

Landmarks Ordinance

and the Rules and Regulations of the Commission on Chicago Landmarks

CITY OF CHICAGO
LORI E. LIGHTFOOT, MAYOR

Commission on Chicago Landmarks
Rafael M. Leon, Chairman

Reprinted September 16, 2019

The Commission on Chicago Historical and Architectural Landmarks was created in 1957 by the City Council. It served primarily as an advisory board, whose principal purpose was to compile a list of significant buildings.

In 1968, the City Council adopted a landmarks ordinance that gave the Commission the responsibility of recommending to the Council which specific landmarks should be protected by law. The ordinance also gave the Commission the authority to review building permits for landmarks, to ensure that any proposed alterations would not negatively affect the character of the landmark.

In 1987, the ordinance was revised to more clearly articulate the processes for landmark designation and permit review and to add an economic hardship provision for owners. The Commission also was renamed the Commission on Chicago Landmarks at that time.

In 1997 and 1999, other revisions were made to the ordinance, including regarding the status of “pending” landmarks, the waiving of permit fees for owners of landmark properties, and requiring review by the City Council of any demolitions approved by the Commission. In 2009, the Commission membership was expanded from 9 to 10 members (to add an additional ex-officio member as part of a city department reorganization). Effective January 1, 2011, the ordinance was amended to return the membership of the Commission from ten to nine members (including one ex-officio member).

As of February 3, 2011, when this document was printed, there were 349 designated landmarks: 296 individual landmarks and 53 landmark districts and 7 district extensions.

[Criteria for Landmark Designation]

2-120-620 Criteria. The Commission shall familiarize itself with areas, districts, places, buildings, structures, works of art, and other objects within the City of Chicago which may be considered for designation by ordinance as "Chicago Landmarks," and maintain a register thereof. In making its recommendation to the City Council for designation, the Commission shall limit its consideration solely to the following criteria concerning such area, district, place, building, structure, work of art, and other objects:

1. Its value as an example of the architectural, cultural, economic, historic, social, or other aspect of the heritage of the City of Chicago, State of Illinois, or the United States.
2. Its location as a site of a significant historic event which may or may not have taken place within or involved the use of any existing improvements.
3. Its identification with a person or persons who significantly contributed to the architectural, cultural, economic, historic, social, or other aspect of the development of the City of Chicago, State of Illinois, or the United States.
4. Its exemplification of an architectural type or style distinguished by innovation, rarity, uniqueness, or overall quality of design, detail, materials, or craftsmanship.
5. Its identification as the work of an architect, designer, engineer, or builder whose individual work is significant in the history or

development of the City of Chicago, the State of Illinois, or the United States.

6. Its representation of an architectural, cultural, economic, historic, social, or other theme expressed through distinctive areas, districts, places, buildings, structures, works of art, or other objects that may or may not be contiguous.
7. Its unique location or distinctive physical appearance or presence representing an established and familiar visual feature of a neighborhood, community, or the City of Chicago.

[Landmark Designation Process]

2-120-630 Preliminary Recommendation. The Commission may, by resolution, make a preliminary landmark recommendation if the Commission determines that an area, district, place, building, structure, work of art, or other object: (1) meets two or more of the criteria required for landmark designation, and (2) has a significant historic, community, architectural or aesthetic interest or value, the integrity of which is preserved in light of its location, design, setting, materials, workmanship, and ability to express such historic, community, architectural, or aesthetic interest or value. The Commission shall send, by certified mail, return receipt requested, written notice of such recommendation to the owner of the property. The Commission shall also notify in writing the alderman of each ward in which the property is located and all relevant City departments. [Amend.2/26/97]

2-120-640 Request for Planning Report. Upon adoption of a resolution making a preliminary recommendation, the Commission shall request a report from the Commissioner of Housing and Economic Development which evaluates the relationship of the proposed designation to the Comprehensive Plan of the City of Chicago and the effect of the proposed designation on the surrounding neighborhood. The report shall also include the Commissioner's opinion and recommendations regarding any other planning considerations relevant to the proposed designation and the Commissioner's recommendation of approval, rejection, or modification of the proposed designation. The report shall be submitted to the Commission within 60 days of the request, if the proposed designation is of an area, place, building, structure, work of art, or other object, or within 90 days, if the proposed designation is a district, and shall become part of the official record concerning the proposed designation. The Commission may make such modifications, changes, and alterations concerning the proposed designation as it deems necessary in consideration of any recommendation of the Commissioner of Housing and Economic Development. If the Commissioner declines or fails to submit a report within the time

provided herein, the Commission may proceed with designation.
[Amend. 1/1/11]

2-120-650 Request for Owner Consent. The Commission shall thereafter, by first-class mail, notify the owner of the property of the reasons for and effects of the proposed designation and request that the owner consent in writing to the proposed designation. The owner shall respond within 45 days from the date of mailing of the request. In the case of the proposed designation of an area, place, building, structure, work of art, or other object, the owner may, within the 45-day period, request an extension of time, not to exceed 120 days, to submit a response. In the case of the proposed designation of a district, the alderman of a ward in which the district is wholly or partly located may, within the 45-day period, request an extension of time, not to exceed 120 days, for owners to submit responses. If the owner consents to designation, the Commission shall notify the owner of its determination with respect to the proposed designation within 45 days after receipt of the owner's consent and shall forward its recommendation to the City Council as provided in Section 2-120-690. If the owner declines or fails to give written consent to the proposed designation within the time specified in this Section, the Commission shall schedule a public hearing on the proposed designation.

