APPLICATION NUMBER 772

CITY OF CHICAGO
AN APPLICATION TO THE CHICAGO PLAN COMMISSION UNDER THE LAKE MICHIGAN AND
CHICAGO LAKEFRONT PROTECTION ORDINANCE

(This Application Must Be Typewritten)

The Chicago Plan Commission has provided this Application Form in accordance with Section 194B-6.1 (a) of the Lake Michigan and Chicago Lakefront Protection Ordinance. The Conditions under which the provisions of this Ordinance are applicable are stated in Section 194B-5.1 of the Ordinance. The process of Plan Commission review and public hearing on each proposal within the Lake Michigan and Chicago Lakefront Protection District will commence with the Applicant's submission to the Chicago Plan Commission of a completed Application Form and the required proof of notice. Strict compliance with Section 194B-6.1(c) is required.

The staff of the Department of Planning is available to provide technical assistance to the Applicant, before preparation of his application, during the processing stages, and to review the application at submission to the Chicago Plan Commission. Copies of the Ordinance and this Application Form and examples of forms for both notification and proof of notice, are available from the Commissioner of Planning, in Room 1003, Lakefront Unit, City Hall, 121 N. La Salle Street, Chicago, Illinois 60602. Phone 744-6551.

This Application Form consists of Five Parts on 17 pages:

- Part One: General Information
- Part Two: Character of Proposal
- Part Three: Zoning Information
- Part Four: Potential Impact of Proposal (2 Sections)
- Part Five: Disclosure Forms (6 Sections)

A copy of this Application will be available for public inspection in the office of the Commissioner of Planning, Room 1000, five days prior to the date of which the public hearing on this Application before the Chicago Plan Commission is to commence.

SITE ADDRESS Van Buren Metra station - Grant Park, including west side of South Michigan Avenue 100' north and south of centerline of East Van Buren Street 132 E. Van Buren

GUIDELINES FOR COMPLETING PART ONE OF THE APPLICATION

Part One of this Application provides general information to the Plan Commission for use in preparing its public notices of the proposal set forth in the Application and in preparing its review of that proposal.

1. The date entered in I. should be the date on which the Application is filed.
2. The location of the site of the proposal should be given by street address; if there is no address, the location must be described in relation to existing streets, rights-of-way or other fixed points of reference.
3. The Applicant must state his own name, address and telephone number and the name, address and telephone number of the owner of the subject property. The Applicant must be either the owner of the subject property or his duly authorized agent or representative, and, if the Applicant is an agent or representative, the Applicant must submit proof to the Commission that he is authorized to represent the owner of the subject property.

Whenever the ownership of the subject property is complex - a partnership, corporation, land trust or association - the Applicant shall so indicate. Further, the Commission may require disclosure of all real parties of interest in the subject property.

4. The description of a proposal should include, at a minimum, types of land uses and space uses, floor area, number of dwelling units and height of proposed structures in feet or stories. Additional concise information may also be included.
5. Under the provisions of Section 194B-6.1(c) of the Lake Michigan and Chicago Lakefront Protection Ordinance, the Applicant must submit to the Commission at the time of filing an Application a list of the names and last known addresses of the owners of all property on which notice must be served, the method of service employed, the names and addresses of persons so served, and a statement certifying that the Applicant has complied with the noticing provisions of Section 194B-6.1(c) of the Lake Michigan and Chicago Lakefront Protection Ordinance. The Commission will not accept an application unless and until the Applicant furnishes the required list and certificate.
6. If there are any other approvals required from other public agencies before the Applicant can proceed with his proposal, they should be listed; except that other City of Chicago licenses and permits may be omitted as items requiring listing herein. If no other approvals are required, enter "NONE" under VI A. Examples of items which should be listed include approval of FHA financing, a U.S. Corps of Engineers permit, Federal Aviation Authority Approval, among others.

PART ONE: GENERAL INFORMATION

- I. Date of Application: _____, 20____.
- II. Address or location of the Site of the Proposal: See address at bottom of this page

III. Information on the Applicant and the Owner - see attached sheet

- A. Applicant
1. Name: _____ Phone: _____
2. Address: _____

- B. Owner
1. Name: _____ Phone: _____
2. Address: _____

C. If the Applicant is not the owner, check here X that proof has been attached to this Application that the Applicant is the duly authorized agent or representative of the owner.

D. If the ownership of the subject property is complex, the Applicant shall indicate the type of ownership: (see attached sheet)

1. _____ Land Trust 2. _____ Partnership or Association
3. _____ Corporation 4. _____

IV Brief Description of the Proposal: see attached sheet

V. The noticing provisions of Section 194B-6.1(c) have been completed as they apply to the Applicant: Check here x.

VI. The Applicant must also obtain the following approvals in addition to the approval of the Plan Commission: (see attached sheet)

A. Nature of Approval: _____

Agency: _____

B. Nature of Approval: _____

Agency: _____

C. Nature of Approval: _____

Agency: _____

Address: Van Buren Metra station - Grant Park, including west side of South Michigan Avenue 100' north and south of centerline of East Van Buren Street
132 E. Van Buren

Re: Lakefront Protection Application and Planned Development No. 677 -- rehabilitation of Van Buren commuter rail station

Van Buren Metra Station, 132 E. Van Buren - Grant Park, including the west side of Michigan Avenue 100 feet north and south of the centerline of East Van Buren Street (the "Property")

Dear Patrick:

The City of Chicago, through its Department of Transportation, is aware that Metra is applying for a Lakefront Protection Ordinance approval and a minor change to Planned Development No. 677 (collectively, the "Applications") to facilitate a rehabilitation of the Van Buren commuter rail station and related improvements ("Project") within the Property.

Within the Property, the City owns a below-grade railroad right-of-way over which Metra has rights of use through easement and contract rights and the Jackson Drive vehicular bridge. The City also has land use jurisdiction over South Michigan Avenue which comprises a portion of the Property in which components of the Project will be carried out.

The City has no objections to inclusion of the Property within the Applications. The City is providing this letter solely to consent to the filing by Metra of the Applications so that the application processes may commence, but is not in this letter expressing a position on whether or not the approvals requested in the Applications should be granted.

If you have any questions, please feel free to call Bill Higgins at (312) 744-7189 or to email Bill at William.Higgins@cityofchicago.org.

Sincerely,

Vig Krishnamurthy

**Re: Lakefront Protection Application and Planned Development No. 677 --
rehabilitation of Van Buren commuter rail station Van Buren Metra Station, 132
E. Van Buren - Grant Park, including the west side of Michigan Avenue 100 feet
north and south of the centerline of East Van Buren Street (the "Property")**

Dear Patrick:

The Chicago Park District ("Park District") is aware that Metra is applying for a Lakefront Protection Ordinance approval and a minor change to Planned Development No. 677, along with site plan review approval under this planned development (collectively, the "Applications"), to facilitate a rehabilitation of the Van Buren commuter rail station and related improvements ("Project") within the Property.

Within the Property, the Park District owns the Van Buren Pedestrian Bridge over a below-grade railroad right-of-way over which Metra has rights of use through easement and contract rights, and the portion of Grant Park on which the Project is occurring.

The Park District has no objections to inclusion of the Property within the Applications. The Park District is providing this letter solely to consent to the filing by Metra of the Applications so that the application processes may commence but is not in this letter expressing a position on whether or not the approvals requested in the Applications should be granted.

If you have any questions, please feel free to call me at 312-742-4685 or to email me at Heather.Gleason@ChicagoParkDistrict.com.

