and stair lifts, roll-in showers, widened doorways, accessible sinks and cabinets. All services are performed in accordance with federal, state and municipal accessibility legal requirements.

## **Most immediate needs of residents of Public Housing and Housing Choice voucher holders**

### **Most immediate needs of residents of Public Housing and Housing Choice voucher holders**

Most CHA households—60,949 (96%) --fall into an AMI category that is considered extremely-low or very-low income. Further, 30,943 households across the Public Housing and Voucher portfolios include only seniors and people with disabilities. CHA considers these families to have the greatest need and the least ability to transition off a subsidy. CHA divides the remaining households into five categories based on need for reporting purposes. The five categories below include households with at least one adult who is not a senior or disabled.

**In crisis** (families with an adult who is eligible to work but have no income from wages): 15,343 households (24.1%)

**At risk** (families with an adult who is eligible to work and income from wages between 9% and 30% AMI): 10,116 households (15.9%)

**Safe** (families with an adult who is eligible to work and income from wages between 31% and 50% AMI): 5,183 households (8.2%)

**Stable** (families with an adult who is eligible to work and income from wages between 51% and 80% AMI): 1,762 households (2.8%)

**Thriving** (families with an adult who is eligible to work and income from wages above 80% AMI): 202 households (.32%)

### **How do these needs compare to the housing needs of the population at large**

Because most CHA households fall into an AMI category that would be considered extremely low/very-low income, their needs for services are typically more extensive than the needs of the population at large. Further, CHA continues to serve at-risk populations in need of greater assistance and supportive services including homeless families and individuals, seniors and people with disabilities who are on fixed incomes. CHA has also implemented special demonstration programs for other at-risk populations, including veterans, survivors of human trafficking and individuals seeking to re-enter the community after prison. However, the number of people on CHA's waitlists demonstrates the continuing need for safe and affordable housing across a wide variety of income and demographic groups.

### **Discussion**

Public housing is a critical need in Chicago, and the Department of Housing will continue to coordinate and leverage resources with partners such as the Chicago Housing Authority (CHA) and the Illinois Housing Development Authority (IHDA). In particular, the City will support the implementation of CHA's Plan Forward, and focus on how to best utilize DOH and CHA's resources to advance affordability goals throughout the city.

## **NA-40 Homeless Needs Assessment – 91.205(c)**

### **Introduction:**

Chicago complies with all federally required data collection standards and commissions its own additional data gathering and research projects to better understand the needs of homeless individuals and families. The City and its partners use data to inform the development of programs and the deployment of resources to impact special populations. The City uses the information gathered through the Point-Time Homeless (PIT) count and the Homeless Management and Information System (HMIS) to track progress and refine its response to homelessness. The PIT count offers information about individuals and families experiencing homelessness on a given night, while program level data collection reported through HMIS offers information about program utilization, an unduplicated count of individuals/families, and veterans experiencing homelessness throughout the entire year. HMIS also offers system data when program level information is rolled up to the system level. Both sources of information play a role in planning.

### **2018 PIT Homeless Count**

The most recent PIT count and survey of unsheltered and sheltered homeless persons in Chicago took place in January 2018. The intent was to produce a comprehensive count and survey of the homeless in Chicago that helps the city to develop a better understanding of: 1) the number of people who are unsheltered on any given night in Chicago, including chronically homeless persons, their housing and service needs; and 2) the number of people sheltered on a given night in Chicago, their housing and service needs.

In 2018, the PIT count enumerated homeless individuals and families living on the street, in abandoned buildings (including CHA properties), on CTA trains, and in emergency shelters and transitional housing. The homeless definition does not include individuals or families doubled up in homes or apartments, formerly homeless people living in permanent housing units, those residing in treatment facilities, detention facilities, mental health facilities and/or chemical dependency facilities.

Since 2005, the City has used a consistent research methodology in conducting the street count and producing the results. Each year the methodology, survey instruments and patterns of unsheltered homeless outreach are reviewed. Updates and modifications to the instrument are made as needed but in a way that would not alter the ability to make year-to-year comparisons.

The PIT Count provides a range of demographic data and information on barriers to housing for households counted each year. Findings from the 2018 count reflect that the largest portion of people homeless are in the 41-60 age range (35.5%), followed by 25-40 (23.2%), 17 and under

(22.3%), over 60 (10.3%) and 18-24 (8.8%). This distribution has remained relatively stable since 2016. When comparing sheltered to unsheltered, the 2018 population closely matched the 2017 count. Unsheltered individuals age 25-40 decreased slightly from 38.1% to 34.7%, while there was a slight increase in persons age 41-60 from 46.7% to 47.4% and over 60 from 10.8% to 12.8%, for age 18-24 there was a slight increase from 4% to 5%, and for age 17 and under there was a slight decrease from 0.3% to 0.1%. Sheltered individuals age 25-40 decreased slightly from 20.2% to 19.4%, over 60 slightly decreased from 10.0% to 9.5%, age 18-24 slightly decreased from 11.2% to 10.1%, persons age 41-60 slightly increased from 29.3% to 31.5%, and age 17 and under slightly increased from 29.2% to 29.6%.

### Homeless Needs Assessment

Population	Estimate the # of persons experiencing homelessness on a given night		Estimate the # experiencing homelessness each year	Estimate the # becoming homeless each year	Estimate the # exiting homelessness each year	Estimate the # of days persons experience homelessness
	Sheltered	Unsheltered				
Persons in Households with Adult(s) and Child(ren)	4,186	1,595	13,392	8,915	8,434	499
Persons in Households with Only Children	7	0	128	123	120	26
Persons in Households with Only Adults	5,583	2,295	4,950	11,640	12,609	744
Chronically Homeless Individuals	1,170	1,269	5,042	2,864	3,045	747
Chronically Homeless Families	184	232	814	545	480	501
Veterans	588	140	1,732	1,079	1,112	592
Unaccompanied Child	595	335	2,339	1,446	1,537	449
Persons with HIV	165	144	766	497	503	828

**Table 26 - Homeless Needs Assessment**

**Alternate Data Source Name:**

Homeless Management Information System (HMIS)

**Data Source Comments:**

Indicate if the homeless population is:      Has No Rural Homeless

**If data is not available for the categories "number of persons becoming and exiting homelessness each year," and "number of days that persons experience homelessness," describe these categories for each homeless population type (including chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth):**

Chicago's Continuum of Care, All Chicago, administers the Chicago Homeless Management Information System (HMIS), which is a database that collects specific data on people experiencing homelessness and the housing and homeless services that they receive. The table above reflects the estimated number of persons experiencing homelessness on a given night (sheltered and unsheltered), the estimated number of persons experiencing homelessness each year, the estimated number of persons becoming homeless each year, the estimated number of persons exiting homelessness each year, and the estimated number of days persons experience homelessness. These are estimates based on the organizations and programs that report data into the Chicago HMIS.

### Nature and Extent of Homelessness: (Optional)

<b>Race:</b>	<b>Sheltered:</b>	<b>Unsheltered (optional)</b>
White	1,250	385
Black or African American	5,089	2,277
Asian	69	11
American Indian or Alaska Native	123	26
Pacific Islander	43	14
<b>Ethnicity:</b>	<b>Sheltered:</b>	<b>Unsheltered (optional)</b>
Hispanic	568	198
Not Hispanic	6,071	2,541

Data Source

Comments:

### Estimate the number and type of families in need of housing assistance for families with children and the families of veterans.

Since 2016, the number of homeless veterans decreased by 18% from 601 veterans in 2016 to 494 in 2018. In 2018, the sheltered veterans were 296 (10.3%) and unsheltered veterans were 198 (14.6%). The number of veterans in shelters has diminished due to housing resources available for veterans and the many providers that serve veterans locally including but not limited to, the U.S. Department of Veteran Affairs, Corporation for Supportive Housing and the Chicago Housing Authority.

### Describe the Nature and Extent of Homelessness by Racial and Ethnic Group.

The 2018 PIT count results show that Black/African Americans were 69.1% of the sheltered homeless population, Whites were 25.4% and other were 5.5%. Survey results also show that Black/African Americans were 73.5% of the unsheltered homeless population, Whites were 22.5%, and other were 4%.

### Describe the Nature and Extent of Unsheltered and Sheltered Homelessness.

In the 2018 PIT count, 565 families or a total of 1,897 persons in families spent the night in a shelter. These families include an adult with at least one child up to the age of 21. While only a 1 percent decrease from 2017, it is the lowest number of families since Chicago has been conducting counts under the current methodology. Additionally, there were 2,196 sheltered singles (people staying in shelters who were not accompanied by another family member), a 3% increase from the 2017 count. Among the unsheltered single population, there was a 14% decrease of individuals counted on the streets. Overall,

the 2018 PIT count results show that the unsheltered homeless population has declined from previous years.

In 2018, both homeless population groups (sheltered and unsheltered) showed decreases in the percent of those reporting incidents of domestic violence. Among sheltered individuals, 9.8% reported domestic violence, a 10.5% decrease from 2017, which was 20.3%. The decrease is slightly larger among unsheltered, where 6.5% reported domestic violence which was down 18% from the 2017 count, which was 24.5%. In 2018, HUD changed its domestic violence survey. In the past, the survey asked about any experience with domestic violence. However, the 2018 survey asked about your immediate situation: Are you being threatened or harmed by someone you know or are you fleeing a violent relationship? As a result, the number of people reporting being a victim of domestic violence was expected to decrease significantly.

### **Discussion:**

In 2002, Chicago was the first major city to create an ambitious Plan to End Homelessness. Our goals were – and continue to be – to prevent homelessness whenever possible and to provide an integrated array of housing and services in an effective and cost-efficient manner for the greatest number of Chicagoans in need.

Ten years later, the City re-committed to creating solutions for the most vulnerable citizens of Chicago with Chicago's Plan 2.0: A Home for Everyone. Together, with housing and service providers, city and county government, formerly and currently homeless consumers, business leaders, philanthropic partners, faith communities, and many other committed Chicagoans – the City will build momentum, promote new ideas, and meet the needs of those without stable housing.

The flood caused commercial property damage and resulted in short- and long-term profit losses. Based on data provided by SBA, business owners in the South Side of Chicago received the largest monetary claims for damage to their businesses' real and personal property.

The floods significantly impacted Chicago's infrastructure and resulted in the City receiving 571 calls of flooded streets and 32 calls of flooded viaducts. The Department of Streets and Sanitation relocated 105 vehicles to remove them from flooded areas. The rain and related flooding caused major road closures.

## NA-45 Non-Homeless Special Needs Assessment - 91.205 (b,d)

### Introduction:

This section describes the housing needs of persons who are not homeless but require supportive housing services. The non-homeless populations with special needs include the elderly, persons with disabilities (including mental, physical, and developmental disabilities as well as persons who chronically abuse drug and alcohol), victims of domestic violence, dating violence, or sexual assault and persons living with HIV/AIDS. Also included in this section are the special needs of immigrants.

### HOPWA

<b>Current HOPWA formula use:</b>	
Cumulative cases of AIDS reported	12,262

**Data Source:** HOPWA CAPER and HOPWA Beneficiary Verification Worksheet

### Describe the characteristics of special needs populations in your community:

**Elderly:** According to the 2017 American Community Survey (ACS), there were a total of 453,292 Chicagoans aged 60 and older, representing fifteen percent (15%) of the overall citywide population.

This is a significant increase from the census data which reported 391,795 seniors 60 years and above during 2010. As of December 2017, 74,815 or 17.0% of the senior population had incomes below the poverty level during 2017. This is a significant increase from 2010 when 64,361 seniors were below the poverty level in Chicago. Seniors in Chicago are increasingly faced with limited financial resources. Currently, the annual median income for Chicago households headed by a senior (65 and above) is only \$32,465 and the average Social Security income in elderly households is \$17,057. The average retirement income for seniors 60 and above is only \$31,047. Thus, Chicago seniors are increasingly vulnerable to the rising cost of necessities such as food and housing.

**Persons with physical and/or developmental disabilities:** Persons living with disabilities in the City include those who have hearing, vision, cognitive/developmental, mental health, ambulatory, self-care, or independent living difficulties – with many having multiple difficulties. The ACS data shows there are 600,000 persons with physical and/or developmental disabilities living in Chicago.

**Persons with mental health disabilities:** CDPH's Healthy Chicago Survey shows the makeup of the adult populations receiving behavioral health services and the issues they face. Aggregating data from the three annual surveys conducted 2015-17, CDPH estimates that 12.1% of Chicago adults report mild or moderate psychological stress and 4.5% report serious psychological distress. About 10.9% of Chicago adults report taking medication or receiving treatment for a mental health or emotional problem.

**Persons with alcohol or other drug addictions:** The City of Chicago's unmet need for alcohol and drug treatment in adults and youth is higher in percentage than other regions in the state of Illinois. The central west Chicago communities have the highest percentage of minority residents and high levels of alcohol abuse or dependence. The southeast side of Chicago has twice the proportion of minorities as Illinois as a whole and has the 2nd highest proportion of residents 18 and older who have illicit substance abuse/dependence and/or alcohol abuse/dependence. The far north side of Chicago has the 4th and 5th highest proportion of adults who need but have not received treatment for illicit drug and alcohol use problems, respectively. It also has the second highest rate of unmet treatment needs for youth with alcohol use problems.

**Victims of domestic violence, dating violence, sexual assaults, and stalking:** The Illinois Domestic Violence Hotline receives 25,000 calls annually of which 11,556 were from Chicago, in 2018. The Chicago Police Department responded to over 150,000 domestic related calls in 2018 resulting in 51,604 case reports. As of 9/30/19, the Hotline has received 18,632 calls; 8,188 from Chicago. CPD reports that as of 6/30/19, there have been 8 DV-related homicides.

**Immigrant community:** Chicago's vibrant economy and available opportunities is a magnet for immigrants from around the world. According to 2017 ACS 5-year estimates, Chicago is home to 563,879 foreign-born residents. The Asian population growth rate, which grew by 16% since 2010, has been the most rapid. In addition, Latinos now comprise 29% of the Chicago's total population. Also, home ownership within the Latino population grew by approximately 2.2% between 2010 and 2017. Despite this growth, home ownership continues to be out of reach for many immigrants.

## **What are the housing and supportive service needs of these populations and how are these needs determined?**

City departments that administer supportive service programs regularly engage with citizen groups, external advocates and community-based organizations to ensure programs meet the needs of the community. Department staff participate in taskforces, committees, and councils. City departments are in constant dialogue with non-profit service providers across programs to ensure that programs respond to community needs and follow best practices.

### **Elderly and Persons with physical and/or developmental disabilities:**

Senior Services works with the Chicago Department of Housing (DOH) and the Chicago Housing Authority (CHA) to expand options for seniors needing affordable housing. Senior Services also partners with DOH on housing-related issues affecting seniors, including predatory lending, assistance with home repairs and senior housing studies.

In estimating the housing needs of the disabled, data is collected by the Aging and Disability Resource Center (ADRC) operated as part of the State of Illinois' Aging and Disability Network. The ADRC is a network of aging and disability agencies working in a coordinated effort to provide individuals with integrated access to public benefit programs, community-based services, long-term options and supports. Through the ADRC, persons with disabilities and older adults can receive information and services from a centralized source rather than contacting multiple organizations.

Persons with mental health disabilities: Of the Chicago adults who reported serious psychological distress, only 50% reported that they are currently receiving treatment. For those adults who needed mental health treatment in the previous 12 months, 7.2% report that they needed mental health treatment but didn't get it. The reasons—and some people have more than one—were varied:

- o 36.6% say they cannot afford treatment.
- o 34.8% do not know where to get services.
- o 28.7% say their insurance does not cover or does not pay enough for mental health treatment.
- o 20.7% do not seek treatment because of the continued stigma of mental illness.
- o 10.2% are concerned about being committed to a psychiatric hospital.
- o 2.3% of respondents believe no services are available.

DPH provides mental health services for a wide array of clients. If unstable housing or living situation is presented at time of assessment, or anytime throughout treatment, clients are referred to the case manager to determine all case management needs and prioritized accordingly. They will often develop a plan with a client that relates to long-term housing and develop short term goals.

**Victims of domestic violence, dating violence, sexual assaults, and stalking:** DFSS' Family Violence Prevention programs offer supportive services that empower and build self-sufficiency of victims and strengthen their problem-solving capabilities and are provided through the following models:

Counseling Services, Legal Advocacy, Legal Services, Resource Information Advocates, Supervised Visitation and Safe Exchange Centers, and Multi-Disciplinary Team Services for Victims of Domestic Violence.

**Immigrant community:** The housing needs of Immigrants offer key challenges to those seeking out permanent living arrangements as well as supportive housing providers in Chicago. In addition to obtaining more stabilized housing, immigrants with limited English-speaking capabilities may require additional assistance in navigating federal and state government agencies.

**Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:**

The Chicago Eligible Metropolitan Statistical Area (EMSA) is comprised of seven counties—Cook, DeKalb, DuPage, Grundy, Kendall, McHenry and Will—with a 2017 estimated population of 7.4 million, representing 58% (7,443,876/12,854,526) of the population of the state of Illinois. Seventy percent (5,238,541) of the overall EMSA population lives in Cook County, while 37% (2,722,586) lives in the city of Chicago.

According to the December 2017 Illinois HIV/AIDS Monthly Surveillance Update, there were 38,813 people living with HIV and AIDS (PLWHA) in Illinois. Of this group, 81% (31,516) resided in the EMSA with a prevalence rate of 423.4 per 100,000. In 2017, the city of Chicago's PLWHA prevalence rate of 898.9 per 100,000 was 2.1 times that of the EMSA.

From 2016 to 2017, the number of people infected with HIV in the EMSA has declined by almost 17% (from 1,459 to 1,215). During the same period, the total number of people living with PLWHA increased by 2% (30,929 to 31,516) in the Chicago EMSA.

Eighty-one percent (22,796) of PLWHA in the EMSA were male, and 19% (5,265) were female.

Forty-eight percent (13,477) of PLWHA in EMSA were Non-Hispanic Black, 25% (6,949) were White, 20% (5,639) were Hispanic, and 7% (1,996) were other (American Indian/Alaskan Native; Asian; Native Hawaiian/Other Pacific Islander; and Multiple) or unknown races.

Of the total PLWHA in the EMSA in 2017, 89% (28,061) were aged 13 years or greater. Of the PLWHA over 13 years of age, approximately fifty-seven percent (15,961) were aged 45 years or older, followed by 20% between the ages of 35-44, 18% (5,063) between the ages of 25-34, and 5% (1,282) between the ages of 13-24.

Among the 28,061 PLWHA aged 13 years and older, male-to-male sexual contact (MSM) was the leading mode of transmission in 58% (16,154) cases. Heterosexual contact was the second leading mode of transmission at 14% (3,962), followed by injection drug use at 9% (2,394) and MSM and IDU at 5% (1,478).

**If the PJ will establish a preference for a HOME TBRA activity for persons with a specific category of disabilities (e.g., persons with HIV/AIDS or chronic mental illness), describe their unmet need for housing and services needed to narrow the gap in benefits and services received by such persons. (See 24 CFR 92.209(c)(2) (ii))**

**Discussion:**

In 2017, the City's HOPWA program provided HIV housing and support services to 1,654 eligible individuals living with HIV/AIDS within the EMSA. The 1,654 eligible HOPWA clients received HIV housing assistance from our three service categories: facility-based housing assistance, housing information services, and tenant-based rental assistance. HIV housing services were also provided to 166 HOPWA client's beneficiaries. Beneficiaries are any other members of the household (with or without HIV) who benefitted from the assistance. The beneficiaries have access to support services, except for medical care and treatment. In 2017, 846 HOPWA-eligible individuals received facility-based housing assistance and tenant-based rental assistance, which includes short-term rent, mortgage, and utilities assistance. Of these individuals, 70% were Black/African American; 12% were White, 17% were Latino/Hispanic, and 1% identified as Multi-Racial.

There were 631 male, 171 female and 44 transgender participants. Approximately 15% of male participants were between ages of 18 to 30, 32% of male participants were between ages of 31-50, and 53% were 51 years or older. 13% female participants were between ages of 18 to 30, 46% female participants were between ages of 31-50, and 40% were 51 years or older. 50% transgender participants were between ages of 18 to 30, 40% transgender participants were between ages of 31-50, and 40% were 51 years or older.

## **NA-50 Non-Housing Community Development Needs – 91.215 (f)**

### **Describe the jurisdiction's need for Public Facilities:**

The City's Capital Improvement Program (CIP) addresses the physical improvement or replacement of City-owned infrastructure and facilities. Capital improvements are projects with long useful lives that maintain, upgrade or replace public infrastructure and public service providing facilities. Each year, the City of Chicago produces a CIP, a spending "blueprint" based upon the most current revenue projections and project priorities. Continued investments in infrastructure and facilities are critical to support and enhance neighborhoods, stimulate the economy and improve services. Planning for capital improvements is an ongoing process.

The CIP is not intended to be an all-inclusive inventory of the City's capital needs for the upcoming five years. It is a document that outlines planned capital improvements, given the projection of available financial resources. The revenue for the CIP is generated from general obligation bonds, tax increment financing, revenue bonds in the case of Water, Sewer and Aviation improvements and state and federal funding for transportation improvements. Funding is also provided from private sources that utilize special assessments such as the shared sidewalk program.

The 2019-2023 CIP allocates more than \$257 million toward the maintenance, upgrade, or replacement of public facilities. Bond funds account for over 63% (\$163 million) of the allocation. City funds nearly account for 8 percent (\$20 million). Other funds make up 0.5 percent (\$1 million) of the financing; while State funds account for 1.6 percent (\$4 million). Finally, TIF funds are expected to finance 26.9 percent (\$63.4 million) of public facility maintenance, upgrade, and replacements.

### **How were these needs determined?**

Although the City has not identified public facilities as a priority need in the 2020-2024 Consolidated Plan, as the City's infrastructure ages and as needs change, capital programs and priorities may be adjusted. New construction may be required to accommodate increased demand or replace aging facilities while existing infrastructure requires periodic rehabilitation, replacement or other improvements to protect the City's previous investments.

### **Describe the jurisdiction's need for Public Improvements:**

The 2019-2023 Capital Improvement Program allocates more than \$5.6 billion toward the replacement, rehabilitation or expansion of the City of Chicago's infrastructure, sewer and water systems, and greening. Bond funds account for 34.5 percent (\$1.9 billion) of the anticipated revenue. City funds account for 11.9 percent (\$664.9 million). Federal sources will finance 11.4 percent (\$638.3 million). Other funds including private contributions account for 1.7 percent (\$97 million), State funds are

expected to finance 27.9 percent (\$1.6 billion) and TIF funds are expected to finance 12.6 percent (\$702 million).

The plan was developed in response to the significant aging infrastructure in disrepair and the negative impacts it may bring to the local economy. Improved infrastructure will help to stabilize distressed low-income neighborhoods and improve the quality of life of residents. There is a need to prevent the spread of blighted conditions in community areas with large concentrations of foreclosed and abandoned properties. To address these conditions, the City will target increased community enhancement services via streetlight stabilization work.

Chicago streets built in the 1930s and 1940s as part of the Works Progress Administration (WPA) public works program are susceptible to intense flooding and storm damage. DR funds are being used to improve these types of streets impacted by the 2013 flood.

### **How were these needs determined?**

The City has an outdated street lighting infrastructure system. Some of the current infrastructure is well past its useful life and has been in place since the 1950s. When the City was doing research to undergo the Chicago Smart Lighting Program (CSLP), the Citywide cost of total estimate was \$2.3 Billion. The \$160M CSLP allocates less than \$50 million for infrastructure stabilization to replace the outdated infrastructure in the City. Funds from federal and state sources, bonds, TIFs, and CDBG are needed to help ensure all citizens of Chicago have safe and effective street lighting in their neighborhoods. Furthermore, as the City's infrastructure ages and as needs change, capital programs and priorities may be adjusted. Other work that may be required to replace aging infrastructure could be street resurfacing or reconstruction, WPA street replacement, sidewalk repair or reconstruction, water main repair or replacement, sewer main repair or replacement, and maintenance or creations of public parks and community gardens.

### **Describe the jurisdiction's need for Public Services:**

Chicago's special needs populations, as well as low-and moderate-income households have a variety of public service needs. The following are the public service needs identified through the Consolidated Plan planning process:

- Social services for domestic violence survivors and their families
- Mental health services for adults and children
- Primary health services for the homeless and persons living with HIV/AIDS
- Senior services
- Services for persons with disabilities
- Job training and placement services
- Homeless services

## How were these needs determined?

Historically, the need for public services has been a high priority in Chicago. Citizen input received from annual public hearings has affirmed this as most of the comments received speak to the lack of resources available for basic needs: housing, shelters, jobs, health services, and other services. City lead departments' collaboration with local providers who serve the residents in need has also helped to identify priority services. For the 2020-2024 Consolidated Plan process, the City administered a survey to Chicago residents and service providers to learn which service areas deserve the most attention. The survey was translated into several languages including Spanish, Polish, and Chinese to ensure non-English speaking Chicagoans had their voices heard.

Based upon survey results, the following percentage of respondents identified these public services as high need:

- Mental Health Services – 87%
- Affordable Rental Housing – 81%
- Homeless Services – 81%
- Youth Services – 76%
- Workforce Services – 69%
- Domestic Violence Resources – 63%

Based upon this information, the City will continue to make public services for at-risk populations the highest priority and allocate entitlement grant funding to public service activities in these areas except for youth services. The City will use local funds to continue to provide services to youth.

# Housing Market Analysis

## MA-05 Overview

### Housing Market Analysis Overview:

The City of Chicago, like other large cities, continues to face challenges relating to affordable and available housing. The city's housing challenges reflect the different realities that exist across the 77 community areas. Some blocks are dotted with boarded up homes, some are seeing affordable housing becoming much harder to find, and others are experiencing sharply rising prices and the impact of gentrification.

The Institute for Housing Studies at DePaul University uses a model to measure the conditions in three broad types of housing markets in Chicago—lower-cost, moderate-cost and high-cost—at the Census tract level across the city. These market types are based on 2016 sales prices of 1-4-unit buildings using formulas that consider the variation in demand for and cost of housing. With this methodology, Chicago's tracts are 26.1% lower-cost, 34.6% moderate-cost and 39.4% high-cost.

### Lower-Cost Markets

Chicago's lower-cost areas experienced a decrease in population from 2010 to 2016, including 35,568 African American residents. This loss of residents (including 5,993 moderate income households) is one factor in rising unemployment figures in these communities. Loss of well-paying blue-collar jobs as various sectors of the economy continue to transition is another.

- Median sale price value of single-family home: \$72,892 in 2017, up 8% from \$67,500 in 2000
- Population change: (- 7.3%) between 2010 and 2016
- Residential parcels impacted by foreclosure, 2005-2013: 34.5%
- Change in total housing units: (- 4.3%) between 2010 and 2016
- Sale price per unit for multifamily property, \$13,993 in 2010, \$33,333 in 2017 (+138%)
- Unemployment rate: from 20.4% to 23.3% between 2010 and 2016

### Moderate-Cost Markets

Chicago's moderate-cost markets has been largely stable since 2010 specifically regarding the number of residents and total available units. These averages obscure displacement pressure in some communities, though, as gentrification is shifting the demographics and income levels in sections of the North, West and South sides. Moderate-cost markets increased in both Latino and Asian populations between 2000 and 2016.

- Sale price value of single-family home: \$203,933 in 2017, up 63% from \$125,000 in 2000
- Population change: (- 0.4%) between 2010 and 2016
- Residential parcels impacted by foreclosure, 2005-2013: 23.8%
- Change in total housing units: (- 1.7%) between 2010 and 2016

- Sale price per unit for multifamily property, \$30,000 in 2010, \$61,500 in 2017 (+105%)
- Unemployment rate: from 12.4% percent to 12.6% between 2010 and 2016

### **High-Cost Markets**

Of the three market types, only Chicago's higher priced housing markets experienced population growth from 2010 to 2016. In the downtown market, one of the strongest in the city, the number of units, cost of construction and rents have all been steadily increasing during this period. Downtown added 1,500 to 4,500 new condo units annually from 1998 until 2010, according to estimates by Integra Realty Resources. However, since then, rental units have dominated new development which are primarily smaller studio and one-bedroom units.

- Median Sale price of single-family home: \$433,568 in 2017, up 88.5% from \$230,000 in 2000
- Population change: + 5.6% between 2010 and 2016
- Residential parcels impacted by foreclosure, 2005-2013: 13%
- Change in total housing units: +2.6 percent between 2010 and 2016
- Sale price per unit for multifamily property, \$91,905 in 2010, \$159,007 in 2017 (+73%)
- Unemployment rate: from 6.8% percent to 5.7% between 2010 and 2016

## MA-10 Number of Housing Units – 91.210(a)&(b)(2)

### Introduction

This section describes the significant characteristics of the Chicago housing market, including the number and type of housing units and the availability of housing.

### Number of Housing Units

According to 2012-2016 ACS data, there were 1,194,098 housing units in Chicago. Approximately 30% of units were in 2-4 unit buildings while 26% of units consisted of single-unit structures. Properties with 20 or more units were the third largest property types at 25% of the total.

### Unit Size by Tenure

Units with three or more bedrooms comprised the largest percentage of owner-occupied properties at 60% of the total. This was followed by units with two bedrooms at 31%. Units with no bedrooms comprised the smallest percentage of owner-occupied properties at 1%.

For renters, the percentage of unit size was more evenly spread. Units with two bedrooms comprised 36%, units with 1 bedroom comprised 30% and units with 3 or more bedrooms comprised 24% of renter occupied properties. The percentage of units with no bedrooms was higher for renters than for owners at 10%.

### All residential properties by number of units

Property Type	Number	%
1-unit detached structure	306,270	26%
1-unit, attached structure	41,112	3%
2-4 units	358,888	30%
5-19 units	191,438	16%
20 or more units	293,972	25%
Mobile Home, boat, RV, van, etc	2,418	0%
<b>Total</b>	<b>1,194,098</b>	<b>100%</b>

**Data Source Comments:**

### **Describe the number and targeting (income level/type of family served) of units assisted with federal, state, and local programs.**

The DOH Multi-Family Financing Program subsidizes the financing of acquisition, preservation, rehabilitation and new construction activities for rental housing development projects (five unit minimum). Developments typically range from 60-100 units, built in a single building or on scattered sites, for a single-use or mixed-use and are either 100% affordable or for mixed-income households. The program assists developers with financing by providing public funds and other subsidies that are necessary to pay a portion of project-specific costs of rehabilitating or constructing rental apartments within the city. The sources of public financing include low-income housing tax credits, federal, state and local funds, Tax Increment Financing (TIF), city-owned land and tax-exempt bonds. In 2018, the City used these sources to create or preserve 8,500 units of affordable housing, including more than 1,200 under the Multi-Family Financing Program.

The following funding sources are used to target specific income levels:

**HOME:** HOME-assisted developments target the very-low income households earning less than 30% of HUD AMI.

**CDBG:** CDBG funds target developments in which at least 51% of the total units within the project will be occupied by low- and moderate- income households within the 0-50% AMI.

**Local Funds:** The Chicago Low-Income Housing Trust Fund (The Trust Fund) provides rental subsidies to 2700 households living below 30% of the AMI in each year of this Consolidated Plan. The Trust Fund is funded through local and state revenues and provides permanent housing opportunities to low-income households through its relationship with more than 600 properties. More than 40% of the units funded provide housing to special needs populations including the homeless and those living with HIV/AIDS. The Trust Fund will provide loans/grants that provide long-term financing and create 20 units per year for households living below 30% AMI. This investment in rental property developments provides affordability for 15-30 years.

**New Markets Tax Credits:** The Chicago Development Fund (CDF), a non-profit entity administered by the City, provides New Markets Tax Credit (NMTC) assistance to challenging development projects that create substantial positive community impacts. CDF's federal allocation of NMTCs can be used to provide capital at below-market terms to industrial, commercial, institutional, and mixed-use real estate projects located in "Areas of Greater Economic Distress" within Chicago. CDF seeks to assist projects within the following categories:

- Community and cultural facility projects which provide substantial benefits to low-income persons and residents of low-income communities,
- Grocery-anchored retail developments which help to alleviate "food desert" conditions, and
- Expansion or rehabilitation of industrial facilities.

CDF prioritizes projects requesting assistance by primarily using the following criteria:

- Level of community impact,
- Demonstrated need for assistance,
- Conformance with City and CDF policy goals,
- Compatibility with NMTC financing structure, and
- Insufficiency of other programs, such as Tax Increment Financing (TIF), as an assistance tool.

**Provide an assessment of units expected to be lost from the affordable housing inventory for any reason, such as expiration of Section 8 contracts.**

The Chicago region has experienced a substantial loss in affordable rental units since 2012—approximately 26,000 units, comprising of more than 10 percent of the stock, according to the Institute for Housing Studies at DePaul University. In low-cost markets with low values, property owners struggle to maintain their buildings in good condition, and affordable rental housing is lost when buildings fall into disrepair. In markets with higher values, soaring rents have swept into more neighborhoods, shrinking the affordable supply and making it more challenging for low-income families to remain.

The City is a partner organization of the Preservation Compact which brings together the region's public, private and non-profit leaders to preserve affordable multifamily rental housing in Cook County. The Preservation Compact was formed in 2007 to respond to growing losses in the region's affordable rental housing. The Compact has established an inventory of buildings with subsidized, affordable units that are in jeopardy of being lost over the next 5 years due to the expiration of affordability agreements and contracts.

**Does the availability of housing units meet the needs of the population?**

The City strives to expand affordable housing throughout Chicago using incentives including working collaboratively banks and other lenders to invest in more affordable housing. The City will continue to

strategically decrease the foreclosure rate with the support of HUD-certified housing agency counseling. The City also continues to work with banks and other lenders in order to reduce foreclosure rates. These are measures to ensure that affordable housing exists for those at low and middle income. Rental assistance programs will continue to assist low-income households to ensure they will not be burdened by housing cost. The City's ARO requires developers to make 10% of their housing project affordable if they build ten or more units on purchased government owned land.

### **Describe the need for specific types of housing:**

The Department of Housing's (DOH) Five-Year Housing Plan, One Chicago, was designed to support housing markets throughout the city by creating more localized strategies that fit the needs of each neighborhood. To increase property values in certain neighborhoods, the City is working to streamline the sale of vacant City-owned land. The City has also implemented programs to provide a backstop for the value of buildings that fill the needs of renters with low to moderate income.