2-120-660 Building Owned by a Religious Organization. No building that is owned by a religious organization and is used primarily as a place for the conduct of religious ceremonies shall be designated as a historical landmark without the consent of its owner.

2-120-670 Notice of Public Hearing. Prior to conducting a public hearing under this Chapter 2-120, the Commission shall give written notice of the date, time, and place of the hearing to any owner of the subject property. The Commission shall also cause to be posted, for a period of not less than 15 days immediately preceding the hearing, a notice stating the time, date, place, and matter to be considered at the hearing. The notice shall be prominently displayed on the place, building, object, or structure or on the public ways abutting the property, and, in the case of designation of areas or districts, the notices shall be placed on the principal boundaries thereof. In addition, not less than 15 days prior to the hearing, the Commission shall cause a legal notice to be published in a newspaper of general circulation in the City of Chicago setting forth the nature of the hearing, the property, area, or district involved, and the date, time, and place of the scheduled public hearing.

2-120-680 Public Hearing on Designation. The Commission shall provide a reasonable opportunity for all interested persons to present testimony or evidence under such rules as the Commission may adopt governing the proceedings of a hearing. At the hearing each speaker shall state his name, address, and the interest which he represents. The hearing may be continued to a date certain, and a transcript and record shall be kept of all proceedings. A person, organization, or other

Excerpts From The Municipal Code Of Chicago

legal entity whose use or whose members' use or enjoyment of the area, district, place, building, structure, work of art, or other object proposed for designation may be injured by the designation or the failure of the Commission to recommend designation may become a party to a designation proceeding. Any person, organization, or other legal entity whose use or enjoyment of the area, district, place, building, structure, work of art, or other object designated as a landmark may be injured by the approval or disapproval of a proposed alteration, construction, reconstruction, erection, demolition, or relocation of a proposed or designated landmark may become a party to a permit application proceeding. The foregoing shall include, without limitation, persons, organizations, or other legal entities residing in, leasing, or having an ownership interest in real property located within 500 feet of the property line of the proposed or designated landmark or within the proposed or designated landmark district.

2-120-690 Commission Recommendation following hearing. Within 30 days after the conclusion of a public hearing, the Commission shall determine whether to recommend the proposed landmark designation to the City Council. If the Commission makes a determination to recommend a designation to the City Council, it shall set forth its recommendation in writing including findings of fact relating to the criteria for designation in Section 2-120-620 that constitute the basis for its decision and shall transmit its recommendation to the City Council, to the owner of the property, and to the parties appearing at the public hearing. If 51 percent of the owners of the property in a district responding to the request for consent file written objections to designation, a recommendation of landmark designation of that district must be approved by the affirmative vote of six members of the Commission. The Commission shall also transmit to the City Council the official record of its proceedings concerning the recommended designation. If the proposed designation is of an area, place, building, structure, work of art, or other object, the Commission shall transmit its recommendation to the City Council within 180 days from the date of receipt of the report of the Commissioner of Housing and Economic Development, or, if no report has been received, within 240 days from the date of the Commission's request for the report. If the proposed designation is of a district, the Commission shall transmit its recommendation to the City Council within 240 days from the date of receipt of the report of the Commissioner of Housing and Economic Development, or, if no report has been received, within 330 days from the date of the Commission's request for the report. If, however, an extension of time has been granted under Section 2-120-650, the time allowed for submission under this section shall be extended by the same number of days. [Amend. 1/1/11]

2-120-700 City Council Consideration of Designation. The City Council shall give due consideration to the findings, recommendations,

Excerpts From The Municipal Code Of Chicago

and record of the Commission in making its determination with respect to the proposed designation of any area, district, place, building, structure, work of art, or other object having a significant historic, community, architectural, or aesthetic interest or value. The City Council may, in its discretion, hold public hearings on any such recommended designation. The City Council may by ordinance designate an area, district, place, building, structure, work of art, or other object: (1) meeting two or more of the criteria stated in Section 1-120-620 hereof, and (2) having a significant historic, community, architectural or aesthetic interest or value, the integrity of which is preserved in light of its location, design, setting, materials, workmanship, and ability to express such historic, community, architectural, or aesthetic interest or value, as a "Chicago Landmark." The City Council may direct that a suitable plaque or plaques be created by the Commission appropriately identifying said landmark. The plaque may be affixed to private property only if the owner or owners consent in writing. [Amend.2/26/97]

2-120-705 Time In Which Recommendation May Be Considered. If the City Council does not take final action upon any landmark recommendation submitted by the Commission on Chicago Landmarks to the City Council within 365 days of the date upon which the recommendation is filed with the City Council, landmark designation based upon the recommendation of the Commission shall be granted. The Historical Landmark Preservation Committee of the City Council shall hold timely hearings and report its recommendation to the City Council. [Amend. 2/26/97]

2-120-710 Preservation Easements. The Commission may consider and recommend to the City Council the adoption of a preservation easement for any designated landmark or for any building, area, district, or place which meets the criteria for landmark designation. If an owner of any property proposes to the Commission a preservation easement, the Commission shall hold a public hearing on the proposal in accordance with Sections 2-120-670 and 2-120-680 prior to recommending that the City Council accept the proposed easement.

2-120-720 Notice of Designation. Immediately following official designation by the City Council or pursuant to Section 2-120-705, the Commission shall notify the Department of Buildings of the City of Chicago of the designation. The Commission shall also, within 10 days of the official designation, send a notice of the designation and a summary of the effects of designation to the owner of the property by first-class mail. The Commission shall also file with the Recorder of Deeds of Cook County, the Assessor of Cook County, the Bureau of Maps and Plats of the City of Chicago, and all other relevant City departments, a certified copy of the designation ordinance.

