## GUIDELINES FOR COMPLETING PART TWO OF THE APPLICATION

All graphic materials must be submitted in an 8.5" x 11" format and must be suitable for clear and sharp, black and white reproduction. Each map or diagram should have a scale and a north arrow. Each sheet of graphic material must be labeled with the appropriate figure number. If there are multiple sheets comprising one figure - for example figure 4 - those sheets should be labeled consecutively, for example Figure 4-1, Figure 4-2, etc., and each sheet should contain the address of the site of the proposal in the lower left corner.

For Figure 1, the Applicant should consider the "vicinity of the site" to be at least as extensive as the area for which he is required to give notice plus any intervening streets or other public rights-of-way.

For Figures 3 and 4, the Applicant should consider that "recreation areas" and "recreation space and facilities" include game courts, swimming pools and pool areas, game rooms, exercise rooms, party rooms, community rooms, observation decks and sun decks.

The required narrative statement should describe the features of the proposed development, including size and mix of dwelling units, mix of uses on the site, etc. It should present a basic rationale for the development.

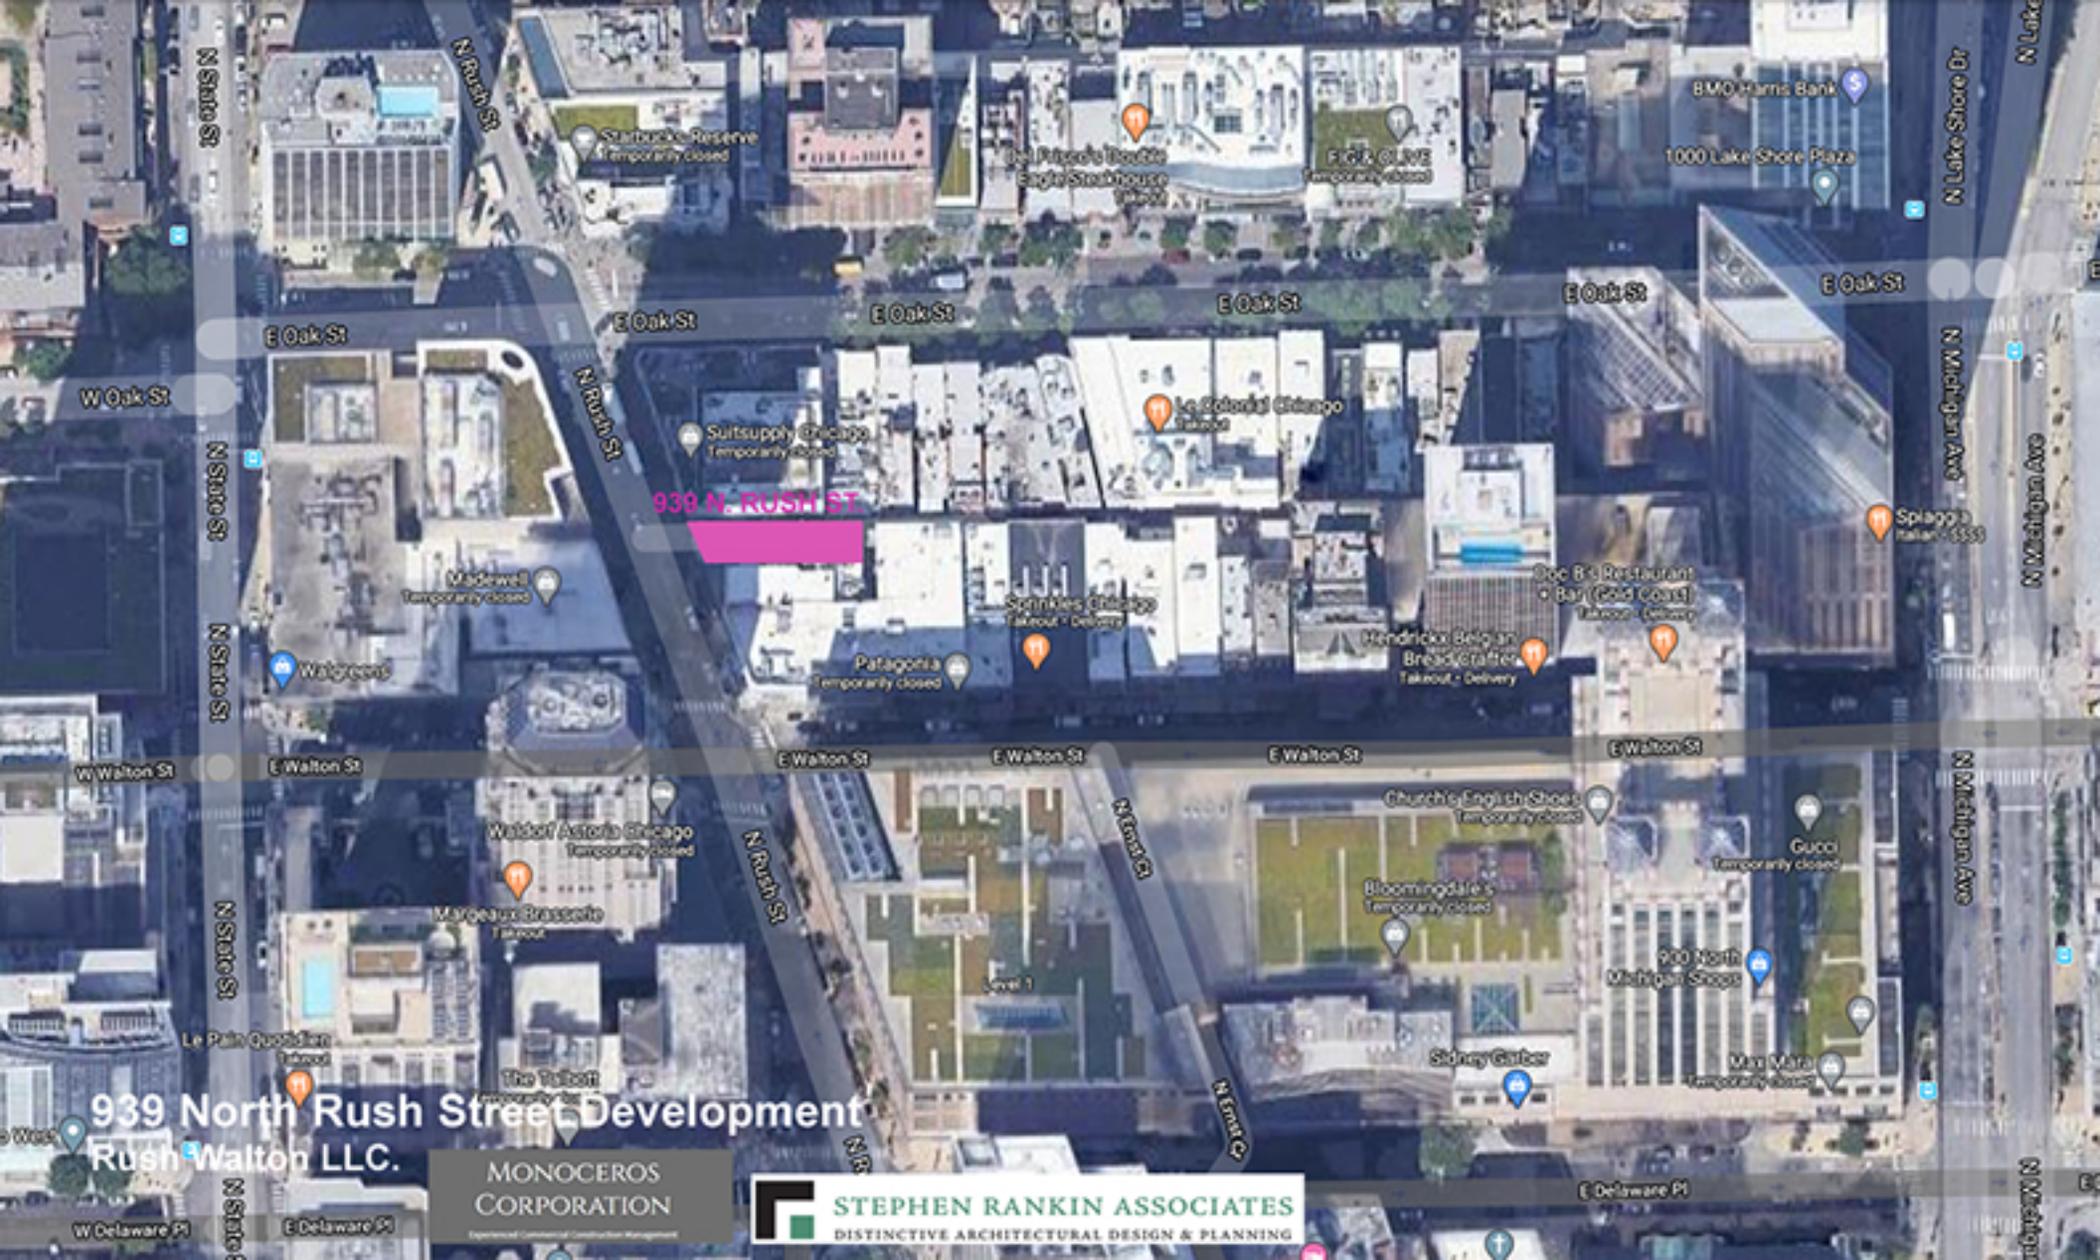

For Figure 6, the Applicant is urged to provide any materials at 8.5" x 11" which will facilitate the review of his Application.

## PART TWO: CHARACTER OF THE PROPOSAL

This portion of the Application must be completed by attaching the following items, correctly sized and labeled, to the Application:

- I. Figure 1: A Map of the Vicinity of the Site, showing Lake Michigan, lakefront parks, preferential streets, schools, parks, major institutions. All streets on this map should be named, and the outline and height on all structures on properties immediately adjacent to the site of the proposal must be shown.
