owners of such portions of the Property affected by such changes shall provide notice thereof to the Department of Planning and Development for said Department’s administrative purposes to facilitate Part II review for any such designated subarea. In furtherance of the foregoing, the owners of the Property may allocate or assign the development rights under this Planned Development to and among the designated subareas, including, but not limited to, Floor Area and FAR, signage, building height, and parking; provided, however, that the limitations set forth in the Bulk Regulations and Data Table applicable to the entirety of the Planned Development shall not be exceeded or increased as a result of any such designation(s).

13. It is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. The applicable Affiliate shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II review process is initiated for each improvement that is subject to the aforementioned Policy and must provide documentation verifying compliance.
14. It is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor’s Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.
15. Design Guidelines. The improvements on the Property shall be designed, constructed and maintained in general conformance with the plans and exhibits set forth in these statements or attached hereto. In addition, the development shall be subject to the following development parameters:

Loft Conversions	Up to 50% of total open space required in column 3 may be in balconies or individual unit roof decks	65 square feet (may be provided in roof garden) or compliance with applicable open space impact fees in lieu*

*Where an in lieu fee is applicable it shall be calculated pursuant to the following formula: $[\text{Required Private Open Space} - \text{Proposed Provided Private Open Space (including all front, side and rear yards)}] / 87\text{SF} * \$313 = \text{required in lieu fee}$. The denominator square feet and fee amount may be adjusted from time to time by DPD per the generally-applicable guidelines for the open space impact fee credit. The required in lieu fee shall be calculated by DPD at the time of Part II Approval.

- (b) Landscaping. The landscaping requirements for Phase I of the development will comply with the Phase I Landscape Plan attached hereto. The landscaping for all future phases of development shall substantially comply with the Street Character Guidelines and the Chicago Landscape Ordinance and associated guidelines and regulations. of Planning and Development and shall include windows. They shall be varied in material, roofline and window style. The front facade materials should turn the corner for a minimum of four (4) feet at the side walls. Where buildings have a greater exposure of the side facade due to an adjacent building setback, the front facade materials shall return four (4) feet past the face of the adjacent facade. Side walls and rear, walls should be masonry or other compatible materials with the front façade aesthetic. E.I.F.S. synthetic stucco or dryvit, shall be limited to architectural ornament and penthouse facades. 16. The rezoning of the Property in Subarea D that was the subject of the 2017 amendment (the “2017 Amendment Property”) and the buildings proposed in Subareas B or D that were the subject of the 2021 amendment (the “2021 Amendment Property”) are subject to the requirements of Section 2-45-115 of the Municipal Code (the “Affordable Requirements Ordinance” or “ARO”). The provisions of Statement 18 of the PD amendment approved by the City Council on July 21, 2021, and published in the City Council Journal of Proceedings at pages 33716- 33766, setting forth the requirements applicable to the 2017 Amendment Property and the 2021 Amendment Property, are hereby incorporated by this referenced.
17. It is the policy of the City to maximize opportunities for Minority and Women-owned Business Enterprises (“M/WBEs”) and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the city in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the city approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant’s goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The city encourages goals of 26% MBE and 6% WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50% city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the applicant’s proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the applicant’s submission for Part II permit review for the project or any phase thereof, the applicant must submit to DPD (a) updates (if any) to the applicant’s preliminary outreach plan, (b) a description of the applicant’s outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the applicant’s outreach efforts, and (d) updates (if any) to the applicant’s M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the forgoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

STREET CHARACTER DIAGRAM

The "Traditional Chicago Residential Street" is a street with a typical 66 foot right-of-way, low-volume and low-speed local traffic, shady and tree-lined residential character with on-street parallel parking on both sides. They are often one-way streets. Two to four story residential buildings and low to medium density development are appropriate on this street type. All of the side streets are of this type.

- Six foot concrete sidewalk adjacent to six foot grass parkway.
- Shade trees at 25 foot spacing in parkway, per City standards.
- Standard City of Chicago "cobra head" street light at 75 or 100 foot spacing, per City standards.
- Ornamental metal fence at some front property lines.
- Minimum ten foot required front yard setback with some encroachments such as stairs, porches, and bays.
- Two to four story buildings.
- Front doors visible from street.
- First floor predominantly at grade.

NOTE: Parkway dimensions are for new streets only. Parkway dimensions of existing streets may vary.