2-120-730 Amendment, Recision, and Reconsideration. Any designation of an area, district, place, building, structure, work of art, or other similar object as a "Chicago Landmark" shall only be amended or rescinded in the same manner and procedure as the original designation was made. If the Commission votes not to recommend a proposed designation to the City Council or if the City Council has refused to designate a proposed "Chicago Landmark," then the Commission may reconsider such proposed designation only if: (1) the Commission finds that a substantial change in circumstances has occurred or new information becomes available relative to the criteria set forth in Section 2-120-620; or (2) the owner of the property consents to such reconsideration in writing.

[Permit Review Process]

2-120-740 Alteration, Relocation, or Demolition of Landmarks -- Permit Review Requirements. No permit for alteration, construction, reconstruction, erection, demolition, relocation, or other work shall be issued to any applicant by any department of the City of Chicago without the written approval of the Commission for any area, district, place, building, structure, work of art, or other object for which the Commission has made a preliminary recommendation for landmark status or which has been designated as a "Chicago Landmark" in the following instances: (1) where such permit would allow the alteration or reconstruction of or addition to any improvement which constitutes all or a part of a landmark or proposed landmark; or (2) where such permit would allow the demolition of any improvement which constitutes all or a part of a landmark or proposed landmark; or (3) where a permit would allow the construction or erection of any addition to any improvement or the erection of any new structure or improvement on any land within a landmark district; or (4) where a permit would allow the construction or erection of any sign or billboard within the public view which may be placed on, in, or immediately adjacent to any improvement which constitutes all or part of any landmark or proposed landmark. Any City department which receives an application for a permit as defined in this section shall forward the application, including copies of all detailed plans, designs, elevations, specifications, and documents relating thereto, to the Commission within seven days of receipt thereof. It shall be a violation of this ordinance for an owner to perform, authorize, or allow work or other acts requiring review without a permit.

2-120-750 Permit Review for Pre-Existing Work. Erection, construction, reconstruction, alteration, or demolition work begun pursuant to a properly issued permit prior to a preliminary recommendation for landmark status shall not be subject to review by the Commission unless such permit has expired, been canceled or revoked, or

Excerpts From The Municipal Code Of Chicago

the work is not diligently proceeding to completion in accordance with the Chicago Building Code.

2-120-760 Preliminary Decision by Commission. Within 15 days of its receipt of an application for a permit, as defined in Section 2-120-740, the Commission shall issue in writing a preliminary decision approving or disapproving the application and shall notify the applicant and the appropriate City departments of its preliminary decision.

2-120-770 Preliminary Approval of Permit by Commission. If the Commission finds that the proposed work will not adversely affect any significant historical or architectural feature of the improvement or of the district, and is in accord with the Standards for Rehabilitation set forth by the United States Secretary of the Interior at 36 C.F.R. 67, as amended from time to time, as well as the Commission's published procedures, the Commission shall issue a preliminary approval of the application. Upon receipt of the Commission's preliminary approval, the appropriate City department shall proceed in its usual matter with its own review of the application. No substantial change shall be made to the work proposed in the application for the permit after approval by the Commission without resubmittal to the Commission and approval thereof in the same manner as for the original application.

2-120-780 Preliminary Disapproval of Permit by Commission. If the Commission finds that the proposed work will adversely affect or destroy any significant historical or architectural feature of the improvement or of the district or is inappropriate or inconsistent with the designation of the structure, area, or district or is not in accordance with the spirit and purposes of this ordinance or does not comply with the Standards for Rehabilitation established by the Secretary of the Interior, the Commission shall issue a preliminary decision disapproving the application for permit; provided, however, that if the construction, reconstruction, alteration, repair, or demolition of any improvement would remedy conditions imminently dangerous to life, health, or property, as determined in writing by the Department of Buildings, or the Board of Health, or the Fire Department, the Commission shall approve the work notwithstanding other considerations relating to its designation as a "Chicago Landmark" or to the fact that the Commission has made a preliminary recommendation for landmark status.

2-120-790 Informal Conference. Within 10 days after receiving the Commission's notice of preliminary disapproval, the applicant for permit may request in writing an informal conference before the Commission for the purpose of securing compromise regarding the proposed work so that the work will not in the opinion of the Commission adversely affect any significant historical or architectural feature of the improvement or district and will be appropriate and consistent with the spirit and purposes of this ordinance. The

Excerpts From The Municipal Code Of Chicago

Commission shall hold such conference within 15 days after receipt of the request. The Commission shall consider with the applicant every means for substantially preserving, protecting, enhancing, and perpetuating the special historical or architectural feature of the improvement or district, including investigating the possibility of modifying the proposed work, the possibility of any alternative private use of the structure or structures that would substantially preserve its special features, and the possibility of public incentives for enhancing the use of the structure or structures or district involved. If the Commission and the applicant for permit reach accord through the informal conference, the Commission shall issue its approval of the application for permit as modified and so notify the applicant and the appropriate City departments in accordance with Sections 2-120-760 and 2-120-770.

2-120-800 Public Hearing on Permit Application. If within 30 days after the conclusion of an informal conference under Section 2-120-790, the Commission and applicant for permit have failed to reach accord or if the applicant fails to request an informal conference within 10 days of receiving notice as provided in Section 2-120-790 [also see Article IV-E of the *Rules and Regulations*], the Commission shall commence a public hearing on the permit application in accordance with Sections 2-120-670 and 2-120-680. The public hearing shall be concluded within 90 days after the Commission has disapproved the permit unless the applicant requests or agrees in writing to an extension of time. The Commission shall, within 30 days after the conclusion of the hearing, issue a written decision approving or disapproving the permit application. The decision shall contain the findings of fact that constitute the basis for the decision consistent with the criteria in Section 2-120-740. The Commission shall send written notice of its decision to the applicant by certified mail return receipt requested, to the appropriate City departments, to all parties registered at the public hearing, and to the City Council.