The majority of affordable rental housing in the City is Naturally Occurring Affordable Housing (NOAH): units without public subsidy that can be rented at a low market rate. NOAH, particularly two- to four-unit buildings, are vulnerable to threats of deterioration, foreclosure, disinvestment, demolition, conversion to single family homes and rising operating costs. Although discussion of "affordable housing" typically evokes the idea of subsidized housing—which is a critical source of affordable units—the City continues to explore strategies to keep NOAH affordable.

### **Discussion**

Chicago's total population declined 7% between 2000 and 2010 thus reducing the demand for housing through most of the city. However, the demand for affordable rental housing increased, exceeding supply for this type of housing. The gap between supply and the demand for affordable rental housing, is now estimated at nearly 120,000 an increase of 810% over 2007.

Rising demand is changing the housing market in Chicago. The private real estate market is a powerful force, creating and directing billions of dollars in investments and value. Property values are rising across the city, even in many communities that haven't seen that growth for a long time. Several large, high-profile developments will amplify that impact. There are opportunities to continue to grow Chicago's population while protecting our current residents, which requires strategies to address the needs of a variety of households and levels of income.

The City works to provide more affordable housing through the Affordable Requirements Ordinance (ARO). The ARO was originally enacted in 2003 in order to create affordable units in market-rate developments. ARO is triggered whenever a development project receives a zoning change, City land or financial assistance, or is in a downtown Planned Development and includes a residential component containing ten or more units. The Ordinance was significantly strengthened and expanded in 2015 to: establish three development zones in the city reflecting varied housing markets and needs; mandate

higher in-lieu fees; and add requirements for creation of affordable units on-site. More recently, several pilot areas have been designated under the program to cover specific neighborhoods that now face accelerated private development and growing displacement pressures.

Maintaining a robust affordable housing market allows the City to protect existing housing cost at a lesser cost than building new housing. That has always been the case and is increasingly so, as the cost of new construction has risen over the last five years. While federal housing budgets have been largely protected from threatened cuts for the next two years, the future is more uncertain, including the renewal of the housing voucher program in 2020. The City has been a careful steward of the funding it has available for affordable housing, particularly looking for ways to leverage private and philanthropic funds with its investments, what will become even more critical in the years to come.

City of Chicago residents received a total of \$56.7 million in IA from FEMA and residents in Cook County (including Chicago) received a total of \$120.1 million. The LTRC's Disaster Case Management Program received \$660,000 from FEMA to identify individuals with unmet needs and create case files on each of these individuals to track their progress toward recovery.

The following unmet needs are from November 11, 2013 from individuals or households in Chicago who applied for IA from FEMA:

- 75 households that require repair and rebuild assistance
- 71 households that require mold remediation assistance
- 62 households that require appliance repair or replacement
- 23 households that require assistance with utilities.

## MA-15 Housing Market Analysis: Cost of Housing - 91.210(a)

### Introduction

Between 2000 and 2010, median household income declined, especially among lower- and middle-income households, making it much more difficult for individuals to buy or rent a home. Between 2010 and 2016 however, that decline was reversed, growing by 8%. During this time the homeownership rate in Chicago has remained low, less than 45% from a peak of 49.9% in 2007. Chicago lost more than 80,000 ownership households from 2007 to 2016 while the number of rental households grew by more than 70,000 units.

Fair Market monthly rents in Chicago are equal to HUD High Home Rents for 0-2-bedroom households. For 3-4-bedroom households, monthly rents are higher than HUD High Home Rents.

### Cost of Housing

	Base Year: 2000	Most Recent Year: 2016	% Change
Median Home Value	269,200	225,200	(16%)

Low HOME Rent	741	793	952	1,100	1,227

**Table 34 – Monthly Rent**

Data Source: HUD FMR and HOME Rents

## Is there sufficient housing for households at all income levels?

Despite improvements, affordable housing continues to be in high need throughout Chicago, but not enough supply exists to keep up with the demand. As Chicago's economy and housing markets have changed over the last decade, a gap in the availability of rental housing has grown. According to estimates by the Institute for Housing Studies (IHS) at DePaul University, in 2012 Chicago had a deficit of roughly 111,000 affordable units (rent for less than 30 percent of the income of someone earning 150 percent of the poverty level). By 2016 the citywide deficit had grown to more than 119,000 units, reflecting changes both in supply and demand. Between 2007 and 2016, Chicago saw its renter household population increase by 88,000 households. This increase was driven primarily by an increase in low-income renters, who now comprise more than half of all rental households. The growing gap between demand for and supply of affordable rental housing puts upward pressure on rents and contributes to more low-income renters paying a higher share of their income towards rent.

## How is affordability of housing likely to change considering changes to home values and/or rents?

As rents increase, they become less affordable to low- and moderate-income families. As more homeowners lose their homes through foreclosure and become renters, the pool of households in need of affordable housing becomes greater. As demand for rental housing increases, rents will rise and become less affordable to the lowest income populations.

## How do HOME rents / Fair Market Rent compare to Area Median Rent? How might this impact your strategy to produce or preserve affordable housing?

In some communities HOME rents are market rents. In those communities, HOME-funded projects can provide decent affordable housing without additional subsidy to households with incomes between 50% to 60% of AMI. However, in some communities, rents are much higher, and it is difficult to provide affordable housing units in those markets without rental subsidies to these low-income households. In all communities, it is the lowest income populations that fall below 50% of AMI that require rental subsidy to afford rental housing financed with HOME funds. The City combines its various funding sources with other funders' sources to create and provide affordable housing to a mix of income levels in development projects. Layering funding sources from a variety of funders helps the City create affordable housing in many rental markets at various income levels.

## **Discussion**

To most effectively and efficiently deploy scarce public resources, the City will implement several strategies focused on layering funding sources and leveraging private development capital and partnerships to address development needs in City neighborhoods. The City's Micro-Markets Recovery Program, for example, utilizes a combination of publicly funded purchase assistance and home improvement grants to leverage private lending and investment capital to facilitate the redevelopment of vacant residential properties in targeted neighborhoods and acquisition assistance resources through the City's authority to obtain control of distressed and nuisance properties. This allows public resources to assist more units of housing while simultaneously encouraging increased private investment in struggling local markets.

## MA-20 Housing Market Analysis: Condition of Housing – 91.210(a)

### Introduction

The following section describes the characteristics of the housing stock in Chicago including the age, condition, and number of units affected by lead-based paint hazards. The number of vacant and abandoned units and housing rehabilitation needs are also discussed.

### Describe the jurisdiction's definition of "standard condition" and "substandard condition but suitable for rehabilitation":

#### Definitions

The City defines "deterioration" as a building that no longer meets the minimum standard of Title 13 of the Chicago Building Code, which is for the protection and promotion of public health, safety and welfare. The City further defines "deterioration and dilapidation" as a building or structure that contains any violation of a health, fire, electrical, plumbing, building or zoning provision of this code which is imminently dangerous and hazardous.

These conditions exist as a result of aging housing stock that has deteriorated due to the lack of maintenance and upkeep by property owners. As a result, the City has identified Low/Mod areas with an excessive number of complaint driven calls for services as areas of Blight and Deterioration.

### Condition of Units

Condition of Units	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
With one selected Condition	153,165	33%	269,031	46%

## Need for Owner and Rental Rehabilitation

<TYPE=[text] REPORT\_GUID=[F8DC4D3147433947165558A235C46686]  
 PLAN\_SECTION\_ID=[1313801000]>

## **Estimated Number of Housing Units Occupied by Low or Moderate Income Families with LBP Hazards**

Based upon the most recent data available from the National Survey of Lead and Allergens in Housing, there are approximately 50,000 housing units with children less than 6 years of age in Chicago that contain significant lead-based paint hazards. Although the number of low- or moderate- income households impacted is not known, there are known high risk community areas that are low-income. These communities include Englewood, Austin, Lawndale, and Chatham. A significant amount of the housing stock built before 1950 is concentrated in these areas.

## **Discussion**

More than 56% of Chicago households are renters, and homeownership is not desired or financially feasible for many families. Affordable, safe and desirable rental housing is a bedrock of communities and Chicago as a whole. Yet many neighborhoods are still feeling the impact of the housing crisis that began in 2008, including the loss of two- to four-unit buildings, deferred maintenance, and foreclosures and vacant buildings. The City has worked to address the consequences of the decline in market values and capital for investment.

Empty and blighted properties depress local property values, attract crime and trigger a cycle of neighborhood disinvestment and deterioration and continue to dot the landscape of low-cost markets. Over the past decade, the City and its partners have pursued various strategies to acquire and rehab vacant and abandoned properties, particularly those impacted by foreclosure, into productive and affordable units. These programs include the pilot Tax Increment Financing (TIF) Purchase-Rehab and the Troubled Buildings Initiative, which together have preserved over 17,000 homes.

The City has a long and strong track record of working closely with government partners such as the Chicago Housing Authority and Illinois Housing Development Authority, and with local lenders and Community Development Financial Institutions to fund affordable rental housing projects across the city. An equally strong network of affordable housing developers works to ensure the construction and long-term success of these units.

Chicago's housing stock is old, with 54% of homes built before 1950. Many of the buildings that have not been appropriately maintained, renovated or repaired have home-based hazards that put families at risk of serious health problems. A significant housing-related health threat in some homes is childhood lead poisoning, often caused by ingesting and breathing in lead-based paint dust. Housing hazards are often related to poverty. Families living in or near poverty have fewer affordable options and can end up in housing that is less likely to be maintained, with poor insulation, broken windows and inefficient wiring. This leads to higher utility costs, which make it even harder to afford remediation of the health hazards.

## MA-25 Public and Assisted Housing – 91.210(b)

### Introduction

This section describes the number and condition of available public housing units for public housing residents.

### Totals Number of Units

	Certificate	Mod-Rehab	Public Housing	Program Type					
				Vouchers					
				Total	Project -based	Tenant -based	Special Purpose Voucher		
							Veterans Affairs Supportive Housing	Family Unification Program	Disabled *
# of units vouchers available	0	987	16,685	51,358	7,952	43,267	1,293	600	989
# of accessible units			1,162						

**\*includes Non-Elderly Disabled, Mainstream One-Year, Mainstream Five-year, and Nursing Home Transition**

Chicago Housing Authority, 2018  
Data Source Comments:

**Describe the supply of public housing developments:**

**Describe the number and physical condition of public housing units in the jurisdiction, including those that are participating in an approved Public Housing Agency Plan:**

CHA's Public Housing portfolio includes 16,431 units across more than 100 properties and four scattered site areas. This includes units that are occupied (approximately 90%); units that are vacant but available for occupancy/leasing (CHA's vacancy rate is calculated based on this); and offline units, which are not available for occupancy/leasing for a variety of HUD-approved reasons such as pending demolition/disposition, ADA modification, routine or major capital maintenance, non-dwelling use on-site employee use, relocation resources, and pending redevelopment. CHA public housing properties are inspected regularly. The frequency of inspections varies by property based on the most recent inspection

score. Properties with high or passing inspection scores are inspected less frequently than properties with low or failing scores. The most recent average inspection score for CHA public housing properties was 78 out of 100.

**Table 40 - Public Housing Condition**

**Describe the restoration and revitalization needs of public housing units in the jurisdiction:**

CHA's Public Housing portfolio is vast and includes several new and recently constructed properties as well as aging properties. CHA is committed to ensuring that all its housing stock is maintained to the highest standards. Since 2011, CHA has spent more than \$560 million to upgrade and modernize thousands of units and buildings, including upgrades, life safety improvements and repairs at senior properties; renovations at scattered site properties; elevator modernization and other capital improvements projects across the portfolio. This work is ongoing, and CHA will continue to monitor the condition of its properties and make investments in capital improvements across its portfolio over the next five years.

**Describe the public housing agency's strategy for improving the living environment of low- and moderate-income families residing in public housing:**

CHA offers its residents a variety of case management and workforce development services focused on four goals: increasing economic independence; increasing earning power; developing academic achievement; and increasing stability and quality of life. These programs include, but are not limited to, the Choose to Own Homeownership Program; the Family Self-Sufficiency program; Family-Centered Coaching for public housing families; enrollment at City Colleges of Chicago; college scholarships; job

training; educational and recreational activities for youth; and care coordination and activities for senior residents.

**Discussion:**

## MA-30 Homeless Facilities and Services – 91.210(c)

### Introduction

The following section discusses the facilities, housing, and supportive services available that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, and veterans and their families. The services include both targeted services to vulnerable populations and mainstream services such as health, mental health, and employment services.

### Facilities and Housing Targeted to Homeless Households

	Emergency Shelter Beds		Transitional Housing Beds	Permanent Supportive Housing Beds	
	Year Round Beds (Current & New)	Voucher / Seasonal / Overflow Beds	Current & New	Current & New	Under Development
Households with Adult(s) and Child(ren)	1,633	1	692	2,976	5
Households with Only Adults	1,970	0	323	3,070	27
Chronically Homeless Households	0	0	0	2,942	0
Veterans	75	12	191	2,359	15
Unaccompanied Youth	124	0	160	32	4

**Table 41 - Facilities and Housing Targeted to Homeless Households**

**Alternate Data Source Name:**

Annual Homelessness Report

**Data Source Comments:**

**Describe mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons**

Mainstream Networks provide services that are offered by the non-homeless services systems that are available to support individuals experiencing homelessness. These resources complement the system of care specifically funded to target homeless persons. While many housing and shelter programs also provide a range of health, mental health and employment services, homeless individuals and families also rely on other mainstream networks for such services. Since the passage of the Affordable Care Act in 2010 and the expansion of Medicaid in the State of Illinois in 2014, many households are now insured and seek preventative, long-term health, and mental health care through the Cook County Health and Hospital System and other Coordinated Care Entities. Through delegate agency partners, the City of Chicago's DFSS provides job readiness training, industry specific training, and transitional jobs to homeless individuals.

In coordination with the Continuum of Care, the City through DFSS is the primary funder of emergency and interim shelters for homeless individuals and families in Chicago. Both types of temporary housing options focus on assessing the service needs of residents and either making appropriate referrals to other providers or offering supportive services at the residential program. Additionally, the City funds supportive services that assist persons who are currently homeless toward housing stability and self-sufficiency using a range of permanent housing models. Several funding streams support services and facilities for homeless individuals at the City level (CDBG, ESG, Community Services Block Grant, Illinois Department of Human Services' Emergency and Transitional Housing Program, and local funding).

**List and describe services and facilities that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. If the services and facilities are listed on screen SP-40 Institutional Delivery Structure or screen MA-35 Special Needs Facilities and Services, describe how these facilities and services specifically address the needs of these populations.**

**Outreach Coordinator**

The Outreach Coordination provides services to build collaboration between partners including outreach and housing providers to assist households in the process of being assessed and connected to housing partners for youth, singles, and families.

**Drop-in Center/Outreach**

Drop-in centers provide low demand, site services that are safe daytime spaces for those who are homeless residing in emergency shelter or tenuously housed. Drop-in centers coordinate services with outreach, shelter or housing providers. Youth drop-in centers provide a safe space for homeless youth that meets their basic needs.

**Permanent Supportive Housing including Safe Havens**

Permanent Supportive Housing Support Services help individuals maintain residential stability in

permanent housing. Permanent Supportive Housing Support Services achieves this goal by providing wrap-around supportive services for persons who are formerly homeless.

### **Youth Intentional Housing Supports**

Youth Intentional Housing Support houses youth experiencing housing insecurity while providing the support needed to remain stably housed and build a foundation for success in the future. These building blocks include connection to benefits, education and employment support, legal aid, leadership opportunities, and links to health care.

### **Emergency Shelter**

Emergency shelters are low-demand facilities designed to remove individuals from imminent danger. Basic shelters provide a safe environment with a place to sleep and access to meals/kitchen and modest amenities. These shelters should ensure Coordinated Entry System housing assessments are completed for all clients and be able to provide basic information and linkages to other resources.

### **Interim Shelter**

Interim shelters move households into appropriate and stable permanent housing. Interim shelters provide a variety of services and/or linkages dedicated to re-housing clients. They are open 24-hours with assigned bunks/beds and offer a broader range of amenities. Interim Shelters provide high-quality, case management focused on housing placement and increasing income.

### **Mobile Crisis Response and Shelter Referral**

The Mobile Crisis Response and Shelter Referral Program serves as a critical entry point and referral into the social services system for residents in need of in-depth, comprehensive services that address and resolve problems such as homelessness, substance abuse, and domestic violence.

### **Rapid Rehousing Program Coordinator**

The Rapid Rehousing (RRH) program rapidly transitions individuals and families who are experiencing homelessness to permanent housing. These services include providing financial assistance for up to a year, housing and stabilization services, and helping households develop a plan to retain and maintain their housing.

### **Homeless Prevention Assistance**

The Homelessness Prevention Assistance Program reduces the number of individuals and families who become homeless. The services provide Chicago residents at risk of losing their housing with financial assistance and supportive services such as legal representation, housing stabilization, and relocation assistance.

### **Rental Assistance Program Manager**

The Rental Assistance Program's reduces the number of homeless by providing short-term rental assistance through DFSS' network of six Community Service Centers (CSCs). The Rental Assistance

Program Manager conducts housing inspections and coordinates with DFSS CSCs to provide rental assistance check payments to property owners/managers.

**Veteran Homelessness**

The Supportive Services to Veteran Families program offers rapid re-housing assistance, grant and Per Diem programs, and contract transitional housing programs that offer transitional housing options.

## MA-35 Special Needs Facilities and Services – 91.210(d)

### Introduction

This section describes the facilities and services that assist persons who are not homeless but require supportive housing and programs.

### HOPWA Assistance Baseline Table

Type of HOWA Assistance	Number of Units Designated or Available for People with HIV/AIDS and their families
TBRA	352
PH in facilities	285
STRMU	47
ST or TH facilities	194
PH placement	0

**Table 42– HOPWA Assistance Baseline**

**Alternate Data Source Name:**

Homelessness Mortality and Morbidity Report

**Data Source Comments:**

**Including the elderly, frail elderly, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, public housing residents and any other categories the jurisdiction may specify, and describe their supportive housing needs**

In addition to housing assistance, people living with HIV/AIDS are assessed to determine additional needs or issues. The HOPWA-funded agencies provide access to supportive services to each program participant. The support services include (but are not limited to): health, mental health assessment, permanent housing placement, drug and alcohol abuse treatment and counseling, day care, nutritional services, assistance in gaining access to local, state and federal government benefits and services, child care, education, employment assistance, legal services, transportation, and life skills management. The needs of the clients are determined by their intake assessment. The needs for the overall HOPWA program are determined by participation in planning groups and through local area housing advocacy efforts and legislative hearings geared toward improving access to affordable housing and access to supportive services. The Mayor's Office for People with Disabilities (MOPD)'s Disability Resource Unit (DRU) provides a variety of services intended to assist individuals with disabilities in obtaining needed services. Major functions of this unit include information and referral services, advocacy, short term counseling, and practical assistance. The DRU also encompasses the Independent Living Program (ILP) and Personal assistance and Homemaker services (PA/HMS). Assistance from the ILP continues to be provided to each person for as long as there is a need. The overall objective is to increase or at least maintain an individual's ability to continue to live as independently as possible.

**Describe programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing**

<TYPE=[text] REPORT\_GUID=[F8DC4D3147433947165558A235C46686]  
PLAN\_SECTION\_ID=[1350402000]>

**Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. 91.315(e)**

DFSS domestic violence services such as counseling, legal advocacy and legal representation can keep domestic violence victims and children safely in their own homes, instead of being forced to flee into shelters. For example, legal advocacy and legal representation can help a victim seek a remedy for exclusive possession of the home with an order of protection. That remedy would order the abuser to leave the home and allow the victim and children to remain. At the Domestic Violence Courthouse, DFSS programs assist survivors as they navigate the process of seeking Orders of Protection. Resource and Information Advocates, Legal Advocates and attorneys assist hundreds of victims every day. The Multi-Disciplinary Team responds to Chicago Police Department incidents providing services to victims and engages them to pursue prosecution with the assistance of the Cook County State's Attorney's Office. Further, the Supervised Visitation and Safe Exchange programs helps custodial parents and their children conduct visits or exchange with the other parent in a controlled and safe environment.

DFSS Senior Services division administers the State's Ombudsman program to monitor the needs of seniors in nursing homes, supportive living, and assisted living. DFSS also facilitates a Well-Being Task Force that has trained thousands of government and community fieldworkers to look for vulnerable seniors. A goal of the Task Force is to reduce self-neglect situations among at-risk seniors. Additionally, the Ombudsman program and Well-Being Task force identifies seniors in need of services.

Seniors identified at risk due to isolation, mental illness, dual diagnosis, self-neglect, or who are frail are connected to the DFSS Intensive Case Advocacy and Support (ICAS) program for access to community-based services and supports to help them stay in their homes as long as possible. Some of these services and supports include in-home counseling, mental health services, in-home medical care, friendly visiting, home health orders, money management, medication monitoring, telephone reassurance, escort service, transportation assistance, benefit advocacy assistance, respite, small home modifications, home delivered meals, chore services and other in-home services, such as homemaker services or emergency home response systems. The recipients of these critical services are usually in the greatest social, physical and economic need, are minorities, and/or have incomes below poverty.

**For entitlement/consortia grantees: Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. (91.220(2))**

This is not applicable to Chicago.

## **MA-40 Barriers to Affordable Housing – 91.210(e)**

### **Negative Effects of Public Policies on Affordable Housing and Residential Investment**

Often public policies created to revitalize communities and increase economic development have a negative impact on affordable housing. In response, the City has implemented many affordable housing programs and incentives. The Affordable Requirements Ordinance (ARO) applies to residential developments of 10 or more units and requires developers to set aside 10% of residential units as affordable housing or contribute to the City's Affordable Housing Opportunity Fund. For projects receiving financial assistance from the City, 20% of the units must be affordable.

Units built under the ARO are required to remain affordable over time. Some units will have recapture mortgages to regulate the long-term affordability. At the time of purchase, the City records a 30-year lien for the difference between the unit's market price and its affordable price. Other units will be targeted for the Chicago Community Land Trust (CCLT). These units will have a 30-year restrictive covenant with a maximum resale price. The maximum resale price will be the original purchase price plus a percentage of the market appreciation, which in most cases, will be priced below market.

Chicago is increasingly attracting new and relocated businesses, highly skilled and well-educated residents, and new housing development—positive news for the local economy a source of revenues for City programs. In 2000, 18.7% of the city's households earned more than \$100,000 annually. By 2016 that figure had risen to 26.2%. Massive new developments proposed in several parts of the city will create what are essentially new neighborhoods over the next few decades. The City of Chicago is aware, however, that this growth could also have unintended negative impacts. New development can disrupt existing communities and displace residents. Increasingly, many of Chicago's working-class families and individuals, the bedrock of the City's middle-class, are finding housing expensive and homeownership more difficult to achieve.

Any plan for housing in Chicago must consider the history of racial discrimination and policies that allowed for and advanced that disparity. The map of today's Chicago is a result, in many ways, of systemic segregation through restrictive covenants, redlining, block busting and disinvestment. Most recently, the foreclosure crisis has been particularly damaging to African American and Latino households and in low- and moderate-income communities. This history has left parts of the city thriving, while other communities continue to struggle.

Mayor Lori Lightfoot strongly believes that Chicago should be a place where all residents can fulfill the basic human need for housing that is affordable, decent, stable and accessible. The Department of Housing is committed to a multifaceted strategy that builds on and strengthens community-level planning, increases the availability and flexibility of resources, and pursues systemic change that breaks down needless barriers. Such a strategy can equally serve the most vulnerable, protect existing residents as some neighborhoods gentrify, invest in communities that have long suffered disinvestment, and foster greater housing options across the city.

## MA-45 Non-Housing Community Development Assets – 91.215 (f)

### Introduction

The tables below provide a brief overview of the City of Chicago’s workforce characteristics including leading industry sectors, level of educational attainment of its citizens and their related income. All data included in this section is automatically generated within the IDIS ECon Suite.

The Chicago metropolitan economy is large and diverse. With a 2016 gross regional product (GRP) of approximately \$570 billion, the region ranks third among U.S. metro areas according to the Chicago Metropolitan Agency for Planning (CMAP). The region has consistently outperformed the U.S. average and many peer cities in productivity, income, and wages. It is the only inland American metropolitan area with a global footprint, and the only metro area in the developed world that is projected to grow into a new “megacity” region by 2030.

Its historical strengths in manufacturing, transportation, and trade remain a significant part of the industrial base, while corporate headquarters and an array of “knowledge economy” industries (e.g., IT, scientific, and technical services) and advanced business services (e.g., finance, law, accounting) have grown in prominence in recent decades.

Business growth has continued to increase at a steady pace since the last recession. Current businesses have renewed licenses at a consistent rate of approximately 60 percent over the past few years, including in 2018. Similarly, new business license applications were consistent with prior years with just under 8,000 new applications in 2018. The first half of 2019 saw slight growth in total applications, indicating a stable business environment.

Continued low inflation, as measured by the Consumer Price Index (CPI), combined with low borrowing rates, have contributed to strong economic growth in the Chicago region. The Bureau for Economic Analysis reported that in 2017, the most recent year for which data is available, the Chicago metro gross domestic product grew by 3.36 percent. Additionally, the City’s total sales tax collections continue to increase, reflecting improved State application and collection of sales tax rates applied to goods purchased online and sales growth occurring in retail establishments located in the City.

The Federal Bureau of Labor Statistics released quarterly employment data showing the Chicago metropolitan area as gaining more jobs in the first six months of 2019 than any other metro area in the country except New York City. The City’s unemployment rate declined to 4.1 percent in the first quarter of 2019, nearing the national rate of 3.8 percent. The City’s total labor force has remained consistent at 1.3 million.

## Economic Development Market Analysis

### Business Activity

**Based on the Business Activity table above, what are the major employment sectors within your jurisdiction?**

As determined by the data provided by ACS, the six major employment sectors within the City of Chicago that comprise approximately seventy-two percent of the City's workforce are as follows:

- Education and Health Care Services with 21% of jobs
- Professional, Scientific, Management Services with 23% of jobs
- Finance, Insurance, and Real Estate with 11% of jobs
- Arts, Entertainment, Accommodations with 10% of jobs
- Retail Trade with 7% of jobs

**Describe the workforce and infrastructure needs of the business community:**

Based on the Business Sector analysis above, Chicago's business community lacks a qualified workforce for approximately 14% of the available jobs in the City. The business sectors of Finance, Insurance and Real Estate have a 37% gap where the Construction sector has only an 7% gap. World Business Chicago (WBC), a partner of the City of Chicago, also found that Chicago has the most diversified economy in the United States.

In 2018, the Chicago Metropolitan Agency for Planning (CMAP) adopted their newest comprehensive regional plan, ON TO 2050. The plan states that Metropolitan Chicago needs to improve opportunities for employment and robust economic output while taking deliberate steps to ensure prosperity for all. These goals -- economic opportunity and growth -- are inextricably linked. As our prolonged slow growth continues to lag behind peer regions, lower- and moderate-income residents are leaving to seek economic opportunity elsewhere. Fully utilizing our region's human capital is essential to creating a resilient, innovative region. Sustaining broad economic growth requires improving the region's business environment to enable industries and workers alike to compete globally and prosper locally.

**Describe any major changes that may have an economic impact, such as planned local or regional public or private sector investments or initiatives that have affected or may affect job and business growth opportunities during the planning period. Describe any needs for workforce development, business support or infrastructure these changes may create.**

The City of Chicago and its lead public agency partners have embarked on various public planning initiatives that have and will continue to affect job and business growth opportunities within the city. These planning initiatives mark the beginning of a coordinated effort to assess Chicago's economy and help expand at a faster rate and have resulted in restructuring of many of public resources.

There are four leading economic development agencies that work collaboratively to expand these opportunities within the City: the Department of Planning and Development (DPD), World Business Chicago (WBC), the Chicago Cook Workforce Partnership (The Partnership) and the City Colleges of Chicago (CCC). The agencies also work in partnership with other county, regional and state and federal partners.

DPD administers numerous business assistance and financial incentive programs on behalf of local companies. The DPD's economic development initiatives include a wide spectrum of financial assistance programs, business development efforts, and related quality-of-life endeavors for local neighborhoods. The programs and incentives are offered to commercial, retail, industrial and non-profit organizations that are retaining and adding jobs for community residents. Assistance includes grants, tax reductions, loans, land-write downs, fee waivers and other forms of business aid. DPD also provides funding to delegate agencies whose objectives include small business development, site development or area-wide marketing, maintenance and management within a specified commercial business district.

WBC leads the City's business retention, attraction and expansion efforts, raises Chicago's position as a premier global business destination, and guides implementation of the Plan for Economic Growth & Jobs. WBC, chaired by Mayor Lori Lightfoot, is a public-private, nonprofit partnership that fosters private sector growth and jobs through the advancement of a business-friendly environment that attracts world class talent.

In order to reduce costs, improve services and engage the business community—Chicago's Mayor and the County of Cook's President together formed the largest nonprofit managed Local Workforce Investment Act (LWIA) in the nation, The Partnership. Created in 2012, The Partnership has been charged with broadening the reach of workforce services for employers and job seekers alike within both Cook County and the City of Chicago. As the largest workforce development system in the nation, The Partnership has helped place more than 60,000 individuals in employment, collaborated with more than 2,000 employers and administers more than \$300 million in federal and philanthropic funds. The Partnership's network of 53 community-based organizations, 10 American Job Centers, and sector-driven workforce centers serve 132 municipalities. Focusing on the region's labor market, The Partnership provides training, business services, career coaching and data analysis, in the high-growth and high-demand industries.

In addition, CCC, as Chicago's community college system, provides high-quality, affordable higher education to tens of thousands of Chicago's residents each year and serves as a critical bridge from our high school system to further college and careers with the goal of developing Chicago's workforce in a demand-driven and targeted manner. City Colleges of Chicago launched a reform initiative in 2010, a collaborative effort to review and revise CCC programs and practices to ensure students leave CCC college-ready, career-ready, and prepared to pursue their life's goals.

Since the launch of those initiatives, City Colleges has more than doubled its graduation rate and number of degrees awarded, and seen increases in transfer, adult education transitions, remedial transitions, and more.

### **How do the skills and education of the current workforce correspond to employment opportunities in the jurisdiction?**

The Plan for Economic Growth & Jobs reports that new job categories and skill requirements are emerging with increasing speed, making continuous learning and upgrading, particularly of more specific skill sets, more important. Shortages are particularly evident among mid-skilled workers: approximately 60% of job openings require a middle (high school plus some college, or high school plus associate degree) level of education, but only 54% of the region's workers have attained those education levels. Conversely, demand for low- skilled workers continues to decrease and the need for ensuring basic skills remains essential.

Future trends also indicate that demand for high-skilled workers will increase. Demand exceeds supply in select parts of finance, advanced manufacturing, and information technology. This trend extends beyond the Chicago region; demand for workers to fill high skilled occupations in these industries is high in many metro areas. Foreign-born populations have lower educational attainment levels than U.S.-born populations, and Black/African American and Latino populations have lower educational attainment levels than whites. Given its slowed growth, metropolitan Chicago must capitalize on the full potential and productivity of its human capital by collaborating at the front lines of our complex adult education and training systems. Recent demographic trends suggest the region will face obstacles to sustain a diverse, adaptive, skilled workforce.

Because the global economy is changing at an accelerated scale, scope, and speed, our workforce and education systems must become more flexible and effective at building the region's workforce. As skill demands have shifted, higher levels of post-secondary training -- as well as additional training throughout a career -- have become necessary for individuals to succeed in the job market. According to the 2016 ACS, about 40% of Chicago residents age 25 and older (39.4 percent) had an Associate degree or higher in 2016, including more than 700,000 residents with a bachelor's degree or higher. Maintaining a skilled workforce can translate to improved economic security for residents and a competitive advantage for the region.

Employment and demographic trends, demand for skills, and economic inequality are changing the demands placed on workers, as well as on adult education and training programs. Technological advancements are augmenting work in most occupations and at all skill levels, altering how workers use their time and conduct tasks. Residents increasingly need to earn additional post-secondary training to enter the workforce and continuously enhance their skills over time to stay in the workforce. Applicants increasingly need to demonstrate improved problem solving, literacy, numeracy, professional, and communication skills to be competitive in the job market. Workers increasingly need to interact adeptly with technology.

Technology has helped to automate or streamline many repetitive tasks, while augmenting higher skilled jobs. The profile of a middle-income job -- traditionally in middle-skilled construction, production, or clerical roles -- has shifted toward occupations that require more training. Many workers in the Chicago region face the prospect of more training requirements for fewer middle-skill, middle-wage jobs in occupations dramatically different from those of the past. The cumulative effect of income inequality also hinders the growth and resilience of urban U.S. counties in the face of future economic uncertainty. Between 2006-10, income inequality was one of the most effective ways of predicting a county's risk of entering a recession. Existing disparities -- particularly by race and ethnicity -- further erode the region's human capital when all residents cannot fully contribute to and benefit from the regional economy.

**Describe any current workforce training initiatives, including those supported by Workforce Investment Boards, community colleges and other organizations. Describe how these efforts will support the jurisdiction's Consolidated Plan.**

As the LWIOA, The Partnership administers WIOA funds within the Chicago and County of Cook areas. The Partnership provides funding to private and community-based organizations known as delegate agencies that serve residents of Cook County and Chicago. These agencies provide comprehensive workforce development services by helping jobseekers prepare for and find jobs, connect to career services, and access a range of resources.

The Partnership aims to increase private engagement in the local workforce system while improving the scale, capacity, quality, and results of workforce development programs. The goal is to better serve the needs of employers by ensuring Chicago has a skilled labor force that meets the market's demands. By leveraging The Partnership's experience and knowledge of occupational training, workplace preparedness and business relations, businesses can use existing resources to produce outstanding results. In addition, The Partnership engages the business community to identify industry-hiring trends and industry-recognized credentials; supports industry-specific "sector centers" designed to facilitate in-depth focus on particular industries with business partnerships in these areas and analyzes and disseminates labor market information to project job growth, wages, and training requirements.