STREET CHARACTER DIAGRAM

The "Residential Boulevard" is a high-volume arterial street characterized by a wide right-of-way and a divided roadway separated by a landscaped median. Because of its width and traffic volume taller buildings and greater density are appropriate on this street type. Roosevelt Road is the sole example of the residential boulevard.

- Boulevard roadway with center median and separated one-way travel lanes.
- Landscaped center median with shade trees and low shrubs.
- Twelve foot parkway including six foot concrete sidewalk adjacent to five foot parkway planters with low curbs.
- Shade trees at twenty-five foot spacing in parkway planters or, where dictated by pedestrian circulation or site constraints, in 5 x 10 cast-iron tree grates, per City standards.
- "Gateway 2000" street lights at 100 foot spacing for roadway lighting, per City standards.
- "Single acorn" pedestrian lights at 50 foot spacing for pedestrian lighting, per City standards.
- No required setback from front property line. Some mid-building courtyard setbacks.
- Ground floor or single-story retail use at some corners.
- Front doors visible from street.
- First floor at grade.

NOTE: Parkway dimensions are for new streets only. Parkway dimensions of existing streets may vary.

STREET CHARACTER DIAGRAM

The "Residential Pedestrian Corridor" is a set of narrow streets characterized by their focus on enriching the pedestrian experience. These streets include West Arthington Street, South Ada Street, and South Lytle Street. At the center of these streets, located on the west side of South Lytle Street, a central garden anchors the urban experience. The garden generates a break in the building street wall and creates relief within the residential urban fabric. Buildings surrounding the park will be limited to three stories to enhance the feeling of intimacy. The park will function as a gathering place for the residents and help enhance the feeling of community.

- 6 foot concrete sidewalk adjacent to 6 foot parkway planters with low curbs.
- "Gateway 2000" street lights at 100 foot spacing for roadway lighting, per City standards.
- "Single acorn" pedestrian lights at 50 foot spacing for pedestrian lighting, per City standards.
- Three story buildings.
- Front doors visible from street.
- First floor elevated above grade for privacy.
- Shade trees at 25 foot spacing in 5 x 5 cast-iron tree grates, per City standards.
- To achieve tree diversity, plant trees in alternating groups (3-6 trees) of different types of trees. Where feasible, no tree species should represent more than 20-25% of the block segment.

The "Mixed-use Pedestrian Retail Street" has a typical 66 foot right-of-way with low-volume and low-speed local traffic with parallel parking on both sides and is shady and tree-lined. Land use is a mix of ground floor restaurants, retail, and services with some ground floor residential and residential on upper floors.

Medium density development are appropriate on this street type. Taylor Street is the sole example of the mixed-use pedestrian retail street.

- Ten foot concrete sidewalk.
- Shade trees at 25 foot spacing in 5 x 10 cast-iron tree grates, per City standards.
- "Double acorn" street light at 50 to 75 foot spacing, per City standards.
- Ground floor commercial (restaurants, retail, and services) with residential above, some ground floor residential.
- Some potential for stand-alone retail.

- No required setback from front property line on commercial buildings, modest and variable setbacks on residential buildings, potential to create pockets of green on street.
- Front doors face street
- First floor at grade.

DEPARTMENT OF PLANNING AND DEVELOPMENT
CITY OF CHICAGO

June 22, 2022

Dear Sir or Madam:

Please be informed that on or about June 22, 2022, the City of Chicago Department of Planning and Development will introduce an ordinance to City Council seeking to amend Residential-Business Planned Development Number 896 ("PD 896"), which currently governs the area commonly known as Roosevelt Square (the "Property"). A map of the Property is printed on the reverse side of this letter. The ordinance would amend the boundaries of PD 896 to remove certain parcels from its boundaries, consisting of properties fronting Ashland Avenue, between Roosevelt Road and 14th Place, rezoning them to the B3-2 Community Shopping District. The ordinance would also modify the subarea boundaries and adjust the location of dwelling units and building density, reflecting completed development projects and creating a new subarea to accommodate a new performance training facility for Chicago's major league soccer team. You are receiving this notice because the assessor's tax records indicate that you own property within the Property or within 250 feet of the Property. Please contact me with questions or to obtain additional information.

Very truly yours,

Maurice Cox
Commissioner, Department of Planning and Development
