18. The Applicant acknowledges and agrees that the rezoning of the Property from Planned Development 1309 and Planned Development 1310 to Residential-Business-Institutional Planned Development 1309, as amended, is an "entitlement" that triggers the requirements of Section 2-44-085 of the Municipal Code of Chicago (the "ARO"). The PD is located in a "community preservation area" within the meaning of the ARO and permits the construction of up to 300 dwelling units in Sub-Area B and up to 900 units in Sub-Area C. The maximum number of residential units may be increased if offset by a corresponding reduction of 2 hotel rooms per 1 residential unit, or, the maximum number of hotel rooms may be increased if offset by a corresponding reduction of 1 residential unit per 2 hotel rooms, via Site Plan approval process, as noted in the Bulk Table.

Developers of rental projects in community preservation areas with 30 or more units must provide between 10% and 20% of the units in the residential development as affordable

units, depending on the average depth of affordability provided, as described in subsection (F)(2) of the ARO. Regardless of the applicable percentage of affordable units in the rental project, developers must construct at least 25% of the affordable units on-site and another 25% on-site or off-site (collectively, the "Required Units"), and may satisfy the balance of their affordable housing obligation through: (a) the establishment of additional on-site or off-site affordable units; (b) payment of a fee in lieu of the establishment of on-site or off-site affordable units; or (c) any combination thereof. All on-site affordable units must be accessible dwelling units, as required under subsection (W)(10) of the ARO, and developers must give preference in leasing accessible units to people with disabilities, as specified in the ARO rules. All off-site affordable units must have at least two bedrooms and must be located in a downtown district, inclusionary housing area, or community preservation area. Whether on-site or off-site, developers must give preference in leasing affordable units of two bedrooms or more to multi-person households, as specified in the ARO rules. If a residential project is located in a transit-served location, off-site units must be located in a substantially comparable transit-served location.

The Applicant will satisfy its affordable housing obligation under the ARO for each proposed development at the time of submission for the Site Plan Approval process, and will submit an Affordable Housing Profile (AHP) at that time.

If the Applicant requests any material change to its method of compliance with the ARO, such as locating affordable units off-site instead of on-site or changing the target affordability level after the passage of this PD, DOH may adjust the AHP as requested, in accordance with the ARO, without amending the PD, provided however, the Applicant must update and resubmit the revised AHP to DOH for review and approval and, at DOH's request, provide an informational presentation to Plan Commission on such change. Prior to the issuance of any building permits for any residential building in the PD, including, without limitation, excavation or foundation permits, the Applicant must execute and record an Inclusionary Housing Agreement ("IHA") in accordance with subsection (N) of the ARO. The terms of the IHA and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the IHA will be recorded against the PD and will constitute a lien against such property. The Commissioner of DOH may enforce remedies for any breach of this Statement 18, including any breach of any IHA, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the PD.

This statement does not include all ARO requirements and options. It is intended to provide an overview of the application of the ARO to this PD. In the event of any conflict between this statement and the terms and conditions of the ARO, the ARO shall govern.

19. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority- and Women-owned Business Enterprises ("M/WBEs") and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the City in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the City approval process. First, the applicant must submit to

DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The City encourages goals of (i) 26 percent MBE and 6 percent WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50 percent city resident hiring (measured against the total construction work hours for the project or any phase thereof).

The M/WBE Participation Proposal must include a description of the applicant's proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the applicant's submission for Part II permit review for the project or any phase thereof, the applicant must submit to DPD: (a) updates (if any) to the applicant's preliminary outreach plan; (b) a description of the applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the applicant's outreach efforts; and (d) updates (if any) to the applicant's M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the foregoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

## Project Description

Project is a 135,000 sf (+ or -) Community Hockey and Training Facility expansion to be developed directly west and adjacent to the existing Fifth Third Arena facility. The current facility is located at the southwest corner of West Jackson Boulevard and South Wood Street, with expansion west towards South Damen Avenue (located within PD 1310). The 4.25-acre parcel of land for the expansion shall be acquired from Rush in a bona fide third-party transaction as a part of a larger acquisition that includes a total of 7.12 acres. The acquiring entity plans to finalize the acquisition of the land from Rush, following the entering of the subject site by Rush into a IEPA Remedial Action Program, with projected acquisition taking place during Q3 or Q4 2023, construction to start in Q1 2024 and conclude during Q1 2026. The project is anticipated to be funded through a combination of traditional bank financing and private funding. No City incentives are being sought.