As LWIOA partner and recipient of WIOA funds, the CCC serves as a key player in the local workforce system. The College to Careers (C2C) Program forges partnerships between City Colleges and industry leaders to better align City Colleges' curricula with the demand in growing fields. These partnerships provide City Colleges' students access to real-world experience via teacher-practitioners, internships and top-notch facilities, and offer City Colleges' students and graduates a first pass at job opportunities. City Colleges has made significant strides in terms of the number of students earning credentials of economic value by realigning occupational programs to better correspond to market demands.

DFSS also funds workforce training initiatives, that are linked and coordinated with the larger WIA system, that help Chicago residents access job readiness training, career counseling, vocational skills training, job placement services and other workforce services. The goal of these services is to improve the employment outcomes of Chicagoans and to meet the skill and workforce needs of Chicago's

employers. Services are tailored to the needs of populations that experience multiple barriers to employment, including returning citizens with prior felony backgrounds (ex-offenders), homeless persons or those at-risk of being homeless, residents with limited English proficiency, and low-income/low-skilled individuals. DFSS supports four workforce training models:

1. Employment preparation and placement
2. Industry-Specific training
3. Subsidized work experience
4. Community re-entry centers

In addition, DPD administers the TIFWorks program which stimulates business success by funding workforce training costs for companies located in tax increment financing (TIF) districts. With TIFWorks support, businesses can become better equipped to improve performance and productivity, expand product lines and gain new customers. Businesses benefit from training programs that can help develop and expand product lines, adapt to new technologies and equipment, comply with occupational or industry regulations, expand into new markets, and promote growth and increase profit. Eligible businesses are those located in, expanding into, or relocating to an eligible TIF district. Since 2008, TIFWorks has provided \$21 million in TIF funds to 511 business for the training of 10,000 incumbent employees and the hiring of 1,100 new employees.

**Does your jurisdiction participate in a Comprehensive Economic Development Strategy (CEDS)?**

Yes

**If so, what economic development initiatives are you undertaking that may be coordinated with the Consolidated Plan? If not, describe other local/regional plans or initiatives that impact economic growth.**

<TYPE=[text] REPORT\_GUID=[F8DC4D3147433947165558A235C46686]  
PLAN\_SECTION\_ID=[1370705000]>

**Discussion**

## **MA-50 Needs and Market Analysis Discussion**

### **Are there areas where households with multiple housing problems are concentrated? (include a definition of "concentration")**

Data was not available for the City to determine areas where households with multiple housing problems may be concentrated.

### **Are there any areas in the jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")**

The City used guidance provided by HUD's Office of Policy Development and Research to define areas within Chicago where racial or ethnic minorities or low-income families are concentrated. Per this guidance, census tracts in which a racial or ethnic group comprises over 50% of all households are considered "concentrated". Further, census tracts where over 40% of the population lives below the poverty line are also considered "concentrated". As of the date of publication, the City is working with regional partners to embark on a Regional Assessment of Fair Housing. Much of the following narrative is finding from the beginning stages of that assessment. Maps on the pages following the narrative section detail community areas in Chicago where racial or ethnic minorities and low-income families are concentrated.

Of the 2.7 million people who lived in Chicago as of 2010, the population is divided roughly evenly between White, non-Hispanic (32% of the total population), Black/African American (33%), and Hispanic/Latino (29%) residents with Asian or Pacific Islanders making up the remaining 6%. Compared with Cook County as a whole, Chicago has proportionally fewer White, non-Hispanic residents with more Black/African American and more Hispanic residents.

Since 1990, the White, non-Hispanic and Black/African American, non-Hispanic populations have become both numerically and proportionally smaller, while the population of both Hispanic/Latino and Asian/Pacific Islanders has grown over the same period. In 1990, White, non-Hispanic and Black/African American, non-Hispanic populations each represented 38% of the total population compared to the only 20% that was Hispanic/Latino and 4% that was Asian/Pacific Islander.

Geographically, Chicago is highly segregated by race/ethnicity. White, non-Hispanic households tend to reside in neighborhoods in the central and north sides of the city. Black/African American households reside in neighborhoods on the south side of the city and to a lesser extent in some neighborhoods on the west side. And Hispanic/Latino residents tend to live on the west side with some presence on the south and north sides of the city.

Comparing Chicago Community Areas (CCA's) by race/ethnicity, there is only a single CCA that has a majority Asian/Pacific Islander population – Armour Square. The remaining CCA's are predominantly one of the three major racial/ethnic groups. Few CCA's have a moderate population of Black/African

Americans – CCA's tend to have either very few Black/African Americans or have an over 90% African American population. White, non-Hispanic and Hispanic populations, on the other hand, tend to exist in more moderate concentrations within CCA's – no CCA has at least a 90% White, non-Hispanic or Hispanic population.

The Areas of Low-Income Communities Map identifies community areas with concentrations of low-income families. These areas were found in all sections of the City but were more predominant on the South side. Under the CDBG program administered by the City, any block group or service area where the low to moderate income population is greater than 51% is eligible for public infrastructure, public facilities, and public services designed to benefit all persons living in these areas. The CDBG Eligible Areas Map indicates the community areas where funding may be targeted.

### **What are the characteristics of the market in these areas/neighborhoods?**

Chicago contains or intersects with 93 Racially or Ethnically Concentrated Areas of Poverty (RECAPs). This is the vast majority of RECAPs in Cook County, which has a total of 101 RECAPs. Over time the number of RECAPs has increased from 74 in 1990 to 93 as of the 2013-2017 ACS. RECAPs are concentrated in the south and west sides of the city, and most of them are highly clustered geographically, with many sharing neighborhood boundary edges and effectively creating large swaths of the city that are large RECAPs. The locations of these have been consistent and persistent over time. 27 of the CCA's contain at least 1 RECAP. Of these, all but 4 also had RECAPs in 1990, indicating that the concentration of poverty and racial/ethnic minorities has been relatively persistent across many CCA's. East Garfield Park, Englewood, Grand Boulevard, Greater Grand Crossing, New City, North Lawndale, South Shore, Washington Park, West Englewood, and West Garfield Park stand out as having the greatest numbers of RECAPs in the city.

Of the 209,000 people in Chicago that live in RECAPs, the vast majority (177,000 or 85%) are Black/African American, non-Hispanic. The second largest population is Hispanic/Latino with 19,000 residents living in RECAPs. Nearly half of these Hispanic residents are concentrated in RECAPs in the New City CCA. About 51% of families living in RECAPs have children, which is slightly higher than the overall rate of families with Children across the city. Foreign-born and limited English proficiency residents are both proportionately underrepresented in RECAPs.

### **Are there any community assets in these areas/neighborhoods?**

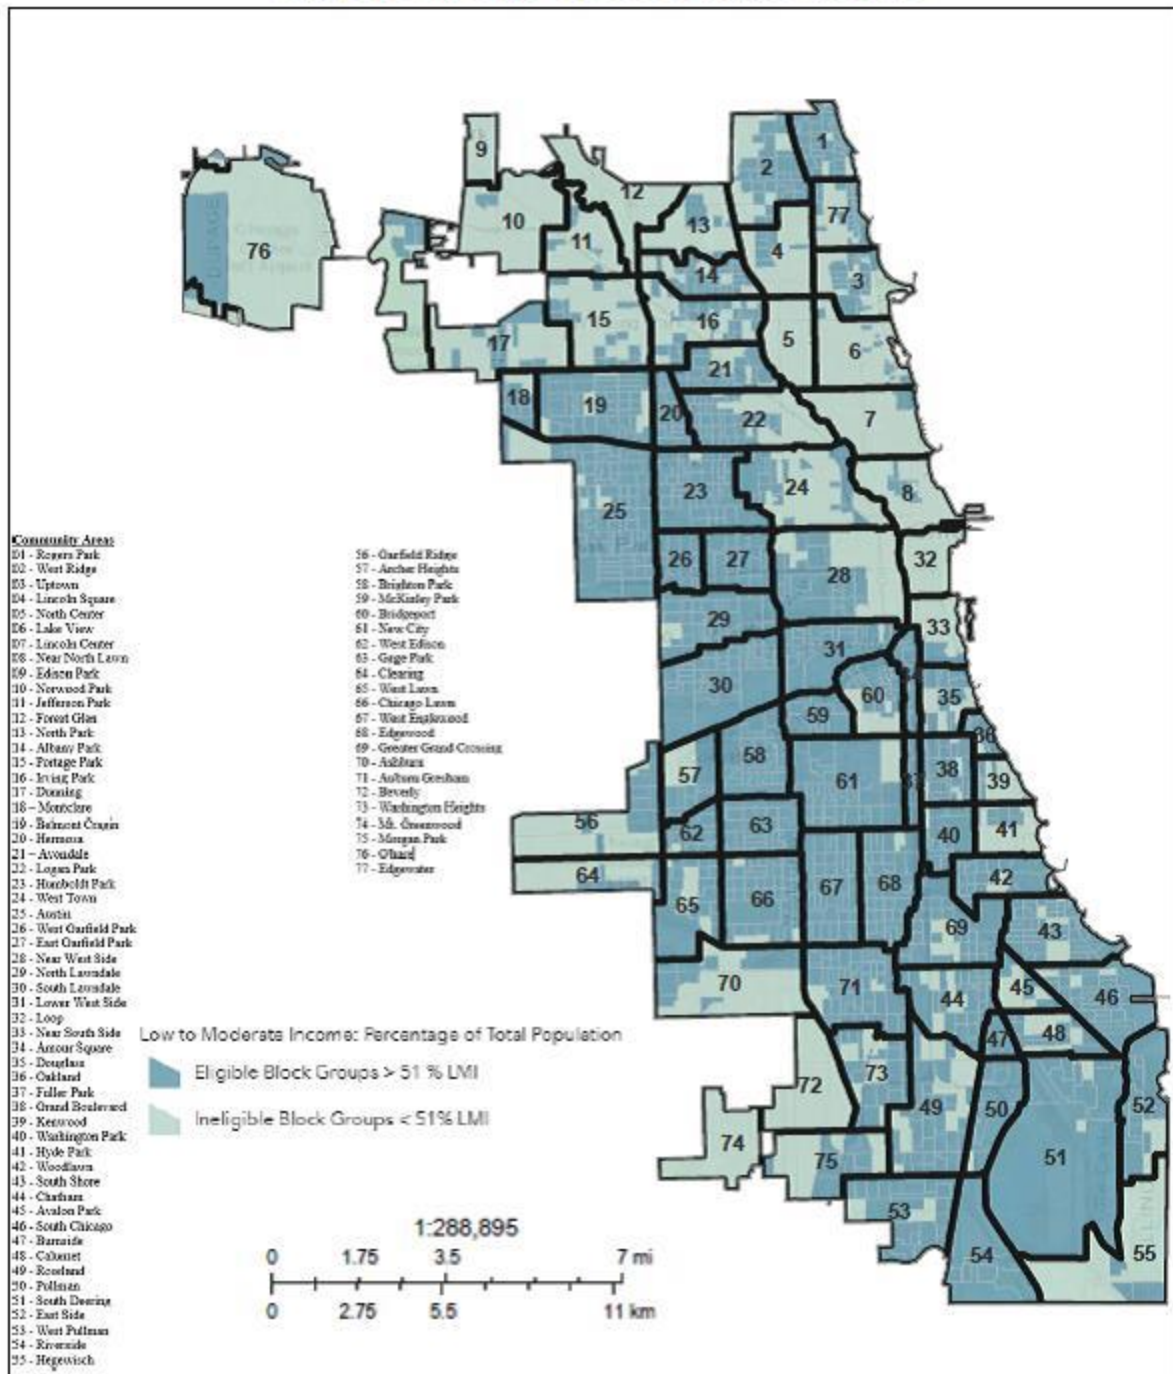

There are many community assets located in neighborhoods with low-income and/or minority concentrations. First, many of these areas have unique neighborhood characteristics. Some have important historic characteristics important to Chicago and valued by neighborhood residents. Many areas are influenced by immigrants that have settled in the areas and brought their cultures to Chicago. Neighborhoods also have a strong sense of community with many residents involved as advocates for their community, acting as an important community asset. Schools, libraries, parks and recreation

centers are located all around the City of Chicago. Strong anchor institutions, including universities and hospitals are in and around these areas as well.

**Are there other strategic opportunities in any of these areas?**

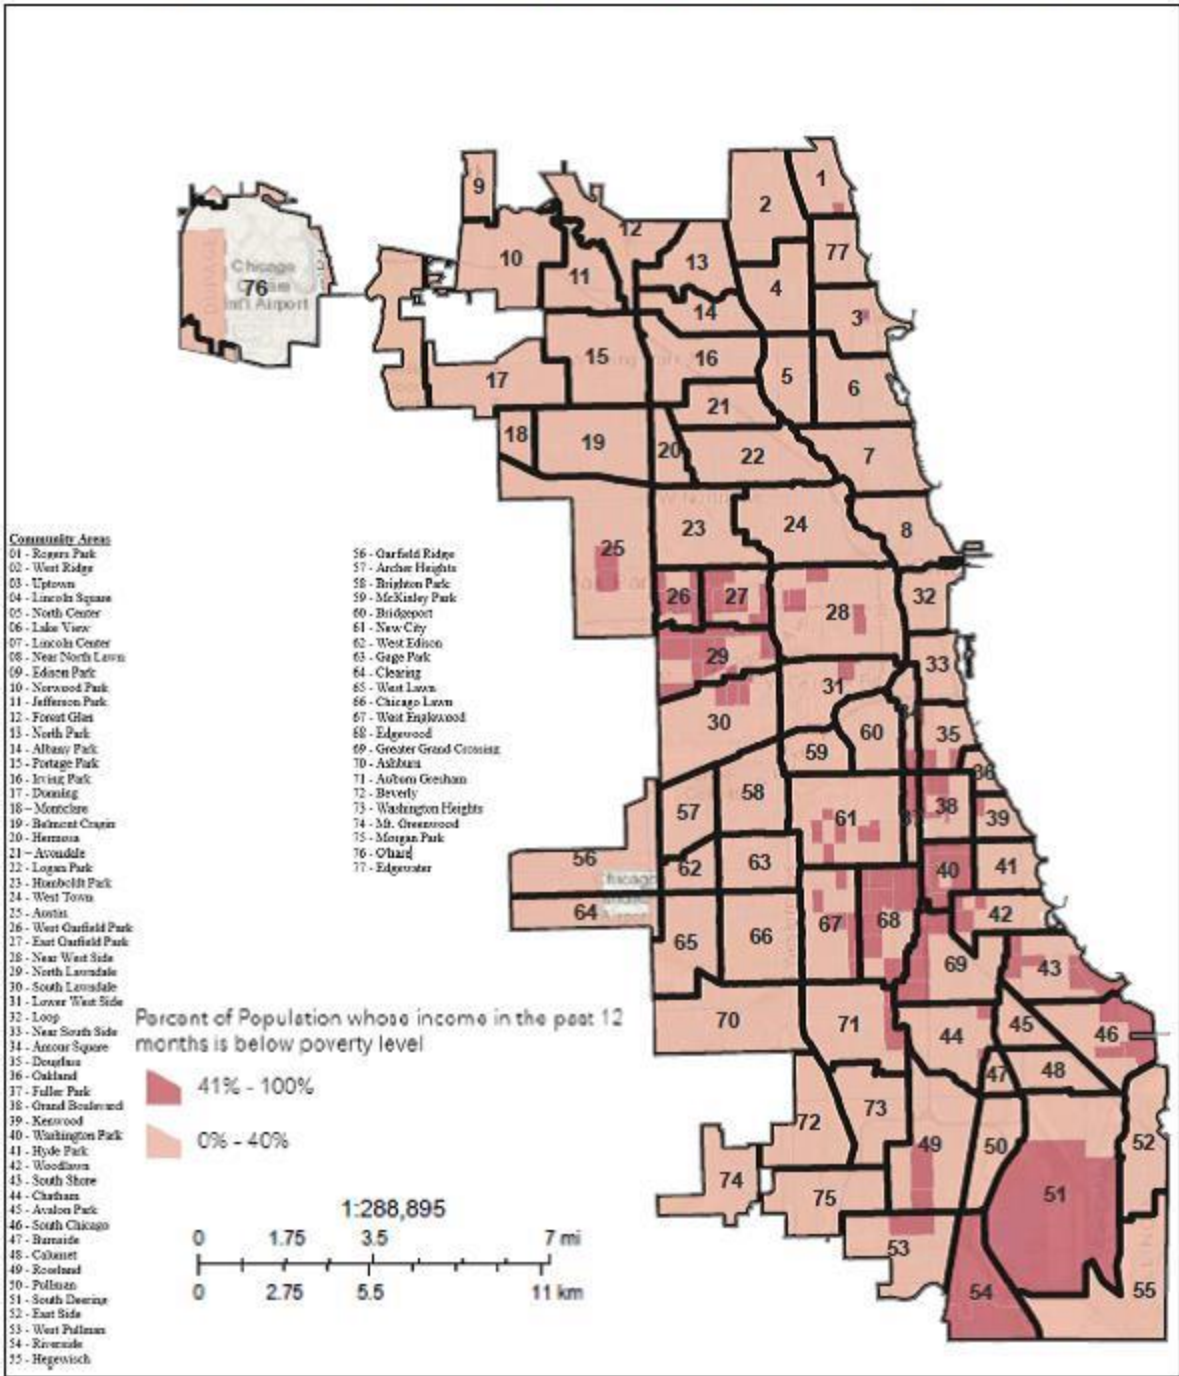

The City of Chicago is committed to revitalizing neighborhoods through a wide variety of strategic initiatives. Through initiatives like the Small Business Growth Strategy, Micro-Market Recovery Program, Neighborhood Opportunity Fund, Affordable Housing Opportunity Fund and many other programs, the City is investing in its neighborhoods.

## **MA-60 Broadband Needs of Housing occupied by Low- and Moderate-Income Households - 91.210(a)(4), 91.310(a)(2)**

**Describe the need for broadband wiring and connections for households, including low- and moderate-income households and neighborhoods.**

In addition to these programs, HUD guidance calls for analysis of access to broadband services in LMI communities. Through the Digital Equity Advisory Group, the City is assessing the state of digital equity and rights in Chicago, while promoting awareness, making recommendations, identifying support, and evaluating efficacy. In addition, the City, through public private partnerships, is investing in doubling the number of LMI Households eligible for internet essentials.

**Describe the need for increased competition by having more than one broadband Internet service provider serve the jurisdiction.**

## **MA-65 Hazard Mitigation - 91.210(a)(5), 91.310(a)(3)**

### **Describe the jurisdiction's increased natural hazard risks associated with climate change.**

HUD Guidance has called for an analysis of impact on vulnerability of LMI neighborhoods to climate-related changes. Through an initiative titled Resilient Chicago, the City outlines 50 actionable initiatives which aim to reduce disparities between Chicago's neighborhoods; address the root causes of crime and violence; ensure the provision of critical infrastructure; and promote engaged, prepared, and cohesive communities. The city's Resilience Strategy can be found online at: [Resilient.Chicago.Gov](https://resilient.chicago.gov).

### **Describe the vulnerability to these risks of housing occupied by low- and moderate-income households based on an analysis of data, findings, and methods.**

# Strategic Plan

## SP-05 Overview

### Strategic Plan Overview

The City, through a comprehensive planning process, involved public, private, not-for profit agencies and other organizations to create a five-year strategy for the Consolidated Plan that sets general priorities for allocating entitlement grant funds within the city. The Strategic Plan describes the basis for assigning the priority given to each category of need, identifies obstacles to meeting underserved populations, and discusses accomplishments that the City expects to achieve over the next five years for fiscal years 2020-2024.

The Strategic Plan has been developed based on allocating the available entitlement resources and non-federal resources to the priority needs of the community, as determined through data analysis, results of consultation and resident surveys.

## SP-10 Geographic Priorities – 91.215 (a)(1)

### Geographic Area

Table 50 - Geographic Priority Areas

1	<b>Area Name:</b>	Citywide
	<b>Area Type:</b>	Low and Moderate Income Community Areas of Chicago
	<b>Other Target Area Description:</b>	Low and Moderate Income Community Areas of Chicago
	<b>HUD Approval Date:</b>	
	<b>% of Low/ Mod:</b>	
	<b>Revital Type:</b>	
	<b>Other Revital Description:</b>	
	<b>Identify the neighborhood boundaries for this target area.</b>	Citywide
	<b>Include specific housing and commercial characteristics of this target area.</b>	The housing and commercial characteristics vary by market type across the city
	<b>How did your consultation and citizen participation process help you to identify this neighborhood as a target area?</b>	The robust engagement process for the Assessment of Fair Housing and public hearings provided the basis for identification of needs across the city.
	<b>Identify the needs in this target area.</b>	Citywide needs include more affordable housing, mental health facilities and services, return vacant land back to productive use, and improved access to jobs and education.
	<b>What are the opportunities for improvement in this target area?</b>	Vacant properties provide an opportunity for redevelopment into affordable housing, commercial and open space uses. Chicago has a strong comprehensive network of nonprofit, private and public partners to provide a range of housing and community development programs and projects.
	<b>Are there barriers to improvement in this target area?</b>	The primary barriers to improvement across the city are resident lack of income, rising housing costs, aging housing stock, and deteriorating and/or lack of public facilities and infrastructure.
2	<b>Area Name:</b>	Low and Moderate Income Census Tracts
	<b>Area Type:</b>	Local Target area

<b>Other Target Area Description:</b>	
<b>HUD Approval Date:</b>	
<b>% of Low/ Mod:</b>	
<b>Revital Type:</b>	Other
<b>Other Revital Description:</b>	Citywide
<b>Identify the neighborhood boundaries for this target area.</b>	All Low to moderate income census tract and block groups.
<b>Include specific housing and commercial characteristics of this target area.</b>	he housing and commercial characteristics vary by market type across the city.
<b>How did your consultation and citizen participation process help you to identify this neighborhood as a target area?</b>	The robust engagement process for the Assessment of Fair Housing and public hearings provided the basis for identification of needs across the city.
<b>Identify the needs in this target area.</b>	Citywide needs include more affordable housing, mental health facilities and services, return vacant land back to productive use, and improved access to jobs and education.
<b>What are the opportunities for improvement in this target area?</b>	Vacant properties provide an opportunity for redevelopment into affordable housing, commercial and open space uses. Chicago has a strong comprehensive network of nonprofit, private and public partners to provide a range of housing and community development programs and projects.
<b>Are there barriers to improvement in this target area?</b>	The primary barriers to improvement across the city are resident lack of income, rising housing costs, aging housing stock, and deteriorating and/or lack of public facilities and infrastructure.

## General Allocation Priorities

Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA)

At present, the City is not implementing any official HUD designated geographic based priority areas such as NRSAs or Empowerment Zone or Brownfields. Allocations and program activities are funded City-wide in accordance with eligibility and program priorities set through departments policies.

Low-and moderate-income families and individuals reside in communities throughout Chicago. Grants and other resources are geographically distributed throughout the city for community development and

housing programs. All proposed Consolidated Plan activities are intended to primarily benefit populations that have special needs and citizens with low-and moderate-incomes. Assistance will be directed to areas of the city in which 51% or more of households are low and moderate income. The City certifies that 70% of all CDBG expended between the Consolidated Plan period 2020-2024 will be used for activities which benefit low- and moderate- income persons and special needs populations.

The basis for allocating investments geographically for HOPWA funding is need. The greatest needs exist where there are the highest number of documented HIV/AIDS cases in the Chicago and Cook County areas. Service providers who are sub-recipients of HOPWA funds are required to demonstrate the unmet need in their given service area and demonstrate how their programs propose to meet the need. The community areas with the lowest income and lowest employment tend to experience more severe health outcomes, specifically in the areas of HIV and AIDS, childhood lead poisoning, and exposure to violence. Community areas with the highest rates are located on the West and South sides (Humboldt Park, Garfield Park, Lawndale, Near South, Grand Boulevard, Woodlawn, South Shore, South Chicago, New City, Englewood, and Greater Grand Crossing), with a cluster on the far North side for HIV and AIDS.

The Division allocates HOPWA funding geographically in areas where the need is greatest and where the highest number of documented HIV/AIDS cases exists in the Chicago Eligible Metropolitan Statistical Area (EMSA).

For the HOPWA program, current units are located on the South, North, and West sides of the City, city-wide in many of these same community areas. HIV Housing is also provided in the cities of Joliet and Wheaton, Illinois which are within the Chicago EMSA.

## SP-25 Priority Needs - 91.215(a)(2)

### Priority Needs

Table 51 – Priority Needs Summary

1	<b>Priority Need Name</b>	Affordable Housing
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Enable Persons to Live with Dignity & Independence Expand Affordable Homeownership Opportunities Retain and Preserve Affordable Housing Expand Fair Housing Outreach, Education and Enforc
	<b>Description</b>	Create and preserve affordable housing through new construction, and rehabilitation. Expand nonprofits capacity to develop affordable units.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies, and through solicitation of comments from citizens.
2	<b>Priority Need Name</b>	Mental Health Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Elderly Persons with Mental Disabilities
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Provide Public Services to Enhance Quality of Life

	<b>Description</b>	Address the mental health needs of residents of the community. Improve mental health service linkage and service coordination for residents in mental health crisis who are interfacing with the Chicago Police Department (CPD). The program works to strengthen collaboration among CPD, Department of Public Health, mental health providers, and social service providers to improve access to care.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with mental health advocates, and through solicitation of comments from citizens.
<b>3</b>	<b>Priority Need Name</b>	Homelessness Prevention
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Families with Children Chronic Substance Abuse
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Prevent and Reduce Homelessness
	<b>Description</b>	Funds used for housing relocation and stabilization services, short-term and medium-term rental assistance as necessary to prevent individuals and families becoming homeless. Costs associated with the operation of programs for the homeless such as staff costs, utilities, maintenance, and insurance.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with homelessness agencies, and through solicitation of comments from citizens.
<b>4</b>	<b>Priority Need Name</b>	Public Safety
	<b>Priority Level</b>	High

	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly Persons with Mental Disabilities Persons with Physical Disabilities Persons with Developmental Disabilities Persons with HIV/AIDS and their Families
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Provide Public Services to Enhance Quality of Life Strengthen Community Capacity
	<b>Description</b>	Violence prevention services to identify weaknesses and strengthen connections within communities. Restorative practices to prevent family and community violence.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with community-based organizations, and through solicitation of comments from citizens.
5	<b>Priority Need Name</b>	Elderly Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Enable Persons to Live with Dignity & Independence
	<b>Description</b>	Services for at risk seniors include home assessment, case advocacy and support, ongoing monitoring, direct assistance, and home-delivered meals.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with Housing agencies, and through solicitation of comments from citizens.

6	<b>Priority Need Name</b>	Disability Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Elderly Elderly Frail Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Enable Persons to Live with Dignity & Independence
	<b>Description</b>	Provide housing accessibility modifications to low- and moderate-income seniors with disabilities. Assist people with disabilities in identifying and obtaining available services and provide supportive services such as case management, independent living skills training, personal assistance/homemaker services, and assistive technology assessments.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies and the Mayor's Office for People with Disabilities, and through solicitation of comments from citizens.
7	<b>Priority Need Name</b>	Workforce Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Foster Community Economic Development
	<b>Description</b>	Support a broad range of community services for primarily low to moderate income persons. Improve the employment outcomes of Chicagoans by providing training to meet the skill and workforce needs of Chicago's employers.

	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with various agencies, and through solicitation of comments from citizens.
8	<b>Priority Need Name</b>	Code Enforcement
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Non-housing Community Development
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Retain and Preserve Affordable Housing Expand Fair Housing Outreach, Education and Enforc
	<b>Description</b>	Provide targeted code enforcement in low- and moderate-income areas to complement strategic efforts to arrest neighborhood decline and preserve stock of affordable housing.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon consultation with the Chicago Department of Buildings and surveying the number of areas within the City having populations 51% or low to moderate income.
9	<b>Priority Need Name</b>	Infrastructure
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Non-housing Community Development
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Invest in Public Facilities and Critical Infrastru Address Disaster Related Needs
	<b>Description</b>	Improve the city's aging infrastructure including water and sewer systems, streets and sidewalks.

	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with planning agencies, and through solicitation of comments from citizens.
10	<b>Priority Need Name</b>	Community Relations
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Strengthen Community Capacity
	<b>Description</b>	Bring residents of different backgrounds together and provide mediation for intergroup tensions. Outreach services, and workshops for schools, places of worship, and community organizations to reduce hate crimes, bullying, and prejudice.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with community-based organizations, and through solicitation of comments from citizens.
11	<b>Priority Need Name</b>	Homeownership Assistance
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Provide Public Services to Enhance Quality of Life Expand Affordable Homeownership Opportunities Retain and Preserve Affordable Housing

	<b>Description</b>	To make acquisition of affordable housing units feasible including providing down payment assistance directly to low to moderate income homebuyers. Provide home improvement grants to owner-occupied units. Counseling services including pre-purchase and foreclosure prevention workshops.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies, and through solicitation of comments from citizens.
<b>12</b>	<b>Priority Need Name</b>	Fair Housing
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly Public Housing Residents Chronic Homelessness veterans Persons with Mental Disabilities Persons with Physical Disabilities Persons with Developmental Disabilities
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Description</b>	Ensure at risk Chicagoans are not discriminated against by landlords and/or property managers and increase awareness of federal and state fair housing laws.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies, and through solicitation of comments from citizens.
	<b>Priority Need Name</b>	Lead Poisoning Mitigation
<b>13</b>	<b>Priority Level</b>	High

	<b>Population</b>	Extremely Low Low Moderate Families with Children
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago
	<b>Associated Goals</b>	Reduce Lead Poisoning Hazards
	<b>Description</b>	Activities undertaken primarily to provide screening for lead poisoning, and housing rehabilitation activities with the primary goal of evaluating and reducing lead-based paint/lead hazards.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies and the Chicago Department of Public Health, and through solicitation of comments from citizens.
<b>14</b>	<b>Priority Need Name</b>	Services for Victims of Domestic Violence
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly Mentally Ill Victims of Domestic Violence
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Provide Public Services to Enhance Quality of Life Provide community-based domestic violence services Strengthen Community Capacity
	<b>Description</b>	Aid and advocacy to those who have been victims of domestic violence (physical, sexual, or emotional abuse), including teens who have been victimized in an intimate relationship. The aim of services provided is to empower, strengthen problem solving capabilities, and build self-sufficiency.

	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with the Chicago Department of Family and Support Services, and through solicitation of comments from citizens.
15	<b>Priority Need Name</b>	Emergency Nutrition
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Families with Children Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Enable Persons to Live with Dignity & Independence Provide Public Services to Enhance Quality of Life
	<b>Description</b>	Provide emergency meals on short time basis so extremely low-income persons will not endure long durations of hunger and malnutrition.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with the Chicago Department of Family and Support Services, and through solicitation of comments from citizens.
16	<b>Priority Need Name</b>	Youth Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Provide Public Services to Enhance Quality of Life Strengthen Community Capacity
	<b>Description</b>	Administer school-based violence and substance abuse programs for youth and parenting education programming for adults to prevent family violence.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with the Chicago Department of Family and Support Services, and through solicitation of comments from citizens.

17	<b>Priority Need Name</b>	Broadband Access
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Families with Children Elderly
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	
	<b>Description</b>	Increase access to broadband at home with installation on all new construction as well as substantial rehabilitations of multifamily rental units.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies and the Digital Equity Advisory Group, and through solicitation of comments from citizens.
18	<b>Priority Need Name</b>	HIV Supportive Services
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Persons with HIV/AIDS
	<b>Geographic Areas Affected</b>	Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	Provide support services including case management, legal advice, substance abuse recovery, and mental health treatment for people living with HIV/AIDS that are homeless or in imminent danger of becoming homeless.
	<b>Basis for Relative Priority</b>	Relative Priority was assigned to this need based upon responses to a Needs Survey, consultation with housing agencies and the Chicago Department of Public Health, and through solicitation of comments from citizens.

19	<b>Priority Need Name</b>	Facility Based Housing Operations
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Persons with HIV/AIDS
	<b>Geographic Areas Affected</b>	
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	Operating costs for housing including maintenance, security, operation, insurance, utilities, furnishings, equipment, supplies, and other incidental costs.
	<b>Basis for Relative Priority</b>	Relative priority based upon consultation HIV service providers and on evaluation of past performance.
20	<b>Priority Need Name</b>	Tenant Based Rental Assistance
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Persons with HIV/AIDS Persons with HIV/AIDS and their Families
	<b>Geographic Areas Affected</b>	
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	Tenant-based rental assistance is a rental subsidy used to help participants obtain permanent housing in the private rental housing market that meets housing quality standards and is rent reasonable.
	<b>Basis for Relative Priority</b>	This need based upon consultation with HIV service providers and past performance. An average of 250 households benefit from TBRA annually.
21	<b>Priority Need Name</b>	Housing Information

	<b>Priority Level</b>	High
	<b>Population</b>	Persons with HIV/AIDS Persons with HIV/AIDS and their Families
	<b>Geographic Areas Affected</b>	
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	Housing information services including information and referral services to assist an eligible people living with HIV to locate suitable housing.
	<b>Basis for Relative Priority</b>	This need was determined through consultation with HIV providers and consultation with the Department of Public Health. Also supplements the 90/90/90/50 plan as housing is essential to persons with HIV maintaining viral suppression.
22	<b>Priority Need Name</b>	Short Term Rent, Mortgage, Utility Assistance
	<b>Priority Level</b>	High
	<b>Population</b>	Persons with HIV/AIDS and their Families
	<b>Geographic Areas Affected</b>	
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	To provide rental, mortgage, and utility assistance on an emergency basis. Designed to prevent homelessness and increase housing stability. Assistance may be provided for a period of up to 21 weeks in any 52-week period.
	<b>Basis for Relative Priority</b>	This need was determined through consultation with HIV service providers.
23	<b>Priority Need Name</b>	Facility Based Housing Development
	<b>Priority Level</b>	High
	<b>Population</b>	Persons with HIV/AIDS

	<b>Geographic Areas Affected</b>	
	<b>Associated Goals</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Description</b>	Funds will be used to acquire, construct, rehabilitate, or convert properties into facility based housing for persons living with HIV.
	<b>Basis for Relative Priority</b>	The basis for this priority was determined by Chicago Department of Public Health.
<b>24</b>	<b>Priority Need Name</b>	COVID-19 Crisis
	<b>Priority Level</b>	High
	<b>Population</b>	Extremely Low Low Moderate Middle Large Families Families with Children Elderly Public Housing Residents Elderly Frail Elderly Persons with Mental Disabilities Persons with Physical Disabilities Persons with Developmental Disabilities Persons with Alcohol or Other Addictions Persons with HIV/AIDS and their Families Victims of Domestic Violence Non-housing Community Development
	<b>Geographic Areas Affected</b>	Low and Moderate Income Community Areas of Chicago Low and Moderate Income Census Tracts
	<b>Associated Goals</b>	COVID-19 Response and Prevention
	<b>Description</b>	Mitigating impact from the COVID-19 crisis

	<b>Basis for Relative Priority</b>	Current national crisis.
--	--	--------------------------

### **Narrative (Optional)**

While this list includes needs associated with citizen participation and consultation, the City of Chicago is a large municipality with ever changing needs and priorities. Needs, goals and projects will be assessed on a yearly basis to best serve residents.