2-120-810 Final Commission Decision. Unless the decision is subject to City Council review under Section 2-120-825, the written decision of the Commission approving or disapproving an application for a permit under Section 2-120-800 shall be on the date it issues a final administrative decision appealable to the Circuit Court of Cook County under the provisions of the Illinois Administrative Review Act, Ill. Rev. Stat. Chapter 110. Sec. 3-101 *et seq.* (1985).

2-120-815 Permit Fee Waivers. Notwithstanding any other provision of this code to the contrary, the City Council shall, by the passage of an appropriate order, waive any fees charged by the City of Chicago for the issuance of any permit for which approval of the Commission is required pursuant to this chapter. [Added 2/26/97]

2-120-820 Expedited Consideration of Designation and Permit.

Notwithstanding any other provision in this ordinance, if an owner of an area, parcel within a district, place, building, structure, work of art, or other object for which the Commission has made a preliminary recommendation pursuant to Section 2-120-630 applies for a permit, and if the Commission issues a preliminary disapproval of the application, pursuant to Sections 2-120-760 and 2-120-780, the Commission shall schedule and conduct a public hearing on both the proposed designation and the application for permit and shall notify the City Council of its recommendations thereon within 90 days of the date the application for permit is received by the Commission. If the Commission fails to make its recommendation on designation to the City Council within 90 days, then the application for the permit shall be deemed approved by the Commission. If the Commission submits its recommendation within 90 days and the City Council does not pass an ordinance granting the proposed designation within 90 days after the recommendation of the Commission, then the application for permit shall be deemed approved by the Commission.

2-120-825 Permits for Demolition of Landmarks - City Council Approval Required.

(a) Notwithstanding any other provision of this ordinance to the contrary, except as provided in subsection (c), in the case of any permit application for the demolition of 40% or more of any building or other structure designated as a “Chicago Landmark” or located in any district designated as a “Chicago Landmark”, the Commission’s decision approving an application issued under Section 2-120-770, Section 2-120-790 or Section 2-120-800 shall be subject to review by the City Council. Upon issuing its decision approving an application, the Commission shall forward a recommendation for the approval of the permit application, in writing, to the Committee on Historical Landmark Preservation of the City Council. Within 75 days after the receipt of the Commission’s recommendation, the Committee on Historical Landmark Preservation shall vote to consider the Commission’s recommendation and vote to recommend that the City Council accept or reject the Commission’s recommendation. At the next regular meeting of the City Council following the following the Committee’s vote, unless the matter is deferred and published in accordance with state law, the City Council shall, by passage of an appropriate order, accept or reject the Commission’s recommendation. If the matter is deferred and published, the City Council shall, by passage of an appropriate order, accept or reject the Commission’s recommendation at the next regular meeting of the City Council following the meeting at which the matter was deferred and published. If the City Council does not accept or reject the Commission’s recommendation within the time specified herein, the Commission’s recommendation shall be deemed to be accepted. The City Council’s decision shall be based on whether the proposed demolition will adversely

affect any significant historical or architectural feature of the improvement or the district, and is in accord with the Standards for Rehabilitation set forth by the United States Secretary of the Interior at 36 C.F.R. 67, as amended from time to time, as well as the criteria to review demolition as set forth in the Rules and Regulations of the Commission.

This plan may include, but is not limited to, property tax relief, loans or grants from the City of Chicago or other public or private sources, acquisition by purchase or eminent domain, building code modifications, changes in applicable zoning regulations including a transfer of development rights, or relaxation of the provisions of this ordinance sufficient to allow reasonable beneficial use of or return from the property.

a. *Participation.* A party to a designation proceeding shall be permitted to make a presentation for or against the proposed landmark designation. Such presentation may include an oral or written statement, documents, photographs, and/or testimony from witnesses. Such presentation shall be limited to whether the area, district, place, building, structure, work of art, or other object proposed for designation meets the criteria set forth in section 2-120-620 of the Municipal Code.

b. *Prohibited Subjects.* Under no circumstances shall a party be permitted to present any information not related to whether the area, district, place, building, structure, work of art, or other object proposed for designation meets the criteria set forth in section 2-120-620 of the Municipal Code, including but not limited to, information related to any economic hardship that may result from the proposed landmark designation, an application for a permit, or zoning concerns.

F. Participation of Non-Parties

1. Participation

Any person, organization, or other legal entity not eligible to participate as a party or whose request to be a party is denied by the Hearing Officer may participate in a public hearing for a proposed landmark designation as a non-party. Such participation shall be limited to making a brief statement for or against the proposed landmark designation.

2. Procedure

To participate in a public hearing, a non-party shall complete an appearance form available at the Commission office or at the public hearing. The appearance form shall be submitted to the Hearing Officer prior to the commencement of the public hearing. The Hearing Officer may, at his or her sole discretion, allow the submission of an appearance form after the commencement of the public hearing, provided the submission will not result in prejudice to any party or cause an unreasonable delay in the hearing.

G. Conduct of Hearing

Hearings shall be conducted in an informal but orderly manner in accordance with these *Rules and Regulations* and the directions of the Hearing Officer. Participants in any hearing shall conduct themselves in a courteous manner and shall address themselves solely to the Hearing Officer. Refusal to comply with this section shall constitute grounds for immediate exclusion from any hearing.