Sincerely,

Handwritten signature of Heather Gleason in blue ink.
Heather Gleason (Nov 7, 2022 12:19 CST)

Director of Planning and Construction

GUIDELINES FOR COMPLETING PART TWO OF THE APPLICATION

All graphic materials must be submitted in an 8.5" x 11" format and must be suitable for clear and sharp, black and white reproduction. Each map or diagram should have a scale and a north arrow. Each sheet of graphic material must be labeled with the appropriate figure number. If there are multiple sheets comprising one figure - for example figure 4 - those sheets should be labeled consecutively, for example Figure 4-1, Figure 4-2, etc., and each sheet should contain the address of the site of the proposal in the lower left corner.

For Figure 1, the Applicant should consider the "vicinity of the site" to be at least as extensive as the area for which he is required to give notice plus any intervening streets or other public rights-of-way.

For Figures 3 and 4, the Applicant should consider that "recreation areas" and "recreation space and facilities" include game courts, swimming pools and pool areas, game rooms, exercise rooms, party rooms, community rooms, observation decks and sun decks.

The required narrative statement should describe the features of the proposed development, including size and mix of dwelling units, mix of uses on the site, etc. It should present a basic rationale for the development.

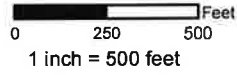

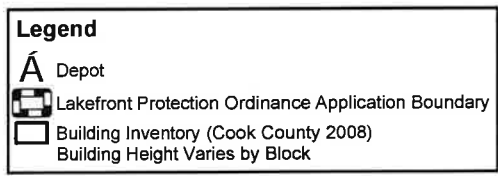

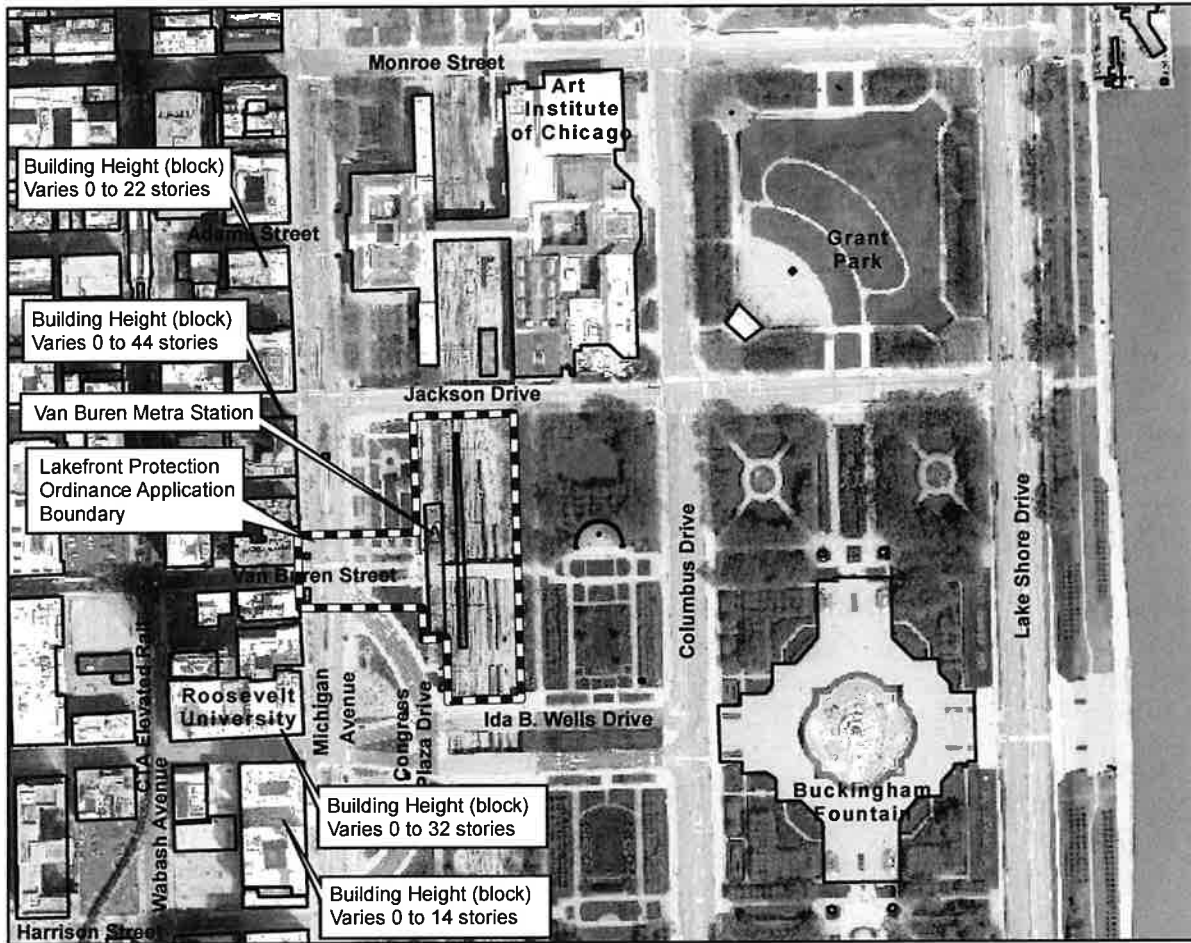

For Figure 6, the Applicant is urged to provide any materials at 8.5" x 11" which will facilitate the review of his Application.

PART TWO: CHARACTER OF THE PROPOSAL

This portion of the Application must be completed by attaching the following items, correctly sized and labeled, to the Application:

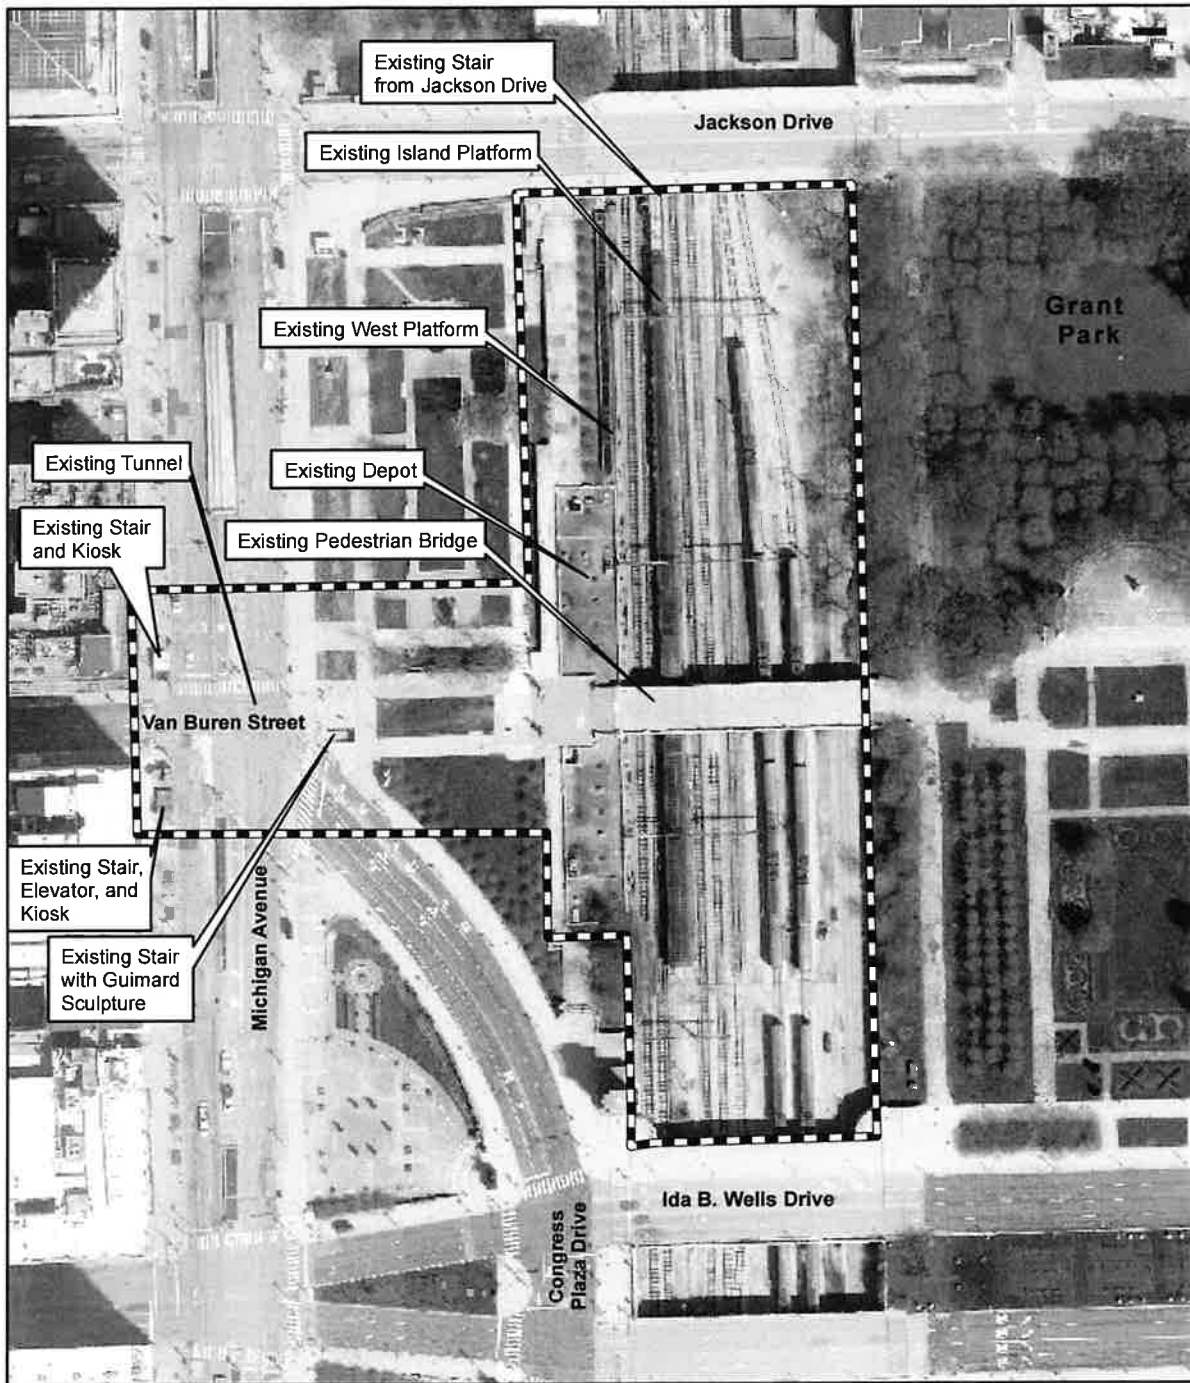

- I. Figure 1: A Map of the Vicinity of the Site, showing Lake Michigan, lakefront parks, preferential streets, schools, parks, major institutions. All streets on this map should be named, and the outline and height on all structures on properties immediately adjacent to the site of the proposal must be shown.
- II. Figure 2: A Map of the Existing Site, showing locations and dimensions of lot lines; contour intervals (5-foot) ; existing structures, walkways, driveways, special features.
- III. Figure 3: The Proposed Site Plan, showing locations and dimensions of proposed structures, driveways and walkways; proposed exterior parking areas; proposed exterior open space and recreation areas.
- IV. Figure 4: Proposed Floor Plans, including the ground floor, a typical floor, any floor with recreation space or facilities.
- V. Figure 5: An Elevation or Cross-section, showing the height and number of stories for all proposed structures.
- VI. Narrative: A Statement Describing the Proposed Development.

In addition, the Applicant is encouraged to provide additional graphic materials, visual aids; e.g., photographs, renderings, data tables, among others. Any such exhibits shall be labeled Figure 6.

Notes:

Commuter Rail Station Improvements

- 1 Rebuild and extend existing island platform and canopy with accessibility improvements (platform level elevator connecting to street level) and accessibility improvements (platform level elevator connecting downward to tunnel living to existing station tunnel).
- 2 Add existing platform and canopy with accessibility improvements (platform level elevator connecting downward to tunnel living to existing station tunnel).
- 3 Share existing eastern platform to Jackson Drive.
- 4 Accessibility improvement from island platform to Jackson Drive (install new "pop-up" elevator from platform to street). Also result in same location existing stairs from island platform to Jackson Drive.
- 5 Rehabilitate existing below-grade station, including new green roof installation and screened mechanical equipment.
- 6 Build replacement station entry, east side Michigan Avenue (newly accessible) and remove existing exterior stair to tunnel.
- 7 Rehabilitate station entry (stairs and elevator enclosure), west side Michigan Avenue.
- 8 Replace underground tunnel in same general location.
- 9 Waterproof existing tunnel (requires removal and replacement of Michigan Avenue pavement).
- 10 Temporarily remove decorative "Pier's" stair enclosure, to safeguard during construction and rebuild or move per City direction.

Railroad Improvements (for reference info only; not part of application)

- 12 Add new platform for train maintenance/vehicle activity only.
- 13 Relocate three railroad tracks (Tracks 5 through 7) and add one new railroad track (Track 8), all within existing railroad right-of-way.
- 14 Substation capacity improvements - new pieces concrete equipment enclosure at track level (including ornamental metal fencing).

Park Improvements

- 15 Rebuild existing stairs and add ADA ramp to existing Van Buren pedestrian bridge.

Signage Improvements (for reference info only; not part of application)