## SP-30 Influence of Market Conditions – 91.215 (b)

### Influence of Market Conditions

Affordable Housing Type	Market Characteristics that will influence the use of funds available for housing type
Tenant Based Rental Assistance (TBRA)	Currently, the City does not anticipate allocating HOME or CDBG for permanent tenant-based rental assistance. Transitional rental assistance is provided through DFSS and their partners. The City will continue to use HOPWA funding for tenant-based rental assistance for those living with HIV/AIDS. The Chicago Housing Authority provides TBRA through Housing Choice Vouchers.
TBRA for Non-Homeless Special Needs	At this time, there is no plan to utilize HOME or CDBG for permanent tenant-based rental assistance for Non-Homeless Special Needs. Transitional rental assistance is provided through the Chicago Department of Family & Support Services and their delegate agency/partners service system. In addition, through HOPWA, the city provides TBRA to those living with HIV/AIDS.
New Unit Production	Affordable housing development can and should be shared throughout all corners of Chicago, and the City will work with elected officials, local community leaders' mission-driven and nonprofit developers, and other government agencies to build new units in high-cost markets. Yet, property is expensive in these communities, prohibitively so in some parts of the city, and less land is available for purchase. The City has found creative methods to mitigate these factors. New private developments are required to set aside units for affordable housing under the Affordable Requirements Ordinance (ARO), for example, and City funding is available as an incentive to include affordable units when a developer is buying, refinancing or renovating existing rental buildings. City Lots for Working Families program encourages housing developers to build a minimum of eight units on city-owned land available for purchase as low as a \$1 per lot and sell 75% of the units at an affordable price to affordable buyers at or below 120% AMI. The City utilizes HUD funding to provide multi-unit loans to developers to build or rehabilitate affordable housing.
Rehabilitation	City of Chicago offers programs designed to improve and preserve homes through rehabilitation. With most homes being built prior to 1950, Chicago faces an increased need for rehabilitation. High foreclosure rates have resulted in empty homes that will increase the need for rehabilitation funding and/or incentive programs for buyers to purchase and / rehab properties returning them to quality housing for our communities. The Roof and Porch Repair Program funded with CDBG to provide grants to low-moderate homeowners to repair or replace their roof and porch and help maintain their affordable unit.

<b>Affordable Housing Type</b>	<b>Market Characteristics that will influence the use of funds available for housing type</b>
Acquisition, including preservation	The City of Chicago offers home ownership and neighborhood lending programs that will assist in the acquisition and preservation of existing units. Programs include the Home Purchase Assistance Program, Troubled Buildings Initiative for single family homes and condos, Tax Smart, as well as Neighborhood Lending for purchase and purchase/rehab loans. Additionally, the City of Chicago will preserve units of housing during the five years of 2020 through 2024 through other initiatives including the Micro Market Recovery Program (MMRP) Heat Receivership Program, Troubled Buildings Initiative (TBI), and the Chicago Community Land Trust. Counseling programs to reduce foreclosure will assist families to maintain their homes and support strong communities.

**Table 52 – Influence of Market Conditions**

## SP-35 Anticipated Resources - 91.215(a)(4), 91.220(c)(1,2)

### Introduction

The anticipated resources for the next five years are identified in the table below. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.

### Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Economic Development Housing Public Improvements Public Services	79,493,093	2,745,000	24,361,907	106,600,000	435,594,220	CDBG funds will be used to support community development programming in low-and moderate-income neighborhoods. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
HOME	public - federal	Acquisition Homebuyer assistance Homeowner rehab Multifamily rental new construction Multifamily rental rehab New construction for ownership TBRA	20,120,610	6,792,000	0	26,912,610	134,579,740	HOME funds will be used to develop affordable housing for low-income communities, including new construction & rehabilitation of single- and multi-family units. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
HOPWA	public - federal	Permanent housing in facilities Permanent housing placement Short term or transitional housing facilities STRMU Supportive services TBRA	10,570,599	0	7,124,401	17,695,000	55,450,354	HOPWA funds will be used to provide housing and supportive services to individuals living with HIV/AIDS. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
ESG	public - federal	Conversion and rehab for transitional housing Financial Assistance Overnight shelter Rapid re-housing (rental assistance) Rental Assistance Services Transitional housing	6,876,768	0	3,250,000	10,126,768	37,633,840	ESG funds will be used to assist persons experiencing homelessness with shelter services, transitional housing, and repaid re-housing services. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.
Other	public - federal	Homeowner rehab Public Improvements	8,161,000	0	0	8,161,000	8,161,000	CDBG-DR funds will be used for disaster relief, long term recovery, and restoration of infrastructure, housing, and economic revitalization.
Other	public - federal	Other	122,600,596	0	0	122,600,596	0	COVID-19 Pandemic Relief. Allocations 1 & 2

**Table 53 - Anticipated Resources**

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

Matching requirements for HOME will be satisfied with local resources including Tax Increment Financing (TIF) funds and write-downs on City-owned vacant land and/or real estate property. In 2014, the City received a 50% reduction in the match requirement due to fiscal distress and the percentage of families in poverty (17.6%) in Chicago.

ESG matching requirements will be satisfied through an Emergency and Transitional Housing Program grant provided by the Illinois Department of Human Services.

While there are no matching requirements for HOPWA or CDBG, sub-recipients leverage other federal, state, local, and private sources that are used to support HOPWA program delivery. Most HOPWA sub-recipients use their leveraged funds to provide supportive services to HOPWA clients and their household.

**DFSS Leveraging**

In addition to CDBG funding, DFSS programming depends on multiple funding sources. These include various federal, state, and local funds. Domestic Violence programming leverages the Illinois Criminal Justice Information Authority, Illinois Department of Human Services, and local city funds to support its programs. Senior Services relies on multiple funding streams to support senior services including Older Americans Act/Area Plan funding and various State of Illinois Department on Aging funding sources. The Intensive Case Advocacy and Support (ICAS) Services program is solely supported with CDBG funding, while Home Delivered Meals leverages federal Older Americans Act funding that is passed through the state. Workforce Services' program models, including Employment Preparation and Placement, Industry Specific Training and Placement, Transitional Jobs, and Community Re-Entry Support Centers, all rely on CDBG funding and the Community Services Block Grant (CSBG) funding is also used to support the Employment Preparation and Placement and Transitional Jobs programs. In addition to state and federal grants, Workforce Services are leveraged with City corporate funds. Several funding streams support the city's current plan to address homelessness, Plan 2.0, including but not limited to CDBG, the HUD Emergency Solutions Grant, CSBG, the Illinois Department of Human Services' Emergency and Transitional Housing Program, and local funding.

**MOPD Leveraging**

Through a partnership with Meals on Wheels of Chicago, MOPD's Independent Living Program can provide meals to a group of people with disabilities that are under 60 which increases available services without increasing cost. Vendors of the Personal Assistant/Homemaker programs

are asked to match 10% of their contracted amount. This match can be in the form of direct service hours or administration costs. Vendors of the HomeMod program are asked to match 10% of their contracted amount. This match can be in the form of services provided or administration costs. In addition, HomeMod receives grant funds from Meals on Wheels Chicago to provide additional modifications. The HomeMod program has teamed up with sister agencies like the Illinois Department of Children and Family Services and the University of Illinois' Division of Specialized Care for Children to leverage funds.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

The City owns more than 8,000 parcels of land zoned for low-density residential use. This inventory has grown in recent years because of foreclosures and abandonments, with holding costs exceeding \$800,000 per year. Past efforts to sell individual parcels were slow and met with limited success. To create a market for these properties and efficiently dispose of them, the City has established two new programs:

- The Large-Lot Residential Program, which allows building owners to procure multiple adjacent City-owned lots for use as gardens, side yards and other legal uses. This can help create unique housing districts with much larger lots than are available in the rest of the city.
- City Lots for Working Families, through which developers can purchase City lots for \$1 each to build 75% affordable and 25% market-rate units.

**Discussion**

The City of Chicago will continue to pursue other available federal, state and private sources to leverage entitlement grant funding for the proposed community development initiatives in the Consolidated Plan. The City will also contribute a number of local tools and incentives, including the Chicago Affordable Housing Density Bonus, which allows additional square footage to residential developments to exceed the guidelines set in the Chicago Zoning Ordinance in exchange for creating additional affordable housing units, or contributing to the City's Affordable Housing Density Fund (Density Fund). In addition, local funds will be allocated during the 5-year period to support the City's Consolidated Planning priorities.

Funding levels identified in this Plan are estimates based on HUD allocations for the current fiscal year. When Fiscal Year 2020 allocations become known, any discrepancies due to a change in funding or program income will be remedied using unspent funds from the previous year. If "substantial amendments" to the Plan are needed, citizens will be provided with reasonable notice and the opportunity to comment on the proposed changes, per the City's Citizen Participation Plan.

## SP-40 Institutional Delivery Structure – 91.215(k)

Explain the institutional structure through which the jurisdiction will carry out its consolidated plan including private industry, non-profit organizations, and public institutions.

Responsible Entity	Responsible Entity Type	Role	Geographic Area Served
Department of Housing	Public institution	Ownership Rental	Jurisdiction
Department of Family and Support Services	Public institution	Economic Development Homelessness public services	Jurisdiction
Chicago Housing Authority	Public institution	Public Housing	Jurisdiction
CHICAGO DEPARTMENT OF PUBLIC HEALTH	Public institution	Non-homeless special needs public services	Jurisdiction
MAYORS OFFICE FOR PEOPLE WITH DISABILITIES	Public institution	Non-homeless special needs public services	Jurisdiction

**Table 54 - Institutional Delivery Structure**

### Assess of Strengths and Gaps in the Institutional Delivery System

The plans and strategies of this Five-Year Consolidated Plan are important and challenging. It is only through the commitment, resources, and talent of a vast array of partners— the public sector, the private market, and the nonprofit community—that Chicago has the confidence to set and meet these goals to address community needs. Working with these partners, the City has developed an institutional structure to enhance the coordination between public and private housing, health and social service agencies, and to encourage public housing residents to become more involved in management and participate in homeownership.

Particularly regarding the provision of human services, there is a great degree of public and private cooperation in Chicago, essential in order to serve the varied needs of the City’s low and moderate-income population. DFSS has formed and participates in numerous partnerships to provide

comprehensive services to families who have multiple challenges requiring services from more than one agency, and to allow DFSS and other organizations to maximize resources and avoid unnecessary duplication of services. DFSS staff members serve on many advisory councils and boards where information about social services is discussed.

DOH's success is due to the relationships and partnerships formed over many years in the field of affordable housing. Chicago is fortunate to have a network of private and non-profit developers. Many of these are community-based, knowledgeable regarding local market trends and conditions, sophisticated in their operations and have enough capacity to provide for the construction and rehabilitation of thousands of units of affordable housing each year. DPD works to maximize the effectiveness of these relationships through initiatives such as the Neighborhood Lending Program (NLP) and the Troubled Buildings Initiative (TBI). Through NLP, DPD partners with the Neighborhood Housing Services (NHS) of Chicago to leverage some \$30 million annually in private lending capital to preserve and expand homeownership opportunities for working families. Under TBI, DPD works with NHS and the Community Investment Corporation to preserve deteriorated or abandoned buildings as affordable housing. DPD's housing production initiatives, whether new construction or rehabilitation, require multiple layers of government working together. Strong relationships exist between DPD and other City departments—including Law, Business Affairs and Consumer Protection (BACP), DFSS, Mayor's Office for People with Disabilities, and Department of Public Health—to identify and coordinate these resources.

**Table 55 - Homeless Prevention Services Summary**

**Describe how the service delivery system including, but not limited to, the services listed above meet the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth)**

The City is actively involved with the Chicago Continuum of Care (CoC), All Chicago Making Homelessness History (All Chicago), which is the CoC's designated Collaborative Applicant, and the Chicago CoC Board of Directors. The CoC Board is a public-private planning body with representatives from local, state, and federal government agencies along with a broad base of constituency groups, including persons with lived homelessness experience and service providers. The CoC Board is the CoC governing body and makes policy decisions on funding priorities for HUD McKinney-Vento funding and other resources needed to achieve the goals of Chicago's plan to prevent and end homelessness, Plan 2.0, and monitoring the progress of that plan. The Department of Family and Support Services (DFSS), working with its partner agencies, completed Plan 2.0, and along with All Chicago, serves as a lead implementing agency under the direction of the CoC Board.

Plan 2.0 is Chicago's strategic plan to address the needs of persons experiencing homelessness, particularly persons and families with children experiencing chronic homelessness, veterans, and unaccompanied youth, as well as those at risk of homelessness. In 2018, the Chicago CoC launched the Action Agenda, a strategy and work plan for the CoC. All Chicago and DFSS to be more action-oriented in our work to end homelessness. The Action Agenda encompasses four key strategies to strengthen and focus the work:

1. Organize. Create an infrastructure of working groups focused on actions that advance the goals of Plan 2.0 and include everyone's voice at the table.
2. Empower. Empower All Chicago as the backbone organization leading the CoC to achieve the goals of Plan 2.0.
3. Elevate. The CoC Board approves policies recommended by working groups and aligns the resources and activities to support policies.
4. Amplify. Build political will to align leadership, set concrete targets, and expand housing inventory.

In 2019, the CoC began working to better serve homeless families and children by working with the early childhood sector to establish an MOU between systems.

To view Plan 2.0, please visit DFSS' website at:

[http://www.cityofchicago.org/city/en/depts/fss/supp\\_info/plan\\_to\\_homelessness.html](http://www.cityofchicago.org/city/en/depts/fss/supp_info/plan_to_homelessness.html).

**Describe the strengths and gaps of the service delivery system for special needs population and persons experiencing homelessness, including, but not limited to, the services listed above**

Chicago currently has coordinated access points for several types of service models – the Homelessness Prevention Call Center for prevention resources and the Coordinated Entry System for permanent housing); The strength of these coordinated approaches to preventing homelessness or quickly re-connecting households to housing when they do become homeless is that the system is working across silos and funders to utilize a more coordinated approach. The Coordinated Entry System utilizes HMIS as a shared data system and a standardized housing assessment that determines the right mix of services and housing needed to stabilize each household needing assistance. Since CES rolled out in 2017, the system has a significant amount of data that is used to conduct gaps analyses for services and housing, giving the City a more accurate report of the types of interventions needed in real time. Through collaboration with the Continuum of Care implementation work groups, the City has worked to connect other systems to CES and the homelessness response system in general including health care institutions, corrections, early childhood education and workforce development.

**Provide a summary of the strategy for overcoming gaps in the institutional structure and service delivery system for carrying out a strategy to address priority needs**

Providing the full range of needed services for homeless and low-income populations requires intense cooperation among public, private, and not-for profit agencies, along with the effective leveraging of limited resources. The City is very proactive in this area and has built strong partnerships both interdepartmentally and inter-governmentally, as well as with numerous organizations in the other sectors. The City strengthens coordination between public and private housing and social service agencies through the Continuum of Care committee structure and under the direction of Plan 2.0., under which DFSS partners with other City sister agencies to support their plans and to operationalize strategies. DFSS leads an interagency task force which brings together City departments and sister agencies that touch the issue of homelessness. Through this task force, the City departments work together to ensure funding efficiencies and to expand permanent and affordable housing for vulnerable Chicagoans.

## SP-45 Goals Summary – 91.215(a)(4)

### Goals Summary Information

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
1	Enable Persons to Live with Dignity & Independence	2020	2024	Affordable Housing Non-Homeless Special Needs	Low and Moderate Income Census Tracts	Affordable Housing Elderly Services Disability Services Emergency Nutrition	CDBG: \$43,447,325	Public service activities other than Low/Moderate Income Housing Benefit: 177125 Persons Assisted  Homeowner Housing Rehabilitated: 11500 Household Housing Unit
2	Provide Public Services to Enhance Quality of Life	2020	2024	Affordable Housing Non-Housing Community Development	Low and Moderate Income Census Tracts	Mental Health Services Public Safety Homeownership Assistance Services for Victims of Domestic Violence Emergency Nutrition Youth Services	CDBG: \$43,151,775	Public service activities other than Low/Moderate Income Housing Benefit: 677150 Persons Assisted

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
3	Expand Affordable Homeownership Opportunities	2020	2024	Affordable Housing	Low and Moderate Income Census Tracts	Affordable Housing Homeownership Assistance	CDBG: \$11,549,425	Public service activities other than Low/Moderate Income Housing Benefit: 22500 Persons Assisted  Homeowner Housing Rehabilitated: 310 Household Housing Unit  Direct Financial Assistance to Homebuyers: 100 Households Assisted
4	Retain and Preserve Affordable Housing	2020	2024	Affordable Housing	Low and Moderate Income Census Tracts	Affordable Housing Code Enforcement Homeownership Assistance	CDBG: \$120,670,565 HOME: \$118,703,265	Rental units constructed: 825 Household Housing Unit  Rental units rehabilitated: 10075 Household Housing Unit  Homeowner Housing Rehabilitated: 2585 Household Housing Unit
5	Foster Community Economic Development	2020	2024	Non-Housing Community Development	Low and Moderate Income Census Tracts	Workforce Services	CDBG: \$30,707,020	Public service activities other than Low/Moderate Income Housing Benefit: 6300 Persons Assisted

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
6	Prevent and Reduce Homelessness	2020	2024	Homeless Non-Homeless Special Needs	Low and Moderate Income Census Tracts	Homelessness Prevention	CDBG: \$51,950,875 ESG: \$31,898,480	Public service activities other than Low/Moderate Income Housing Benefit: 80000 Persons Assisted  Tenant-based rental assistance / Rapid Rehousing: 1295 Households Assisted  Homeless Person Overnight Shelter: 21130 Persons Assisted  Homelessness Prevention: 57645 Persons Assisted
7	Provide community-based domestic violence services	2020	2024	Non-Housing Community Development	Low and Moderate Income Census Tracts	Services for Victims of Domestic Violence	CDBG: \$13,168,065	Public service activities other than Low/Moderate Income Housing Benefit: 80000 Persons Assisted

Table 56 – Goals Summary

## Goal Descriptions

1	Goal Name	Enable Persons to Live with Dignity & Independence
	Goal Description	Enable persons to live in dignity and independence by providing home modifications, case management, assessments and referrals for independent living skills training program, personal assistance/homemaker services, home delivered meals, and assistive devices to people.
2	Goal Name	Provide Public Services to Enhance Quality of Life
	Goal Description	Provide traditional safety net programs to help low to moderate income residents become self-sufficient, avoid hunger and/or meet basic healthcare needs.
3	Goal Name	Expand Affordable Homeownership Opportunities
	Goal Description	Provide support for more households to become homeowners in markets across the city.
4	Goal Name	Retain and Preserve Affordable Housing
	Goal Description	Create and preserve affordable housing across Chicago's neighborhoods in order to provide a decent home and a suitable living environment for all persons, but principally those of low and moderate income.

5	<b>Goal Name</b>	Foster Community Economic Development
	<b>Goal Description</b>	Foster community economic development through activities that provide capacity building for nonprofit organizations that are focused on affordable housing development and workforce development, as well as support for small business development.
6	<b>Goal Name</b>	Prevent and Reduce Homelessness
	<b>Goal Description</b>	Provide Homeless Prevention, Shelter, Outreach and Engagement Services, and Housing Supports to prevent and/or reduce homelessness.
7	<b>Goal Name</b>	Provide community-based domestic violence services
	<b>Goal Description</b>	Provide community-based domestic violence services including crisis counseling, safety planning and legal advocacy and services to ensure victims safety that includes court resources, attorney services, multi-disciplinary team assistance and supervised visitation or safe exchange.
8	<b>Goal Name</b>	Reduce Lead Poisoning Hazards
	<b>Goal Description</b>	Through strategic inspections and abatement, as well as public education campaigns and testing, activities will focus on permanently eliminating lead exposure to children.
9	<b>Goal Name</b>	Strengthen Community Capacity
	<b>Goal Description</b>	Strengthen community capacity by providing and expanding educational and support group services to communities. Improve human relations among Chicagoans by educating residents about their civil rights and working to reduce bias, violence, and/or discrimination in Chicago.
10	<b>Goal Name</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Goal Description</b>	Reduce discrimination as a barrier to equal housing opportunity by enforcing the Chicago Fair Housing Ordinance through the investigation of housing discrimination complaints, closing housing discrimination cases, and increasing knowledge of fair housing rights and responsibilities through education, outreach, and collaboration with government and community partners.

11	<b>Goal Name</b>	Invest in Public Facilities and Critical Infrastru
	<b>Goal Description</b>	Support the development of vibrant, equitable, safe, and adaptable neighborhoods by investing in public facilities and critical infrastructure.
12	<b>Goal Name</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Goal Description</b>	Provide housing assistance and supportive services to people living with HIV/AIDS and their families who are homeless, at risk of homelessness or unstably housed.
13	<b>Goal Name</b>	COVID-19 Response and Prevention
	<b>Goal Description</b>	Activities carried out to prevent, prepare for and respond to the COVID-19 pandemic.
14	<b>Goal Name</b>	Address Disaster Related Needs
	<b>Goal Description</b>	Provide rehabilitation and repair assistance to households and repair critical infrastructure in community areas most impacted by the April 2013 rain storm.

**Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.315(b)(2)**

Affordable Homeownership units to be produced over the 5 year Strategic Plan Period is estimated to be 3,280 units; for families at 0-30% of income – 20 units; for families at 31-50% of income – 55 units; for families at 51-80% of income – 1,465 units; and for families at 81% + of income – 1,740 units.

Affordable Rental Units to be produced over the 5 year Strategic Plan Period is estimated to be 5,300; for families at 0-30% of income – 692 units; for families at 31-50% of income – 1,792 units; for families at 51-80% of income – 2,481 units; and for families at 81% + of income – 335 units.

## **SP-50 Public Housing Accessibility and Involvement – 91.215(c)**

### **Need to Increase the Number of Accessible Units (if Required by a Section 504 Voluntary Compliance Agreement)**

CHA entered into a Section 504 Voluntary Compliance Agreement (VCA) with HUD in May 2006 and in May 2013, successfully completed all the benchmarks required in its Section 504 VCA with HUD. During the seven years the VCA was in effect, CHA completed the rehabilitation and redevelopment of 1,307 units for people with mobility impairments and 400 units for people with sensory impairments. All the units comply with the Uniform Federal Accessibility Standards (UFAS) as required by HUD.

The CHA incorporates Uniform Federal Accessibility Standards (UFAS) into new construction and rehabilitation, ensuring that housing is provided for people with disabilities currently residing in CHA housing as well as those on its waiting lists. Whereas most housing authorities provide 5.0% and 2.0% of its units to people with mobility and sensory impairments, CHA provides 5.3% and 2.1% respectively. To ensure compliance with the exacting UFAS standards, the CHA contracts with a third-party architecture firm to certify all UFAS units. CHA has 1,575 UFAS-504 Mobility units, 386 UFAS-504 Sensory units and has certified 103 common areas as UFAS accessible.

CHA also works extensively with the City of Chicago to comply with the City of Chicago's Building Code - specifically Chapter 18-11 that addresses issues of accessibility. In CHA's newly redeveloped properties, four stories or more and containing 10 or more dwelling units, 20% of the units are mandated to be made adaptable for people with disabilities and the CHA works with its developers to build the required units.

CHA participates in HUD's Moving to Work (MTW) Program which is a demonstration program for public housing authorities (PHAs) that provides them the opportunity to design and test innovative, locally-designed strategies that use Federal dollars more efficiently, help residents find employment and become self-sufficient, and increase housing choices for low-income families. MTW gives PHAs exemptions from certain public housing and voucher rules and more flexibility with how they use their Federal funds. MTW PHAs are expected to use the opportunities presented by MTW to inform HUD about ways to better address local community needs.

Participating MTW agencies must comply with the reporting requirements stated in HUD's Form 50900, Attachment B, and are exempt from the requirement for public housing authorities to submit a PHA Plan. In February 2018, HUD issued a revised Form 50900 (Attachment B to the MTW Agreement) which outlined updated requirements for the content of MTW annual plans/reports and for tracking the impact of MTW activities. The annual plan must be submitted to HUD no later than 75 days prior to the start of the PHA's fiscal year. MTW annual plans are reviewed and approved by HUD's MTW Office. CHA continues to work with HUD for technical guidance and feedback on MTW reporting processes and requirements to ensure compliance.

## **Activities to Increase Resident Involvements**

CHA seeks input from the public throughout the year for both new and updated policy provisions as well as development activity. It works alongside resident leaders to ensure the needs and priorities of residents are heard and met. During 2020, CHA will continue to host public hearings regarding proposed activities to garner community support and provide the public with an opportunity to voice their concerns. Through CHA's Local Advisory Councils (LAC) and Central Advisory Council (CAC), residents are elected by their peers to serve as the spokespeople of resident concerns. Each CHA development has an elected LAC president who serves on the CAC.

## **Is the public housing agency designated as troubled under 24 CFR part 902?**

No

## **Plan to remove the 'troubled' designation**

This is not applicable to CHA.

## **SP-55 Barriers to affordable housing – 91.215(h)**

### **Barriers to Affordable Housing**

Often public policies created to revitalize communities and increase economic development have a negative impact on affordable housing. In response, the City has implemented many affordable housing programs and incentives. The Affordable Requirements Ordinance (ARO) applies to residential developments of 10 or more units and requires developers to set aside 10% of residential units as affordable housing or contribute to the City's Affordable Housing Opportunity Fund. For projects receiving financial assistance from the City, 20% of the units must be affordable.

Units built under the ARO are required to remain affordable over time. Some units will have recapture mortgages to regulate the long-term affordability. At the time of purchase, the City records a 30-year lien for the difference between the unit's market price and its affordable price. Other units will be targeted for the Chicago Community Land Trust (CCLT). These units will have a 30-year restrictive covenant with a maximum resale price. The maximum resale price will be the original purchase price plus a percentage of the market appreciation, which in most cases, will be priced below market.

Chicago is increasingly attracting new and relocated businesses, highly skilled and well-educated residents, and new housing development—positive news for the local economy a source of revenues for City programs. In 2000, 18.7% of the city's households earned more than \$100,000 annually. By 2016 that figure had risen to 26.2%. Massive new developments proposed in several parts of the city will create what are essentially new neighborhoods over the next few decades. The City of Chicago is aware, however, that this growth could also have unintended negative impacts. New development can disrupt existing communities and displace residents. Increasingly, many of Chicago's working-class families and individuals, the bedrock of the City's middle-class, are finding housing expensive and homeownership more difficult to achieve.

Any plan for housing in Chicago must consider the history of racial discrimination and policies that allowed for and advanced that disparity. The map of today's Chicago is a result, in many ways, of systemic segregation through restrictive covenants, redlining, block busting and disinvestment. Most recently, the foreclosure crisis has been particularly damaging to African American and Latino households and in low- and moderate-income communities. This history has left parts of the city thriving, while other communities continue to struggle.

Mayor Lori Lightfoot strongly believes that Chicago should be a place where all residents can fulfill the basic human need for housing that is affordable, decent, stable and accessible. The Department of Housing is committed to a multifaceted strategy that builds on and strengthens community-level planning, increases the availability and flexibility of resources, and pursues systemic change that breaks down needless barriers. Such a strategy can equally serve the most vulnerable, protect existing residents as some neighborhoods gentrify, invest in communities that have long suffered disinvestment, and foster greater housing options across the city.

## **Strategy to Remove or Ameliorate the Barriers to Affordable Housing**

### Availability of Affordable and Suitable Housing

The gap between supply and demand for rental housing in Chicago continues to pose problems, particularly for low-income families and persons with disabilities. The City has implemented several programs, policies, and procedures that remove barriers to affordable housing and support the goals of the City's Five-Year Affordable Housing Plan and the Consolidated Plan. The following programs all encourage the creation of new affordable housing units:

- The Affordable Requirements Ordinance (ARO)—Residential developments using City land or requesting zoning changes to increase density in planned developments of 10 or more units must ensure that at least 10 percent of units be affordable.
- City Lots for Working Families—The City sells vacant, City-owned property for \$1 to developers who agree to construct 75% affordable housing units.
- Downtown Affordable Housing Density Bonus—Downtown developers that agree to provide affordable housing units in the development can increase the size of the building.
- Multi-Family Rehab and New Construction Program—This program allocates a broad range of public resources to enable developers to produce affordable multi-family housing in both new construction and rehab projects.

### **Enforcement of Fair Housing Ordinance**

The Chicago Commission on Human Relations (CCHR) investigates and adjudicates complaints of discrimination under the Chicago Fair Housing Ordinance and the Chicago Human Rights Ordinance and addresses hate crimes and community tensions that can escalate into hate crimes. The CCHR receives complaints filed under the Chicago Fair Housing Ordinance, conducts investigations, facilitates voluntary settlements, and provides an administrative adjudicatory process for cases in which substantial evidence of discrimination is found after investigation. If the CCHR determines, after a hearing, that discrimination has occurred, it may impose a fine, order injunctive relief, and award compensatory and punitive damages.

### **Assessment of Fair Housing (AFH)**

The goal of the City is to make fair housing a reality for all its residents. Thus, a discussion of barriers to affordable housing would be incomplete without an Assessment of Fair Housing (AFH). Beginning in 2015, HUD published its Affirmatively Further Fair Housing final rule, which states that municipalities that receive HUD funding must conduct an AFH using HUD's Assessment Tool. HUD also encouraged program participants to share resources and to address fair housing issues "from a broader perspective" by collaborating and submitting a single AFH. After extending the deadline for submission of the AFH twice, on January 13, 2017, HUD announced that it was again extending the deadline to all local government consolidated plan program participants until their next AFH submission deadline that falls after October 31, 2020. However, local government participants must continue to comply with existing statutory obligations to affirmatively further fair housing.

To this end, in 2018, the City signed on to collaborate with Cook County, suburban municipalities, and public housing agencies to create a Regional AFH. Cook County agreed to act as the lead agency, taking responsibility for drafting the AFH and any other necessary reporting. Even though HUD extended the deadline for submitting a Regional AFH, the City of Chicago and the jurisdictions and agencies mentioned above will prepare a 2020-2024 AFH. Much like the Analysis of Impediments (AI), the AFH will look at policies and practices in both the public and private sector that impede fair housing choice.

## **SP-60 Homelessness Strategy – 91.215(d)**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The City and its partners, through the Chicago Continuum of Care (CoC) Board of Directors, have made significant progress in implementing Chicago's original 2003 Plan to End Homelessness ("the Plan"). The three core tenets of the Plan are to: 1) prevent homelessness whenever possible; 2) rapidly re-house people when homelessness cannot be prevented; and 3) provide wraparound services that promote housing stability and self-sufficiency. The Plan called for a transition of the homeless services system from a shelter-based system, focused on temporary fixes, to a housing-based system emphasizing long-term living solutions for persons experiencing homelessness on the street and in overnight shelters. To that end, Chicago significantly increased interim/transitional and permanent housing resources and reduced the number of temporary shelter beds.

Chicago's "Plan 2.0" is a broad-ranging, seven-year action plan (2013-2019) that reaffirms and builds on the core strategies outlined in the first plan – prevention, housing first and wraparound services – and identifies seven new strategies for improving and coordinating access to housing and services:

**The Crisis Response System:** Create an effective crisis response system that prevents homelessness whenever possible and rapidly returns people who experience homelessness to stable housing.

**Access to Stable and Affordable Housing:** Create and maintain stable and affordable housing for households who are experiencing or at risk of homelessness.

**Youth Homelessness:** Create a comprehensive, developmentally appropriate menu of services for youth who experience homelessness in order to prevent homeless youth from becoming the next generation of homeless adults.

**Employment:** Increase meaningful and sustainable employment opportunities for people experiencing or most at risk of homelessness.

**Advocacy and Civic Engagement:** Engage all of Chicago in a robust plan that creates a path to securing a home for everyone in our community.

**Cross-Systems Integration:** Work across public and private systems of care to ensure ending homelessness is a shared priority.

**Capacity Building:** Ensure a strong homeless assistance system capable of implementing Plan 2.0 goals and HEARTH Act performance standards.

In 2018, the Chicago CoC launched the Action Agenda, a strategy and work plan for the CoC. All Chicago and DFSS to be more action-oriented in our work to end homelessness. The Action Agenda encompasses four key strategies to strengthen and focus the work:

1. Organize. Create an infrastructure of working groups focused on actions that advance the goals of Plan 2.0 and include everyone's voice at the table.
2. Empower. Empower All Chicago as the backbone organization leading the CoC to achieve the goals of Plan 2.0.
3. Elevate. The CoC Board approves policies recommended by working groups and aligns the resources and activities to support policies.
4. Amplify. Build political will to align leadership, set concrete targets, and expand housing inventory.

### **Addressing the emergency and transitional housing needs of homeless persons**

In coordination with the Chicago CoC, DFSS is the primary funder of emergency and interim housing for homeless individuals and families in Chicago. Both types of temporary housing options focus on assessing the service needs of residents and either making appropriate referrals to other providers or offering supportive services at the residential program. Additionally, DFSS funds supportive services that move persons who are currently experiencing homelessness toward housing stability and self-sufficiency. Following are activities that address the shelter and transitional housing needs of persons experiencing homelessness:

#### **Emergency Shelter (Adult/Youth)**

This program model provides shelter to single men and women aged 18 and over on a nightly basis for up to twelve consecutive hours. Adult Overnight Shelter may be appropriate for persons who do not want to participate in case management, or the more intensive services and goals associated with interim housing. However, Adult Overnight Shelter programs are expected to engage clients in accessing supportive services and to assess clients for rapid re-housing options. Youth Emergency Shelter provides age-appropriate shelter to single male and female youth ages 18 to 24 on a nightly basis. Youth Emergency Shelter will engage clients in accessing supportive services and assess clients for rapid re-housing options.