The following shall be the order of procedure for public hearings on landmark designations. The Hearing Officer may alter the order of procedure as circumstances require.

1. Opening of the hearing by the Hearing Officer, the Commission's counsel, or other designated representative.

2. Incorporation into the record of various documents of the Commission, if any. Such documents may include, but are not limited to: (i) notification to the owner or owners; (ii) certificate(s) of publication of a legal notice; (iii) letter(s) attesting to the posting of notices; (iv) the preliminary landmark recommendation and summary of information adopted by the Commission; (v) report(s) from the Commissioner of the Department of Housing and

Economic Development; and (iv) consent/non-consent form(s). Documents may be examined at the hearing and are available for inspection at the Commission office. [Amend. 2/3/11]

3. Hearing and ruling by the Hearing Officer on all requests for party status.

4. Presentation by the Commission staff summarizing the preliminary landmark recommendation. At the conclusion of the Commission staff's presentation, any owner, whether or not a party to the hearing, and any other party may ask questions of the Commission staff provided such questions relate to whether the area, district, place, building, structure, work of art, or other object proposed for designation meets the criteria set forth in section 2-120-620 of the Municipal Code. To the extent the presentation by the Commission staff includes any testimony from witnesses, any owner, whether or not a party to the hearing, and any other party may question the witnesses.

8. Statements of interested persons in opposition to the proposed landmark designation who have submitted an appearance form. In lieu of an oral statement, written statements may be submitted at the time of the hearing.

9. Adjournment by the Hearing Officer.

H. Recommendation to the City Council

The Commission shall make its recommendation regarding the proposed landmark or landmark district to the City Council as set forth in section 2-120-690 of the Municipal Code. As part of its recommendation, the Commission shall specifically identify the significant historical or architectural features of the proposed landmark or landmark district. A significant historical or architectural feature shall be any part, portion, or whole of an area, district, place, building, structure, work of art, or other

object that makes an essential contribution to those qualities or characteristics by which the criteria for designation are met.

The Commission shall make the entire record of a hearing available to the public pursuant to Article I, Section C, of these *Rules and Regulations*.

Article III - Procedure and Standards for Review of Permit Applications

A. Purpose

The Commission reviews all permit applications to ensure that proposed work will not adversely affect any significant historical or architectural feature of any area, district, place, building, structure, work of art, or other object that has been designated a Chicago landmark or for which the Commission has made a preliminary determination of landmark status.

B. Overview of the Process

The permit review process is set forth in sections 2-120-740 through 2-120-815 of the Municipal Code. An overview of the permit review process is set forth below. The Commission offers this overview to provide context for its regulations only and does not intend for it to supplant the requirements of the Municipal Code. Applicants and other interested persons therefore are urged to consult the Municipal Code. “Commission” as used only in this Article III.B means the Commission itself, or the Commission staff or the Permit Review Committee acting on behalf of the Commission pursuant to these Rules and Regulations.

1. *Preliminary Decision.* Following receipt of a properly completed permit application for work to a landmark or proposed landmark, the Commission shall issue in writing a preliminary decision approving or disapproving the application within 15 days of its receipt.

2. *Informal Conference.* If the Commission preliminarily disapproves the permit application, the applicant may request an informal conference with the Commission to discuss possible compromises. If the applicant wishes to have an informal conference, the applicant must submit its request in writing to the Commission within 10 days of receipt of the preliminary denial. The informal conference shall be held within 15 days of receipt of the applicant’s request by the Commission.

3. *Commission Hearing.* If the Commission and applicant are unable to reach a compromise within 30 days of the conclusion of the informal conference, or if the applicant does not request an informal conference, the Commission shall commence a public hearing on the

permit application. The public hearing shall be completed within 90 days after the Commission initially disapproved the permit application.

4. *Final Decision.* Within 30 days of the conclusion of the public hearing, the Commission shall issue a written decision approving or disapproving the permit application.

C. Review of Projects Before Applicant Files Permit Application

The Commission encourages, but does not require, applicants to seek its advice and guidance before filing a permit application for work that would affect any area, district, place, building, structure, work of art, or other object that has been designated a Chicago landmark or for which the Commission has made a preliminary determination of landmark status.

1. Requirements

The staff to the Commission may provide advice and guidance to a permit applicant before a permit application is filed. In certain instances, however, the staff may refer the request for pre-permit advice and guidance to either the Permit Review Committee or the Commission. The Commission shall establish in writing: (i) the types of proposed work that shall be referred by the staff to the Permit Review Committee or the Commission; and (ii) the information which must be submitted by the permit applicant to qualify for a pre-permit review under this section. The Commission shall make the aforementioned writing available at its offices and on the City of Chicago's Chicago Landmarks website.

2. Pre-Permit Approvals

a. The Permit Review Committee or the Commission may issue a conditional approval of the project based on the pre-permit submission by the applicant or engage in negotiations with the applicant to bring the project into compliance. If the Permit Review Committee or the Commission conditionally approves, with or without conditions, the pre-permit submission, the applicant, if it elects to file a permit application, shall complete the permit application consistent with the conditional approval and these *Rules and Regulations*.

b. Upon receipt of a permit application pursuant to Article III, Section E, of these *Rules and Regulations* for which the Permit Review Committee or the Commission has issued a conditional approval, the staff to the Commission shall compare the permit application to the conditional approval. If the scope of the proposed work has not changed, and the permit application conforms with the conditional approval, the staff shall approve the permit application, subject to any conditions, and report its approval to the Commission. If the scope of the work has not changed but the permit application does not conform to the conditional approval, the staff shall deem the application incomplete and notify the applicant of its decision.

c. If the applicant has altered the scope of the proposed work of a project for which the Permit Review Committee or the Commission issued a conditional approval, the staff to the Commission may approve the application, subject to any conditions, if the staff deems the changes to be immaterial to the conditional approval. If the staff determines that the changes made by the applicant are material, the conditional approval shall be deemed withdrawn and the permit application shall be reviewed pursuant to Article III, Section E, of these *Rules and Regulations*.