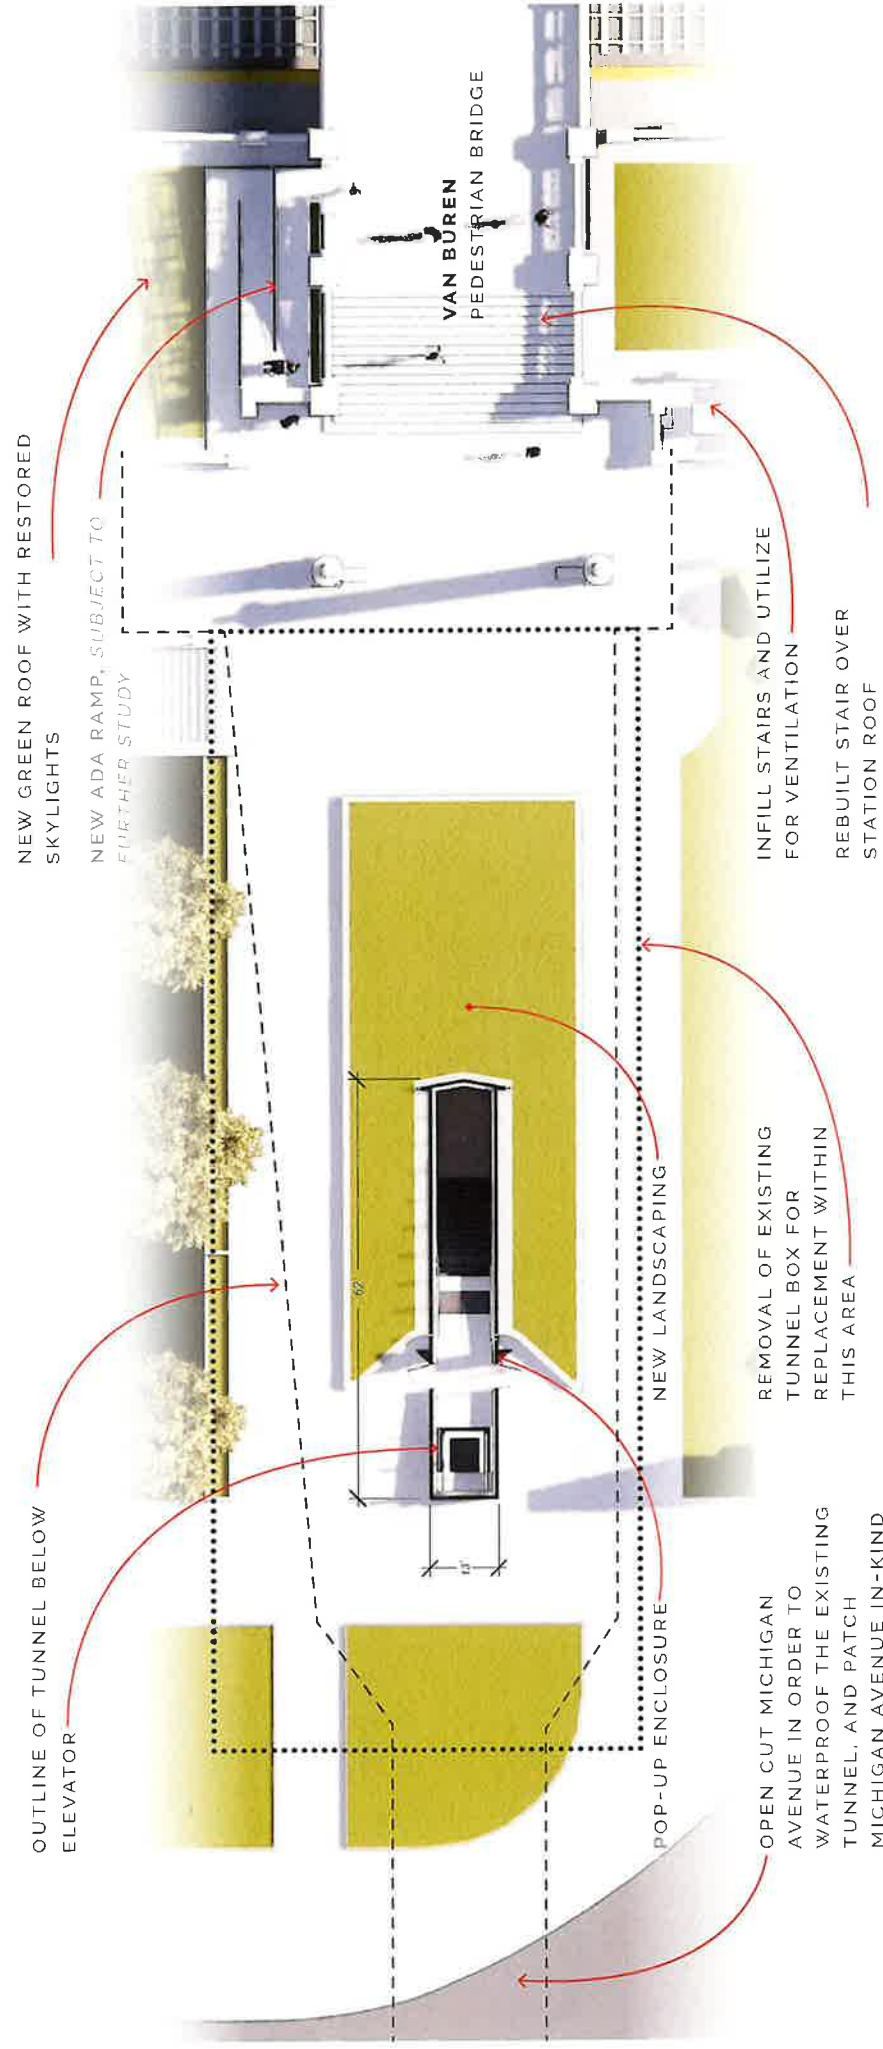

- 10 New digital signs and sign post

Black line = area of LPO application

MICHIGAN AVE • ENCLOSURES

Proposed renovation work:

1. Renovations without significant alteration of stair/elevator enclosures will honor historic style, given location within Historic District.
2. Modify roof with sufficient slope to allow proper stormwater drainage. Replace existing flat glass block roof with new waterproof solid roof. Incorporate slot drain around perimeter to prevent clogging.
3. Repair and replace in kind rusted components and vandalized glass. Re-paint all surface as applicable.
4. Include new Metra and NICTD signage.
5. Upgrade lighting and conceal all exposed wires.
6. Replace all base granite. New granite base to have decorative relief panelized style similar to original design.

VAN BUREN STREET STATION
 ADA ramp concept

Van Buren Street Station, 132 East Van Buren Street -- PROJECT NARRATIVE

This application facilitates a \$100 million rehabilitation of the Van Buren Street commuter rail station by the Commuter Rail Division of the Regional Transportation Authority (d/b/a/ "Metra") and the Northern Indiana Commuter Transportation District ("NICTD"). Metra is overseeing construction on behalf of both agencies. The Van Buren Street Station is a commuter rail station just east of the South Loop in downtown Chicago serving the Metra Electric Line to University Park, Blue Island, and the South Chicago neighborhood, and NICTD's South Shore Commuter Rail Line to Gary, Michigan City and South Bend, Indiana. The station is below-grade located within the boundaries of Grant Park (the "Park") east of Michigan Avenue, north of Ida B. Wells Drive and south of Jackson Drive. The station was designed in 1896 for the Illinois Central Railroad Company.

This historic station will be rehabilitated. A new platform and canopy will be added east of the existing platforms to provide increased capacity for passenger boarding and alighting, and more efficient movement, for NICTD and Metra trains. This new eastern platform will have a stair connection to Jackson Drive and a connecting tunnel link, with stair and elevator, to the existing station pedestrian tunnel which links all of the platforms to the station depot. The project will renovate and replace existing station components overall, including, but not limited to, replacement and extension of the existing island platform, replacement and modification of the existing western side platform, addition of an ADA accessible ramp on the western side of the existing Van Buren pedestrian bridge, rehabilitation of existing elevators, the addition of three new elevators (two linking the park/street level to the depot level and one linking the new eastern platform to the below-track tunnel), the addition of a roof membrane and flashing replacement, waterproofing of the facility's below-grade spaces, installation of park-level plantings on the station's roof (which will become a "green" roof), screening of the rooftop mechanical equipment, rehabilitation of the station's waiting areas, rehabilitation of the rest rooms, upgraded station-level electronic public information displays and other passenger amenities. The proposed renovation of the station depot will be in keeping with the historic station's character, following the Secretary of the Interior's Standards for Rehabilitation.