#### **Interim Housing (Adult and Youth)**

Adopting the “housing first” model, Interim Housing focuses on rapidly re-housing those who are experiencing homelessness while working to progressively reduce the amount of time people spend experiencing homelessness. Permanent housing placements are emphasized and must be supplemented with services that focus on client stabilization, assessment, and referrals to community resources.

#### **Homeless Shelter Food Supply**

As part of its emergency food program, DFSS provides fresh fruits and vegetables to shelters throughout the city to feed people who are homeless. Approximately 60 shelters located within the city participate. Helping homeless persons (especially chronically homeless individuals and families, families with

children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

DFSS offers several programs for individuals and families experiencing homelessness seeking a permanent and stable housing situation. DFSS uses local funding sources to provide homeless services that include those funded by CDBG as well as others endorsed by the Plan to End Homelessness. Supported activities include:

### **Permanent Supportive Housing Services/Safe Havens**

These services are designed to help clients maintain residential stability in permanent supportive housing. Permanent supportive housing programs provide long-term subsidized housing for individuals and families who are experiencing homelessness. Clients may have serious and persistent disabilities such as mental illness, substance use disorders, or HIV/AIDS, which often contribute to chronic homelessness.

The Safe Haven program is an open-stay, on-demand, and service-enriched housing program for persons with mental illness or dual disorders (mental illness and substance use disorder) who are difficult to engage in services. This program offers a safe, non-intrusive living environment in which skilled staff members work to engage persons in housing and needed services. In Chicago, Safe Haven beds have provided housing with no time limits.

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.**

Building on successful coordination of homeless prevention resources with its Homeless Prevention Call Center (HPCC), Chicago has taken steps towards expanding coordinated access and improving access to permanent housing and independent living. DFSS-funded outreach, engagement and shelter providers complete applications for permanent supportive housing through the Coordinated Entry Systems (CES).

### **Rapid Re-Housing Assistance**

Chicago implements a rapid re-housing with ESG funds for tenant-based rental assistance, and housing relocation and stabilization services. Tenant-based rental assistance will be used to help households who have already fallen into homelessness be re-housed as quickly as possible by providing a security

deposit and/or short-term rent assistance until sufficient income or a permanent tenant-based subsidy is in place.

The Chicago Low-Income Housing Trust Fund has committed \$8.1 million annually in rental assistance to prevent homelessness for more than 1,300 families and individuals. Of that total, nearly 600 units are targeted towards long-term homeless individuals and families. Plan 2.0 identifies strategies to create access to affordable housing units through development and subsidy options including: working within to increase the priority and access to housing for those in need of supportive housing and working with public and community partners to develop new affordable housing opportunities.

Finally, DFSS offers several programs for homeless individuals and families seeking a permanent and stable housing situation. DFSS uses local funding sources to provide homeless services that include those funded by CDBG as well as others endorsed by the Plan2.0. Supported activities include:

#### **Permanent Supportive Housing Support Services**

These services are designed to help clients maintain residential stability in permanent supportive housing. Permanent Supportive Housing programs provide long-term subsidized housing for individuals and families who are homeless. Clients may have serious and persistent disabilities such as mental illness, substance use disorders, or HIV/AIDS, which often contribute to chronic homelessness.

#### **Safe Havens**

This program is an open-stay, on-demand, and service-enriched housing program for persons with mental illness or dual disorders (mental illness and substance use disorder) who are difficult to engage in services. Safe Havens are safe, non-intrusive living environments in which skilled staff members work to engage persons in housing and needed services. In Chicago, Safe Haven beds are considered permanent housing.

#### **Youth Intentional Housing Supports**

This program model serves homeless youth ages 18 through 25 that are not wards of the state. Services may be delivered in a shared living arrangement or in clustered apartments with on-site supportive services and community-based linkages and include 24-hour access to staff, age-appropriate services and crisis intervention.

**Help low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are likely to become homeless after being discharged from a publicly funded institution or system of care, or who are receiving assistance from public and private agencies that address housing, health, social services, employment, education or youth needs**

Chicago's CoC, in coordination with DFSS, emphasizes systems integration efforts that focus on appropriate discharge planning for special populations. DFSS addresses a range of human services needs for low-income individuals and families in Chicago communities through coordinated homeless

prevention resources and six DFSS Community Services Centers. These services contribute to homelessness prevention for low-income households.

### **Homelessness Prevention**

The City supports the HPCC to conduct initial evaluations and referrals to available prevention assistance and delegate agencies to provide homeless prevention supportive services. The HPCC is Chicago's prevention infrastructure to assess and refer for public and private resources, including the City of Chicago's Rental Assistance Program, which provides short-term financial assistance to low-income individuals at risk of eviction and homelessness. The HPCC is a primary point of entry for homelessness prevention resources and is also a way that people seeking eligibility and referral for rapid rehousing assistance can complete an initial evaluation. Each call receives a screening and evaluation for eligibility and all information is entered into the Homeless Management Information System (HMIS). HPCC makes electronic referrals through HMIS for continuous case management. DFSS funds partner agencies to provide homeless prevention supportive services targeted to individuals or families that are at immediate risk of homelessness. Services may include, but are not limited to, provision of financial assistance, provision of legal representation for tenants facing evictions and provision of housing stabilization or relocation assistance.

### **Community Service Centers**

Direct services are offered through DFSS Community Service Centers where transportation, public benefit screening/enrollment, and emergency rental and utility assistance are provided. Referrals are also available for housing, employment, emergency food, education, childcare, and health services. At the Centers, DFSS staff work with clients to address their needs (immediate, short-term, and long-term) to achieve self-sufficiency. Direct services and programs are co-located at all six Community Service Centers. Domestic Violence advocates are at four of the six Community Service Centers 4 days a week. The centers also have staff that are 40-hour trained that can provide services when necessary. Workforce services are co-located at the DFSS King Community Service Center with the Chicago Cook Workforce Partnership (also known as Mid-South). The DFSS Central West Regional Senior Center also houses a DFSS Veterans Services staff person that helps veterans access a variety of benefit programs.

### **Emergency Food Assistance for At-Risk Populations**

The City provides Emergency Food Assistance for At-Risk Populations to increase the availability and accessibility of healthy and fresh food options to help at-risk residents meet their nutritional needs. There are three food distribution models: 1) distribution to local food pantries, 2) distribution of fruits and vegetables to homeless shelters, and 3) distribution of holiday foods to Community Service Centers and/or other locations.

### **Addressing the emergency shelter and transitional housing needs of homeless persons Continued:**

#### **Youth Intentional Permanent Housing with Short-Term Supports, Scattered Site Transitional Housing and Project-Based Transitional Housing**

This program model serves youth experiencing homelessness ages 18 through 25 that are not wards of

the state. Services may be delivered in a shared living arrangement or in clustered apartments with on-site supportive services and community-based linkages and include 24-hour access to staff, age-appropriate services and crisis intervention.

DFSS addresses a range of human services needs for low-income individuals and families in Chicago communities through coordinated homeless prevention resources and six DFSS Community Services Centers. These services contribute to homelessness prevention for low-income households.

### **Homelessness Prevention**

The City supports the HPCC to conduct initial evaluations and referrals to available prevention assistance and delegate agencies to provide homeless prevention supportive services. The HPCC is Chicago's prevention infrastructure to assess and refer for public and private resources, including the City of Chicago's Rental Assistance Program, which provides short-term financial assistance to low-income individuals at risk of eviction and homelessness. The HPCC is a primary point of entry for homelessness prevention resources and is also a way that people seeking eligibility and referral for rapid rehousing assistance can complete an initial evaluation. Each call receives a screening and evaluation for eligibility and all information is entered into the Homeless Management Information System (HMIS). HPCC makes electronic referrals through HMIS for continuous case management. DFSS funds partner agencies to provide homeless prevention supportive services targeted to individuals or families that are at immediate risk of homelessness. Services may include, but are not limited to, provision of financial assistance, provision of legal representation for tenants facing evictions and provision of housing stabilization or relocation assistance.

## **SP-65 Lead based paint Hazards – 91.215(i)**

### **Actions to address LBP hazards and increase access to housing without LBP hazards**

In Chicago, it is mandated that all children be tested for lead at ages 1, 2, and 3 years. CDPH receives all lead testing results from laboratories and healthcare providers. For those children with blood lead levels of 5 ug/dL or greater, CDPH performs medical case management and inspects homes for lead-based paint hazards. When lead-based paint hazards are found, CDPH orders remediation of those hazards and performs follow-up to ensure remediation actions are taken. Additionally, CDPH staff prospectively inspect day care centers to determine the existence of lead-based paint hazards. CDPH also routinely analyzes epidemiologic data to identify the community areas and census tracts having the highest rates of children with elevated blood lead levels. In association with university partners, CDPH has also developed a lead predictive model to identify children at high risk of lead-based paint hazards based on their address and is piloting its use in four federally qualified healthcare centers (FQHCs).

CDPH also compares addresses of children with elevated blood lead levels with those in the Housing Choice Voucher (HCV) program. When a child is identified as having an elevated blood lead level at an HCV address, CDPH shares that information with the Chicago Housing Authority so they can act as needed with the landlords who are providing the housing units.

### **How are the actions listed above related to the extent of lead poisoning and hazards?**

Screening children's blood lead levels allows CDPH to identify the prevalence of lead poisoning in Chicago. This allows CDPH to assess trends in lead poisoning over time and to identify community areas with higher rates of lead-based paint hazards.

Once children are identified with elevated blood lead levels, the case management team works with the family to mitigate the extent of lead poisoning through referral for services, nutritional counseling, and follow-up with physicians. Inspections identify lead-based paint hazards within homes and day care centers. Once hazards are identified, CDPH orders and monitors remediation of the hazards. If landlords do not comply, then CDPH can utilize the court system to force owners to mitigate hazards. Through prospective daycare center inspections, operators can know beforehand what they will have to fix prior to opening their center.

Using epidemiologic data, CDPH currently has two education campaigns targeting high-risk areas, one focused on healthcare providers to promote lead screening and one focused on families and homeowners to inform them of lead poisoning and proper home renovation practices. By sharing information with the HCV program, the CHA can better identify children who should be given a higher level of protection. CHA can also identify housing that may be hazardous, and then work with those landlords to mitigate the hazards.

### **How are the actions listed above integrated into housing policies and procedures?**

The Municipal Code of the City of Chicago, Chapter 7-4 was enacted to reduce and prevent the occurrence of lead poisoning in the children of Chicago by prohibiting use or application of leaded substances in any structure frequented or used by children; authorize the City to carry out inspections for hazards and enforce that all lead abatement, mitigation, or removal work id performed in a manner that will not endanger the health of any person.

Again, Chicago Municipal Code 11-4-2170(h) affirmed that no renovation of a building, facility or other structure shall be initiated within the city if such renovation is regulated under 40 CFR § 745.82, unless the applicant for the renovation submits and complies with a sworn statement, on a form prescribed by the commissioner, stating that: (1) individuals performing the renovation are properly trained in accordance with 40 CFR Part 745, Subpart E; (2) renovators and firms performing the renovation are certified in accordance with 40 CFR Part 745, Subpart E; and (3) the work practices in 40 CFR 745.85 will be followed during the renovation. The commissioner may require a copy of the certification issued pursuant to 40 CFR Part 745, Subpart E to be submitted with such a statement.

## **SP-70 Anti-Poverty Strategy – 91.215(j)**

### **Jurisdiction Goals, Programs and Policies for reducing the number of Poverty-Level Families**

According to the 2017 American Community Survey 5-year estimates, 20.6% of Chicago's residents lived in poverty and 11% lived in extreme poverty. The poverty rate has decreased only slightly from the 2016 American Community Survey 5-year estimates (21.7%). Correspondingly, those living in extreme poverty is unchanged. Also, according to the 2017 American Community Survey 5-year estimates, approximately 12.8% of Chicago's residents were uninsured.

The City is dedicated to supporting a continuum of coordinated services to enhance the lives of Chicago residents, particularly those most in need, from birth through the senior years. The City works to promote the independence and well-being of individuals, support families and strengthen neighborhoods by providing direct assistance and administering resources to a network of community-based organizations, social service providers and institutions. The City will continue to use CDBG funding to provide services for low and moderate-income residents with the objective of providing basic needs and improving their quality of life and the quality of life for all citizens in the city.

CDBG as well as the Community Services Block Grant (CSBG) and other funding sources are used to support a Human Services System that addresses the critical and emergency human services needs of low and moderate-income persons and families. The goal of the human services system is to provide or help individuals and households access services that support positive outcomes that promote and help maintain self-sufficiency. Service programs are tailored to meet immediate, short-term, or long-term needs.

DPH coordinates Healthy Chicago 2025, the citywide community health improvement plan. The plan is created with input through a community member survey, a survey of partner agencies, an analysis of forces and trends at local, state, and national levels, and a series of in-depth discussions. Based on this input, Healthy Chicago efforts focus on identifying the causes of racial inequities and working on system-level solutions, knowing that change at that level leads to improved community conditions and therefore improved health and well-being outcomes. This plan leads DPH and partnering city departments, public agencies, issue-oriented partner organizations, and community-based organizations to channel public funding to support community-based plans which include specific strategies for building wealth and increasing income.

Lack of access to broadband affects the ability for Chicago residents to improve their digital literacy, which in turn limits their workforce opportunities within the technology sector. Chicago has a long history of working across sectors to address challenges related to digital equity, and in recent years has made significant progress in promoting digital access and literacy to ensure that all residents have the skillsets needed to participate in the economy of the future.

**How are the Jurisdiction poverty reducing goals, programs, and policies coordinated with this affordable housing plan**

The Department of Housing will make a continued effort to protect the affordability of housing for low income families by providing affordable housing units across the city serving a range of income groups. It will pay special attention to affordable rentals for those in the lower income levels. The Keep Chicago Renting Ordinance will protect renters housed in buildings whose owners are in foreclosure. The City will continue to look for long term funding sources for the Chicago Low Income Housing Trust Fund, which provides rental assistance to low-income households.

## **SP-80 Monitoring – 91.230**

**Describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

### **Housing Development Construction and Monitoring**

The Department of Housing's Monitoring and Compliance Division monitors federally assisted housing projects for long term requirements and construction monitoring. Monitoring includes the reviews of payrolls and contractors' sworn statements to ensure that Davis Bacon wage and Section 3 requirements are met. The division ensures that Illinois Prevailing Wage requirements are met on projects which receive City assistance. In addition, the division monitors Minority Business Enterprise (MBE) and Women Owned Business Enterprise (WBE) participation. City policy requires that good faith efforts are made to meet 24% participation for MBEs and 4% participation for WBEs. All drawdown requests for Federal funds are monitored to ensure that the aforementioned requirements are met before any funds are released. DPD performs building inspections before any funds are released to ensure that work is up to code.

### **Long-Term Monitoring and Compliance**

DOH ensures long-term affordability requirements are being met for Federally assisted projects and that tenants' household incomes, Fair Housing Requirements and the physical condition of projects meet the various program requirements.

### **Additional Monitoring - Internal Audit Reviews**

The Internal Audit Division of the Department of Finance has developed/implemented audit processes and controls for independently auditing the City's delegate agencies to assist the City/Funding Departments in ensuring that delegate agencies receiving City funding are complying with Federal regulations (including Uniform Guidance) and City contractual requirements. Internal Audit performs monitoring of delegate agencies in several ways:

### **Audits of Delegate Agency Voucher Reimbursements (Post-Payment)**

Internal Audit has developed/implemented audit processes and controls for independently auditing delegate agency reimbursement vouchers to assess if the expenditures comply with Federal mandates and City contractual requirements. Documentation is audited for compliance with applicable regulations and for compliance with the budget and terms of the delegate agency contract with the City. Should any noncompliant expenditures be found, the agency is required to reimburse the City for these costs. If the delegate agency does not respond to Internal Audit's continued requests for additional documentation to support these costs or for a refund check, as a final remedy, a hold may be placed on the delegate agency's future reimbursements.

**Review of Delegate Agency Single Audit Reports**

Internal Audit developed/implemented audit processes and controls for independent review and assessment of the annual Single Audit Reports of the City's delegate agencies that expend \$750,000 or greater in Federal funds annually, in accordance with Federal mandates (i.e. Uniform Guidance) and City contractual requirements. If any deficiencies/issues are noted with the Single Audit Report, Internal Audit will request the agency have its audit firm correct the problems. Internal Audit requests required Management Decisions from the Funding Departments regarding findings identified in the Single Audit Reports, and a plan for resolving the issues.

**Agreed-Upon Audit Procedures**

Internal Audit may perform agreed-upon procedures to assess the internal controls and fiscal operations of a delegate agency, based upon recent financial/operational deficiencies and/or instances of non-compliance. The delegate agency is informed of the findings and will be required to submit a correction action to cure the findings within thirty days of receipt of the report. All reports and findings will be communicated by Internal Audit to the respective Funding Department for their continued follow-up in future monitoring visits to the agency.

## Expected Resources

### AP-15 Expected Resources – 91.220(c)(1,2)

#### Introduction

The anticipated resources for the next five years are identified in the table below. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the

needs identified in the 2020 Action Plan.

### **Anticipated Resources**

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Economic Development Housing Public Improvements Public Services	79,493,093.00	2,745,000.00	24,361,907.00	106,600,000.00	435,594,220.00	CDBG funds will be used to support community development programming in low-and moderate-income neighborhoods. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.

HOME	public - federal	Acquisition Homebuyer assistance Homeowner rehab Multifamily rental new construction Multifamily rental rehab New construction for ownership TBRA						HOME funds will be used to develop affordable housing for low- income communities, including new construction & rehabilitation of single- and multi- family units. This includes prior year available resources, which were unspent in the prior years due to various reasons. The City of Chicago is reallocating these dollars to best serve the residents based upon the needs identified in the 2020 Action Plan.
			20,120,610.00	6,792,000.00	0.00	26,912,610.00	134,579,740.00

Table 57 - Expected Resources – Priority Table

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

Matching requirements for HOME will be satisfied with local resources including Tax Increment Financing (TIF) funds and write-downs on City-owned vacant land and/or real estate property. In 2014, the City received a 50% reduction in the match requirement due to fiscal distress and the percentage of families in poverty (17.6%) in Chicago.

ESG matching requirements will be satisfied through an Emergency and Transitional Housing Program grant provided by the Illinois Department of Human Services.

While there are no matching requirements for HOPWA or CDBG, sub-recipients leverage other federal, state, local, and private sources that are used to support HOPWA program delivery. Most HOPWA sub-recipients use their leveraged funds to provide supportive services to HOPWA clients and their household.

**DFSS Leveraging**

In addition to CDBG funding, DFSS programming depends on multiple funding sources. These include various federal, state, and local funds. Domestic Violence programing leverages the Illinois Criminal Justice Information Authority, Illinois Department of Human Services, and local city funds to support its programs. Senior Services relies on multiple funding streams to support senior services including Older Americans Act/Area Plan funding and various State of Illinois Department on Aging funding sources. The Intensive Case Advocacy and Support (ICAS) Services program is solely supported with CDBG funding, while Home Delivered Meals leverages federal Older Americans Act funding that is passed through the state. Workforce Services' program models, including Employment Preparation and Placement, Industry Specific Training and Placement, Transitional Jobs, and Community Re-Entry Support Centers, all rely on CDBG funding and the Community Services Block Grant (CSBG) funding is also used to support the Employment Preparation and Placement and Transitional Jobs programs. In addition to state and federal grants, Workforce Services are leveraged with City corporate funds. Several funding streams support the city's current plan to address homelessness, Plan 2.0, including but not limited to CDBG, the HUD Emergency Solutions Grant, CSBG, the Illinois Department of Human Services' Emergency and Transitional Housing Program, and local funding.

#### **MOPD Leveraging**

Through a partnership with Meals on Wheels of Chicago, MOPD's Independent Living Program can provide meals to a group of people with disabilities that are under 60 which increases available services without increasing cost. Vendors of the Personal Assistant/Homemaker programs are asked to match 10% of their contracted amount. This match can be in the form of direct service hours or administration costs. Vendors of the HomeMod program are asked to match 10% of their contracted amount. This match can be in the form of services provided or administration costs. In addition, HomeMod receives grant funds from Meals on Wheels Chicago to provide additional modifications. The HomeMod program has teamed up with sister agencies like the Illinois Department of Children and Family Services and the University of Illinois' Division of Specialized Care for Children to leverage funds.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

The City owns more than 8,000 parcels of land zoned for low-density residential use. This inventory has grown in recent years because of foreclosures and abandonments, with holding costs exceeding \$800,000 per year. Past efforts to sell individual parcels were slow and met with limited success. To create a market for these properties and efficiently dispose of them, the City has established two new programs:

- The Large-Lot Residential Program, which allows building owners to procure multiple adjacent City-owned lots for use as gardens, side yards and other legal uses. This can help create unique housing districts with much larger lots than are available in the rest of the city.
- City Lots for Working Families, through which developers can purchase City lots for \$1 each to build 75% affordable and 25% market-rate units.

**Discussion**

The City of Chicago will continue to pursue other available federal, state and private sources to leverage entitlement grant funding for the proposed community development initiatives in the Consolidated Plan. The City will also contribute a number of local tools and incentives, including the Chicago Affordable Housing Density Bonus, which allows additional square footage to residential developments to exceed the guidelines set in the Chicago Zoning Ordinance in exchange for creating additional affordable housing units, or contributing to the City's Affordable Housing Density Fund (Density Fund). In addition, local funds will be allocated during the 5-year period to support the City's Consolidated Planning priorities.

Funding levels identified in this Plan are estimates based on HUD allocations for the current fiscal year. When Fiscal Year 2020 allocations become known, any discrepancies due to a change in funding or program income will be remedied using unspent funds from the previous year. If "substantial amendments" to the Plan are needed, citizens will be provided with reasonable notice and the opportunity to comment on the proposed changes, per the City's Citizen Participation Plan.

## Annual Goals and Objectives

### AP-20 Annual Goals and Objectives

#### Goals Summary Information

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
1	Enable Persons to Live with Dignity & Independence	2020	2024	Affordable Housing Non-Homeless Special Needs	Low and Moderate Income Census Tracts	Affordable Housing Elderly Services Disability Services Emergency Nutrition	CDBG: \$8,634,744.00	Public service activities other than Low/Moderate Income Housing Benefit: 35425 Persons Assisted Homeowner Housing Rehabilitated: 2300 Household Housing Unit
2	Provide Public Services to Enhance Quality of Life	2020	2024	Affordable Housing Non-Housing Community Development	Low and Moderate Income Census Tracts	Affordable Housing Mental Health Services Public Safety Services for Victims of Domestic Violence Emergency Nutrition Youth Services	CDBG: \$8,630,355.00	Public service activities other than Low/Moderate Income Housing Benefit: 135430 Persons Assisted

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator

Table 58 – Goals Summary

## Goal Descriptions

1	<b>Goal Name</b>	Enable Persons to Live with Dignity & Independence
	<b>Goal Description</b>	Enable persons to live in dignity and independence by providing home modifications, case management, assessments and referrals for independent living skills training program, personal assistance/homemaker services, home delivered meals, and assistive devices to people.
2	<b>Goal Name</b>	Provide Public Services to Enhance Quality of Life
	<b>Goal Description</b>	Provide traditional safety net programs to help low to moderate income residents become self-sufficient, avoid hunger and/or meet basic healthcare needs.
3	<b>Goal Name</b>	Expand Affordable Homeownership Opportunities
	<b>Goal Description</b>	Provide support for more households to become homeowners in markets across the city.
4	<b>Goal Name</b>	Retain and Preserve Affordable Housing
	<b>Goal Description</b>	Create and preserve affordable housing across Chicago's neighborhoods in order to provide a decent home and a suitable living environment for all persons, but principally those of low and moderate income.
5	<b>Goal Name</b>	Foster Community Economic Development
	<b>Goal Description</b>	
6	<b>Goal Name</b>	Prevent and Reduce Homelessness
	<b>Goal Description</b>	Prevent homelessness whenever possible and to provide an integrated array of housing and services in an effective and cost-efficient manner for the greatest number of Chicagoans in need.
7	<b>Goal Name</b>	Provide community-based domestic violence services
	<b>Goal Description</b>	Provide community-based domestic violence services including crisis counseling, safety planning and legal advocacy and services to ensure victims safety that includes court resources, attorney services, multi-disciplinary team assistance and supervised visitation or safe exchange.

8	<b>Goal Name</b>	Reduce Lead Poisoning Hazards
	<b>Goal Description</b>	Through strategic inspections and abatement, as well as public education campaigns and testing, activities will focus on permanently eliminating lead exposure to children.
9	<b>Goal Name</b>	Strengthen Community Capacity
	<b>Goal Description</b>	Strengthen community capacity by providing and expanding educational and support group services to communities. Improve human relations among Chicagoans by educating residents about their civil rights and working to reduce bias, violence, and/or discrimination in Chicago.
10	<b>Goal Name</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Goal Description</b>	Provide support for more households to become homeowners in markets across the city.
11	<b>Goal Name</b>	Invest in Public Facilities and Critical Infrastru
	<b>Goal Description</b>	Support the development of vibrant, equitable, safe, and adaptable neighborhoods by investing in public facilities and critical infrastructure.
12	<b>Goal Name</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Goal Description</b>	Provide housing assistance and supportive services to people living with HIV/AIDS and their families who are homeless, at risk of homelessness or unstably housed.
13	<b>Goal Name</b>	COVID-19 Response and Prevention
	<b>Goal Description</b>	Activities carried out to prevent, prepare for and respond to the COVID-19 pandemic.
14	<b>Goal Name</b>	Address Disaster Related Needs
	<b>Goal Description</b>	CDBG-DR funds will be used for disaster relief, long term recovery, and restoration of infrastructure, housing, and economic revitalization.

## Projects

### AP-35 Projects – 91.220(d)

#### Introduction

The following are the funded 2020 projects and including COVID-19.

#### Projects

#	Project Name
1	Citywide CDBG Administration and Planning
2	DOH-05R:Neighborhood Lending/Home Purchase Assistance
3	DOH-14:Neighborhood Lending/Home Rehabilitation Assistance
4	DOH-05U Homeownership Counseling Services
5	DOH-05X:Housing Services Technical Assistance Community Based
6	DOH-14A:Roof and Porch Repair
7	DOH-14A:Emergency Heating Repair
8	DOH-14A:Single Unit/Small Accessibility Repairs for Seniors
9	DOH-14A:Single-Unit/Troubled Buildings Initiative
10	DOH-14A:Single-Unit/Troubled Buildings Initiative-Condominium
11	DOH-14B:Heat Receivership Program
12	DOH-14:Developer Services
13	DOH-14B:Multi-Unit/Troubled Buildings Initiative
14	DOH-14G: Developer Services - Acquisition
15	DOH-14H:Rehab Admin/Construction Monitoring and Compliance
16	LAW-15:Code Enforcement
17	DPH-05M:Education, Screening, and Treatment of Adolescents with Sexually Transmitted Infections (STI
18	DPH-05N:Violence Prevention Initiative: Restorative Practices
19	DPH-05O:Bullying and Suicide Prevention
20	DPH-05O:Mental Health Services
21	DPH-05O:Mental Health Services and Prevention Education for Childhood Sexual Assault Victims
22	DPH-05P:Screening For Lead Poisoning
23	CHR-05J:Fair Housing
24	CHR-21D:Education Outreach & Intergroup Relations
25	MOPD-05B:Disability Resources
26	MOPD-05B:Independent Living
27	MOPD-14A: Single-Unit Residential/Home Mod Program

#	Project Name
28	DFSS-03T:Operating Cost of Shelters/Homeless Services
29	DFSS-05A:Senior Services/Home Delivered Meals
30	DFSS-05A:Senior Services/Intensive Case Advocacy
31	DFSS-05H:Workforce Services
32	DFSS-05N:Abused and Neglected/Domestic Violence Services
33	DFSS-05W:Human Services/Emergency Food Assistance
34	DOB-15:Code Enforcement
35	DOB-15:Strategic Task Force
36	03:Neighborhood Infrastructure Improvements
37	14:Water Service Line Replacement
38	DFSS:ESG20 Chicago
39	DOH-HOME:Community Housing Development Organization - Operational Assistance
40	DOH-HOME:Program Administration
41	DOH-HOME:Multi-Unit/Multi-Family Loan Program
42	CV-DFSS-05W: Human Services/Emergency Food Assistance
43	CV-DFSS-05Z Homeless Services
44	CV-DFSS-05A: Home Delivered Meals for Older Adults
45	CV-DFSS-05G: Illinois Domestic Violence Hotline
46	CV-DFSS-05H: Workforce Support to Serve Additional Job Seekers
47	CV-DPD-03P: Community Health Public Facilities
48	CV-CDPH-05W:LINK Up IL /LINK Match
49	CV-CDPH-05I: Expanded street outreach
50	CV-CDPH-05O: COVID Related Mental Health Services
51	CV-COVID-19 2020-2023: Chicago Department of Public Health ILH20FHW001 (CDPH)
52	CV-COVID-19 2020-2023: ILH20FHW001 Facility Based Housing Assistance
53	CV-COVID-19 2020-2023: AIDS Foundation of Chicago ILH20FHW001 (AFC)
54	CV-COVID-19 2020-2023: Agape Missions, Inc. ILH20FHW001 (AG)
55	CV-COVID-19 2020-2023: AIDS Healthcare Foundation-CALOR ILH20FHW001 (AHF)
56	CV-COVID-19 2020-2023: Alexian Brothers Bonaventure, Inc. ILH20FHW001 (BH)
57	CV-COVID-19 2020-2023: Brothers Health Collective ILH20FHW001 (BHC)

96	CV3-BACP-18: Economic Recovery Support for Small Businesses
97	CV3-CDOT-06: Shared Streets
98	CV3-CDOT-03: Public Space Activations
99	CV-DWM-14A: Lead Service Line Replacement

**Table 59 – Project Information**

**Describe the reasons for allocation priorities and any obstacles to addressing underserved needs**

Entitlement funds are used to develop viable communities by providing safe and affordable housing, suitable living environments, and expanded economic opportunities. Through consultation and citizen

participation, the City was able to define priority needs in the community. Following this, goals were set to address those needs. City agencies created project priorities which were thoroughly vetted, and allocation amounts were set.

The greatest obstacle to addressing underserved needs is scarcity of resources. Understanding this obstacle, the City has found innovative ways to serve its citizens, using entitlement funding to meet gaps in public service and housing needs.

#### CDBG CV

In 2020, the City of Chicago received \$66,860,727 of CDBG CV funds to prevent, prepare for and respond to the spread of COVID-19. These funds may be spent through July 30th, 2026. The CDBG CV-funded projects described below cover a range of activities that help the city prevent the spread of COVID-19 and respond to the impacts of the public health crisis. These projects include construction and rehab projects to create safe outdoor public spaces to reduce the spread of disease, improve hospitals to care for sick residents, and provide low-income households with safe drinking water to facilitate their ability to stay home as needed. There are also a variety of social services projects, such as funding for homeless shelters to support CDC social distancing guidelines, as well as other services for low-income and special populations for which service demand increased during the pandemic.

#### CDBG - DR

Information on the CDBG- DR program can be found at: [https://www.chicago.gov/city/en/depts/obm/provdrs/cdbg\\_dr.html](https://www.chicago.gov/city/en/depts/obm/provdrs/cdbg_dr.html)

**AP-38 Project Summary**  
**Project Summary Information**

1	<b>Project Name</b>	Citywide CDBG Administration and Planning
	<b>Target Area</b>	
	<b>Goals Supported</b>	
	<b>Needs Addressed</b>	
	<b>Funding</b>	CDBG: \$15,720,480.00
	<b>Description</b>	Citywide Administration of the CDBG Grant
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	n/a
	<b>Location Description</b>	n/a
	<b>Planned Activities</b>	Administration
2	<b>Project Name</b>	DOH-05R:Neighborhood Lending/Home Purchase Assistance
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Expand Affordable Homeownership Opportunities
	<b>Needs Addressed</b>	Homeownership Assistance
	<b>Funding</b>	CDBG: \$1,492,661.00
	<b>Description</b>	Provide down payment assistance to low-moderate first time buyers at or below 80% AMI.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 20 Households will be assisted through Direct Financial Assistance to Homebuyers.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Homeowner Down payment Assistance, Homeownership Assistance, Housing Counseling.
3	<b>Project Name</b>	DOH-14:Neighborhood Lending/Home Rehabilitation Assistance
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts

	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	CDBG: \$2,030,372.00
	<b>Description</b>	Provide home improvement grants to low-moderate home-owner occupants of 1-4 unit properties in target areas. Repairs include but not limited to exterior and interior repairs to address safety and deferred maintenance.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 62 Household Housing Units will be assisted through Homeowner Housing Rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	
4	<b>Project Name</b>	DOH-05U Homeownership Counseling Services
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Expand Affordable Homeownership Opportunities
	<b>Needs Addressed</b>	Homeownership Assistance
	<b>Funding</b>	CDBG: \$817,224.00
	<b>Description</b>	Pre-purchase counseling services to potential homebuyer and Foreclosure Prevention. These services are rendered through one-on-one and workshop / classroom setting through HUD Certified Counseling Agencies
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 4500 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Housing Information and Referral Services, Housing Counseling.
	<b>Project Name</b>	DOH-05X:Housing Services Technical Assistance Community Based

5	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Provide Public Services to Enhance Quality of Life
	<b>Needs Addressed</b>	Homeownership Assistance
	<b>Funding</b>	CDBG: \$681,580.00
	<b>Description</b>	Assist low to moderate income individuals find accessible and affordable housing opportunities in order to sustain or achieve financial stability , and provide technical assistance to tenants, homeowners and landlords through specialized programs tailored to the specific needs of low-mod communities.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 7000 persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Housing Information and Referral Services
6	<b>Project Name</b>	DOH-14A:Roof and Porch Repair
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing Homeownership Assistance
	<b>Funding</b>	CDBG: \$6,135,203.00
	<b>Description</b>	Provides grants to repair or replace roofs and porches of 1 - 4 unit properties owner-occupied households at or below 80% AMI.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 400 Household Housing Units will be assisted through Homeowner Housing Rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit Residential, Rehabilitation: Administration

7	<b>Project Name</b>	DOH-14A:Emergency Heating Repair
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing Homeownership Assistance
	<b>Funding</b>	CDBG: \$900,000.00
	<b>Description</b>	Provides grants to repair or replace heating systems during winter season (November 1st - April 1st) to home-owner occupants of 1 -4 unit building at or below 80% AMI.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 100 Household Housing Units will be assisted through Homeowner Housing Rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit Residential, Rehabilitation: Administration.
8	<b>Project Name</b>	DOH-14A:Single Unit/Small Accessibility Repairs for Seniors
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence
	<b>Needs Addressed</b>	Affordable Housing Elderly Services
	<b>Funding</b>	CDBG: \$2,387,975.00
	<b>Description</b>	Provides safety, security and accessibility repairs that help senior citizens to remain in their homes. Minor repairs and wheelchair ramps. Limited to seniors of at least 60 years of age and may be owners or tenants residing in a 1-4 unit building.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 400 Household Housing units will be assisted through homeowner housing rehabilitated.