3. *Criteria*

The criteria, standards, and guidelines for review of pre-permit submissions shall be the same as those for the review of permit applications under these *Rules and Regulations*.

4. *Expiration of Pre-Permit Approval*

A conditional approval issued by the Permit Review Committee or the Commission pursuant to this section is valid for two years from the date of the conditional approval. The staff to the Commission may extend the approval for an additional year provided that the staff finds that the circumstances of the original approval, including the project and the applicable criteria, standards, and guidelines of the Commission, are substantially the same.

D. Content of Permit Applications

The Commission shall establish in writing what information must be submitted by the applicant for the permit application to be considered complete. The Commission shall make its requirements available both at its offices and on the City of Chicago's Chicago Landmarks website.

E. Preliminary Review of Permit Applications

1. *Time for Preliminary Review*

As set forth in section 2-120-760 of the Code, the Commission shall issue in writing a preliminary decision approving or disapproving a permit application within 15 days of its receipt by the Commission. The applicant may waive in writing the 15-day period required for a preliminary decision by the Commission.

2. *Review by Commission Staff for Completeness*

The staff to the Commission shall review a permit application to determine whether it is complete. If the staff determines that the application is not complete, the staff shall notify the applicant. The 15-day period for the Commission to preliminarily approve or disapprove such application shall not commence until the Commission receives an application that is complete.

If the staff to the Commission determines that the permit application is complete, it shall next determine if the proposed work will

affect any significant historical or architectural features. If the significant historical or architectural features have not been defined by the designation ordinance, the staff to the Commission shall preliminarily identify the significant historical and architectural features pursuant to Article III, Section G.1 of these *Rules and Regulations*.

3. *Determination of Effect*

a. *No effect.* If the staff to the Commission determines that the proposed work will not affect a significant historical or architectural feature, the staff shall approve the permit application, subject to any conditions required by the staff to the Commission, and report the approval to the Commission.

b. *Effect present.* If the staff to the Commission determines that the proposed work will affect a significant historical or architectural feature, the staff shall determine whether the proposed work will have an adverse effect on the significant historical or architectural features.

1. *No adverse effect.* If the staff to the Commission determines that the proposed work will not have an adverse effect on any significant historical or architectural feature, the staff shall approve the permit application, subject to any conditions required by the staff to the Commission, and report the approval to the Commission.

2. *Adverse effect.* If the staff to the Commission determines that the proposed work will have an adverse effect on any significant historical or architectural feature, the staff may take any of the following actions, except with respect to applications for demolition, in which case the staff to the Commission shall refer the application to either the Permit Review Committee or the Commission for review.

a. Contact the applicant and discuss alternative solutions which may eliminate the adverse effect. If the staff elects to contact the applicant and an agreement is reached between the staff and applicant that will eliminate the adverse effect, the staff shall approve the permit application subject to the agreement between the staff and the applicant and report the approval to the Commission. If no agreement is reached between the staff and applicant, the staff shall refer the permit application to the Permit Review Committee or Commission.

b. Refer the application to the Permit Review Committee or the Commission for preliminary approval or disapproval.

c. Preliminarily deny the permit application and report the preliminary denial to the Commission. The staff to the Commission may only issue a

preliminary denial of a permit application when the staff has communicated with the applicant in an effort to eliminate the adverse effect and an agreement has not been reached one business day before the expiration of the 15-day deadline set by section 2-120-760 of the Code.

3. *Permit Committee Review.*

If the staff to the Commission refers a permit application to the Permit Review Committee, the Committee may take any of the following actions.

a. Direct the staff to the Commission to approve the application, subject to any conditions, if the Committee finds that proposed work will not have an adverse effect on any significant historical or architectural feature and report the approval to the Commission.

b. Discuss potential compromises with the applicant that would eliminate any adverse effect. If the Permit Review Committee reaches an agreement with the applicant, it shall direct the staff to the Commission to approve the application subject to the agreement between the Committee and the applicant and report the approval to the Commission. If the Permit Review Committee does not reach an agreement with the applicant, the Committee shall refer the permit application to the full Commission for preliminary approval or disapproval.

c. Forward the permit application to the full Commission for preliminary approval or disapproval.

d. Preliminarily disapprove the permit application.

4. *Commission Review of Permit Applications.*

Upon receipt of a permit application from either the staff to the Commission or the Permit Review Committee, the Commission shall preliminarily approve or disapprove the permit application consistent with sections 2-120-770 and 2-120-780 of the Municipal Code.

F. Review Following Preliminary Disapproval of Permit by Commission

1. *Informal Conference*

Within 10 days of receipt of the Commission's written decision disapproving the permit application, the applicant may request in writing an informal conference with the Commission to review its decision. The Commission will conduct the informal conference within 15 days of receiving the written request unless the applicant and Commission agree in writing to an extension of the time limit. The purpose of this informal conference is to review the Commission's decision and attempt to resolve the issues identified in the disapproval of the permit application. The Chair shall appoint a member of the Commission, other than the Commissioner of the Department of Housing and Economic

Development, to attend the informal conference on behalf of the Commission. [Amend. 2/3/11]

2. *Public Hearing*

If the informal conference does not resolve the issues identified in the preliminary disapproval of the permit application, or should the applicant waive the informal conference and choose to pursue the permit application without modification, the Commission will hold a public hearing in accordance with section 2-120-800 of the Municipal Code and Article VI of these *Rules and Regulations*, to determine whether the proposed work will have an adverse effect on any significant historic or architectural feature of a landmark or proposed landmark.

