## PART TWO – CHARACTER OF THE PROPOSAL

### SECTION VI. DESCRIPTIVE STATEMENT

The Applicant – *Akris Inc.*, is seeking to undertake the renovation and reactivation of the existing two-story *commercial* building that comprises the subject property, generally located at 101 East Oak Street, within the *Private Lakefront District* and the *Oak Street Commercial Corridor* (42<sup>nd</sup> Ward), wherein the Applicant intends to establish and to operate its first and only flagship store in the Midwest Region of the United States. *\*[Akris is an international fashion house, founded in 1922, in St. Gallen, Switzerland, where they continue to maintain their headquarters and original storefront. Akris has since established subsidiaries throughout the world, including in the United States, Japan and Korea, select major cities within which they operate their retail boutiques.]*

The front wall/street-facing façade of the existing building is currently setback approximately 10.6 feet from the corresponding property line and is recessed just about 8.5 feet behind the immediately adjacent buildings, thereby creating an optical disadvantage when it comes to the building’s visual presence on this vibrant streetscape, while in turn causing incongruity to the associated pedestrian way. With much reverence to the historical significance of the subject building’s embellished masonry façade, and in an effort to bring some spatial conformity to this robust commercial framework, the Applicant is proposing to erect a (transparent) glass atrium off the front of the building, that will attach to the roof of the building and be affixed at grade – vertically (*36 feet in height*). Such glass addition follows the lines of the existing building envelope – straight forward, approximately 8.0 feet, so to better align with the facades of the adjacent buildings, while still allowing a front setback of 2.6 feet off the property line, thereby continuing to enhance the spacious sidewalks unique to this retail corridor.

The proposed glass enclosure/addition is functionally intended to display merchandising and products for the new store, with the purpose of attracting customers into the main sales area – beyond and through the original building façade. The design for the glass enclosure/addition was conscientiously created by world renowned Architect – David Chipperfield, so to protect and to accentuate the historically meaningful façade of the existing building, which such existing improvements helped to create the character of this well-established and widely celebrated commercial streetscape. The added area (*approximately 417 square feet*) is not intended to be used or accessed by customers (the public), other than as the primary path of pedestrian ingress/egress between the sidewalk and the interior of the store.

While the building is not a formally designated “landmark,” *Akris* wanted to preserve the rich Chicago history attributed to this *Goldcoast Neighborhood* – in particular, with regard to the building’s classic red brick aesthetic. Therefore, the design of the glass addition revolves around how to securely attach the structure to the existing masonry façade while minimizing removal of the associated finishes and intricate architectural elements, while still maintaining strict compliance with all of the applicable zoning and building code requirements (*including, fire rating for exterior walls, accessibility, and providing adequate transparency into the space*).

**POTENTIAL IMPACT STATEMENT**  
**101 East Oak Street, Chicago, Illinois**

I. Fourteen Basic Policies

1. Complete the publicly owned and locally controlled park system along the entire Chicago lakefront.

**RESPONSE:** *The subject site is privately owned and maintained. The subject site is NOT located in one of the City's controlled park systems. As such, this proposal will have no impact on such existing conditions.*

2. Maintain and enhance the predominantly landscaped, spacious and continuous character of the lake shore parks.

**RESPONSE:** *The subject site is NOT located in one of the City's controlled park systems. Nonetheless, the programming for the reactivation and renovation of the existing commercial-retail building that comprises the subject site calls for the continued maintenance of the existing parkway trees and planters that line the pedestrian way in front of the subject property, while – too, refraining from introducing any new obstructions into such public way to ensure the spacious and unencumbered character of this Oak Street Commercial (Retail) Corridor.*

3. Continue to improve the water quality and ecological balance of Lake Michigan.

**RESPONSE:** *The programming for the proposed reactivation and renovation of the existing commercial-retail building that comprises the subject property, does NOT call for any excavation or infill of the ground below grade, so to ensure ongoing equilibrium of the groundwater resources adjacent to Lake Michigan. Furthermore, by and through the permitting for the proposed renovations, the Applicant will be adhering to all of the City's current Stormwater Maintenance and Mitigation Policies, undertaking ancillary review and approval with the Department of Planning and Development, accordingly.*

4. Preserve the cultural, historical, and recreational heritage of the lakeshore parks.

**RESPONSE:** *The design and programming for the proposed reactivation and renovation of the existing commercial-retail building that comprises the subject property was created with significant reverence to the historically meaningful masonry façade of such building, with the proposed new glass addition intended to preserve/protect and to accentuate the unique character of the vintage portico, thereby enhancing the adjacent improvements and creating an enchanting pedestrian route between the bustling Oak Street Commercial Corridor and the nearby lakefront paths and parks.*

## 101 East Oak Street – Lakefront Protection Application

5. Maintain and improve the formal character and open water vista of Grant Park with no new above-ground structures permitted.