	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit and Multi-Unit Residential, Rehabilitation: Acquisition, Rehabilitation: Administration
9	<b>Project Name</b>	DOH-14A:Single-Unit/Troubled Buildings Initiative
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing Code Enforcement
	<b>Funding</b>	CDBG: \$2,640,000.00
	<b>Description</b>	Stabilize, preserve and reclaim units in buildings between 1-4 units, by utilizing the housing court system and receivers, if necessary, to correct dangerous and hazardous conditions and assist developers with the acquisition and redevelopment of buildings for low/mod income residents.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 250 Housing Units will be assisted through Rental units rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit Residential, Rehabilitation: Administration
10	<b>Project Name</b>	DOH-14A:Single-Unit/Troubled Buildings Initiative-Condominium
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing Code Enforcement
	<b>Funding</b>	CDBG: \$600,000.00
	<b>Description</b>	Acquire, stabilize and sale of distressed multi-unit condominium buildings to developers for rehabilitation and conversion to rental housing for low/mod income families.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 50 Household Housing Unit will be assisted through Rental units rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit and Multi-Unit Residential, Rehabilitation: Acquisition, Rehabilitation: Administration
<b>11</b>	<b>Project Name</b>	DOH-14B:Heat Receivership Program
	<b>Target Area</b>	Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	CDBG: \$1,200,000.00
	<b>Description</b>	Preserve affordable housing units by utilizing the housing court process to address emergency situations where there is inadequate or no heat in rental apartment buildings.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 500 Household Housing Units will be assisted through Rental units rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit and Multi-Unit Residential
<b>12</b>	<b>Project Name</b>	DOH-14:Developer Services
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	CDBG: \$6,213,538.00
	<b>Description</b>	Support construction or rehab of developments to provide permanent affordable rental housing.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 50 Household Housing Unit will be assisted through Rental units rehabilitated
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit and Multi-Unit Residential, Rehabilitation: Acquisition, Rehabilitation: Administration
<b>13</b>	<b>Project Name</b>	DOH-14B:Multi-Unit/Troubled Buildings Initiative
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing Code Enforcement
	<b>Funding</b>	CDBG: \$3,515,000.00
	<b>Description</b>	Stabilize, preserve and reclaim units in buildings with over 4 units, by utilizing the housing court system and receivers, if necessary, to correct dangerous and hazardous conditions and assist developers with the acquisition and redevelopment of buildings for low/mod income residents.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1000 Household Housing Units will be assisted through Rental units rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit and Multi-Unit Residential, Rehabilitation: Acquisition, Rehabilitation: Administration
<b>14</b>	<b>Project Name</b>	DOH-14G: Developer Services - Acquisition
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	CDBG: \$900,000.00

	<b>Description</b>	Acquisition of 30 homes – Seventeen (17) homes 51% will be sold to low-moderate owner occupant buyers at or below 80% AMI, and 17 sold to households at 120% AMI or below
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Seventeen (17) households at or below 80% AMI.
	<b>Location Description</b>	Pullman Community Area
	<b>Planned Activities</b>	Acquisition and rehabilitation.
<b>15</b>	<b>Project Name</b>	DOH-14H:Rehab Admin/Construction Monitoring and Compliance
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	CDBG: \$2,647,112.00
	<b>Description</b>	Rehab program administration
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Rehabilitation administration and construction monitoring and compliance accomplishments will be reported in other housing projects.
	<b>Location Description</b>	Citywide
<b>16</b>	<b>Planned Activities</b>	Rehabilitation Administration
	<b>Project Name</b>	LAW-15:Code Enforcement
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Expand Fair Housing Outreach, Education and Enforcement
	<b>Needs Addressed</b>	Code Enforcement
	<b>Funding</b>	CDBG: \$2,968,492.00
	<b>Description</b>	Support the Department of Buildings in pursuit of Code Enforcement violations through Circuit Court.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	The outcomes will be reported in DOB-15:Code Enforcement and DOB-15:Strategic Task Force.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Code Enforcement
<b>17</b>	<b>Project Name</b>	DPH-05M:Education, Screening, and Treatment of Adolescents with Sexually Transmitted Infections (STI
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Provide Public Services to Enhance Quality of Life
	<b>Needs Addressed</b>	Youth Services
	<b>Funding</b>	CDBG: \$355,837.00
	<b>Description</b>	Provide screening, education and linkage to care services to adolescents, particularly focusing on communities of greatest economic hardships.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 6500 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Health Services, Youth Services
<b>18</b>	<b>Project Name</b>	DPH-05N:Violence Prevention Initiative: Restorative Practices
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Strengthen Community Capacity
	<b>Needs Addressed</b>	Public Safety Services for Victims of Domestic Violence
	<b>Funding</b>	CDBG: \$400,000.00
	<b>Description</b>	Provide restorative practices training and services to persons to prevent family and community violence in communities with high rates of violence.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1300 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Services for Victims of Domestic Violence, Dating Violence, Sexual Assault, or Stalking, Abused and Neglected Children Services
<b>19</b>	<b>Project Name</b>	DPH-05O:Bullying and Suicide Prevention
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Strengthen Community Capacity
	<b>Needs Addressed</b>	Public Safety Services for Victims of Domestic Violence Youth Services
	<b>Funding</b>	CDBG: \$100,000.00
	<b>Description</b>	This program works to identify, strengthen connections between, and improve services and local knowledge and access to services related to bullying and suicide.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 400 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Mental Health Services.
<b>20</b>	<b>Project Name</b>	DPH-05O:Mental Health Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Provide Public Services to Enhance Quality of Life
	<b>Needs Addressed</b>	Mental Health Services
	<b>Funding</b>	CDBG: \$6,365,938.00
	<b>Description</b>	Provide core mental health services to adult residents including crisis intervention, counseling, case management, and hospital linkages.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1700 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Mental Health Services, Abused and Neglected Children Services.
<b>21</b>	<b>Project Name</b>	DPH-05O:Mental Health Services and Prevention Education for Childhood Sexual Assault Victims
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Provide Public Services to Enhance Quality of Life
	<b>Needs Addressed</b>	Mental Health Services Public Safety Services for Victims of Domestic Violence Youth Services
	<b>Funding</b>	CDBG: \$221,000.00
	<b>Description</b>	Provide mental health services for children and adolescents, age 3-17, who are survivors of sexual abuse, including evidence-based and trauma informed therapy services through various treatment modalities. Provide prevention education services to providers, community leaders and families to reduce child sexual assault and increase responsiveness and prevention actions.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 230 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Mental Health Services, Abused and Neglected Children Services, Health Services.
<b>22</b>	<b>Project Name</b>	DPH-05P:Screening For Lead Poisoning
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Reduce Lead Poisoning Hazards
	<b>Needs Addressed</b>	Lead Poisoning Mitigation

	<b>Funding</b>	CDBG: \$3,496,387.00
	<b>Description</b>	Detect lead poisoning through screening, medical case management and treatment. Also includes education and information sharing.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 2000 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Screening for Lead Based Paint/Lead Hazards.
	<b>Planned Activities</b>	Screening for Lead Based Paint/Lead Hazards.
<b>23</b>	<b>Project Name</b>	CHR-05J:Fair Housing
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Needs Addressed</b>	Fair Housing
	<b>Funding</b>	CDBG: \$833,964.00
	<b>Description</b>	Investigate, mediate and adjudicate fair housing complaints and assist victims of public housing discrimination.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 215 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Fair Housing Activities.
<b>24</b>	<b>Project Name</b>	CHR-21D:Education Outreach & Intergroup Relations
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	
	<b>Needs Addressed</b>	
	<b>Funding</b>	CDBG: \$417,105.00

	<b>Description</b>	Provide community mediation for racial, ethnic, religious incidents, as well as other intergroup tensions; offer outreach to community organizations, schools or places of worship; and conduct presentations and workshops on topics such as hate crimes, bullying, disability, and prejudice reduction.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Workshops will be conducted around the City.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Fair Housing Activities.
25	<b>Project Name</b>	MOPD-05B:Disability Resources
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence
	<b>Needs Addressed</b>	Disability Services
	<b>Funding</b>	CDBG: \$771,793.00
	<b>Description</b>	Assist people with disabilities who are 59 and under in identifying and obtaining available services and provide supportive services such as case management, independent living skills training, personal assistance/homemaker services, assistive technology assessments and complete forms and/or file applications such as the Benefit Access application and the RTA Reduced Fare application.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 32000 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
26	<b>Planned Activities</b>	Services for Persons with Disabilities.
	<b>Project Name</b>	MOPD-05B:Independent Living
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence

	<b>Needs Addressed</b>	Disability Services
	<b>Funding</b>	CDBG: \$650,000.00
	<b>Description</b>	Support services such as case management, independent living skills training, personal assistance/ homemaker services, and assistive technology assessments and equipment, for qualified persons with disabilities.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 525 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Services for Persons with Disabilities.
<b>27</b>	<b>Project Name</b>	MOPD-14A: Single-Unit Residential/Home Mod Program
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence
	<b>Needs Addressed</b>	Disability Services
	<b>Funding</b>	CDBG: \$1,493,988.00
	<b>Description</b>	Provide home accessibility modifications that will allow people with disabilities, under the age of sixty, to make their living environment accessible.Â Modifications can include: ramps, porch and stair lifts, roll-in showers, widened doorways, accessible sinks and cabinets.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 60 Household Housing Unit will be assisted through Homeowner Housing Rehabilitated.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Rehabilitation of Single-Unit: Administration.
<b>28</b>	<b>Project Name</b>	DFSS-03T:Operating Cost of Shelters/Homeless Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Prevent and Reduce Homelessness

	<b>Needs Addressed</b>	Homelessness Prevention
	<b>Funding</b>	CDBG: \$10,390,175.00
	<b>Description</b>	Costs associated with Outreach and Engagement, Interim Housing and Prevention Assistance for the Homeless.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 16000 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Homeless Programs
<b>29</b>	<b>Project Name</b>	DFSS-05A:Senior Services/Home Delivered Meals
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence
	<b>Needs Addressed</b>	Elderly Services Emergency Nutrition
	<b>Funding</b>	CDBG: \$1,800,000.00
	<b>Description</b>	Provides nutritious meals to older persons (60 years and older) who are frail and/or homebound because of illness or incapacitating disability or are otherwise isolated
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1800 Persons Assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Senior Services.
<b>30</b>	<b>Project Name</b>	DFSS-05A:Senior Services/Intensive Case Advocacy
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Enable Persons to Live with Dignity & Independence
	<b>Needs Addressed</b>	Elderly Services

	<b>Funding</b>	CDBG: \$1,530,988.00
	<b>Description</b>	Services for at risk seniors include in-home assessment, case advocacy and support, on-going monitoring, and direct assistance.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1100 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Senior Services
	<b>Planned Activities</b>	Senior Services
<b>31</b>	<b>Project Name</b>	DFSS-05H:Workforce Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Foster Community Economic Development
	<b>Needs Addressed</b>	Workforce Services
	<b>Funding</b>	CDBG: \$6,141,404.00
	<b>Description</b>	Provide job readiness services, career counseling, vocational skills training, job placement assistance, and other workforce services. The goal of these services is to improve the employment outcomes of Chicagoans and to meet the skill and workforce needs of Chicago's employers.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1260 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Employment Training.
<b>32</b>	<b>Project Name</b>	DFSS-05N:Abused and Neglected/Domestic Violence Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Provide community-based domestic violence services
	<b>Needs Addressed</b>	Services for Victims of Domestic Violence
	<b>Funding</b>	CDBG: \$2,633,613.00

	<b>Description</b>	Aid and advocacy to those who have been victims of domestic violence (physical, sexual, or emotional abuse), including teens who have been victimized in an intimate partner relationship. Services include counseling, legal advocacy, resource and information assistance, legal services, and supervised visitation and safe exchange.

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 16000 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Services for Victims of Domestic Violence, Dating Violence, Sexual Assault, or Stalking, Abused and Neglected Children Services
<b>33</b>	<b>Project Name</b>	DFSS-05W:Human Services/Emergency Food Assistance
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Provide Public Services to Enhance Quality of Life
	<b>Needs Addressed</b>	Emergency Nutrition
	<b>Funding</b>	CDBG: \$1,006,000.00
	<b>Description</b>	Provide emergency nutritious meals to at risk populations.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 120000 Persons will be assisted through Public service activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Food Banks.
<b>34</b>	<b>Project Name</b>	DOB-15:Code Enforcement
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Needs Addressed</b>	Affordable Housing Code Enforcement
	<b>Funding</b>	CDBG: \$5,524,195.00

	<b>Description</b>	Provide targeted code enforcement in low to moderate income areas to complement strategic efforts to arrest neighborhood decline and preserve stock of affordable housing.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Provide targeted code enforcement in low to moderate income areas to complement strategic efforts to arrest neighborhood decline and preserve stock of affordable housing.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Code Enforcement.
<b>35</b>	<b>Project Name</b>	DOB-15:Strategic Task Force
	<b>Target Area</b>	Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Expand Fair Housing Outreach, Education and Enforc
	<b>Needs Addressed</b>	Affordable Housing Code Enforcement
	<b>Funding</b>	CDBG: \$1,617,976.00
	<b>Description</b>	Initiative to strategically target troubled buildings and nuisance businesses to prevent criminal activity and maintain safe and affordable housing.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 2,500 Household Housing Units will receive Housing Code Enforcement/Foreclosed Property Care.
	<b>Location Description</b>	Low to Moderate Income Census Tracts.
	<b>Planned Activities</b>	Code Enforcement.
<b>36</b>	<b>Project Name</b>	03:Neighborhood Infrastructure Improvements
	<b>Target Area</b>	Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Invest in Public Facilities and Critical Infrastru
	<b>Needs Addressed</b>	Infrastructure
	<b>Funding</b>	CDBG: \$5,000,000.00

	<b>Description</b>	Infrastructure and street lighting improvements in low/mod areas to improve visibility and safety.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 10,000 Persons will be assisted through Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit.
	<b>Location Description</b>	Low to Moderate Income Census Tracts
	<b>Planned Activities</b>	Public Facilities and Improvements, Infrastructure Improvements, Street Improvements
<b>37</b>	<b>Project Name</b>	14:Water Service Line Replacement
	<b>Target Area</b>	Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Invest in Public Facilities and Critical Infrastru
	<b>Needs Addressed</b>	Infrastructure
	<b>Funding</b>	CDBG: \$5,000,000.00
	<b>Description</b>	Infrastructure and water service line replacement in low/mod areas and households.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 1,000 Household Housing units will be assisted through homeowner housing rehabilitated and 125 Household Housing units will be assisted through rental units rehabilitated.
	<b>Location Description</b>	Low to Moderate Income Census Tracts
	<b>Planned Activities</b>	Public Facilities and Improvements, Infrastructure Improvements, Water/Sewer Improvements, Housing Rehabilitation.
<b>38</b>	<b>Project Name</b>	DFSS:ESG20 Chicago
	<b>Target Area</b>	Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	Prevent and Reduce Homelessness COVID-19 Response and Prevention
	<b>Needs Addressed</b>	Homelessness Prevention COVID-19 Crisis

	<b>Funding</b>	ESG: \$6,876,768.00 ESG-CV: \$54,201,546.00
	<b>Description</b>	Utilization of ESG funding for Homeless Prevention, Rapid Re-Housing and Homeless Prevention. COVID-19: ESG funding will support four Homeless Services projects/activities that mitigate the impact of COVID-19. These include: Homeless Prevention - \$5,383,640: Funding will support rental assistance to Chicago residents economically impacted by COVID-19 and as a result are at risk of homelessness, program costs and staffing increases, along with increasing staff at the Homeless Prevention Call Center and creating a pilot diversion team. Rapid Rehousing - \$15,658,054: Funding will support rental subsidies, case management and housing navigation, and move-in fees to house 1,250 households. Funds will support the Expedited Housing Initiative (EHI), developed in collaboration with the Chicago Continuum of Care. EHI utilizes housing as an effective public health intervention to ensure homeless Chicagoans at high risk of serious illness due to COVID-19 can maintain their health in their own home. Homeless Management and Information System (HMIS) - \$300,000: Funding will support administrative support for additional HMIS users, the tracking of outcomes for the COVID-19 response, and HMIS related technical assistance. DFSS opened temporary shelters to decompress the current shelter system. These facilities need assistance in using HMIS and tracking the data and outcomes of the COVID response. In addition, our current homeless providers will need technical assistance in capturing the data and outcomes of the COVID-19 response. Shelter - \$702,147: Funding will support staffing, supplies, and operational costs for shelters to sustain a decompressed shelter system to follow Centers for Disease Control and Prevention social distancing requirements. Administration - \$1,669,152: Funding will support administrative costs for the rental assistance program and rapid rehousing program.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	<p>It is estimated that 4,226 persons will be assisted through overnight shelter, 11,529 persons will be assisted through homeless prevention and 259 households will be assisted with tenant Based rental assistance/rapid rehousing. As it relates to COVID-19 see the following:</p> <p>Tenant-based rental assistance / Rapid Rehousing - 1250 households  Homeless Person Overnight Shelter - 1500 households  Homelessness Prevention - 500 persons"</p> <p>Summary of Rounds 1 &amp; 2</p> <p><b>Homeless Prevention</b></p> <p>-Round 1: 500 people served  -Round 2: 800 people served</p> <p><b>Shelters</b></p> <p>-Round 1: funds used for existing DAs to serve current clientele, no increases  -Round 2: 657 beds added</p> <p><b>Rapid Rehousing</b></p> <p>-Round 1: 750 households  -Round 2: 1300 households</p>
	<b>Location Description</b>	Low to Moderate Income Census Tracts
	<b>Planned Activities</b>	Homeless Services and Programming.
39	<b>Project Name</b>	DOH-HOME: Community Housing Development Organization - Operational Assistance
	<b>Target Area</b>	
	<b>Goals Supported</b>	
	<b>Needs Addressed</b>	
	<b>Funding</b>	HOME: \$350,000.00
	<b>Description</b>	Operational Assistance funds for CHDO's in the City of Chicago. To be used for staff, training, and other administrative skills building activities.
	<b>Target Date</b>	12/31/2020

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	n/a
	<b>Location Description</b>	At least 8 CHDO's will receive operational assistance.
	<b>Planned Activities</b>	Operational Assistance to CHDO's
40	<b>Project Name</b>	DOH-HOME:Program Administration
	<b>Target Area</b>	
	<b>Goals Supported</b>	
	<b>Needs Addressed</b>	
	<b>Funding</b>	HOME: \$2,691,261.00
	<b>Description</b>	Administration of the HOME Grant
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	N/A
	<b>Location Description</b>	N/A
	<b>Planned Activities</b>	Administration.
41	<b>Project Name</b>	DOH-HOME:Multi-Unit/Multi-Family Loan Program
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	Retain and Preserve Affordable Housing
	<b>Needs Addressed</b>	Affordable Housing
	<b>Funding</b>	HOME: \$23,871,015.00
	<b>Description</b>	Loans to developers (at least 15% will be for CHDO certified developers) for new construction or rehabilitation of multi family rental properties.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 335 Household Housing units will be constructed or rehabilitated.

	<b>Location Description</b>	None
	<b>Planned Activities</b>	Housing Rehabilitation, New Housing Construction.
<b>42</b>	<b>Project Name</b>	CV-DFSS-05W: Human Services/Emergency Food Assistance
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$1,575,000.00
	<b>Description</b>	Funding will provide emergency food assistance for at-risk populations and increase the availability and accessibility of healthy and fresh food options for those economically impacted by COVID-19. This initiative will be facilitated in partnership with the Chicago Food Depository through an established network of approximately 100 food pantries located throughout the City of Chicago, within a five-mile radius of our six Community Service Centers, and locations concentrated in food insecure areas. An additional 70 Homeless and Domestic Violence Shelters will also receive fresh fruits and vegetables.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	138,980 persons will be assisted with this program.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Food banks.
<b>43</b>	<b>Project Name</b>	CV-DFSS-05Z Homeless Services
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$7,208,975.33

	<b>Description</b>	Under Homeless Services, DFSS is receiving CDBG funding for three key projects. These include Homeless Shelters, Homeless Drop-In Centers, and Homeless Outreach. For Homeless Shelters, funding will support the decompression of shelters to follow Centers for Disease Control and Prevention social distancing requirements, specifically costs for the short-term operation of temporary shelters. For Homeless Drop-In Centers, funding will support increasing the number of staff to provide case management, client supports (transportation, clothing, etc.) and food. Lastly, under Homeless Outreach, funding will increase staffing to support housing navigation; client supports (PPE, transportation, clothing, etc.); and hazard pay for the Mobile Crisis and Shelter Referral Outreach activities.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Will provide 799 beds, and serve 2000 persons.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Homeless Services and Programming.
<b>44</b>	<b>Project Name</b>	CV-DFSS-05A: Home Delivered Meals for Older Adults
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$1,560,195.59
	<b>Description</b>	The HDM program provides nutritious meals to older persons aged 60 years and older in the City of Chicago who are frail and/or homebound because of illness, incapacitating disability, or isolated. The HDM program is designed to promote the general health and well-being of older adults by reducing hunger and food insecurity and delaying the onset of adverse health conditions that lead to premature nursing home placements.
	<b>Target Date</b>	9/30/2022

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	1114 older adults to be served by the Home Delivered Meals program.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Senior Services
45	<b>Project Name</b>	CV-DFSS-05G: Illinois Domestic Violence Hotline
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$616,729.94
	<b>Description</b>	The Illinois Domestic Violence Hotline operates 24/7 and provides calls and text messages with crisis counseling, safety planning, DV shelter and service referral as well as other services. During COVID-19, calls to the DV Hotline increased and are expected to result in an additional 3,000 calls and texts per year. The strain on the DV Hotline has resulted in increased staff hours and need for additional training for Victim Information and Referral Advocates (VIRAs) both during and post COVID to respond to the changing needs of DV victims. In addition to increased demand of VIRA personnel, the Hotline staff will need to be trained on post-COVID resource and referral. Funding will support the following activities: 1.) Additional personnel costs and expenses to provide COVID and post-COVID services for callers to the Illinois Domestic Violence Hotline; 2.) Training and technical assistance to the VIRAs responsible for assisting Hotline victims during the pandemic; and 3.) Promotional materials, supplies, and equipment to ensure unhindered access to the DV Hotline VIRA services.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	3,000 persons will be served with this funding.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Domestic violence prevention.

46	<b>Project Name</b>	CV-DFSS-05H: Workforce Support to Serve Additional Job Seekers
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$3,868,734.93
	<b>Description</b>	To assist in meeting the demand of individuals seeking to become gainfully employed, the DFSS Workforce Division will increase funding to current community-based organizations contracted to provide workforce services to the City's most vulnerable populations. These include those limited in English proficiency, experiencing and or at risk of homelessness, and returning citizens. The additional funding will be used to assist job seekers impacted by the COVID-19 pandemic through workforce development programs. Workforce development programming is provided to job seekers through four program models: Employment Preparation and Placement, Industry Specific Training Programs, Transitional Jobs Programs, and Reentry Support Centers. DFSS estimates that 2000 persons will be served with this funding.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	DFSS estimates that 2,000 persons will be served with this funding.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Workforce Services.
47	<b>Project Name</b>	CV-DPD-03P: Community Health Public Facilities
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$16,000,000.00
	<b>Description</b>	Renovate vacant, highly visible buildings into community hubs. They will address social determinants of health through a rich array of services and resources for the entire family. It will be a community and economic development engine where minority-owned businesses will thrive, sustained by thousands of customers, both residents and people who work for neighborhood employers.

	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	104,000 combined persons will be served by the two public facilities.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Public facilities.
48	<b>Project Name</b>	CV-CDPH-05W:LINK Up IL /LINK Match
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$533,840.20
	<b>Description</b>	"Funding will provide farmers markets and other food retailers funding for Link Match (formerly known as the Double Value Coupon program) for Link Card (Illinois' SNAP program, formerly known as food stamps) shoppers along with training and technical assistance to support implementing these programs. Recipients can utilize the SNAPs Double Value Coupon incentive, which provides a spending match for the amount the recipient spends on fresh fruits and vegetables at the market. The program doubles the value of federal nutrition (SNAP or food stamps) benefits spent at participating farmers marketsand other food retailers, increasing access to affordable fresh fruits and vegetables while supporting local farmers."
	<b>Target Date</b>	9/30/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	This additional investment in LINK Up will impact approximately 18,000 additional persons.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Food banks.
49	<b>Project Name</b>	CV-CDPH-05I: Expanded street outreach
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention

	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$5,048,176.41
	<b>Description</b>	"Emerging data suggests that many of the communities in Chicago that are experiencing the highest levels of interpersonal and structural violence are also disproportionately suffering high rates of COVID transmission and especially, COVID involved deaths. Street Outreach programs can build relationships in communities, intervene in violence, and connect high need individuals with services and supports. This funding would fill the identified gaps in communities with existing street outreach infrastructure and allow the launch of new street outreach programs in identified high-need communities without current infrastructure."
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Estimated 1575 people will be assisted.
	<b>Location Description</b>	15 community areas with highest levels of violence.
	<b>Planned Activities</b>	Crime Prevention.
<b>50</b>	<b>Project Name</b>	CV-CDPH-050: COVID Related Mental Health Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$9,801,479.50

	<b>Description</b>	This project will fund six different mental health programs within CDPH. The first will fund a network of public and nonprofit care centers that will be selected via RFP. The second will provide services for persons living with serious mental illness and co-occurring disorders. The third will fund 40 community and neighborhood level projects that promote community building, social connection, and healing in communities impacted by COVID19. The fourth is a coordinated city-wide suicide prevention strategy that will build citywide awareness about suicide prevention and risk. The fifth establishes a program to build, train, and support a network of community health workers to promote mental/emotional health and healing among persons most impacted by Covid19. The sixth and final program funds behavioral health teams (BHTs) to provide behavioral health services at homeless shelters across Chicago."
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	19,000 combined persons will be served by these six programs.
	<b>Location Description</b>	Community areas with highest rates of Covid19 related morbidity and mortality and BH hospitalization rates.
	<b>Planned Activities</b>	Mental health.
	<b>51</b>	
	<b>Project Name</b>	CV-COVID-19 2020-2023: Chicago Department of Public Health ILH20FHW001 (CDPH)
	<b>Target Area</b>	
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	
	<b>Funding</b>	HOPWA-CV: \$92,299.00
	<b>Description</b>	Funds not to exceed 6% of all funds awarded to cover costs associated with the administration of CARES Act funds for persons living with HIV.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	

	<b>Location Description</b>	
	<b>Planned Activities</b>	Administration and oversight of CARES Act Funding.
<b>52</b>	<b>Project Name</b>	CV-COVID-19 2020-2023: ILH20FHW001 Facility Based Housing Assistance
	<b>Target Area</b>	Citywide Low and Moderate Income Census Tracts
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	HOPWA-CV: \$126,024.00
	<b>Description</b>	Costs for short-term hotel/motel stays to quarantine PLWH or to prevent the spread of COVID-19 to PLWH, quarantining their household members, for a period of no more than 60 days within six-months
	<b>Target Date</b>	
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	
	<b>Location Description</b>	
	<b>Planned Activities</b>	
<b>53</b>	<b>Project Name</b>	CV-COVID-19 2020-2023: AIDS Foundation of Chicago ILH20FHW001 (AFC)
	<b>Target Area</b>	
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	HOPWA-CV: \$1,093,130.00

	<b>Description</b>	Providing transportation services to HOPWA eligible households to access food and water, medications, medical care, and to commute to places of employment; Assist HOPWA eligible households in accessing essential services thru the direct provision or paying for food in the form of food banks, groceries, food cards, and meal delivery; Helping HOPWA eligible households access medications, medical care, and personal protection equipment (PPE) except that direct payment for health or medical services may ONLY be made as a last resort; Educating assisted households on ways to reduce the risk of getting sick or spreading infectious diseases such as COVID-19 to others and informing them how and where to access and receive COVID-19 testing or treatment; Providing short-term rent, mortgage, and utility (STRMU) assistance payments to prevent homelessness of a tenant or mortgagor of a dwelling
	<b>Target Date</b>	12/31/2021
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	300 families may benefit from these activities with rental assistance and 50 for STMRU, and 100 for Supportive Services.
	<b>Location Description</b>	Planned Activities are Tenant Based Rental Assistance, Short Term Rent Mortgage and Utility Assistance, and Supportive Services.
	<b>Planned Activities</b>	
54	<b>Project Name</b>	CV-COVID-19 2020-2023: Agape Missions, Inc. ILH20FW001 (AG)
	<b>Target Area</b>	
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	HOPWA-CV: \$4,410.00
	<b>Description</b>	Essential furnishings, maintenance, equipment, and supplies that support the operation of housing facilities. Eligible supplies include cleaning and disinfection supplies.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	An estimated 10 households with persons living with HIV will benefit from the proposed activities.

	<b>Location Description</b>	Will County, Illinois
	<b>Planned Activities</b>	Operations funds to provide COVID Preparation, Prevent, and Response activities.

	<b>Funding</b>	HOPWA: \$175,000.00
	<b>Description</b>	Project based rent may also include operating costs for housing including maintenance, security, operation, insurance, utilities, furnishings, equipment, supplies, and other incidental costs.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 13 single households with persons living with HIV will reside in housing assisted with HOPWA funds.

	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Funds to operate a facility to house persons living with HIV.
91	<b>Project Name</b>	2020-2023: Unity Parenting & Counseling ILH20F001 (UPC)
	<b>Target Area</b>	
	<b>Goals Supported</b>	Meet the Needs of Persons with HIV/AIDS
	<b>Needs Addressed</b>	Facility Based Housing Operations
	<b>Funding</b>	HOPWA: \$131,682.00
	<b>Description</b>	Project based rent may also include operating costs for housing including maintenance, security, operation, insurance, utilities, furnishings, equipment, supplies, and other incidental costs. Funds not to exceed 7% of all funds awarded to cover costs associated with the administration of HOPWA housing.
	<b>Target Date</b>	12/31/2020
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	It is estimated that 11 single households with persons living with HIV will reside in housing assisted with HOPWA funds.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Funds for operation of a facility housing persons living with HIV.
92	<b>Project Name</b>	CV-COVID-19 2020-2023 Heartland Alliance Health ILH20HWF001 (HAH)
	<b>Target Area</b>	
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	HOPWA: \$8,220.00
	<b>Description</b>	Funds to provide operations to prevent, prepare for, and respond to coronavirus and to provide general administration and oversight.
	<b>Target Date</b>	3/31/2023
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	A total of 18 households with persons living with HIV will be assisted.
	<b>Location Description</b>	

	<b>Planned Activities</b>	
<b>93</b>	<b>Project Name</b>	CV3-AIS-03P: Renovation of Community Mental Health Facilities
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$4,000,000.00
	<b>Description</b>	To conduct rehab/renovation activities of community mental health facilities including interior finishes, upgrades to lighting, flooring, may include environmental abatement, potentially painting, window treatments, mechanical system upgrades, etc.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	100,073 persons served.
	<b>Location Description</b>	Various City Community Centers.
	<b>Planned Activities</b>	Public facilities.
<b>94</b>	<b>Project Name</b>	CV3-DFSS-05G: Domestic Violence Services
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$1,678,209.95
	<b>Description</b>	The program will provide victims of domestic violence including victims experiencing homelessness, considered high risk for serious illness or complications from COVID-19, with legal advocacy and counseling services and continue supporting the Domestic violence hotel voucher program. The grant will also support the DV victim expedited housing initiative that focuses on the victim group experiencing homelessness and in need of access to immediate housing.
	<b>Target Date</b>	9/30/2022

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	500 persons served.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Domestic violence prevention.
95	<b>Project Name</b>	CV3-DFSS-05: Workforce, Youth and other Supportive Services
	<b>Target Area</b>	
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$2,389,081.51
	<b>Description</b>	To assist formerly incarcerated residents in achieving self-sufficiency while successfully reintegrating into local communities, the grant will be used to offer services such as workforce training, housing assistance, health services, food assistance, and other services as needed in re-entry centers. Clients can call or walk-in to centers for assistance. One Summer Chicago will be funded to offer subsidized employment and internship opportunities to youth and young adults ages 14-24. The grant will also allow Chicago Youth Service Corp to provide youth jobs in the fall to support young people in high-need communities to build relationships, leadership, and life-skills through activities that will make a positive impact in their communities. Youth services will offer youth in the East and West Garfield community areas with enrichment programming outside of the classroom in a community and/or school setting as well as curriculum driven, trauma-focused mentoring programming.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	958 persons served.
	<b>Location Description</b>	Citywide
	<b>Planned Activities</b>	Workforce Services.
	<b>Project Name</b>	CV3-BACP-18: Economic Recovery Support for Small Businesses

96	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$2,000,000.00
	<b>Description</b>	BACP will conduct recovery activities in low to moderate income neighborhoods (as defined by HUD) to provide small grants to businesses to support expanded outdoor dining and safe spaces for consumers.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	Up to 400 small businesses.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Economic Recovery.
97	<b>Project Name</b>	CV3-CDOT-06: Shared Streets
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$83,890.04
	<b>Description</b>	Shared Streets will restrict vehicular access to local traffic only, to allow more space for people to walk, bike, and roll while maintaining proper social distance.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	96,000 persons served.
	<b>Location Description</b>	Citywide
98	<b>Project Name</b>	CV3-CDOT-03: Public Space Activations
	<b>Target Area</b>	Citywide

	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$4,016,109.96
	<b>Description</b>	Public Space Activations will transform sections of the public way into community places through community engagement, physical transformation, and place making activities in an effort to combat the coronavirus impacts by providing the space for proper social distancing and to encourage economic recovery efforts.
	<b>Target Date</b>	9/30/2022
	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	530,000 persons served.
	<b>Location Description</b>	Citywide.
	<b>Planned Activities</b>	Infrastructure.
99	<b>Project Name</b>	CV-DWM-14A: Lead Service Line Replacement
	<b>Target Area</b>	Citywide
	<b>Goals Supported</b>	COVID-19 Response and Prevention
	<b>Needs Addressed</b>	COVID-19 Crisis
	<b>Funding</b>	CDBG-CV: \$6,480,303.63
	<b>Description</b>	Replaces old lead water service lines to ensure that residents have access to safe, drinkable water in their homes. COVID highlighted the importance of having access to a safe living space, including potable water, to allow for any activities that need to take place in the home, including remote school and work in the face of illness or public health emergencies, as well as day-to-day living. This project aligns with HUD guidance that funds can be used to "Construct a public improvement, such as extending broadband infrastructure in an underserved area or reconstructing degraded water lines, to support tele-school and telemedicine and to ensure potable water to homes, schools, and health providers." This project is similar to the CDBG funded Water/Lead Service Line Replacement projects, but providing additional funding in the form of CDBG CV will allow the City to serve additional households to ensure access to potable, lead-free water.
	<b>Target Date</b>	7/30/2026

	<b>Estimate the number and type of families that will benefit from the proposed activities</b>	180 Households assisted - Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefit
	<b>Location Description</b>	
	<b>Planned Activities</b>	

## **AP-50 Geographic Distribution – 91.220(f)**

### **Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed**

Low- and moderate-income families and individuals reside in communities throughout Chicago. Grants and other resources are geographically distributed throughout the city for community development and housing programs. All proposed Action Plan activities are intended to primarily benefit populations that have special needs and citizens with low- and moderate-incomes. Assistance will be directed to areas of the city in which 51 percent or more of households are low- and moderate-income.