G. **Standards and Criteria for Review of Permit Applications**

1. *Determination of Significant Historical and Architectural Features*

a. The significant historical or architectural features shall be those identified in the ordinance designating the area, district, place, building, structure, work of art, or other object as a landmark.

b. To the extent the designation ordinance for a landmark district does not identify the significant historical or architectural features, there shall be a rebuttable presumption that the significant historical or architectural features are all exterior elevations and rooflines, unless otherwise determined by the Permit Review Committee or the Commission.

c. In all other instances, the significant historical or architectural features shall be any part, portion, or whole of an area, district, place, building, structure, work of art, or other object that makes an essential contribution to those qualities or characteristics by which the criteria for designation set forth in section 2-120-620 of the Municipal Code of Chicago are met.

2. *Standards*

The U.S. Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings, as well as other criteria, standards, and guidelines that may be adopted and published by the Commission, including but not limited to these *Rules and Regulations*, govern the Commission in evaluating the effect of work proposed in a permit application.

3. *Criteria for Determining Adverse Effect*

a. Work proposed as part of a permit application that is contrary to any of the following criteria will be deemed to have an adverse effect.

1. The work will maintain the significant historical or architectural feature with no material change to that feature.

2. The work will repair the significant historical or architectural feature with no material change to that feature.

3. The work will replace the significant historical or architectural feature where the original feature is deteriorated beyond reasonable methods of repair, and the replacement feature is in kind—that is, similar in design, construction, function, appearance, material, and other characteristics.

4. The work will restore the significant historical or architectural feature to its original character where the feature has been removed or altered and the alteration is not in itself significant in terms of its design, character, or material, and where the restoration is based upon documented evidence, such as photographs or drawings, of the original feature.

5. The work will restore the significant historical or architectural feature to its original character where the feature has been removed or altered and the alteration is not in itself significant in terms of its design, character, or material, and where the restoration, lacking documentary evidence, is intended to restore the general historic character of the feature as evidenced by similar building features and types.

6. The work constitutes an addition of a feature where the new feature will not adversely alter, change, obscure, damage, or destroy any significant historical or architectural feature.

7. The work constitutes new construction or an addition to a building or structure that meets the established criteria, standards, and guidelines of the Commission.

8. The work will alter a non-contributing building in a landmark district, meets the established criteria, standards, and guidelines of the Commission, and will not otherwise have an adverse effect on the significant historical or architectural features of the landmark district.

9. The work otherwise meets the Commission's criteria, standards, and guidelines and will not have an adverse effect on the significant historical or architectural features.

b. Demolition of either (i) a building or structure designated as a landmark or (ii) a contributing building or structure within a landmark district, shall be deemed a *per se* adverse effect on the significant historical or architectural features.

4. *Criteria for Determining a Contributing Building within a Landmark District*

a. *Criteria.* The following criteria shall be considered in determining whether a property contributes to the character of a landmark district:

1. The subject property exhibits the significant historical or architectural features described in the designation ordinance. If the significant historical or architectural features are not defined in the designation ordinance, they shall be determined pursuant to Article III, Section G.1 of these *Rules and Regulations*.

2. The subject property exhibits the general historic and architectural characteristics associated with the district.

3. The subject property respects the general site characteristics associated with the district.

4. The subject property exhibits the general size, shape, and scale associated with the district.

5. The materials of the subject property are compatible with the district in general character, color, and texture.

6. If the subject property has been altered in a manner which is contrary to these criteria, such changes could be easily reversed or removed. Synthetic siding, dormers, and porch enclosures shall be deemed easily reversed or removed.

b. *Prerequisites for Demolition.* Demolition of non-contributing buildings, structures, or improvements within a landmark district may be allowed if the building, structure, or improvement proposed for demolition is non-contributing to the character of the district and its removal will not have an adverse effect on the significant historical or architectural features of the district.

5. *Criteria for New Construction, Additions, and Alterations to Non-Contributing Buildings*

Permit applications for new construction, additions, and alterations to non-contributing buildings are reviewed to ensure that they are compatible with and complement existing significant historical or architectural features and qualities. The intent is to encourage excellence in contemporary design that does not imitate, but rather complements, existing architectural and environmental characteristics of the subject property or district.

The following criteria shall be considered in evaluating permit applications for new construction, additions, and alterations to non-contributing buildings:

- a. The new structure exhibits the general size, shape, and scale of the features associated with the property or district.
- b. The site plan exhibits the general site characteristics associated with the property or district.
- c. The design respects the general historic and architectural characteristics associated with the property or district in general character, color, and texture.
- d. The materials are compatible with the existing structures in the district in general character, color, and texture.
- e. In the case of additions, the addition is so connected to the property that it does not adversely alter, change, obscure, damage, or destroy any significant critical features.
- f. In the case of minor alterations to non-contributing buildings, minor alterations compatible with the architectural character of the existing building shall be deemed to not have an adverse effect on the significant historical or architectural features of the landmark.

