How to Prevent your Pets from Starting Fires:

Never leave pets alone around an open flame. If your pet is rowdy, it's best to avoid candles.

Pet-proof your house. Keep hazards out of paw's reach, like flammables or electrical wires.

Have an emergency plan with a safe location to take your pet after a house fire.

Make sure your pet is microchipped or wearing ID in case you get separated during a fire.

Make sure smoke alarms are functioning properly, and educate your family on fire safety.

Prevent pets from touching stovetop controls, and be mindful of pets while in the kitchen.

Smart911.com™
Because we want your pets to be safe.

500,000 pets are affected by home fires each year.

Protect your pets in an emergency with Smart911.

500,000 pets are affected by home fires each year.

Protect your pets in an emergency with Smart911.

Smart911.com™
Because we want your pets to be safe.

Family
Include all members of your household, including their photos. You can also add all landlines and mobile numbers and who they belong to.
Address Details
Let responders know how to access your home, bedrooms, utility shut offs, and if you live in a multi-unit building.

Medical Information
EMS can be aware of medical conditions, medications, and if special equipment will be needed in an emergency.

Animals
Add your pets, service animals, and livestock, including their names and vet information so responders are aware of them if they need to enter your home.

Vehicles
Add details such as make, model, and license plate number in the event of an accident.

Emergency Contacts
Include family members, friends, or neighbors who should be contacted in the event of an emergency.
