WHEREAS, the Zoning Board of Appeals, having fully heard the testimony and arguments of the parties and being fully advised in the premises, hereby makes the following findings of fact: The appellant in this case would like to vary the height of the commercial space on the first floor from the required 13' to 11'. The height variation was an agreement that the developer made with the community and the alderman. The community feels that if the building were permitted to be built without the variation it would be out of character with the neighborhood. The building shall be 51'4" in height which is considerably less than is permitted under the current zoning designation. The alderman appeared and has endorsed the request. The Board will grant the reduction in height of the first floor to 11' instead of 13'. The decision of the Zoning Administrator is reversed.

NATURE OF REQUEST: Application for a variation under Article 11 of the zoning ordinance to permit, in an RT-4 Residential Two-Flat, Townhouse and Multi-Unit District, a proposed 3-story 7 dwelling unit building which will have only 6 parking spaces due to a rolling gate system at the rear of the parcel. The Applicant requests a waiver of one required parking space.

WHEREAS, a public hearing was held on this application by the Zoning Board of Appeals at its regular meeting held on April 21, 2006, after due notice thereof as provided under Section 17-13-0107A and by publication in the Chicago Sun-Times on March 28, 2006; and

WHEREAS, the Zoning Board of Appeals, having fully heard the testimony and arguments of the parties and being fully advised in the premises, hereby finds the following: The applicant has filed a variation to reduce the rear yard to zero instead of the required 42' in order to install a 10' high 50' long fence and to request the waiver of one required parking space. The parcel measures 50' x 150' and is located in an RT-4 zoning district. The property contains 7 dwelling units and was constructed with 7 parking spaces as per permit. The applicant subsequently erected, without a permit, a set of three rolling gates as a fence at the rear of the lot line. The opening of Over Head Roll-In Door (hereafter "gate") are 16 feet, 15 feet 4 inches and 16 feet respectively. The center Over Head Roll-In-Door opening measures 15 feet 4 inches and contains one parking space at 7'-4" and 8' driveway to access two additional parking spaces. A required parking space measures 8' x 18" (§ 17-10-1000). The 7'-4' parking space does not fulfill the requirement of a parking space and the applicant asks that it be waived. The applicant also asks that the rear yard be reduced to zero to allow the construction of the over head roll in doors and the supporting structure.

The Zoning Board of Appeals may not approve a variation unless it makes findings, based upon evidence presented to it in each specific case, that:

1. strict compliance with regulations and standards of this Zoning Ordinance would create practical hardships for the subject property; and
2. the requested variation is consistent with the stated purpose and intent of this Zoning Ordinance (See Sec. 17-1-0500)

APPEARANCES AGAINST: None

PREMISES AFFECTED: 1432 W. Berteau Avenue

NATURE OF REQUEST: Appeal from the decision of the Office of the Zoning Administrator in refusing to allow the height of a garage (accessory building) to be 20' instead of required 15' (17-9-0201-E) in an RS-3 Residential Single-Unit District.

ACTION OF BOARD--THE DECISION OF THE ZONING ADMINISTRATOR IS AFFIRMED

THE RESOLUTION:

WHEREAS, the decision of the Office of the Zoning Administrator rendered, reads: "Application not approved. Requested certification does not conform with the applicable provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, specifically, Section 17-13-1200."

and

WHEREAS, a public hearing was held on this application by the Zoning Board of Appeals at its regular meeting held on August 19, 2005; and

WHEREAS, the district maps show that the premises is located in an RS-3 Residential Single-Unit District; and

WHEREAS, the Zoning Board of Appeals, having fully heard the testimony and arguments of the parties and being fully advised in the premises, hereby makes the following findings of fact: The Board finds this case concerns the appellant’s request to build a garage that measures 20 feet to the peak of the roof. The Board has seen at least four previous appeals to increase the heights of garages. The Board has denied each case. The Board finds the height of an accessory building (garage) shall be no more than 15 feet as measured from grade to the top most point of the structure. Counsel for the homeowner submitted a brief in support of his position. Counsel claims the Board has authority to grant variations or special uses. This is true but this case is an appeal. The appellant is required to prove the Zoning Administrator was in error when he failed to allow the homeowner to construct a garage over 15 feet in actual height. The Zoning Administrator determined that the appellant’s garage exceeded the 15 foot height limitation and therefore was not permitted. The Board finds the appellant has not proven that the Zoning Administrator’s decision is in error. The appellant has stated different interpretation of measuring the height of an accessory building. The Board will deny his appeal and the decision of the Zoning Administrator is affirmed.