### **Geographic Distribution**

<b>Target Area</b>	<b>Percentage of Funds</b>
Citywide	
Low and Moderate Income Census Tracts	70

**Table 60 - Geographic Distribution**

### **Rationale for the priorities for allocating investments geographically**

To effectively target redevelopment activities, the City allocates investments geographically through the Micro-Markets Recovery Program (MMRP). Under this program, the City identifies community areas of greatest need and significant potential for positive intervention.

#### **MMRP Target Areas**

The City's Micro-Markets Recovery Program (MMRP) helps to stabilize and sustain local property values in targeted areas by strategically deploying public and private capital in well-defined micro-markets. MMRP operates in severely impacted neighborhoods where foreclosures have reached crisis proportions to re-create sustainable market forces and stabilize values in the target areas. These markets are where: 1) there are a significant number of vacancies but evidence of residual market interest; 2) little private market activity is experienced; 3) citywide intermediaries with a track record of investments and local capacity exist to lead the community's involvement in the program; 4) good data on property ownership is available; and 5) practical strategies for investment can be designed and implemented. Target neighborhoods include Chatham, West Woodlawn, West Humboldt Park, Englewood, Austin, and North and West Pullman. This program also supports special initiatives such as the Chicago Neighborhood Rebuild Program and the Community Receivership pilot, which are designed

to assist in the retention of neighborhood wealth through home and property ownership.

### **Discussion**

See above.

## Affordable Housing

### AP-55 Affordable Housing – 91.220(g)

#### Introduction

This section specifies the goals for the number of homeless, non-homeless, and special needs populations to be provided affordable housing and the number of affordable housing units supported by program type in the 2020 program year.

One Year Goals for the Number of Households to be Supported	
Homeless	1,423
Non-Homeless	2,824
Special-Needs	1,122
Total	5,369

**Table 61 - One Year Goals for Affordable Housing by Support Requirement**

One Year Goals for the Number of Households Supported Through	
Rental Assistance	1,029
The Production of New Units	200
Rehab of Existing Units	2,614
Acquisition of Existing Units	10
Total	3,853

**Table 62 - One Year Goals for Affordable Housing by Support Type**

#### Discussion

##### Households by Population Type

The City projects it will support 438 housing units targeted for persons experiencing homelessness. An additional 874 units will be targeted to seniors, people with disabilities, and people living with HIV/AIDS. Funding for affordable housing for non-homeless, low-income individuals will support 2,817 households.

##### Households by Program Type

Tenant-based, facility-based and rapid re-housing assistance funded by HOPWA and ESG will assist approximately 1,312 homeless and special needs households. HOME and CDBG funds will support construction and/or rehabilitation of 2,930 housing units for non-homeless, low-income households.

##### CDBG - DR

The City is not undertaking housing with DR funds.

## **AP-60 Public Housing – 91.220(h)**

### **Introduction**

Since 2000, CHA has been engaged in achieving the goals of the original Plan for Transformation: rehabilitating or redeveloping 25,000 housing units in Chicago; reintegrating low-income families and housing into the larger physical, social and economic fabric of the city; providing opportunities and services to help residents improve their lives; and spurring the revitalization of communities once dominated by CHA developments. CHA's participation in HUD's Moving to Work (MTW) demonstration program began in 2000 with the original MTW Agreement which allowed CHA to implement the Plan for Transformation. CHA's Amended and Restated MTW Agreement with HUD was fully executed on June 26, 2008 and the MTW Agreements of CHA and all MTW agencies were subsequently extended until 2028 pursuant to Congressional action. As an MTW Agency, CHA continues to pursue the three statutory objectives of the MTW Program: (1) Increasing housing options for low-income families; (2) Giving incentives to families with children where the head of household is working, seeking to work, or is preparing for work by participating in job training, education programs, or programs that assist people to obtain employment and become self-sufficient; and (3) Reducing costs and achieving greater cost effectiveness in expenditures.

As CHA meets, and then exceeds, the 25,000-unit delivery goal, CHA will continue to identify new opportunities to preserve and create housing for low-income families in diverse communities across Chicago while ensuring that its existing inventory of Public Housing units is maintained to the highest standards. CHA's development plans include investments at major Public Housing sites as well as communities that lack significant affordable housing options. CHA's inventory of approximately 15,000 Public Housing units currently, includes the senior, traditional family, mixed-income and scattered site portfolios. CHA also continues to manage approximately 5,000 former Public Housing units converted to Rental Assistance Demonstration (RAD) Project-Based Vouchers (PBV)s.

### **Actions planned during the next year to address the needs to public housing**

In 2020, CHA plans to deliver an additional 343 units, including 31 Public Housing units and 312 PBV units. CHA's unit delivery strategies include:

- Mixed-Income Redevelopment: CHA will continue with new on- and off-site phases in mixed-income developments which have replaced many former CHA properties.
- Real Estate Acquisition Program (REAP): CHA will continue its strategy to acquire public housing units primarily in Opportunity Areas.
- Project-Based Vouchers: CHA will continue to subsidize new PBV units through multi-year contracts with private owners and developers.
- Conversion of Moderate Rehabilitation Program Properties: CHA will continue to work with private owners of existing CHA Moderate Rehabilitation program properties to identify opportunities to transition these properties to long-term PBVs through RAD conversion or the

standard PBV selection process.

CHA continues to explore new unit delivery strategies to respond to local housing preferences and market opportunities.

In FY2020, CHA plans to serve approximately 63,000 low-income households and 135,000 individual residents through its Public Housing program as well as other programs that provide housing options for low-income residents:

**Housing Choice Voucher (HCV) Program**

CHA provides tenant-based vouchers through the Housing Choice Voucher (HCV) program. Tenant-based vouchers enable low-income households to choose their place of residence in the private market with a portion of the monthly rental obligation subsidized through the allocation of a Housing Assistance Payment (HAP) made directly to the landlord. In FY2020, CHA plans to administer more than 41,000 tenant-based vouchers.

**Property Rental Assistance (PRA) Program**

Through its PBV program, known as the Property Rental Assistance program, CHA administers 3,900 PBVs that provide long-term subsidies for units in privately-owned rental properties, including 1,300 units of supportive housing.

**Rental Assistance Demonstration (RAD)**

In October 2013, CHA submitted a portfolio application to HUD to utilize the RAD program to provide a more consistent budgeting platform to support the long-term operation and affordability of CHA public housing units by electing to transition more than 10,000 Public Housing units to the PBV program. In June 2015, CHA received a RAD award for its portfolio application. Since then, CHA has closed multiple transactions with more than 5,000 units converted to RAD PBV to date. CHA will continue to move forward with RAD PBV conversions for the entire portfolio application in the coming years. As CHA transitions units to RAD PBVs, these units will move from CHA's Public Housing portfolio to the PBV portfolio.

**Choose to Own (CTO)**

CHA participates in HUD's homeownership voucher program with a program called Choose to Own (CTO). CTO provides qualified public housing and HCV families with the opportunity to own a home. It has helped more than 500 CHA families make the transition from renting to owning. Most CTO families utilize the voucher to pay a portion of their mortgage for up to 15 years. In addition to financial assistance toward the mortgage payment, the program provides pre- and post-purchase homebuyer education, credit counseling and other services to help families navigate the home-buying process and

increase their chances of success.

**Actions to encourage public housing residents to become more involved in management and participate in homeownership**

**Choose to Own (CTO)**

CHA participates in HUD's homeownership voucher program with a program called Choose to Own (CTO). CTO provides qualified public housing and HCV families with the opportunity to own a home. It has helped more than 500 CHA families make the transition from renting to owning. Most CTO families utilize the voucher to pay a portion of their mortgage for up to 15 years. In addition to financial assistance toward the mortgage payment, the program provides pre- and post-purchase homebuyer education, credit counseling and other services to help families navigate the home-buying process and increase their chances of success.

**If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance**

This section is not applicable to CHA.

**Discussion**

Along with its City of Chicago sister agencies, the Chicago Housing Authority plays a vital role in providing housing opportunities across Chicago. Through the provision of public housing apartments and the management of Housing Choice Vouchers, CHA serves more than 63,000 low-income families and individuals, while supporting healthy communities. CHA's investment in new housing for seniors, veterans and families is transforming the lives of residents through better housing while helping to build stronger communities.

## **AP-65 Homeless and Other Special Needs Activities – 91.220(i)**

### **Introduction**

The City and its partners, through the Chicago Continuum of Care (CoC) Board of Directors, have made significant progress in implementing Chicago's original 2003 Plan to End Homelessness ("the Plan"). The three core tenets of the Plan are to:

- 1) Prevent homelessness whenever possible;
- 2) Rapidly re-house people when homelessness cannot be prevented; and
- 3) Provide wraparound services that promote housing stability and self-sufficiency.

The Plan called for a transition of the homeless services system from a shelter-based system, focused on temporary fixes, to a housing-based system emphasizing long-term living solutions for persons experiencing homelessness on the street and in overnight shelters. To that end, Chicago significantly increased interim/transitional and permanent housing resources and reduced the number of temporary shelter beds.

In 2012, stakeholders in Chicago's Continuum of Care developed an updated set of strategies to prevent and end homelessness. Chicago's "Plan 2.0" is a broad-ranging, seven-year action plan (2013-2019) that reaffirms and builds on the core strategies outlined in the first plan – prevention, housing first and wraparound services – and identifies seven new strategies for improving and coordinating access to housing and services:

- 1) The Crisis Response System: Create an effective crisis response system that prevents homelessness whenever possible and rapidly returns people who experience homelessness to stable housing.
- 2) Access to Stable and Affordable Housing: Create and maintain stable and affordable housing for households who are experiencing or at risk of homelessness.
- 3) Youth Homelessness: Create a comprehensive, developmentally appropriate menu of services for youth who experience homelessness in order to prevent homeless youth from becoming the next generation of homeless adults.
- 4) Employment: Increase meaningful and sustainable employment opportunities for people experiencing or most at risk of homelessness.
- 5) Advocacy and Civic Engagement: Engage all of Chicago in a robust plan that creates a path to securing a home for everyone in our community.
- 6) Cross-Systems Integration: Work across public and private systems of care to ensure ending homelessness is a shared priority.
- 7) Capacity Building: Ensure a strong homeless assistance system capable of implementing Plan 2.0 goals and HEARTH Act performance standards.

In 2018, the Chicago CoC launched the Action Agenda, a strategy and work plan for the CoC. All Chicago and DFSS to be more action-oriented in our work to end homelessness. The Action Agenda encompasses

four key strategies to strengthen and focus the work:

1. Organize. Create an infrastructure of working groups focused on actions that advance the goals of Plan 2.0 and include everyone's voice at the table.
2. Empower. Empower All Chicago as the backbone organization leading the CoC to achieve the goals of Plan 2.0.
3. Elevate. The CoC Board approves policies recommended by working groups and aligns the resources and activities to support policies.
4. Amplify. Build political will to align leadership, set concrete targets, and expand housing inventory.

Several funding streams support the Plan 2.0 at the City level (CDBG, ESG, Community Services Block Grant, Illinois Department of Human Services' Emergency and Transitional Housing Program, and Corporate funding). CDBG funds support the overnight and interim shelter, outreach and engagement, specialized services, and permanent supportive housing models.

### **Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including**

#### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs In March 2016, the City announced the launch of a citywide task force dedicated to addressing and reducing homelessness in Chicago. The Task Force to Reduce Homelessness (Task Force) focuses on improved coordination between city departments and sister agencies, increased efficiencies in service delivery, and identifying additional resources to devote to these efforts.

In 2019, the Task Force launched an Encampment Strategy, building off a 2018 pilot. The multi-agency encampment response initiative is a mobile initiative that moves throughout the city, as needed. It is staffed by City, sister, and community partner agencies offering services to persons affected by street homelessness throughout Chicago.

The following are the City's one-year goals and action steps for reducing and ending homelessness:

The City, through its delegate agency Catholic Charities, provides targeted outreach and engagement that is delivered 24 hours a day, seven days a week, 365 days a year through mobile outreach teams that are dispatched to respond to non-life-threatening requests for assistance through 311. These include requests for shelter placement and transportation, well-being checks, delivery of emergency food provisions, crisis assistance for victims of fire and other disasters, and extreme weather response, such as transportation of clients to City-operated Warming and Cooling Centers. The Mobile Outreach Services Team is responsible for participating in all mass care activities as directed by the City of Chicago Office of Emergency Management and Communications (OEMC) during citywide emergencies that may

result in large scale evacuations requiring temporary emergency shelter.

#### Planned Outcomes 2020

Outreach and Engagement Mobile Outreach: 8,000 individuals to be served

#### **Outreach and Engagement Programs**

The City utilizes CDBG funds for targeted outreach and engagement. These services include assessment of individuals, including youth, persons experiencing chronic homelessness, and veterans living on the street, who do not typically access either shelter or other homeless services. Providers of this program model utilize the Vulnerability Index (a standardized tool for identifying and prioritizing the street homeless population for housing according to the fragility of their health) and receive referrals through Chicago's Coordinated Entry System (CES) for permanent supportive housing. CES uses HMIS as a data platform to track highly vulnerable individuals and families coming from the streets or shelters and serves as a central client referral source for housing providers. Outreach and Engagement programs assist vulnerable households in applying for resources through CES by helping them respond to interviews and collect documentation needed to achieve permanent housing placement as fast as possible. The goal of the outreach programs is to develop trust with the client to engage in formal services and provide coordinated services through permanent housing placement. To improve service delivery to the homeless, DFSS contracted with Featherfist to provide the Night Owl Outreach program, the first overnight outreach program in the city. We recognized that those who are most vulnerable (homeless living on the streets) are often difficult to locate and/or engage during the day. The team also assists the Chicago Transit Authority with their homeless issues on the trains. This outreach is part of the City's encampment strategy. The team is monitoring and reporting new or growing hot spots citywide where street homeless congregate.

#### Planned Outcomes 2020

Outreach and Engagement Services: 2,898 individuals served

#### **Addressing the emergency shelter and transitional housing needs of homeless persons**

##### Emergency Homeless Assessment and Response Center (EHAC)

The Salvation Army, as the delegate agency, will provide 24-hour centralized intake, assessment, triage and temporary shelter services to homeless families at a new facility which the Salvation Army will construct with its own funds – the EHARC. The EHARC serves as a hub and access point as we implement Chicago's new coordinated entry system for homeless services. The coordinated entry system is part of the implementation of "Plan 2.0: A Home for Everyone". Families receive an initial assessment, including eligibility for diversion and prevention services. The EHARC greatly expands the city's ability to divert, triage, or place households in more stable shelter programs as quickly as possible.

#### Planned Outcomes 2020

375 individuals served

In coordination with the Chicago CoC, DFSS is the primary funder of emergency and interim housing for homeless individuals and families in Chicago. Both types of temporary housing options focus on assessing the service needs of residents and either making appropriate referrals to other providers or offering supportive services at the residential program. Additionally, DFSS funds supportive services that move persons who are currently experiencing homelessness toward housing stability and self-sufficiency. Following are activities that address the shelter and transitional housing needs of persons experiencing homelessness:

### **Emergency Shelter (Adult/Youth)**

This program model provides shelter to single men and women aged 18 and over on a nightly basis for up to twelve consecutive hours. Adult Overnight Shelter may be appropriate for persons who do not want to participate in case management, or the more intensive services and goals associated with interim housing. However, Adult Overnight Shelter programs are expected to engage clients in accessing supportive services and to assess clients for rapid re-housing options. Youth Emergency Shelter provides age-appropriate shelter to single male and female youth ages 18 to 24 on a nightly basis. Youth Emergency Shelter will engage clients in accessing supportive services and assess clients for rapid re-housing options.

#### Planned Outcomes 2020

Emergency Shelter Programs: 2,627 individuals served

### **Interim Housing (Adult and Youth)**

Adopting the “housing first” model, Interim Housing focuses on rapidly re-housing those who are experiencing homelessness while working to progressively reduce the amount of time people spend experiencing homelessness. Permanent housing placements are emphasized and must be supplemented with services that focus on client stabilization, assessment, and referrals to community resources.

#### Planned Outcomes 2020

Interim Housing Programs: 7,842 individuals served

### **Homeless Shelter Food Supply**

As part of its emergency food program, DFSS provides fresh fruits and vegetables to shelters throughout the city to feed people who are experiencing homelessness. Approximately, 60 shelters located within the city participate.

#### Planned Outcomes 2020

Homeless Shelter Food Supply: (Fruits & Vegetables to Shelters) – Approximately 60 Shelters served; 492,800 pounds delivered; and 13,000 individuals served.

### **Helping homeless persons (especially chronically homeless individuals and families, families**

**with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

Building on successful coordination of homeless prevention resources with its Homeless Prevention Call Center (HPCC), Chicago has taken steps towards implementing coordinated entry and improving access to permanent housing and independent living. Through the Ending Veteran Homelessness Initiative, Chicago began implementation of its coordinated entry system with Veterans. In 2017, Chicago scaled up the CES for youth, singles, adults, and families. Outreach, engagement, and shelter providers utilize a standardized assessment tool, and households are matched to housing providers based on system wide prioritization standards. DFSS-funded outreach, engagement, and shelter providers ensure that the standardized assessment for the CES is completed and entered into the HMIS system. CES is now fully implemented in Chicago and DFSS and the CoC utilize an HMIS dashboard as well as on the groundwork groups to identify process improvements to accelerate the housing process and strengthen prevention and diversion at the front door of the homeless system.

The Chicago Low-Income Housing Trust Fund has committed \$8 million annually in rental assistance to prevent homelessness for more than 1,300 families and individuals. Of that total, nearly 600 units are targeted toward individuals and families experiencing long-term homelessness. Plan 2.0 identifies strategies to create access to affordable housing units through development and subsidy options including: working within to increase the priority and access to housing for those in need of supportive housing and working with public and community partners to develop new affordable housing opportunities.

Finally, DFSS offers several programs for individuals and families experiencing homelessness seeking a permanent and stable housing situation. DFSS uses local funding sources to provide homeless services that include those funded by CDBG as well as others endorsed by the Plan to End Homelessness. Supported activities include:

### **Rapid Re-Housing Assistance**

Chicago implements a rapid re-housing with ESG funds for tenant-based rental assistance, and housing relocation and stabilization services. Tenant-based rental assistance will be used to help households who have already fallen into homelessness be re-housed as quickly as possible by providing a security deposit and/or short-term rent assistance until sufficient income or a permanent tenant-based subsidy

is in place.

#### Planned Outcomes 2020

167 households moved to housing

#### **Permanent Supportive Housing Services/Safe Havens**

These services are designed to help clients maintain residential stability in permanent supportive housing. Permanent supportive housing programs provide long-term subsidized housing for individuals and families who are experiencing homelessness. Clients may have serious and persistent disabilities such as mental illness, substance use disorders, or HIV/AIDS, which often contribute to chronic homelessness. The Safe Haven program is an open-stay, on-demand, and service-enriched housing program for persons with mental illness or dual disorders (mental illness and substance use disorder) who are difficult to engage in services. This program offers a safe, non-intrusive living environment in which skilled staff members work to engage persons in housing and needed services. In Chicago, Safe Haven beds Provide housing with no time limits.

#### Planned Outcomes 2020

1,262 individuals served

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

Chicago's CoC, in coordination with DFSS, emphasizes systems integration efforts that focus on appropriate discharge planning for special populations. DFSS addresses a range of human services needs for low-income individuals and families in Chicago communities through coordinated homeless prevention resources and six DFSS Community Services Centers. These services contribute to homelessness prevention for low-income households.

#### **Homelessness Prevention**

The City supports the HPCC to conduct initial evaluations and referrals to available prevention assistance and delegate agencies to provide homeless prevention supportive services. The HPCC is Chicago's prevention infrastructure to assess and refer for public and private resources, including the City of Chicago's Rental Assistance Program, which provides short-term financial assistance to low-income individuals at risk of eviction and homelessness. The HPCC is a primary point of entry for homelessness

prevention resources and is also a way that people seeking eligibility and referral for rapid rehousing assistance can complete an initial evaluation. Each call receives a screening and evaluation for eligibility and all information is entered into the Homeless Management Information System (HMIS). HPCC makes electronic referrals through HMIS for continuous case management. DFSS funds partner agencies to provide homeless prevention supportive services targeted to individuals or families that are at immediate risk of homelessness. Services may include, but are not limited to, provision of financial assistance, provision of legal representation for tenants facing evictions and provision of housing stabilization or relocation assistance.

#### Planned Outcomes 2020

400 individuals served with ESG rental assistance; 375 individuals served with homelessness prevention supportive services; 10,754 individuals served by the Homelessness Prevention Call Center

#### **Community Service Centers**

Direct services are offered through DFSS Community Service Centers where transportation, public benefit screening/enrollment, and emergency rental and utility assistance are provided. Referrals are also available for housing, employment, emergency food, education, childcare, and health services. At the Centers, DFSS staff work with clients to address their needs (immediate, short-term, and long-term) to achieve self-sufficiency. Direct services and programs are co-located at all six Community Service Centers. Domestic Violence advocates are at four of the six Community Service Centers 4 days a week. The centers also have staff that are 40-hour trained that can provide services when necessary. Workforce services are co-located at the DFSS King Community Service Center with the Chicago Cook Workforce Partnership (also known as Mid-South). The DFSS Central West Regional Senior Center also houses a DFSS Veterans Services staff person that helps veterans access a variety of benefit programs.

#### Planned Outcomes 2020

40,000 individuals will be served

#### **Emergency Food Assistance for At-Risk Populations**

The City provides Emergency Food Assistance for At-Risk Populations to increase the availability and accessibility of healthy and fresh food options to help at-risk residents meet their nutritional needs. There are three food distribution models: 1) distribution to local food pantries; 2) distribution of fruits and vegetables to homeless shelters; and 3) distribution of holiday foods to Community Service Centers and/or other locations.

#### **Discussion**

The City of Chicago is committed to preventing and ending homelessness. Through the strategies outlined in this plan, the City will partner with stakeholders leveraging federal, state and local dollars to provide services, guided by the emerging needs and trends of Chicago residents seeking homeless

services.

**AP-70 HOPWA Goals - 91.220 (I)(3)**

<b>One year goals for the number of households to be provided housing through the use of HOPWA for:</b>	
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	0
Tenant-based rental assistance	300
Units provided in permanent housing facilities developed, leased, or operated with HOPWA funds	470
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	770
Total	1,540

## **AP-75 Barriers to affordable housing – 91.220(j)**

### **Introduction:**

This section describes how the City will work to reduce barriers to affordable housing in Chicago.

**Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

Often public policies created to revitalize communities and increase economic development have negative impacts on affordable housing. In response, the City has implemented a variety of affordable housing programs and incentives.

### **Affordable Requirements Ordinance (ARO)**

The Affordable Requirements Ordinance (ARO) applies to residential developments of 10 or more units and is triggered whenever a development project receives a zoning change, City land or financial assistance, or is in a downtown Planned Development and includes a residential component containing ten or more units.

The ARO requires developers to either set aside a percentage of residential units as affordable housing or contribute a fixed fee (depending on the location and type of development) per required unit to the City's Affordable Housing Opportunity Fund. Units built under the ARO are required to remain affordable over time. Some units have recapture mortgages to regulate their long-term affordability. Other units are targeted for the Chicago Community Land Trust (CCLT), which was created in 2006 to address the increasingly limited supply of funding for affordable housing. The goal of the Land Trust is to preserve the long-term affordability of homes created through City programs and maintain a permanent pool of homeownership opportunities for working families. The CCLT is a partner in the ownership process, giving homeowners access to many of the benefits of traditional ownership, along with a network of support to help ensure their ongoing success.

The ARO was originally enacted in 2003. It was updated in 2007 and again in March 2015. The latest changes are expected to generate hundreds of new units and \$90 million in funding for affordable housing over a five-year period. The 2015 revisions:

1. Designate three types of development zones in the city, defined as downtown, higher-income areas and low/moderate-income areas;
2. Adjust in-lieu fees for units not provided on-site, increasing them to \$175,000 downtown and \$125,000 in higher-income areas, and reducing them to \$50,000 in low/moderate-income areas;
3. Require downtown developers to pay the higher of their ARO or density bonus fees as determined by ordinance;
4. Require 1/4 of the mandated 10 percent affordable units (20 percent if the City provides financial

assistance) to be provided on-site, with certain limited exceptions for downtown and higher-income area projects, including a \$225,000/unit buyout for downtown for-sale projects;

5. Authorize a density bonus for affordable units located close to transit;

6. Incentivize developers to make units available to the CHA;

7. Expand the pool of homebuyers by increasing the maximum income for purchasers to 120 percent of the Area Median Income (AMI);

8. Increase the ARO allocation to the Chicago Low-Income Housing Trust Fund from 40 percent to 50 percent.

Despite the tightening of the rules, projects subject to the ARO have increased exponentially since the 2015 amendment. It is estimated that through the first quarter of 2018, 988 ARO units in 171 projects have been created or proposed. In addition, almost \$83 million in additional funding for affordable housing is expected to be generated by these projects through in-lieu fees.

In 2017, the ARO established two special pilot areas in reaction to residents' concerns regarding increasing housing costs in traditionally lower-cost neighborhoods seeing increased attention and investment. These two pilot areas, the Near North/Near West and the Milwaukee Corridor, encompass large swaths of neighborhoods in the City identified as in need of additional safeguards for low to moderate income residents.

## **Discussion:**

The Near North/Near West Pilot area is divided into two sections. The Near North area increases the affordability percentage of the 2015 ARO from 10 to 20 percent, though the first 10 percent of for-sale units may be built as rental units. In the Near West area, the affordability percentage of the 2015 ARO is increased from 10 to 15 percent. Both zones require that the first 10 percent of units are located on-site or within two miles of the project location, and within the pilot area or within a higher income ARO zone for households at 60 percent AMI. The additional units required may be built anywhere within the Pilot area up to 100 percent AMI. There is no in-lieu fee option for either of the two pilot areas.

In the Milwaukee Corridor Pilot, the ARO's affordability percentage is increased from 10 to 15 percent, if units are on-site, and from 10 to 20 percent if they are off-site. Off-site units must be located within the pilot area. Prices for rental units are set at 60 percent AMI, but tenants can earn up to 80 percent AMI to lease.

## **Homebuyer Assistance**

The City offers several programs to help working families achieve the benefits of homeownership. These include:

- Home Buyer Assistance Program, which provides cash support for down payment and closing costs. The program, which is administered by the Chicago Infrastructure Trust, can be applied to the purchase of any owner-occupied property up to four units, including single-family homes, town homes or

condominiums. It may also be used to refinance an existing mortgage. Qualifying home buyers can receive grants of up to 7 percent of purchase price, based on income.

- Community Connections, which provides forgivable \$30,000 grants to help police officers, firefighters, and EMTs to purchase homes in targeted neighborhoods.
- City Lots for Working Families, which provides vacant, City-owned lots for \$1 each to developers of affordable single-family homes and two-flats. Land sold under the program must be used for owner-occupied, single-family homes and two-flats, which are subject to affordability requirements for a minimum of five years.
- Tax Smart, a Mortgage Credit Certificate (MCC) program that provides a federal income tax credit to qualified homebuyers. Through Tax Smart, homebuyers receive an MCC that reduces their income tax by an amount equal to 25 percent of the interest paid on a mortgage. The tax credit may be claimed for each year that the buyer continues to live in a home financed under the program.

### **Assessment of Fair Housing (AFH)**

The goal of the City is to make fair housing a reality for all its residents. Thus, a discussion of barriers to affordable housing would be incomplete without an Assessment of Fair Housing (AFH). Beginning in 2015, HUD published its Affirmatively Further Fair Housing final rule, which states that municipalities that receive HUD funding must conduct an AFH using HUD's Assessment Tool. HUD also encouraged program participants to share resources and to address fair housing issues "from a broader perspective" by collaborating and submitting a single AFH. After extending the deadline for submission of the AFH twice, on January 13, 2017, HUD announced that it was again extending the deadline to all local government consolidated plan program participants until their next AFH submission deadline that falls after October 31, 2020. However, local government participants must continue to comply with existing statutory obligations to affirmatively further fair housing.

## **AP-85 Other Actions – 91.220(k)**

### **Introduction:**

This section describes the planned actions the City will carry out to meet the strategies identified below.

### **Actions planned to address obstacles to meeting underserved needs**

The City has established several policy objectives and strategic goals to address obstacles in meeting underserved housing needs:

- Supporting Single Room Occupancy (SRO) and family housing in Chicago by developing, rehabilitating, or arranging special financing for properties in target areas where shelter programs that also offer support services and job creation opportunities can be closely linked.
- Developing short- and medium-term subsidy assistance for individuals that enter the homeless system to transition them back as quickly as possible to permanent affordable housing.
- Supporting the coordination of outreach and housing location through the Coordinated Entry System for homeless resources.
- Focusing resources to support housing for households at or below 30 percent of AMI.
- Supporting the not-for-profit community, notably with the help of Supportive Housing Program (SHP) funding, in the form of supportive services that aid in and help overcome obstacles to moving from homelessness or near homelessness to self-sufficiency.
- Continuing outreach with sister agencies and outside sources to fund ongoing needs for accessible housing modification within the city of Chicago.

The Department of Housing (DOH) continually reassesses its policies and adjusts in response to changing market conditions and service needs. To keep pace with the growing gap between median household incomes and the cost of single-family housing, the City, since 2016, has expanded its homebuyer assistance efforts through new programs that provide purchase price assistance to prospective home buyers with corporate funds. Recently, because of the current state of the national economy and regional housing markets, DOH has experienced historically low levels of participation in programs which leverage private loans for home repairs. Because of these conditions, the City has shifted greater resources towards programs that residents with homes falling into disrepair or presenting imminent hazards to residents.

The Mayor's Office of People with Disabilities (MOPD) does not directly provide housing or fund developments. However, it does advocate for the development of and access to affordable and accessible housing for people with disabilities. MOPD also continues to make efforts to correct policies that impede people with disabilities from receiving affordable housing. This is a multi-faceted approach that includes providing direct services, education, and recommendations for systematic and policy changes. MOPD discourages the use of nursing homes and institutions as housing alternatives for people

with disabilities and promotes integrated housing for people with disabilities.

### **Actions planned to foster and maintain affordable housing**

The bulk of the City's housing resources, especially federal dollars, are specifically targeted to affordable rental housing. Some government-assisted buildings with expiring use restrictions and project-based Section 8 contracts are stable, while others may be at risk due to strengthening markets and other concerns. DOH will continue to work with owners, community groups, and The Preservation Compact which brings together leaders from the public, private, and nonprofit sectors to develop strategies to increase the supply of affordable rental housing in Chicago and to monitor and coordinate preservation efforts for these properties. The City does not use CDBG to fund the construction and development of new, affordable housing; however, HOME funds are critical to leveraging additional resources such as Low-Income Housing Tax Credits through the City and the State.

One of the most efficient ways to provide affordable housing is to improve and preserve existing buildings. The City will continue to support programs such as the Troubled Buildings Initiative, the Energy Savers Fund, the Multi-Unit Affordability through Upfront Investment (MAUI) program, the Tax Increment Financing-Neighborhood Improvement Program (TIF-NIP), and the TIF Purchase Rehab Program. The City supports proposed tax incentives to encourage owners to rehabilitate and retrofit rental buildings while keeping units affordable. In 2017, the City held a funding round to allocate 9 percent tax credits for the first time since 2011. The application of these 2017 tax credits will be critical to achieving the City's goals for creating and preserving affordable housing.