Also, the station staircase entrances and elevator enclosure on the west side of Michigan Avenue at Van Buren Street, which are considered contributing structures within the City of Chicago Historic Michigan Boulevard District, will be rehabilitated. The underground pedestrian tunnel leading from these enclosures to the station will be waterproofed from the top down and replaced in part east of Michigan Avenue.

A key component of this project is improving ADA access to the station. Currently there is only one ADA access point which is an elevator located on the west side of Michigan Avenue at the intersection of Van Buren Avenue and Michigan Avenue. Two more ADA access points to the station will be added. The first new access point is a new elevator and

stairway proposed for the east side of Michigan Avenue in a small portion of the western edge of Grant Park (the "Michigan Avenue Entry Pop-up"). This will allow station patrons on the east side of Michigan Avenue, such as those coming to and from the Art Institute, Buckingham Fountain, and events within Grant Park, to access the station without having to cross Michigan Avenue to use an elevator. This new Michigan Avenue Entry Pop-up with an elevator in Grant Park will also for the first time east of Michigan Avenue provide an accessible route to the depot, Grant Park South Garage and the pedestrian tunnel under Michigan Avenue. The second new ADA access point will be added through another "pop-up" elevator enclosure and exterior stair at the north end of the existing "island" (center) passenger platform leading directly to the Jackson Drive bridge just south of the Art Institute. This elevator can be accessed by passengers arriving or departing on either side of the existing island platform. This new ADA access point will greatly reduce the travel distance for train users coming to and from the north. Currently, passengers requiring an elevator have to travel to the western side of Michigan Avenue to enter and exit the station. Additionally, all of the track-level platforms will have canopies and be connected to the historic station depot through elevators and tunnels. Finally, Metra will be adding an ADA ramp to the west end of the Van Buren pedestrian bridge, making that bridge fully accessible for the first time (and allowing for a more direct accessible connection between the portion of Grant Park east of the station and the station itself plus Michigan Avenue).

The primary materials of the Michigan Avenue Entry Pop-up will be glass and steel. The glass will be appropriately treated to deter bird strikes. The form of the Pop-up structure is derived from the shape of original historic stair enclosures. It will have a semi-circular, glass and metal canopy with discreet station identification signage facing Michigan Avenue. In fact, the Michigan Avenue Entry Pop-up is consistent with, but less intrusive than, the original station design from the early portion of the 20th century, which featured within the park east of Michigan Avenue two separate kiosk-style staircase entrances to the lower-level tunnel (which in turn connects to the below-grade station depot). Consistent with input from the Chicago Park District, the Michigan Avenue Entry Pop-up will be situated within a new landscaped bed, which will surround it on the east, north and south sides.¹

The current pedestrian tunnel that connects the west side of Michigan Avenue to the below-grade station within Grant Park (and east of Michigan Avenue) is in need of extensive waterproofing and repairs. This pedestrian tunnel will be waterproofed from the top down. The portion of the tunnel below Grant Park, between the east side of Michigan Avenue and the below-grade station ticket area, will be completely rebuilt. The pedestrian tunnel rebuild includes new waterproofing, drainage, lighting, ventilation, signage, and security cameras. The new material finishes throughout will be durable and pleasing. The new Michigan Avenue Entry Pop-

¹ Note that as part of a concurrent federal Section 106 project review, Metra is aware that the City of Chicago's Department of Planning and Development has commented that the design of the pop-up elevator at the Jackson Drive bridge reflected in this application should more closely resemble the design proposed for the Michigan Avenue Entry Pop-Up in this application. Metra has acknowledged this comment and is open to modifying the design of the Jackson Drive bridge elevator pop-up to resemble more closely the design of the Michigan Avenue Entry Pop-up as the design process progresses even though such modifications are not reflected in this application's exhibits.

up will provide a direct, accessible connection to the juncture of ramps in the pedestrian tunnel below. The ramps in the tunnel diverge eastward to provide access to both the station depot and west platform (via the upper ramp) and the existing island platform and new easternmost platform (via the lower ramp). The ramps in this portion of the tunnel will be rebuilt with ADA-compliant 5% slopes and will be configured to have open space between the ramps, and a new convenience stair from the ticket office level to the track underpass level. Electronic train information displays will be provided in the new pedestrian tunnel. Space for vendors will be provided at the lower tunnel level and at the platform level in the ticket lobby.

Finally, the existing 'open' staircase entrance to the station on the east side of Michigan Avenue will be closed and replaced with the nearby new Michigan Avenue Entry Pop-up to prevent water from infiltrating and damaging the station and tunnel below-grade as has happened to date. The current Paris-style decorative cast entrance feature over this existing staircase is owned by the City of Chicago ("City") and is under the jurisdiction of the City's Department of Cultural Affairs and Special Events ("DCASE"). The Curator of Collections and Public Art for DCASE is taking the lead role for the City in determining an appropriate new location for the sculpture. As indicated to DCASE, Metra will remove the sculpture at the start of construction to protect it, will temporarily store it and will clean and repaint it. Metra has further committed to funding a re-installation of the sculpture at a location selected by DCASE. Metra is also open to funding the production of explanatory information about the sculpture as part of re-installation, with the content of any such information falling within DCASE's realm.

The station improvements described above will be accompanied by certain concurrent railroad improvements in the same general vicinity which are exempt from this application, but which include, for reference:

- relocation of three existing railroad tracks (and associated catenary structures) and the addition of one new track (and associated catenary structure) along the east side of the station south of Jackson Drive to allow train bypasses of the station when needed;
- track and catenary structure adjustments north of Jackson and south of Ida B. Wells Drive, along with track and platform improvements underground north of Monroe Drive in the area of Millennium Station;
- installation of a paved low-height track-level platform between Van Buren and Ida B. Wells Drive for use only by commuter-rail train crews for safe train maintenance/service activities between runs; and
- addition of a 2,400 square foot low-height, trackside, pre-cast concrete electrical substation building (with related metal fencing), providing additional electrical capacity, situated approximately 25 feet to the north of the existing, track-side electrical substation building and developed with a consistent exterior material and color.

In addition and also exempt from this application (but noted for reference), Metra is planning new street-level digital signage at the station entrances in conjunction with the station improvements as follows:

Applicant: Commuter Rail Division of the Regional Transportation Authority (d/b/a/ "Metra")
Premises: Van Buren Street Station, 132 East Van Buren (east of Michigan Avenue and Van Buren Street)
Date: November 17, 2022

- two kiosk-style signs on the Jackson Drive Bridge,
- one kiosk-style sign just north of the Michigan Avenue Entry Pop-up within a cut-out to an above-grade concrete air ventilation structure of the Grant Park South Garage,
- two kiosk-style signs on the west side of Michigan Avenue near the station entry enclosures north and south of Van Buren Street, and
- one sign post on the west side of Michigan Avenue near the elevator entry enclosure south of Van Buren Street.

All of these signs (except the sign post) will contain real-time train information, accessible path messages, emergency messages, and other wayfinding information. None of the signs will carry third-party advertisements.

The NICTD components of the overall project are expected to begin construction in 2023, with the Metra components expected to begin sometime in 2026-27.

PART THREE: ZONING INFORMATION

The Applicant shall provide the basic data on zoning considerations for the site of the proposal. Calculations may be shown below on this page and on page 8.

I. Is a planned development ordinance or an amendment to an existing planned development required or permitted for the subject site?

required permitted no
(minor amendment to PD 677, applicable to a portion of site area)

If a planned development approach is required, or if it is permitted and the Applicant chooses to seek a planned development amendment, the Applicant is not required to complete the remainder of Part Three of this Application Form.