A. Purpose

A public hearing on both a proposed landmark designation and a permit application involving the area, district, place, building, structure, work of art, or other object under consideration for landmark designation is held (i) to gather relevant facts and information to assist the Commission in deciding whether the property under consideration for landmark designation meets the criteria set forth in section 2-120-620 of

the Municipal Code; and (ii) to determine whether the work set forth in the permit application will adversely affect any significant historical or architectural feature of the proposed landmark.

B. Necessity of a Public Hearing

A public hearing on both the proposed landmark designation and the permit application shall be held by the Commission within the time specified by section 2-120-820 of the Municipal Code when (i) the Commission has issued a preliminary disapproval of a permit application for work involving the area, district, place, building, structure, work of art, or other object being considered for landmark designation, and (ii) the Commission has failed to resolve the permit application with the applicant.

C. Hearing Officer

A Hearing Officer shall preside over any public hearing held by the Commission on both a proposed landmark designation and a permit application.

1. *Appointment*

As related to the proposed landmark designation, the Hearing Officer shall have all powers and duties as described in Article II, Section C.2, of these *Rules and Regulations*. At the discretion of the Hearing Officer and by mutual agreement of all parties, the parties may offer evidence and testimony pertaining to whether the property under consideration for landmark designation meets the criteria set forth in section 2-120-620 of the Municipal Code during the permit application portion of the hearing, and such evidence or testimony may be incorporated by reference in the landmark designation portion of the hearing to avoid unnecessary duplication.

Article VI - Economic Hardship

A. Application for Economic Hardship

Pursuant to section 2-120-830 of the Municipal Code, upon final notification from the Commission or the City Council of a decision to deny an application for a permit to construct, reconstruct, alter, add to, demolish or relocate property given a preliminary recommendation for landmark status or designated as a landmark, the permit applicant may within 30 days apply to the Commission for an economic hardship exception on the basis that the denial of the permit will result in the loss of all reasonable and beneficial use of or return from the property.

B. Public Hearing on Economic Hardship

Pursuant to section 2-120-840 of the Municipal Code, the Commission shall hold a public hearing on an application for an economic hardship exception within 30 days from receipt by the Commission of the application. Public hearings on applications for an economic hardship exception shall follow the procedures for public hearings as set forth in Article IV of these *Rules and Regulations*.

C. Burden of Proof

The applicant bears the burden of proof that the existing use of the property is economically infeasible and that the sale, rental, or rehabilitation of the property is not possible, resulting in the property not being capable of earning any reasonable economic return. Proof of economic hardship is not established solely by submission of proof of actual financial loss or lost opportunity to obtain increased return from the property, although these factors the Commission may consider. Proof of economic hardship must be established by clear and convincing evidence.

D. Evidence of Economic Hardship

Any applicant for an economic hardship exception shall offer at the public hearing described in section 2-120-840 of the Municipal Code evidence relevant to the following issues:

1. The applicant's knowledge of the landmark designation at the time of acquisition, or whether the property was designated subsequent to acquisition.

2. The current level of economic return on the property as considered in relation to the following:

- a. The amount paid for the property, the date of purchase, and party from whom purchased, including a description of the relationship, if any, between the owner of record or applicant and the person from whom the property was purchased and any terms of financing between seller and buyer.

- b. The annual gross and net income from the property for the previous three years; itemized operating and maintenance expenses for the previous three years; and depreciation deduction and annual cash flow before and after debt service, if any, during the same period.

- c. Remaining balance on any mortgage or other financing secured by the property and annual debt-service, if any, during the prior three years.

- d. Real-estate taxes for the previous four years and assessed value of the property according to the two most recent assessed valuations.

e. All appraisals obtained within the previous two years by the owner or applicant in connection with the purchase, financing, or ownership of the property.

f. Form of ownership or operation of the property, whether sole proprietorship, for-profit or not-for-profit corporation, limited partnership, joint venture, or other.

g. Any state or federal income tax returns on or relating to the property for the past two years.

3. Any listing of the property for sale or rent, price asked, and offers received, if any, within the previous two years, including testimony and relevant documents regarding:

a. Any real-estate broker or firm engaged to sell or lease the property.

b. Reasonableness of the price or rent sought by the applicant.

c. Any advertisements placed for the sale or rent of the property.

4. The infeasibility of profitable alternative uses for the property as considered in relation to the following:

a. A report from a licensed engineer or architect with experience in rehabilitation as to the structural soundness of any structures on the property and their suitability for rehabilitation.

b. Estimate of the cost of the proposed construction, alteration, demolition, or removal, and an estimate of any additional cost that would be incurred to comply with the recommendation and decision of the Commission issued pursuant to section 2-120-800 of the Municipal Code.

c. Estimated market value of the property in the current condition; after completion of the proposed construction, alteration, demolition, or removal; and, in the case of a proposed demolition, after renovation of the existing property for continued use.

d. In the case of a proposed demolition, the testimony of an architect, developer, real-estate consultant, appraiser, or other real-estate professional experienced in rehabilitation as to the economic feasibility of rehabilitation or reuse of the existing structure on the property.

Article VII - Preservation Easements

A. Definition and Purpose

Easement donations may be made to the City of Chicago.

B. Public Hearing on Preservation Easements

The Commission shall hold a public hearing on any proposed donation before recommending to the City Council that the donation be accepted. The Commission's public hearing will be conducted according to the procedures set forth in Article II of these *Rules and Regulations*.

Alta Vista Terrace (3800 block) was the first landmark district to be designated as a landmark by the City Council (Sept. 15, 1971). The forty English-style row houses facing this one-block-long street – located just north of Wrigley Field—were built in 1900-04 by developer Samuel E. Gross.