The City will work to expand the number of affordable units available across different types of markets, with special attention to renter populations at the lowest income levels and those that require supportive services. The Keep Chicago Renting Ordinance, approved by the City Council in June 2013, protects renters housed in buildings whose owners are in foreclosure. The City will continue to work with the Chicago Low-Income Housing Trust Fund, which provides homes for approximately 2,700 of the city's most-at-risk individuals and families each year, to fund its efforts and aid it in securing a long-term funding source. The City will support construction of supportive housing units through the City's multi-family affordable housing program and will report on the number of units created for people with disabilities.

The State's mandate to provide housing to those with mental illness requires additional resources from the State and coordination between the City and the State. The City will advocate with the State and the Federal government for additional affordable housing resources with comprehensive supportive services to help the State meet this mandate.

The last few years have seen a shift away from homeownership in Chicago and across the country, fueled by lending restrictions, credit ratings damaged during the economic crisis, and consumer perceptions that housing is not a safe investment. To rebuild homeownership markets, the City will continue to partner with its housing delegate agencies and other community-based organizations to

provide education and counseling for potential homebuyers. The City will expand its post-purchase education efforts and will continue to fund programs that enable homeowners, including those who may be underwater on their mortgages, to stay in their homes.

### **Actions planned to reduce lead-based paint hazards**

The City will continue to fund the Department of Public Health's (CDPH) Childhood Lead Poisoning Prevention Program. The mission of the program is to prevent lead poisoning by maximizing the availability of affordable, lead-safe housing in the City. Project activities include:

- Ensuring at-risk children are screened for lead poisoning
- Providing case management services for lead-poisoned children
- Inspecting the homes of lead-poisoned children for lead-hazards
- Ensuring that property owners properly remediate lead hazards
- Referring non-compliant property owners to court
- Providing education and training on lead, lead-poisoning prevention, and lead-safe work practices
- Securing funding for lead abatement for those who otherwise could not afford to do so

#### Screening and Case Management

In 2019, Chicago lowered the threshold blood lead level triggering case management and inspection from 10 ug/dL or greater to 5 ug/dL or greater. In 2017, about 80,000 children under six years of age were screened for lead poisoning. Each child was screened by non-program staff (i.e., physicians in private practice); however, Lead program staff recently obtained LeadCare II machines which will allow program staff to begin performing blood screening in 2019. Of the total children screened in 2017, 1921 (2.4 percent) were found to have lead poisoning, defined as having a level of lead of 5 ug/dl or greater.

#### Inspection and Enforcement

The program continued to ensure the homes (or other locations where children may spend time) of children with lead poisoning were inspected for lead hazards, and that these hazards were remediated. Following initial inspection and assessment for lead hazards, re-inspections occurred to ensure the homes were properly maintained or the required remediation was done. In total, 864 homes had initial inspections and 6,242 had re-inspections, 573 homes were cleared of lead hazards, 111 property owners were referred to court to force compliance. In addition to enforcement, the program conducted 24 lead-safe work practice training sessions, with 12 in Spanish, attended by 311 participants. These trainings provided property owners with the knowledge and skills to remediate lead hazards in their properties in

a safe and effective manner.

### **Actions planned to reduce the number of poverty-level families**

The City is dedicated to supporting a continuum of coordinated services to enhance the lives of Chicago residents, particularly those most in need, from birth through the senior years. The City works to promote the independence and well-being of individuals, support families and strengthen neighborhoods by providing direct assistance and administering resources to a network of community-based organizations, social service providers and institutions. The City will continue to use CDBG funding to provide services for low-to-moderate income residents with the objective of providing basic needs and improving their quality of life and the quality of life for all citizens in the city.

CDBG as well as the Community Services Block Grant (CSBG) and other funding sources are used to support a Human Service Delivery System that addresses the critical and emergency human services needs of low-to-moderate income persons and families. The goal of the Human Service Delivery System is to provide help to individuals and households access services that support positive outcomes that promote and help maintain self-sufficiency. Service programs are tailored to meet immediate, short-term, or long-term needs.

CDBG programs managed by the DPH: mental health, lead poisoning prevention, violence prevention, HIV prevention and HIV housing, along with HOPWA, are all focused in community areas with high hardship index numbers, which generally indicates that they are low income communities. DPH's Healthy Chicago 2025 plan commits a broad array of partners to changing the policies and procedures that have resulted in long-term racial inequities. These efforts are focused on strengthening community capacity and youth leadership; improving systems of care for populations most affected by inequities; and furthering the health and vibrancy of the neighborhoods most affected by inequities.

### **Actions planned to develop institutional structure**

Community based nonprofit organizations and community development corporations have made major contributions to neighborhood stability and growth, often by managing comprehensive, multi strategy efforts that address not only housing development, but safety, education, health, job skills and retail development. These established partners help implement housing related programs and strategies that reflect neighborhood needs and culture. The City will continue to encourage private support of these organizations and provide direct support by funding a wide ranging network of citywide and community based delegate agencies, as resources allow.

### **Actions planned to enhance coordination between public and private housing and social**

## **service agencies**

Many City departments have a hand in creating strong, healthy housing markets, and DOH will preserve and strengthen its relationships and coordinate activities with its sister agencies and other organizations that administer federal funds. These communications and coordination extend to private-sector partners, community-based organizations and agencies that connect residents to affordable and supportive housing. DOH will continue to participate on the Interagency Council of the Preservation Compact to collaborate on the preservation of individual properties, and to create more consistent and streamlined processes across city, state, and federal agencies. DOH also is working together with CHA to create additional units in support of CHA's efforts, through the application of a variety of resources including HOME and CDBG funds, tax credits, bonds, and City land.

## **Discussion:**

See above.

## Program Specific Requirements

### AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

#### Introduction:

#### Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

- |  |          |
|--|----------|
| 1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed  | 0        |
| 2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan. | 0        |
| 3. The amount of surplus funds from urban renewal settlements  | 0        |
| 4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan   | 0        |
| 5. The amount of income from float-funded activities   | 0        |
| <b>Total Program Income:</b>   | <b>0</b> |

#### Other CDBG Requirements

- |   |        |
|---|--------|
| 1. The amount of urgent need activities   | 0      |

| 2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan. | 70.00% |

#### HOME Investment Partnership Program (HOME) Reference 24 CFR 91.220(I)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City of Chicago invests HOME funds as interest bearing loans, non-interest-bearing loans, interest subsidies, deferred payment loans, grants, or other forms of assistance consistent with the

purposes of the HOME requirements. The City of Chicago establishes the terms of assistance for each project funded through a regulatory agreement subject to the HOME requirements.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

For Resale of Affordable Units with a recapture agreement, the homeowner will execute a HOME Agreement and a separate HOME Recapture Mortgage in favor of the City to secure the HOME Funds Recapture Amount. Only the direct subsidy to the homebuyer will be subject to recapture, the amount of which will be determined by the DOH Finance Division in accordance with the recorded Mortgage, Security and Recapture Agreement (MSRA) and prorated accordingly. The type and value of capital improvements made to the affordable unit will be determined by the "Market Rate" appraisal. The City's recapture amount will be limited to the net proceeds available at the closing of the transferred unit.

For Resale of Affordable Units with a resale agreement, the homeowner is required to contact DOH to request resale pre-approval of their affordable unit before accepting a real estate contract for sale. The resale request should include all pertinent details and hardships the City should consider in deciding. A copy of the recorded Jr. Mortgage, Security MSRA document(s) or the "Deed Restrictions" related to the City lien(s), recorded after the initial purchase, are reviewed in detail to determine the funding source of the subsidies and the specific remedies stated in the owner's agreement with the City.

The resale price of the property is calculated by DOH and provided to the owner for use in marketing the unit. The special sales conditions, and the requirement for the buyer to sign a MSRA agreement with the City, must also be stated in writing by the owner's realtor for sale listing. The buyer of the affordable resale unit is required to submit a complete application to DOH to determine affordability not to exceed 33 percent of housing ratios. DOH will consider a higher housing ratio depending on mitigating factors such as not having other debt or the leveraging of additional private or public grants. The household income eligibility of the affordable buyer will range between 60 percent and 80 percent of AMI. A MSRA would be issued to be signed by the new buyer and a release would be issued for the current owner after the new MSRA is signed at the time of transfer of the affordable unit. The type and value of capital improvements made to the affordable unit will be determined by an appraisal taking into consideration the affordable price of the unit.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

Resale of Affordable units in the Chicago Community Land Trust (CCLT): Concurrent with the execution of the Restrictive Covenant, the Homeowner is executing a HOME Agreement and a separate HOME Recapture Mortgage in favor of the City to secure the HOME Funds Recapture Amount. The CCLT and the Homeowner acknowledge and agree that the Restrictive Covenant is subordinate to the HOME Agreement and HOME Recapture Mortgage and that, in the event of any conflict between the terms and conditions of the HOME Agreement or HOME Recapture Mortgage and the terms and conditions of this Restrictive Covenant, the terms and conditions of the HOME Agreement and HOME Recapture Mortgage shall govern and control.

Homeowners are required to contact DOH to request resale pre-approval of their affordable unit before accepting a real estate contract for sale. The resale request should include all pertinent details and hardships the City should consider in deciding.

Regarding capital improvements to CCLT units, DOH does not assign value to specific capital improvements and will follow an appraisal-based formula because the value of the capital improvement will likely be reflected in the appraised value of the unit. In short, homeowners receive a percentage (typically 20 percent) of any market increase the property has seen since they purchased it.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

DOH's Multi-Family Loan Policies and Procedures shall be utilized to refinance debt on multi-family rental projects, as appropriate. DOH underwriting policies and procedures are designed to guide applicants seeking multi-family loan funds to create or retain affordable housing. The City works to meet all federal and local subsidy standards and best practices through layering reviews. For example, DOH guidelines include acceptable debt coverage ratios, developer fee limits, contingency limits, general contractor's overhead, profit, and general conditions limits, as well as rent and income escalation rates.

5. If applicable to a planned HOME TBRA activity, a description of the preference for persons with special needs or disabilities. (See 24 CFR 92.209(c)(2)(i) and CFR 91.220(l)(2)(vii)). <TYPE=[text] REPORT\_GUID=[A0BBB986408D8C25582AC4BE59FA99C5]>

6. If applicable to a planned HOME TBRA activity, a description of how the preference for a specific category of individuals with disabilities (e.g. persons with HIV/AIDS or chronic mental illness) will narrow the gap in benefits and the preference is needed to narrow the gap in benefits and services received by such persons. (See 24 CFR 92.209(c)(2)(ii) and 91.220(l)(2)(vii)).
7. If applicable, a description of any preference or limitation for rental housing projects. (See 24 CFR 92.253(d)(3) and CFR 91.220(l)(2)(vii)). Note: Preferences cannot be administered in a manner that limits the opportunities of persons on any basis prohibited by the laws listed under 24 CFR 5.105(a).

### **Emergency Solutions Grant (ESG) Reference 91.220(l)(4)**

1. Include written standards for providing ESG assistance (may include as attachment)

The City has included written standards for providing ESG assistance as an attachment to this Draft Action Plan.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

Chicago's Coordinated Entry System was fully implemented for individuals, families and youth in 2017. Mobile outreach teams engage and assess individuals and families on the street who may not have access to the system's entry points community centers, Homeless Prevention Call Center, shelters and designated CES access points. Access points are accessible to anyone seeking assistance throughout Chicago and do not discriminate based on a person's race, color, national origin, religion, sex, age, familial status, disability, or those who are least likely to complete a CES Housing Assessment in the absence of special outreach. Currently, Chicago has 6 designated access points. Chicago also has 3 access points for minors (under the age of 18) located at Comprehensive Community Based Youth Services (CCBYS) funded agencies, and 4 access points for households over 25 and older. Access points are always available by phone and are geographically located on the North, West, and South sides of the city.

The CES standardized housing assessment integrates non-housing resources and uses a progressive assessment to determine needs for diversion and prevention resources. The CES assessment utilizes Vulnerability Index (VI) tools for individuals, families and youth. Households may be referred to homelessness prevention assistance through the Homeless Prevention Call Center or DFSS Community Service Centers if indicated in the diversion screening. The CoC follows system wide prioritization standards for housing matches and generally length of homelessness is the primary

indicator for PSH, while shorter lengths of homelessness are indicators for rapid re-housing. The VI score is used as tiebreaker.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

DFSS issues a request for proposal at a minimum of every two years for all its homeless services, including those funded through ESG and CDBG. These services include emergency and interim shelter, outreach and engagement, permanent supportive housing, rapid rehousing and rental assistance program coordination. Applications are evaluated by a committee of DFSS staff and external partners who are local experts in these program areas. DFSS utilizes standard selection criteria in its RFPs. Grants are awarded for a two-year period, with an option to extend for up to two years. The extension option is contingent upon successful performance of the program and services provided, and upon availability of funds. DFSS advertises funding opportunities through local newspapers, notices to CoC members through All Chicago, and by posting on the DFSS website.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The City of Chicago distributes the annual Action Plan and any substantial amendments to the Chicago CoC Board of Directors. As required by the CoC governance charter, four members of the CoC Board are persons with lived experience of homelessness and DFSS, as the ESG grantee, has a seat on the Board. All Chicago also distributes the Action Plan and substantial amendments to its nearly 600 members and stakeholders, which includes a substantial number of persons with lived homelessness experience. Comments are solicited through the public comment process noted in this Action Plan.

5. Describe performance standards for evaluating ESG.

Performance measures for ESG activities by program model, specific sub-populations, and/or types of delivery are listed below:

**Outreach and Engagement and Housing Navigator Outreach and Engagement:**

- %age and number of encounters resulting in completed CES assessments.
- %age and number of enrolled participants engaged with case management services.
- %age and number of enrolled participants who exit to more stable housing (family, friends, longer-term shelter/housing programs, or permanent housing).

- For Housing System Navigator only: %age of enrolled participants permanently housed.

In addition, a set of more specific indicators and associated targets for these measures that are appropriate to specific sub-populations and types of delivery (listed below) were established by the CoC for these types of programs. Within this framework, DFSS is focused on continuous improvement against these metrics in pursuit of meeting or exceeding those targets over time. We are committed to working with delegate agencies to monitor performance against these indicators, including establishing relevant baselines or benchmarks and sharing data with delegate agencies to assess and understand our progress.

### **Emergency Shelter (Adult/Youth)**

- % receiving needs assessment
- % of assesses participants connect to supportive services at drop-in centers or other community
- Youth Shelter
- % participate in leadership development and community building activities
- Interim Housing (Adult and Youth)

To track progress toward achieving our goals and assess success of the program, DFSS will monitor a set of performance indicators across all shelter programs that may include, but are not limited to:

- %age and number of participants who exit shelter to permanent (or more stable) housing.
- %age and number of participants who exit shelter to permanent (or more stable) housing at each of these time intervals: within 120 days, 180 days, and 270 days of entry.
- %age and number of households assessed for the Coordinated Entry System.
- %age and number of households without source of non-cash benefits at entry that obtained non-cash benefits through mainstream resources.
- %age and number of households that return to homelessness.

To monitor and recognize intermediate progress toward the above performance indicators, DFSS also intends to track output metrics across all shelter programs that may include, but are not limited to:

- Average length of stay in shelter.
- Utilization of shelter bed capacity.
- Number of participants enrolled.
- Number of participants diverted.

The metrics above are aligned with those established and measured by the Chicago CoC for these types of programs and for the CoC system. The DFSS Homeless Services Division is focused on continuous improvement against these metrics. We are committed to working with delegate agencies to monitor improvement in key performance indicators and sharing data with delegate

agencies to assess and understand our progress.

### **HOPWA: Method for Selecting Project Sponsors**

The Department of Public Health (CDPH) makes HOPWA funds available to non-profit community-based organizations utilizing the Request for Proposals (RFP) process for projects and services that benefit low-income people living with HIV/AIDS and their families. The respondents to the RFP must be located within the Chicago Eligible Metropolitan Statistical Area (EMSA). The EMSA consists of the following counties: Cook, DuPage, Grundy, Kendall, McHenry, and Will.

The CDPH publicizes the HOPWA RFP via the City's website, in local and neighborhood newspapers, and through mailing list notices to all CDPH program providers. Announcements are made at planning body meetings such as the Continuum of Care and the Chicago Area HIV Integrated Service Council (CAHISC). Internal email notifications are also sent to CDPH employees to share with their communities and faith-based organizations.

The CDPH convenes panels of community members, HIV service providers, CDPH staff and consumers to collectively review proposals and make recommendations for potential project sponsors. Each panel is racially, ethnically, and geographically diverse. All recommendations of the independent review panels are reviewed by the Deputy Commissioner of the Division of STD/HIV/AIDS and receive final approval from the CDPH Commissioner.

To allocate the CARES Act HOPWA funds, the CDPH Program took the following steps:

1. Received approval from City's OBM division to use the existing 2019 RFP HOPWA delegates portfolio to allocate the resources.
2. The services were allocated according to service delivery capacity.
3. Supportive Services were allocated to the portfolio's only service provider AFC to provide services to 500 clients.
4. Operations Costs were allocated to all services providers on a per client basis.
5. Leasing Services were approved for AFC as a new service provider. The allocation was developed in an algorithm to provide services to about 100 clients.
6. Administration cost covers CDPH's cost to administer the funds received.

## Homeless Prevention

- 100 % of participants will remain in permanent housing after crisis intervention
- 85 % of participants households maintain permanent housing for 6 months reached at 6-12-month follow-up will remain permanently housed
- 80 % of households maintain permanent housing for twelve months
- 60% of participants entering referred through the Homeless Prevention Call Center (311)
- Rapid Rehousing
- 55 % of households will exit to permanent destinations
- 80 % of households exiting to permanent destinations will remain in permanent housing after 3 and 6-month follow-ups
- 70 % of households will not return to homelessness in the following 12 months
- 75% of households will maintain or increase incomes
- 50% of household served will move into housing within 30 days of RRH referral to agency
- The remaining 50 % of households served will move into housing within 60 days of RRH referral to the agency

## Appendix - Alternate/Local Data Sources

1	<b>Data Source Name</b> Annual Homelessness Report
	<b>List the name of the organization or individual who originated the data set.</b> City of Chicago: Department of Family and Support Services and the Department of Housing
	<b>Provide a brief summary of the data set.</b> Analyzes annual trends in homelessness, including system performance, population characteristics, and housing needs.
	<b>What was the purpose for developing this data set?</b> To inform strategy and evaluate progress within Chicagos homelessness response system.
	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b> 2023/2024

	<p><b>Briefly describe the methodology for the data collection.</b></p> <p>Aggregated from HMIS and Point-in-Time Count data collected by Continuum of Care partners.</p>
	<p><b>Describe the total population from which the sample was taken.</b></p> <p>Citywide; includes sheltered and unsheltered individuals across all homeless populations.</p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p> <p>The 2024 Annual Homelessness Report covers about 6,100 individuals from the PIT count and thousands more through HMIS. It includes demographics by age, sex, race/ethnicity, veteran status, disability, and chronic homelessness.</p>
2	<p><b>Data Source Name</b></p> <p>Division on Domestic Violence Strategy Book</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Chicago Department of Family &amp; Support Services (DFSS)</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Outlines the City's strategy to support survivors of domestic violence.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To expand housing and legal services and improve safety outcomes for survivors.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Citywide; focused on survivors of violence including women, children, and isolated groups.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2023. Compiled through interdepartmental stakeholder engagement and service provider feedback.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete</p>
3	<p><b>Data Source Name</b></p> <p>One Chicago Housing Plan Q4 Report</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Chicago Department of Housing (DOH)</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Tracks annual production and preservation of affordable housing units.</p>

	<b>What was the purpose for developing this data set?</b> To monitor the implementation of the City's housing goals and track progress against commitments.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b> Citywide, across various income levels and unit types.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b> 2023 (Q4). Drawn from internal tracking of DOH-funded developments and affordable housing metrics.
	<b>What is the status of the data set (complete, in progress, or planned)?</b> Complete.
4	<b>Data Source Name</b> Blood Lead Data Report
	<b>List the name of the organization or individual who originated the data set.</b> Chicago Department of Public Health (CDPH).
	<b>Provide a brief summary of the data set.</b> Reports on childhood blood lead screening results and geographic distribution of elevated levels.
	<b>What was the purpose for developing this data set?</b> To inform lead hazard abatement and healthy homes initiatives.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b> Citywide; focused on children under age 6.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b> 2023. Based on CDPH childhood blood lead screenings and case investigations.
	<b>What is the status of the data set (complete, in progress, or planned)?</b> Complete.
5	<b>Data Source Name</b> Mental Health System Expansion (MHSE) Report
	<b>List the name of the organization or individual who originated the data set.</b> Chicago Department of Public Health (CDPH).
	<b>Provide a brief summary of the data set.</b> Details strategic plans to expand trauma-informed behavioral health services.

	<p><b>What was the purpose for developing this data set?</b></p> <p>To re-establish community clinics and crisis response as part of the Treatment Not Trauma initiative.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Citywide, with focus on high-need neighborhoods.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2023. Synthesizes clinic expansion plans, utilization data, and program-level evaluations.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete.</p>
6	<p><b>Data Source Name</b></p> <p>Chicago Digital Plan</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Chicago Digital Council</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Assesses barriers to broadband access and digital literacy among low-income communities.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To guide investments in fair internet and technology access citywide.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Citywide; focused on low-income households and underserved neighborhoods.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2023. Collected via citywide resident surveys, digital access reports, and focus groups.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete.</p>
7	<p><b>Data Source Name</b></p> <p>Connected Communities Ordinance</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>City of Chicago</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Ordinance designed to promote fair transit-oriented development and affordable housing access.</p>

	<b>What was the purpose for developing this data set?</b>
	To support housing, transit access, and fair land use near public transportation.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b>
	Citywide, with emphasis on transit-rich, needs-based zones.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b>
	2022. Codified ordinance reflecting planning input and zoning studies; no primary data collection.
	<b>What is the status of the data set (complete, in progress, or planned)?</b>
	Complete.
8	<b>Data Source Name</b>
	Downtown Chicago Multi-Family Submarket Report
	<b>List the name of the organization or individual who originated the data set.</b>
	CoStar Group
	<b>Provide a brief summary of the data set.</b>
	Analyzes multifamily rental trends, rent levels, and development pipeline in Downtown Chicago.
	<b>What was the purpose for developing this data set?</b>
	To track affordability trends and inform market-responsive housing strategies.
	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b>
	2024
	<b>Briefly describe the methodology for the data collection.</b>
	Derived from rental market analytics, property listings, and investment activity monitoring.
	<b>Describe the total population from which the sample was taken.</b>
	Downtown Chicago neighborhoods
	<b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b>
	Downtown Chicago neighborhoods
9	<b>Data Source Name</b>
	Mortgage Market Activity and Trends
	<b>List the name of the organization or individual who originated the data set.</b>
	Consumer Financial Protection Bureau (CFPB)

	<b>Provide a brief summary of the data set.</b> National mortgage data including lending patterns, borrower demographics, and access disparities.
	<b>What was the purpose for developing this data set?</b> To monitor fair lending practices and housing market access across demographic groups.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b> Nationwide, with localized analysis for Chicago submarkets.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b> 2023. Aggregated from Home Mortgage Disclosure Act (HMDA) filings submitted by lenders.
	<b>What is the status of the data set (complete, in progress, or planned)?</b> Complete.
10	<b>Data Source Name</b> Tax Year Bill Analysis
	<b>List the name of the organization or individual who originated the data set.</b> Cook County Treasurers Office
	<b>Provide a brief summary of the data set.</b> Analyzes property tax burdens, with attention to racial and geographic disparities.
	<b>What was the purpose for developing this data set?</b> To inform tax fairness, affordability, and anti-displacement policy responses.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b> Cook County, with emphasis on Chicagos South and West Sides.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b> 2023. Calculated using parcel-level property tax data and demographic overlays.
	<b>What is the status of the data set (complete, in progress, or planned)?</b> Complete
11	<b>Data Source Name</b> Regional Assessment of Fair Housing
	<b>List the name of the organization or individual who originated the data set.</b> Enterprise Community Partners, Cook County, CMAP, and City of Chicago

	<p><b>Provide a brief summary of the data set.</b></p> <p>Joint analysis identifying fair housing barriers and recommending fairness strategies for the region.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To guide local jurisdictions in advancing fair housing goals through HUDs AFFH rule.</p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p> <p>2019-2020</p>
	<p><b>Briefly describe the methodology for the data collection.</b></p> <p>Developed through interagency data sharing, mapping, and resident outreach on housing barriers.</p>
	<p><b>Describe the total population from which the sample was taken.</b></p> <p>Chicago metro region including Cook County and surrounding municipalities.</p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p> <p>Chicago metro region including Cook County and surrounding municipalities.</p>
12	<p><b>Data Source Name</b></p> <p>American Healthy Homes Survey II: Lead Findings</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>U.S. Department of Housing and Urban Development (HUD)</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Nationwide assessment of lead-based paint risks by housing type, age, and occupant demographics.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To inform federal and local lead mitigation policies and target at-risk housing stock.</p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p> <p>2019.</p>
	<p><b>Briefly describe the methodology for the data collection.</b></p> <p>In-home environmental testing across a national housing sample using XRF devices and dust wipe tests.</p>
	<p><b>Describe the total population from which the sample was taken.</b></p> <p>National; includes housing data applicable to older units in Chicago.</p>

	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p> <p>National; includes housing data applicable to older units in Chicago.</p>
<b>13</b>	<p><b>Data Source Name</b></p> <p>Homelessness Mortality and Morbidity Report</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Illinois Department of Public Health (IDPH)</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Analyzes death rates, causes, and health disparities among people experiencing homelessness.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To guide public health and housing interventions targeting at-risk populations.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Statewide with data on Chicagos homeless population.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2017-2022. Compiled from death certificates and hospital discharge data for individuals flagged as unhoused.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete</p>
	<b>14</b>
<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Illinois Interagency Task Force on Homelessness</p>	
<p><b>Provide a brief summary of the data set.</b></p> <p>Statewide strategic plan to prevent and end homelessness through cross-agency coordination.</p>	
<p><b>What was the purpose for developing this data set?</b></p> <p>To align homelessness prevention efforts across state and local systems.</p>	
<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Illinois, including targeted strategies for Chicago.</p>	

	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2023. Aggregates interagency performance metrics and stakeholder input from state-funded programs.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete.</p>
15	<p><b>Data Source Name</b></p> <p>ALL INSide Federal Initiative</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>U.S. Interagency Council on Homelessness (USICH)</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Federal-local partnership to reduce unsheltered homelessness in major cities.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To support Chicago and other cities with cross-system collaboration and technical assistance.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Targeted to participating cities, including Chicago.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>Launched 2023. Aggregates city-level data from federal homelessness databases, PIT counts, and performance metrics.</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>In Progress.</p>
16	<p><b>Data Source Name</b></p> <p>State of Rental Housing in Chicago</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Institute for Housing Studies at DePaul University</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Analyzes rental affordability, rent burden trends, and the loss of naturally occurring affordable housing (NOAH).</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To guide local housing policy and preservation strategies for vulnerable renters.</p>

	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b> 2023.
	<b>Briefly describe the methodology for the data collection.</b> Rental market and demographic data pulled from Cook County and Chicago administrative sources.
	<b>Describe the total population from which the sample was taken.</b> City of Chicago, with breakdowns by submarket and neighborhood.
	<b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b> City of Chicago, with breakdowns by submarket and neighborhood.
<b>17</b>	<b>Data Source Name</b> Key Housing Challenges in the City of Chicago
	<b>List the name of the organization or individual who originated the data set.</b> Institute for Housing Studies at DePaul University
	<b>Provide a brief summary of the data set.</b> Research memo identifying affordability challenges, senior housing gaps, and the impact of rising property taxes.
	<b>What was the purpose for developing this data set?</b> To inform Consolidated Plan priorities and data-driven housing strategies.
	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b> Based on housing data review, property tax records, and demographic projections.
	<b>Briefly describe the methodology for the data collection.</b> 2023.
	<b>Describe the total population from which the sample was taken.</b> Chicago neighborhoods and citywide trends.
	<b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b> Chicago neighborhoods and citywide trends.
<b>18</b>	<b>Data Source Name</b> HOPWA CAPER and HOPWA Beneficiary Verification WS
	<b>List the name of the organization or individual who originated the data set.</b> U.S. Department of Housing and Urban Development (HUD)

	<p><b>Provide a brief summary of the data set.</b></p> <p>Annual reports tracking housing and service outcomes for persons with HIV/AIDS.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To meet HUD reporting requirements and guide service delivery through HOPWA.</p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p> <p>Chicago EMSA (Eligible Metropolitan Statistical Area). Derived from HUD grantee self-reported annual performance and beneficiary tracking tools.</p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>2024 (most recent used).</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p> <p>Complete.</p>
19	<p><b>Data Source Name</b></p> <p>CHAS and ACS Housing Data Sets</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>U.S. Department of Housing and Urban Development (HUD) and U.S. Census Bureau</p>
	<p><b>Provide a brief summary of the data set.</b></p> <p>Quantifies housing cost burdens, demographics, and needs by income and household type.</p>
	<p><b>What was the purpose for developing this data set?</b></p> <p>To inform federally-required housing market and needs assessments.</p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p> <p>2016-2020 (CHAS), 2020 ACS 5-Year Estimates.</p>
	<p><b>Briefly describe the methodology for the data collection.</b></p> <p>Combines U.S. Census ACS data with HUD-modeled CHAS metrics on cost burden and housing need.</p>
	<p><b>Describe the total population from which the sample was taken.</b></p> <p>Nationwide data with local breakdowns for Chicago.</p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p> <p>Nationwide data with local breakdowns for Chicago.</p>
20	<p><b>Data Source Name</b></p> <p>HUD Continuum of Care, 2018</p>

	<b>List the name of the organization or individual who originated the data set.</b> U.S. Department of Housing and Urban Development (HUD)
	<b>Provide a brief summary of the data set.</b> National-level Continuum of Care homelessness performance data.
	<b>What was the purpose for developing this data set?</b> To benchmark local homeless response system data and funding needs.
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b> National, with application to Chicago CoC performance comparisons.
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b> 2018. National data compiled from HUD CoC grantee reporting, PIT counts, and HUD-administered dashboards.
	<b>What is the status of the data set (complete, in progress, or planned)?</b> Complete.
21	<b>Data Source Name</b> HIV/STI Surveillance Report 2018
	<b>List the name of the organization or individual who originated the data set.</b> Chicago Department of Public Health (CDPH)
	<b>Provide a brief summary of the data set.</b> Provides detailed data on HIV and STI diagnoses, prevalence, and trends across Chicago, disaggregated by demographic and geographic factors.
	<b>What was the purpose for developing this data set?</b> To monitor the burden of HIV/STIs, inform public health interventions, and guide funding and programming through HOPWA and related services.
	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b> 2018
	<b>Briefly describe the methodology for the data collection.</b> Data compiled from laboratory reporting systems, provider case reports, and surveillance databases maintained by CDPH.
	<b>Describe the total population from which the sample was taken.</b> Citywide; focused on individuals living with or at risk for HIV/STIs, including subpopulations by age, race/ethnicity, sex, and transmission risk.

	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p> <p>Includes thousands of reported cases across all age groups; characteristics tracked include sex, race/ethnicity, age, and transmission category (e.g., MSM, heterosexual contact, injection drug use).</p>
<b>22</b>	<p><b>Data Source Name</b></p> <p>2015 Longitudinal Employer-Household Dynamics</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p>
	<p><b>Provide a brief summary of the data set.</b></p>
	<p><b>What was the purpose for developing this data set?</b></p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p>
	<p><b>Briefly describe the methodology for the data collection.</b></p>
	<p><b>Describe the total population from which the sample was taken.</b></p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p>
<b>23</b>	<p><b>Data Source Name</b></p> <p>Homeless Management Information System (HMIS)</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p>
	<p><b>Provide a brief summary of the data set.</b></p>
	<p><b>What was the purpose for developing this data set?</b></p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p>

	<b>Briefly describe the methodology for the data collection.</b>
	<b>Describe the total population from which the sample was taken.</b>
	<b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b>
<b>24</b>	<b>Data Source Name</b> Chicago Housing Authority, 2018
	<b>List the name of the organization or individual who originated the data set.</b> Chicago Housing Authority
	<b>Provide a brief summary of the data set.</b>
	<b>What was the purpose for developing this data set?</b>
	<b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b>
	<b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b>
	<b>What is the status of the data set (complete, in progress, or planned)?</b>
<b>25</b>	<b>Data Source Name</b> 2012-2016 ACS
	<b>List the name of the organization or individual who originated the data set.</b>
	<b>Provide a brief summary of the data set.</b>
	<b>What was the purpose for developing this data set?</b>
	<b>Provide the year (and optionally month, or month and day) for when the data was collected.</b>

	<p><b>Briefly describe the methodology for the data collection.</b></p>
	<p><b>Describe the total population from which the sample was taken.</b></p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p>
<b>26</b>	<p><b>Data Source Name</b></p> <p>2012-2016 ACS and 2006-2010 ACSa</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p>
	<p><b>Provide a brief summary of the data set.</b></p>
	<p><b>What was the purpose for developing this data set?</b></p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p>
	<p><b>What time period (provide the year, and optionally month, or month and day) is covered by this data set?</b></p> <p>Source: 2012-2016 ACS and 2006-2010 ACS</p>
	<p><b>What is the status of the data set (complete, in progress, or planned)?</b></p>
<b>27</b>	<p><b>Data Source Name</b></p> <p>2012-2016 ACS and 2006-2010 ACS</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p>
	<p><b>Provide a brief summary of the data set.</b></p>
	<p><b>What was the purpose for developing this data set?</b></p>
	<p><b>Provide the year (and optionally month, or month and day) for when the data was collected.</b></p>

	<p><b>Briefly describe the methodology for the data collection.</b></p>
	<p><b>Describe the total population from which the sample was taken.</b></p>
	<p><b>Describe the demographics of the respondents or characteristics of the unit of measure, and the number of respondents or units surveyed.</b></p>
<b>28</b>	<p><b>Data Source Name</b></p> <p>Estimated Vacant Units</p>
	<p><b>List the name of the organization or individual who originated the data set.</b></p> <p>Department of Planning and Development</p>
	<p><b>Provide a brief summary of the data set.</b></p>
	<p><b>What was the purpose for developing this data set?</b></p>
	<p><b>How comprehensive is the coverage of this administrative data? Is data collection concentrated in one geographic area or among a certain population?</b></p>