**RESPONSE:** *Not Applicable. The subject site is NOT located adjacent or in close proximity to Grant Park.*

6. Increase the diversity of recreational opportunities while emphasizing lake-oriented leisure time activities.

**RESPONSE:** *By and through the reactivation and renovation of the existing commercial building that comprises the subject site, the Applicant will be introducing a new and distinctive clothing and accessories retailer to the world-renowned Oak Street Commercial Corridor, filling a vacancy that has been detracting from this otherwise vibrant streetscape for well-over two years. As an incidental and more far-reaching benefit to such reactivation, the proposed project will be enhancing the connection between the leisure time pursuits that draw natives and tourists alike to this Goldcoast neighborhood for shopping and entertainment and the plentitude of extracurricular activities available at and around the nearby lakefront and public parks, including the diverse attractions and recreational endeavors available at Oak Street Beach and Lincoln Park, just a short walk and/or bike ride from the subject site.*

7. Protect and develop natural lakeshore park and water areas for wildlife habitation.

**RESPONSE:** *The subject site is NOT located within one of the City's controlled park systems or water areas (riverfront, beaches, etc.). Nonetheless, by and through this proposal – which will be improving one of the City's most vital commercial corridors, the Applicant will NOT be introducing any new artificial elements or diversions into such sanctuary areas, thereby preserving these neighboring lakefront open spaces – i.e., Oak Street Beach and Lincoln Park, for future organic development and evolution.*

8. Increase personal safety.

**RESPONSE:** *The design and programming for the proposed reactivation and renovation of the existing commercial-retail building that comprises the subject property was created with significant deference and consideration to public safety. Accordingly, the Applicant's plan of operation for their new store calls for the provision of certified and trained security personnel at the entrance of the store – who will be visible from the public ways and who will be solely responsible for controlling access to and from the site.*

## 101 East Oak Street – Lakefront Protection Application

8. Increase personal safety. (CONTINUED)

**RESPONSE:** *In addition thereto, the programming calls for the installation of a new state of the art multi-faceted security system, intended and proven to proactively deter illicit activity at and around the subject site, with the inclusion of still other physical elements that are specifically crafted to protect against undesirable and dangerous threats and actions that can sometimes plague these types of retail establishments.*

9. Design all lake edge and lake construction to prevent detrimental shoreline erosion.

**RESPONSE:** *The subject site is NOT located along or within immediate proximity to the lake's edge, and – therefore, this project will have no impact on such existing or ongoing conditions.*

10. Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted East of Lake Shore Drive.

**RESPONSE:** *By and through the reactivation and renovation of the existing commercial building that comprises the subject site, the Applicant will be introducing a new and distinctive clothing and accessories retailer to the world-renowned Oak Street Commercial Corridor, filling a vacancy that has been detracting from this otherwise vibrant streetscape for well-over two years. As an incidental and more far-reaching benefit to such reactivation, the proposed project will be enhancing the pathway between the privately owned and operated residential, shopping, and hospitality pursuits that draw natives and tourists alike to this Goldcoast neighborhood – west of Lakeshore Drive, and harmoniously connecting such patrons to the plentitude of extracurricular activities available at and around the nearby lakefront and public parks, including the diverse attractions and recreational endeavors available at Oak Street Beach and Lincoln Park, just a short walk and/or bike ride from the subject site.*

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads.

**RESPONSE:** *The Applicant – who is based in St. Gallen, Switzerland, with secondary offices in New York City, New York, chose this specific property at which to open the first and only flagship store in the Midwest based, in significant part, on its location along one of the worlds most celebrated (and walkable) retail corridors, with a plentitude of pedestrians traversing the area on a daily basis and with multiple forms of meaningful public transit located within very immediate proximity, thereby negating reliance on personal motor-vehicles for patronage.*

## 101 East Oak Street – Lakefront Protection Application

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads. (CONTINUED)

**RESPONSE:** *As such, the Applicants occupation of the subject site, and corresponding operations, will NOT introduce any new vehicular traffic to the neighborhood or otherwise disrupt the existing traffic conditions, thereby ensuring the ongoing maintenance of unencumbered access to the lakefront and its parks, as well as to the surrounding secondary thoroughfares.*

12. Strengthen the parkway characteristics of Lake Shore Drive and prohibit and roadway of expressway standards.

**RESPONSE:** *As already set forth and described herein, by and through this project, the Applicant is not proposing any new roadways and/or alterations to any of the existing ancillary roadways. Moreover, and toward these same ends, the subject site is not located on or along Lake Shore Drive, and – therefore, this proposal will have no impact of the parkway characteristics or existing conditions implicated in the same.*

13. Ensure that all port, water supply, and public facilities are designed to enhance lakefront character.

**RESPONSE:** *The subject site is NOT located within one of the City's controlled park systems or water areas (riverfront, beaches, etc.), and – therefore, the Applicant's privately owned and operated retail store should have no measurable impact on the communal facilities that serve such publicly managed areas. Similarly, in consideration of the site's tenuous proximity to the lakefront and corresponding natural water supplies, the proposed project will have no impact on such existing resources.*

14. Coordinate all public and private development within the water, park, and community zones.

**RESPONSE:** *The subject site is NOT located within or directly along/abutting one of the City's controlled waterways or park systems, and – therefore, will have no impact on such existing conditions. The subject property is located within the Oak Street Commercial Corridor (42<sup>nd</sup> Ward). As such, and in consideration of the same – prior to initiating this process, the Applicant and members of their Design-Operational Teams engaged with Alderman Brendan Reilly and his Staff, and – too, met with members of the Magnificent Mile Association and the Oak Street Council to discuss their interest in this property and the programming proposed for reactivation of the same.*

**101 East Oak Street – Lakefront Protection Application**

14. Coordinate all public and private development within the water, park, and community zones. (CONTINUED)

**RESPONSE:** *After many months of ongoing collaboration and engagement, all such parties have expressed their respective support and esteem for the project. [Copies of letters and correspondence acknowledging such third-party endorsements have been submitted as part of this application and proceedings.] In further coordination with the respective public interests, the Applicant has and will continue to coordinate and cooperate with the City's Department of Planning and Development (DPD) and other relevant internal divisions, departments and agencies, toward the permitting and licensing for this proposal and all approvals incumbent on the success of the same.*