Address: Van Buren Metra station - Grant Park, including west side of South Michigan Avenue 100' north and south of centerline of East Van Buren Street
132 E. Van Buren

II Is Zoning Board of Appeals approval a variation or a special use either necessary or

contemplated in relation to the Applicant's proposal? yes no.

If "yes," please explain the nature of the approval.

A special use approval is required for the southern one-half of the Michigan Avenue Entry Pop-up as such portion of this improvement is located in the POS-1 zoning district.

III. Net Site Area and Existing Zoning District Classification (list that portion of the net site area in each):

<u>District Classification</u>	<u>Area (approx.)</u>
A. <u>PD 677</u>	<u>145,075</u> sq. ft.
B. <u>POS-1</u>	<u>39,875</u> sq. ft.
C. <u>DX-16</u>	<u>96,300*</u> sq. ft.
D. Total Net Site Area:	<u>281,250</u> sq. ft.

*83,300 sf of the 96,300 sf in DX-16 is part of a related request for T rezoning

IV. Dwelling Units (n/a)

A. Maximum units allowed

1. Without efficiency units: _____.
2. With maximum percent of efficiency units: _____.

B. Proposed number of units

1. Dwelling units: _____.
2. Efficiency Units: _____.
3. Total Units: _____.

C. Does the Applicant intend to increase allowable floor area by reducing the number of units constructed below the maximum allowed?

_____ yes _____ no.

If "yes" there will be _____ units fewer than the maximum allowed, and the Floor Area Ratio for the site will be increased by _____ %.

Address: Van Buren Metra station - Grant Park, including west side of South Michigan Avenue 100' north and south of centerline of East Van Buren Street
132 E. Van Buren

This page for calculations.

Address: _____

V. Bulk

- A. Base Floor Area Ratio (F.A.R.), without bonuses: n/a
- B. Proposed F.A.R., include all bonuses: (Pop-ups, warming shelters above-grade; non-material floor area)
- C. List all bonuses used in computing B., above: (n/a)

1. _____
2. _____
3. _____

- D. Proposed Floor Area: (n/a) sq. ft. (Pop-ups, warming shelters above-grade; non-material floor area)
- E. Percentage of floor area devoted to interior recreation space, meeting rooms, etc.: n/a %

VI. Off-street Parking and Loading (n/a)

	<u>Minimum Required</u>	<u>Number Proposed</u>
A. Parking Spaces	_____	_____
B. Loading Docks	_____	_____

VII. Setbacks (n/a)

	<u>Minimum</u>	<u>Proposed</u>
A. Front	_____	_____
B. Side	_____	_____
C. Rear	_____	_____

Address: Van Buren Metra station - Grant Park, including west side of South Michigan Avenue 100' north and south of centerline of East Van Buren Street
 132 E. Van Buren

PART FOUR: POTENTIAL IMPACT OF THE PROPOSAL

PART FOUR: POTENTIAL IMPACT OF THE PROPOSAL

I. Fourteen Basic Policies

1. Complete the publicly owned and locally controlled park system along the entire Chicago lakefront.

The proposal in essence removes no publicly owned and locally controlled park areas from the lakefront. Although a small grassy area just east of Michigan Avenue will be removed for installation of the Michigan Avenue Entry Pop-up, the Pop-up will be surrounded on the north, east and south sides by new plantings. And a paved area west of the Pop-up will be newly landscaped (in place of sidewalk which exists today). Also, a very small patch of grass north of an above-grade ventilation structure belonging to the Grant Park South Garage will be newly paved to allow Park users to view real-time train and other wayfinding information on a proposed digital sign kiosk to be added within a notch-out of the ventilation structure.

2. Maintain and enhance the predominantly landscaped, spacious and continuous character of the lakeshore parks.

The proposal will enhance the landscaped, spacious and continuous character of Grant Park by adding a green roof above the Station at park level (the Station's original design), easing the landscape transition and viewshed eastward from Michigan Avenue across the railroad tracks to the heart of Grant Park. The proposal also provides for an ADA-accessible ramp and stair renovations on the western edge of the Van Buren pedestrian bridge, facilitating easier neighborhood access to the eastern portion of Grant Park for those with mobility impairments or needing a smooth surface for wheels (e.g., strollers, bikes, etc.)

3. Continue to improve the water quality and ecological balance of Lake Michigan.

Since the site is remote from the Lake itself, the proposal has no direct impact upon the water quality and ecological balance of Lake Michigan. All infrastructure and building development will conform to all applicable regulations concerning water purity and quality.

Applicant: Commuter Rail Division of the Regional Transportation Authority (d/b/a "Metra")
Premises: Van Buren Street Station, east of Michigan Avenue and Van Buren Street
Date: November 17, 2022

4. Preserve the cultural, historical and recreational heritage of the lakeshore parks.

The proposal includes the rehabilitation of the Station's historic waiting room in keeping with its original design, which was formerly renowned for its elegance and focus on passenger comfort. Additionally, the proposal will include rehabilitation of the existing stair and elevator enclosures on the west side of Michigan Avenue with new enclosures honoring the historic style, adding new granite base walls with a decorative relief similar to the enclosures' original design. Finally, Metra has included project funding for the removal and temporary storage of the "Paris stair" entryway, its cleaning and repainting, and its re-installation at a location determined by the City through its Department of Cultural Affairs and Special Events.

5. Maintain and improve the formal character and open water vista of Grant Park with no new above ground structures permitted.

The proposal is remote from and does not affect the open water vista of Grant Park. Although the proposal will add a new, small, glass-enclosed entry pop-up just to the west of the Van Buren pedestrian bridge (importantly providing weather-protected entry and exit to the below-grade station and Grant Park South Garage), this entry pop-up will not interrupt views from Michigan Avenue to Lake Michigan since the height of the Van Buren pedestrian bridge just to the east coupled with the heavy vegetation on the east side of the railroad right-of-way already blocks water views for a Michigan Avenue pedestrian. The proposed green roof above the Station will also positively contribute to the Park's character by adding planted material where such material does not exist today (and where it existed originally).

6. Increase the diversity of recreational opportunities while emphasizing lake-oriented leisure time activities.

The proposal emphasizes lake-oriented leisure time activities by creating an attractive modern passenger rail station within Grant Park serving people from the southeast Chicago neighborhoods, far south suburbs and northern Indiana. The proposal should entice additional leisure riders to visit Grant Park and its nearby recreational opportunities (including cultural recreation such as visits to the nearby Art Institute within Grant Park).

Applicant: Commuter Rail Division of the Regional Transportation Authority (d/b/a "Metra")
Premises: Van Buren Street Station, east of Michigan Avenue and Van Buren Street
Date: November 17, 2022

7. Protect and develop natural lakeshore park and water area for wildlife habitation.

Existing lakeshore park and water areas for wildlife habitation are not adversely impacted by the proposal. The site contains no natural lakeshore park or water areas.

8. Increase personal safety.

The proposal will add to safety and security in the area through the addition and renovation of weather-protected entry pop-ups to the Station and the accessible ramp and stair renovations on the Van Buren pedestrian bridge. Moreover, the proposal will rehabilitate the Station (including the below-grade pedestrian tunnel), making it brighter and more visually open, thus increasing passengers' sense of safety. Installation of new security cameras will advance this policy as well.

9. Design all lake edge and lake construction to prevent detrimental shoreline erosion.

The proposal includes no lake edge or in-lake construction.

10. Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted east of Lake Shore Drive.

The site includes no development east of Lake Shore Drive. As noted above, the proposal includes a green roof which will ease the visual transition between the western edge of Grant Park across the railroad tracks to the eastern portion. Additionally, the accessible ramp and stair renovations on the Van Buren pedestrian bridge will facilitate easier neighborhood access to Grant Park.

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads.

The proposal will likely decrease vehicular traffic on secondary park roads by providing an attractive commuter rail transportation to the Loop and lakeshore parks.

12. Strengthen the parkway characteristics of Lake Shore Drive and prohibit any roadway of expressway standards.

Applicant: Commuter Rail Division of the Regional Transportation Authority (d/b/a "Metra")
Premises: Van Buren Street Station, east of Michigan Avenue and Van Buren Street
Date: November 17, 2022

The proposal does not include any roadway of expressway standards.

13. Ensure that all port, water supply and public facilities are designed to enhance lakefront character.

There are no port activities for the site. All water supply and public facilities for the proposal will be designed to preserve and where possible enhance the character of the lakefront.

14. Coordinate all public and private development within the water, park and community zones.

The Applicant has engaged in extensive discussions with a wide variety of authorities, government agencies and private entities to ensure the proper coordination of this proposal.

The City's Department of Planning and Development has been the coordinating agency for a review of this undertaking at the City and it is expected that this Department will continue to function in that role.

Applicant: Commuter Rail Division of the Regional Transportation Authority (d/b/a "Metra")
Premises: Van Buren Street Station, east of Michigan Avenue and Van Buren Street
Date: November 17, 2022

PART FOUR: POTENTIAL IMPACT OF THE PROPOSAL

II. Thirteen Purposes:

1. To promote and protect the health, safety, comfort, convenience and the general welfare of the people and conserve our natural resources.

The public health, safety and welfare will be promoted by implementation of the proposal. Consistent with the original design intent of the Van Buren Station, minimal above-grade construction is being undertaken within the lakefront zone, with the resulting rehabilitated Station -- with its minimal aesthetic impact to Grant Park -- greatly improving passenger safety, accessibility and comfort. This serves as a catalyst for train ridership, an associated reduction in auto trips (and the environmental impact accompanying such trips) and increased visitation to Grant Park, adjoining cultural and recreational facilities, and businesses.

2. To identify and establish the Lake Michigan and Chicago Lakefront Protection District and to divide that District into several zones wherein any and all development or construction, as specified in Article V hereinafter, shall be specifically restricted and regulated.

The Applicant's site lies in the Public Use Zone of the Lake Michigan and Chicago Lakefront Protection Ordinance. The Applicant is complying with the requirements of the Ordinance by seeking approval hereunder for proposed activities on the site in accordance with the policies and purposes set forth in the Ordinance.

3. To maintain and improve the purity and quality of the waters of Lake Michigan.

The proposal will have no negative impact on the water quality of Lake Michigan. All infrastructure and building development will conform to all applicable regulations concerning water purity and quality.

4. To insure that construction in the Lake or modification of the existing shoreline shall not be permitted if such construction or modification would cause environmental or ecological damage to the Lake or would diminish water quality; and to insure that the life patterns of fish, migratory birds and other fauna are recognized and supported.

There will be no construction activities in the Lake. No ecological or environmental damage nor any adverse impact on water quality will result from this proposal.

5. To insure that the Lakefront Parks and the Lake are devoted only to public purposes and to insure the integrity of and expand the quantity and quality of the Lakefront Parks.

These purposes are respected in the proposal. With its rehabilitation of a public passenger rail station, the proposal to be undertaken by the region's public commuter rail transit agency will increase accessibility of the Lakefront Parks. The Station's new green roof brings compatibility with the adjoining planted areas of Grant Park, while the design of the Michigan Avenue Entry Pop-up will be visually attractive, will be surrounded by new plantings and will be accompanied by the installation of new planted area along Michigan Avenue where today there is an overwide sidewalk.

6. To promote and provide for continuous pedestrian movement along the shoreline.

None of the subject property is at or in direct contact with the Lakefront shoreline.

7. To promote and provide for pedestrian access to the Lake and Lakefront Parks from and through areas adjacent thereto at regular intervals of one – fourth mile and additional places wherever possible, and to protect and enhance vistas at these locations and wherever else possible.

As described above, the proposal improves access to the Lake and specifically Grant Park from points west via the new accessible ramp and stair renovations on the western side of the Van Buren pedestrian bridge in Grant Park which today is not accessible on its west side. In addition, the new Michigan Avenue Entry Pop-up for the first time east of Michigan Avenue provides direct accessible access from the Grant Park South Garage to the portion of Grant Park lying south of Jackson Drive and east of Michigan Avenue. This portion of Grant Park can today only be accessed from the Garage by crossing Jackson Drive from an elevator at the northeast corner of Jackson Drive and Michigan Avenue and then entering Grant Park on the east side of the railroad right-of-way using the sidewalk on the south side of Jackson Drive. The project eliminates this long traverse outside of

Grant Park for those with mobility impairments or with wheeled equipment (e.g., strollers and bikes).

8. To promote and provide for improved public transportation access to the Lakefront.

By rehabilitating and modernizing the Station, the project will significantly improve and promote public transportation access to the Lakefront.

9. To ensure that no roadway of expressway standards, as hereinafter defined, shall be permitted in the Lakefront Parks.

The Applicant's proposal does not call for construction of any roadway of expressway standards in the Lakefront Parks (or any roadway of any kind).

10. To ensure that development of properties adjacent to the Lake or the Lakefront Parks is so designed as to implement the above – stated purposes, provided, however, that with respect to property located within the private use zone as established by Article V, VI and IX of this ordinance, the permitted use, special use, lot area per dwelling unit and floor area ratio provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, shall govern except where such provisions are in substantial conflict with the purposes of this Ordinance or the Fourteen Basic Policies of the Lakefront Plan of Chicago.

The Applicant's proposal is governed by and complies with all provisions of the Chicago Zoning Ordinance.

November 17, 2022

Dear Neighbor:

In accordance with the public notice requirements of the City of Chicago Zoning Ordinance, please be informed that on or about December 1, 2022, The Commuter Rail Division of the Regional Transportation Authority ("Metra") will file an application for a change in zoning from the DX-16 Downtown Mixed-Use District to the T Transportation District for the portion of a railroad right-of-way owned by the City of Chicago and used by Metra and the Northern Indiana Commuter Transportation District ("NICTD") lying between the center line of East Van Buren Street as extended east where no street exists and East Balbo Drive.

The specific area to be rezoned is described as follows and depicted on the reverse: The center line of East Van Buren Street as extended east where no street exists; a line 600 feet east of the west line of South Michigan Avenue; the center line of East Balbo Drive; and a line 400 feet east of the west line of South Michigan Avenue. The area to be rezoned to the T district includes within it the area required to extend passenger platforms with canopies, provide accessibility improvements and implement crew/railroad improvements.

Metra will file two additional applications seeking approval under the Lake Michigan and Chicago Lakefront Protection Ordinance (the "LPO Application") and for special use approval from the Chicago Zoning Board Appeals. Metra is filing the three applications as part of the rehabilitation of the Van Buren commuter rail station (132 E. Van Buren Street, Chicago, IL 60605) by Metra and NICTD.