The Chicago Blackhawks and its ownership are committed to making Chicago proud by growing the game of hockey while simultaneously serving the surrounding community by increasing youth programming and creating an ecosystem of jobs and careers related to sports, entertainment and hospitality. This proposed expansion will blend seamlessly into the surrounding neighborhood, with a focus on enhancing the pedestrian experience and an emphasis of creating better multimodal connectivity on West Jackson Boulevard. The project team is providing a modern and cohesive design with the existing building and other nearby athletic facilities, including the United Center and the Advocate Center, the Chicago Bulls' recently constructed training facility. Expansion of Fifth Third Arena will consist of two regulation sized ice sheets with one such rink accommodating approximately 300 spectators and the other serving as a larger format rink with capacity of 1,500 spectators. The large format rink will provide increased opportunities to bid on more diverse entertainment events and attractions. In addition to the two (2) new rinks, the following will also be gained by this project: a welcoming, light-filled central gathering space, 200 additional parking lot spaces (180 will count as the required parking), locker rooms, food and beverage space, and multi-use rooms. The expanded building structure will be designed to meet LEED (Silver) equivalent standards, and will include a partial green roof, ample bicycle parking spaces and electric vehicle charging stations, and professionally designed eco-conscious exterior landscaping. In addition to the existing 26 bicycle parking spaces that will remain on Sub-Area A, the new

---

facility will provide 36 bicycle parking spaces, as required by code. With a large portion of the expansion being opaque, the potential for migratory bird collisions will be minimized. Parking areas will be well-landscaped and fenced, consistent with the City of Chicago's current standards.

While the Chicago Blackhawks will continue to utilize the existing facility for practice and rehabilitation, the team uses a very small percentage of the ice time. The additional ice rinks will provide new and expanded opportunities for programming and attraction of local and national events, tournaments, and entertainment. Upon completion, the four (4) rinks will provide enhanced engagement of hockey and ice-skating programs to a wide range of users, with emphasis on local youth development. Programs will include ice skating, figure skating, recreational skating, recreational and advanced hockey leagues, tournaments, high school and college teams, semi-professional teams, off-ice training – including fitness and nutritional programs, and group events. The Chicago Blackhawks Foundation will continue to provide complimentary community programming including, but not limited to, hockey and off-ice development programs for local youth groups. The proposed expansion will also provide future generations of players, employees, neighbors and community members with a centrally located, city-centric home to learn, play and develop practical skills intended to serve them well beyond their time on the ice.

Maximum allowable height for the revised PD Sub-Areas B and C will be 295'. Allowable uses will be as set forth in the accompanying Zoning Analysis, across all Sub-Areas. The expansion project is planned for completion by Q1 2026, while additional future development, which may include residential, hotel, and office/retail uses, is anticipated to occur in future years, subject to the review of future site plans by the City. In any future phase of development, adequate parking shall be required, and traffic impacts shall be studied and provided for. All future development plans must be submitted to the City for Site Plan approval, with courtesy Plan Commission presentation. In order to create the most appealing and functional master plan, parking needs may be relocated to any sub-area within the PD to accommodate future development, as long as adequate parking is provided, and minimum parking requirements for the overall PD are met. Similarly, in order to create the most appealing and functional future master plan, un-used allowable Floor Area may be allocated or assigned within Sub-Area A, B, and/or C under the Planned Development from other Sub-Areas.
