The overall FAR of the planned development will not exceed 3.44 (22376; 47th Ward).

An information presentation of the Ground Floor Commercial Design Guidelines. The guidelines build off the previously adopted Neighborhood Design Guidelines and the Ground Floor Residential on Commercial Corridors Design Guidelines. The document will provide specific recommendations and best practice examples for future design review of renovation and new construction ground floor commercial project proposals along Chicago's commercial corridors and will create a set of user-friendly and best practice examples for non-design professionals, including small business owners and small property owners. These design guidelines are meant to be a resource and clarify best practices, they are not taking policy positions, changing ordinances, or imposing additional requirements or processes.

An informational presentation of the Cicero Avenue Corridor Study. The Study was a collaborative effort of the Department of Planning and Development and the Department of Transportation to investigate potential transportation and land use policy improvements to support investment, safety, and revitalization along Cicero Avenue between I-55 and Marquette Road, and which included a year-long community engagement process between Summer 2021 and Summer 2022. The Study will be made available for 30 days to allow for community feedback prior to adoption. (13th, 14th, 22nd, and 23rd Wards)

Dated at Chicago, Illinois, this the fourth (4th) day of September 2024.