The area covered by the LPO Application and special use application are also shown on the reverse and described below:

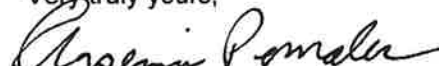

- o The LPO Application, to be filed on or about November 17, 2022, covers a variety of station and related improvements, including those on the west side of Michigan Avenue and extending into Grant Park.
- o The special use application relates to a new enclosed elevator and stair enclosure providing station access on the east side of Michigan Avenue within Grant Park.

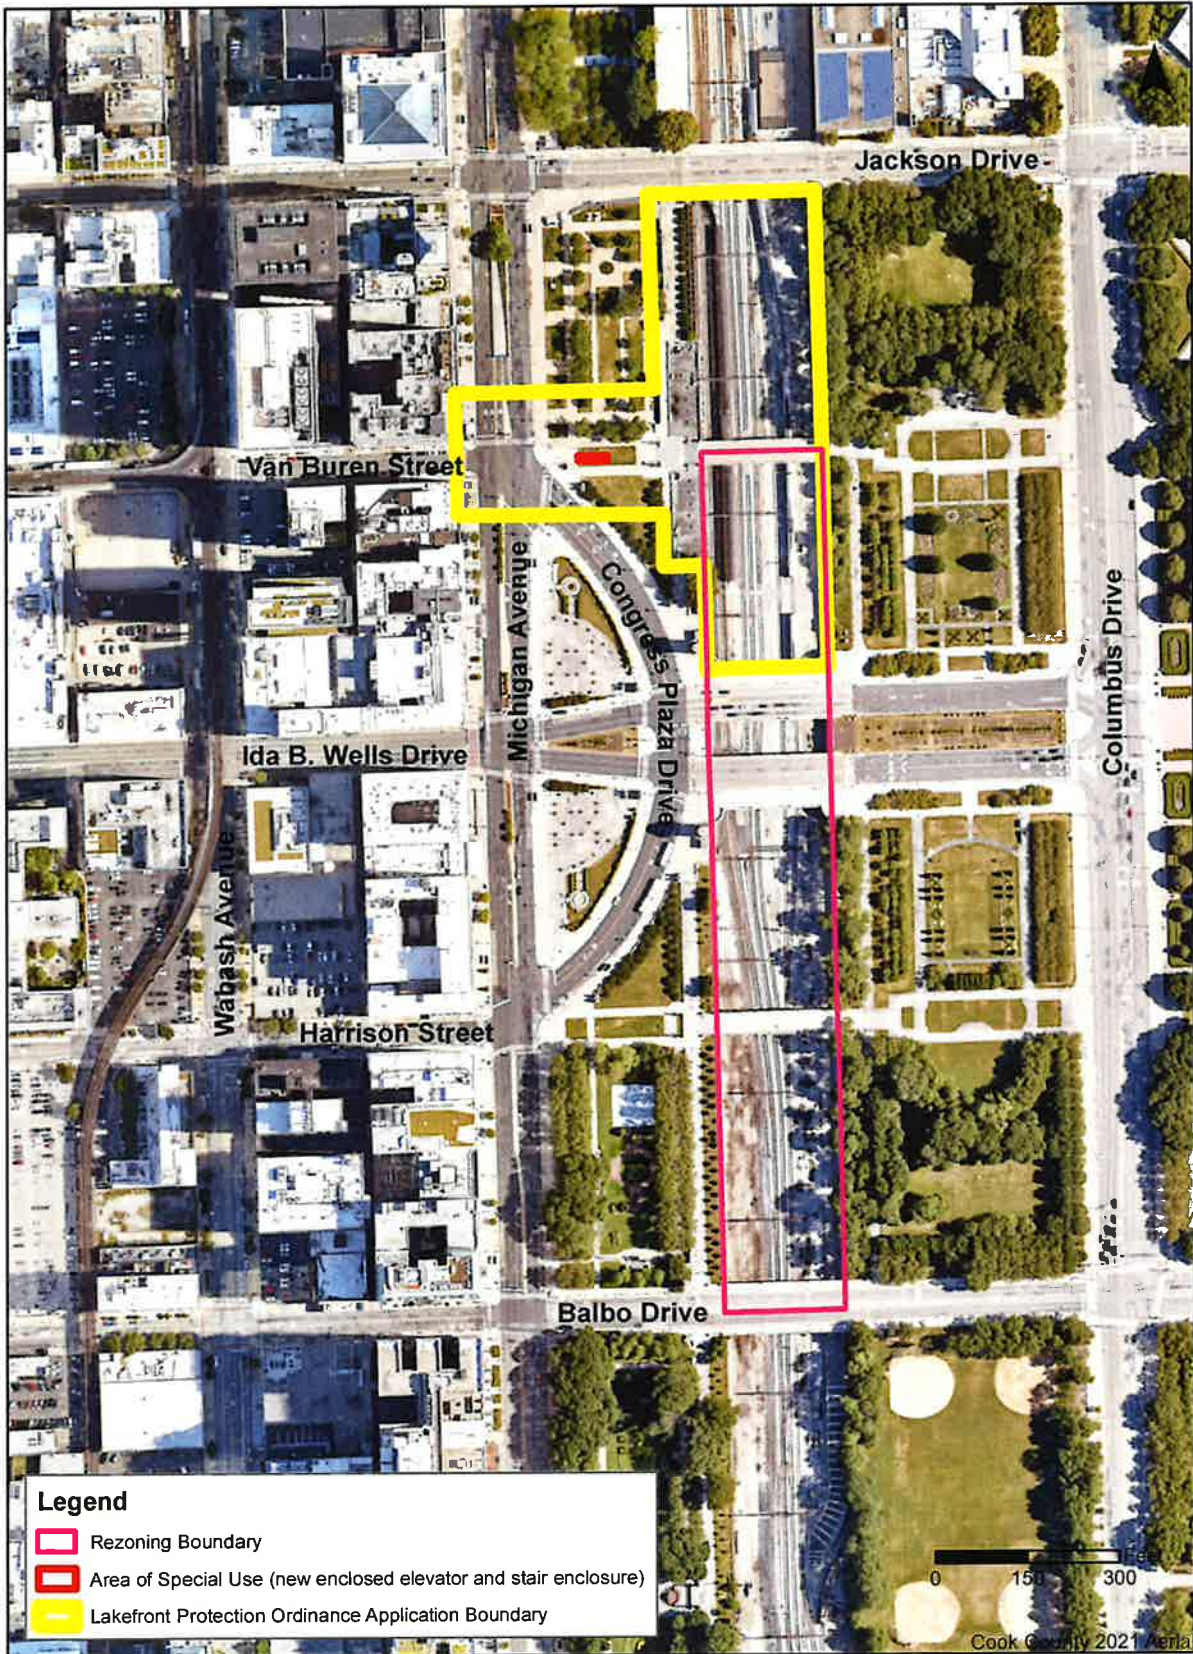

Please note that Metra is not seeking to rezone or purchase your property. Metra is required by law to send this notice because you own property within 250 feet of the property which is part of the land use applications described above.

Metra maintains a comprehensive website about the project. It can be accessed here: <https://metra.com/VanBurenStationProject>. That website also includes answers to commonly asked questions in the FAQs.

If you have any questions about this project or the Applications, please do not hesitate to contact me at 312-322-6587, by email (APomales@metrarr.com) or at the following address, 547 West Jackson Boulevard, Chicago, Illinois 60661. You may also contact our zoning counsel, Scott Saef, at (312) 853-4159.

Very truly yours,

Arsenio Pomales