- II. Figure 2: A Map of the Existing Site, showing locations and dimensions of lot lines; contour intervals (5-foot) ; existing structures, walkways, driveways, special features.
- III. Figure 3: The Proposed Site Plan, showing locations and dimensions of proposed structures, driveways and walkways; proposed exterior parking areas; proposed exterior open space and recreation areas.
- IV. Figure 4: Proposed Floor Plans, including the ground floor, a typical floor, any floor with recreation space or facilities.
- V. Figure 5: An Elevation or Cross-section, showing the height and number of stories for all proposed structures.
- VI. Narrative: A Statement Describing the Proposed Development.

In addition, the Applicant is encouraged to provide additional graphic materials, visual aids; e.g., photographs, renderings, data tables, among others. Any such exhibits shall be labeled Figure 6.

## 939 North Rush Street Development – Project Narrative

JMB Financial Advisors (JMB) is a Chicago-based real estate investment advisor that provides customized capital solutions on behalf of institutional and private investors for acquisition, recapitalization and development of all real estate asset classes. JMB owns the site at the northeast corner of North Rush Street and East Walton Street. The site is currently zoned DX-7. The site area is approximately 19,208 square feet, with approximately 110 feet frontage along North Rush Street and approximately 167 feet along East Walton Street.

The site is currently occupied by three buildings. The existing building at 939 North Rush Street is a three-story masonry building that was originally constructed in the 19th century. It has undergone multiple renovations and it is currently leased to Brunello Cucinelli, a retail apparel store. The existing building at 937 North Rush Street is a two-story masonry with structural steel framing, aluminum curtainwall system and stone cladding. The building has been currently under construction. The building is approximately 4,950 square feet floor area. The new tenant is Brunello Cucinelli.

The existing building at the corner of Rush Street and Walton Street is a steel-frame building, with two stories and partial basement level. There are five tenants in this building, and each tenant has its own distinctive façade made of aluminum, glass and stone. The five retail tenants are as follows:

933 N. Rush Street: Versace  
931 N. Rush Street: Dior  
44 East Walton St: Icebreakers  
46 East Walton St: All Saints  
48 East Walton St: Patagonia

All existing buildings have facades that abut the front property lines.

The proposed project involves demolition of the existing building at 939 North Rush Street and construction of a new, two-story masonry building to replace the old building. The new building will have a structural steel frame, and ground floor will be approximately 2,408.5 square feet and second floor will be approximately 2,439 square feet. The new building will be leased to a single tenant. The area of the new building, combined with the areas of the existing buildings, will not exceed the allowable floor area ratio (FAR).

The new storefront will be made of aluminum, glass and some metal or stone cladding, which will be consistent with the storefronts for nearby stores. The front of the new building will be placed close to the front property line on Rush Street, which is consistent with the guidelines for pedestrian streets.

There will be a new corridor connection from the 2nd floor of the new building through enclosed pedestrian bridge at back of 937 North Rush Street building to the 2nd floor of the existing building, 44 East Walton Street, across the private alley on the east side of the building. This connection will give users of the second floor a second means-of-egress via the existing exit access corridor and existing stair in the adjacent building.

The new building will feature an ADA accessible toilet for staff and accessible elevator for all occupants. There will be the two new package air handling units installed on the roof. The front

parapet of the new building and the existing parapet of the neighboring buildings will act as a visual screen of the RTUs and exhaust flue.

Trash generated by the tenant will be stored in trash receptacles in the private alley or in the existing “trash alcoves” accessible from the public alley.

13. Ensure that all port, water supply, and public facilities are designed to enhance lakefront character.

N/A – property is not on the immediate lakefront.

14. Coordinate all public and private development within the water, park, and community zones.

Insofar as this development is within the private use zone of the Lakefront Protection zones, it will be coordinated with the existing area buildings and streetscape in a manner consistent with the City's planning goals.

## PART FOUR: POTENTIAL IMPACT OF THE PROPOSAL

### II Thirteen Purposes

1. To promote and protect the health, safety, comfort, convenience, and the general welfare of the people, and to conserve our natural resources;

This development will promote and protect the health, safety and welfare of the citizens in that it fills in the private use zone in a harmonious manner and leaves the immediate lakefront to the conservation of natural resources beyond light and air which are protected herein by the zoning code and the Lakefront.

2. To identify and establish the Lake Michigan and Chicago Lakefront Protection District and to divide that District into several zones wherein any and all development or construction, as specified in Article V hereinafter, shall be specifically restricted and regulated;

This development in the private use zone is appropriately restricted and regulated by the City's zoning code.

3. To maintain and improve the purity and quality of the waters of Lake Michigan;

This development does not impact the purity and waters of Lake Michigan other than as any building would.

4. To insure that construction in the Lake or modification of the existing shoreline shall not be permitted if such construction or modification would cause environmental or ecological damage to the Lake or would diminish water quality; and to insure that the life patterns of fish, migratory birds and other fauna are recognized and supported;

This development is not constructed in or on the shoreline of Lake Michigan.

5. To ensure that the Lakefront Parks and the Lake itself are devoted only to public purposes and to ensure the integrity of and expand the quantity and quality of the Lakefront Parks;

This development in the private use zone leaves the parks and lake to public purposes only.

6. To promote and provide for continuous pedestrian movement along the shoreline;

Since this development is on a pedestrian thoroughfare it tends to promote pedestrian movement along the nearby lakefront shoreline.

7. To promote and provide for pedestrian access to the Lake and Lakefront Parks from and through areas adjacent thereto at regular intervals of one-fourth mile and additional places wherever possible, and to protect and enhance vistas at these locations and wherever else possible;

This development does not hamper quarter mile lakefront access and enhanced vistas.

8. To promote and provide for improved public transportation access to the Lakefront;

Public transit access is not impacted by this development and the developer will cooperate with the City in effectuating its planning goals relative the redesign and rebuild of Lake Shore Drive.

9. To ensure that no roadway of expressway standards, as hereinafter defined, shall be permitted in the Lakefront Parks;

Similarly, the developer will work to assure that there are no expressway standards adopted within the lakefront parks.

10. To insure that development of properties adjacent to the Lake or the Lakefront Parks is so defined as to implement the above-stated purposes, provided, however, that with respect to property located within the Private Use Zone as established by Article V, VI, and IX of this Ordinance, the permitted use, special use, lot area per dwelling unit, and floor area ratio provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, shall govern except where such provisions are in substantial conflict with the purposes of this Ordinance or the Fourteen Basic Policies of the Lakefront Plan of Chicago;

This private use zone development will be totally compliant with the Chicago Zoning Ordinance

11. To achieve the above-stated purposes, the appropriate public agency should acquire such properties or rights as may be necessary and desirable;

There is no public agency acquisition here.

12. To define and limit the powers and duties of the administrative body and officers as provided herein;

This development does not impact City administrative officers' powers and duties.

13. Nothing contained in the Lake Michigan and Chicago Lakefront Protection Ordinance shall be deemed to be a waiver or consent, license or permit to use any property or to

locate, construct or maintain any building, structure or facility or to carry on any trade, industry, occupation or activity which may be otherwise required by law.

The developer understands that approval if granted will not waive any lawful requirements for construction and use.
